

FATAL ILLNESS OF WILLIAM T. DINWOODEY

Former Salt Laker Dies in San Francisco.

BRIGHT'S DISEASE THE CAUSE

MEMBERS OF FAMILY HERE WILL GO TO THE FUNERAL.

WILLIAM T. DINWOODEY, son of Henry Dinwoodey, of this city, died yesterday morning in San Francisco, after an illness of four months, from Bright's disease.

It will be remembered that Mr. Dinwoodey was first taken sick in Chicago last November, while there on a business trip. For three weeks he lay in a hospital there in a serious condition and was brought to this city by his father, and after being under the care of a physician for three more weeks, was removed to California, in the hope of change of climate would benefit him.

Change For The Worse.

On Wednesday he was taken decidedly worse and a message was sent to his city summoning his father to his bedside. Mr. Dinwoodey left Wednesday night, but as yet he has not returned. He is now in a very serious condition, and it is feared that he will not survive the illness.

Mr. Dinwoodey was the son of the well known furniture dealer of this city and he was born and raised here. He was well known both here and in California, and commanded the highest respect and esteem of all who had the acquaintance. After receiving an education in the common schools of this city he went to work in his father's store and was there for a number of years. He then became engaged in the brokerage business and remained in that about a year.

Married California Girl.

Being of a rather restless disposition and filled with a desire to see the world, he went to California, and there met Miss Maude Fowler of Napa, and in 1892 they were married. Two young boys were the fruit of this union.

Mr. Dinwoodey, after going to California, became engaged in the furniture manufacturing business and was at the time of his death one of the principal owners of the California Age company.

IN THE COURTS.

Suit For Damages.

John Dubel yesterday began an action in the Third district court against Bernard Sprenger for \$500 damages. The plaintiff, according to the complaint, owns adjoining properties situated at 318 and 324 East Second South street, and it is alleged that screens have been erected by defendant on his own property from malicious motives for the sole purpose of darkening the windows on the property of the plaintiff's house, which has decreased the value of the property for rental property. The removal of the screens is also asked for.

Divorce is Granted.

A decree of divorce was granted yesterday by Judge Hall on the report of George G. Armstrong, referee in the case of Peter L. Bertram vs. Eliza Bertram. The charge of adultery was sustained. The plaintiff was awarded the custody of their 8-year-old boy, Norman, and Mrs. Bertram was given their four-year-old girl, Maudie, and \$10 a month for the child's support.

Ogasawara was arrested so it is claimed, some time ago in the city of Seattle on the charge of importing women to this country from Japan for immoral purposes, and the trial which followed resulted in a sentence of four months in the state penitentiary. He finished his term in that institution a few weeks ago and came to Salt Lake during the past month.

Health Authorities Determined to Have Clean City.

INSPECT BUSINESS BLOCKS

WARNINGS SENT OUT TO ALL PROPERTY OWNERS.

If people who are warned to clean their places do not do so within three days after notification, and keep them in a sanitary condition, they will be prosecuted without further notice, for maintaining nuisances. This was the rule laid down yesterday by the city health commissioner, and the inspectors have been given strict orders to see that it is carried out to the letter.

With this rule well in mind, an inspector will start at the Kenyon corner this morning, and in the whole of the block, inspecting and warning as he goes. The other blocks in the business district will have their turn, and then work in the residential districts will be commenced. The start is made on the block between Main and State and Second and Third South streets because, as the health authorities claim, it contains more than almost any other block in the city.

Is a Dirty Alley.

An inspector reported to Dr. King yesterday afternoon that the alley running from State street back of the mayor's office into the interior of the block, and the alley in front of the block, and was one of the hardest to get cleaned. Filth, he said, was piled in portions of the alley, and people living in the upstairs rooms, if the alley was not cleaned, would refuse to go into the alley and yards, regardless of health and cleanliness. The inspector stated that he had warned J. J. Snell, the owner of the property, who was found, to clean it up, but that the cleaning had not been done yet. Commissioner King instructed the inspector to warn Mr. Snell again, and if the cleaning was not done within three days, to commence prosecution without further notice.

After Other Business Blocks.

On the following day the block between State and Second East and Second and Third South streets will be inspected. The alleys and back yards, especially in the portion inhabited by the colored people, it is stated by the health authorities, are in a very bad condition, and it is expected that the alleys and house refuse, which are said to be scattered about in promiscuous manner. Attention will then be turned to the other business blocks.

One man is expected to devote his entire time to this inspection and warning. A record of each person warned will be kept, and at the end of the month a list will be made of those who have not been cleaned, the persons failing to heed the warnings will be prosecuted.

TROUBLES AFFECT HER.

Fear For Mental Condition of Abe Major's Mother.

A neighbor of Mrs. Wagner, mother of Abe Major, yesterday informed County Clerk James that Mrs. Wagner's mental condition was such that an investigation as to her sanity should be held. The informant stated that the unfortunate woman had brooded over her troubles until she had become so unwell that at times she threatened suicide and at other times she had been seen conspiring against her. Dr. Mayo was detailed to visit Mrs. Wagner and report the facts.

Curtis Will Be Rearrested.

A. H. Curtis expects to be released from the county jail today, but liberty is not yet for him. As soon as he is discharged from the custody of Sheriff Taylor he will be arrested by United States Marshal Heywood on another charge of sending lottery literature through the mails. Curtis is wanted at St. Louis on this charge, and he will be taken to Missouri as soon as the necessary legal formalities have been complied with. Curtis is just completing a ten months' sentence for a conviction on a similar charge. He was fined \$250, but through the workings of the "pauper act" he will escape payment of this sum or further confinement on this charge.
