A REPUBLICAN DILEMMA.

REPUBLICANS IN CONGRESS are finding it extremely awkward to have moral obligations and recorded promises brought home to them by their own executive just on the eve of a congressional session.

The east and south are quite willing to sacrifice the best sugar tariff advantage of the west. The west, however, is not so willing.

While it is admitted that the whole Cuban crop cannot affect the profits of the best sugar factories, even with a 20 per cent reduction, the principle involved is too valuable for the favored industries to surrender even this small concession without a fight.

It is a safe guess that Marcus Hanna was not contented about that little suit filed against the Northern Securities company.

HOGG'S REAL REASON.

WHEN THE DISPATCHES from London announced that ex-Governor Hogg of Texas had refused to don knee breeches to meet the Texan.

Remembering the assurances of unscrupulous politicians that the natives are probably wondering what would have happened if he had got into the hands of a really mercenary government.

TESTING THE SHERMAN LAW.

ATTORNEY GENERAL KNOX, by direction of the president, has instituted suit against the Northern Securities company.

Two wealthy Montana men have been sent to prison for stealing sheep. It is possible that a Montana jury doesn't know kleptomaniac when it sees it?

THE WRONG ENTRY.

"Yes," said the man, "Miss Addie is a good bookkeeper, but she makes some queer mistakes."

It Wouldn't Work.

"All the mechanical toys you make seem to be very simple, but they never work."

The Risks Run.

John—What's that? John—Why, you never can tell whether a 5-cent plate is marked down from 20 cents or up from 10.

One Method.

Sabbath School Teacher—When very angry, what should you do? Johnny Thick-knee—Knock the other fellow down, sit on his head and then count the dots on the only safe way, nam.

Included such vast stakes financially. If the highest court shall hold that the Northern Securities corporation is a legal combination, the way toward a combination of all the railroads will be as plain and easy as buying butter.

Whether the ultimate result will be new laws that will be effective in their protection of both the shipper and the railroad shareholder, remains to be seen.

It is a very short step from a Northern Securities company, controlling two lines, to a National Securities company which shall control all the railroads.

FORT DOUGLAS IMPROVEMENT.

GENERAL MACARTHUR'S suggestion that the area of the Fort Douglas reservation should be curtailed as little as possible has good sense back of it.

In the great ocean of facts based on characters and incidents of American life, there is none that appeals more strongly to the patriotic fervor of American hearts than "Nathan Hale."

Howard Kyle returned last night with the play and was cordially greeted by many of his staunch admirers, but not the outpouring that might have been had had the engagement not followed so closely on the heels of Viola Allen.

At the Tavern, of which we spoke some time ago, are not losing any of their popularity. They couldn't very well, when they are so good and the prices so small.

NEWSPAPER QUARANTINED.

The Gazette has not been issued since Feb. 1. The reason is explained by the editor and his family having been held under quarantine.

Water Commissioner Westerfield's resignation must have surprised him exceedingly when it took effect.

Philadelphian Press.

"What for, inquest?" asked the silent partner. "Well, she enters our messenger boy's wages under the head of 'training expenses.'"

It Wouldn't Work.
