

MEMBERS OF THE EAST CONGRESS RELATIVE TO WEST

Members From the Rockies and the Pacific Coast Made Good Records.

Irrigation Law's Promise—Statehood For Territories Within View—Opening of Indian Reservations in Idaho and Utah.

(Special Correspondence.)
WASHINGTON, D. C., July 4.—Western members of congress are going home fairly well satisfied with what has been accomplished at this session. They have cause to be well satisfied, for no congress within recollection has done so much for western interests as the Fifty-seventh. Nearly everything the west has asked for and has been asked for the past ten years, has been granted at this session, and many things which the west does not want have been definitely and permanently rejected. These favorable results have been obtained mainly through western pressure exerted through the political animosities and working harmoniously for western interests.

The greatest achievement of the session, of course, is the irrigation bill. At the commencement of the session, accomplishment of success in efforts to obtain government aid for the reclamation of the arid lands of the west was a mere dream; but the western members set seriously to work, and in a series of meetings held nightly for nearly two months, the representatives of sixteen states and territories harmonized differences, and by a common procedure and formulated a bill which eventually passed the senate and house and is now a law. The full measure of the importance of this law is just beginning to be realized. It goes beyond any river and harbor law, or any of the general appropriation bills which have to be renewed yearly. The irrigation law is a definite appropriation act and provides in itself the means for advancement and growth. By the time work can be commenced on any project under this act, there will be available for the construction of irrigation works fully \$6,000,000. Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Utah, South Dakota, Washington, North Dakota, Oklahoma, Oregon and Wyoming are all included in its benefits.

Statehood For Territories.

Statehood for the territories of Oklahoma, New Mexico and Arizona has been secured at this session of congress. True, the bill providing for the admission of these territories has not passed the senate, but a definite date for its consideration has been secured, and this, in the opinion of friends of the territories, is equivalent to their admission. On Dec. 10 next, by the agreement reached in the senate, the statehood bills will come up in the senate as unfinished business and be disposed of.

ADDRESSES STRIKERS

Mitchell Expresses Gratification at the Way the Fight Has Been Conducted.

Wilkesbarre, Pa., July 5.—President Mitchell of the United Mine Workers delivered an address before the striking foremen, who held a meeting in this city today. Mr. Mitchell spoke as follows: "I am well pleased with the showing made by the steam men in obeying the order, and the firmness displayed by the miners who have stood up for their lives, as it means the success or downfall of our union in the anthracite region. "Of all the strikes of my recollection, or that I have ever participated in, there was never one I was so confident of winning as this one. And let me tell you that the day is not far away when my words will come true. "These fellow workers among your craft who refused to obey the strike order, and those few who deserted you since, will soon have reason to regret their action, as they will suffer greatly when this strike is won or lost. "I have yet to meet the man who prefers a traitor to a good, upright, honest man, and those men who are now getting patted on the back by the officials of the coal companies will at the close of our strike be treated with scorn by their employers. And you people, and that is, this great strike will never be settled with my consent, only on condition that each and every man that left his place with us in our battle shall be returned to his former position—otherwise there shall be no settlement that will permit discrimination for taking an active part in our battle. "Mr. Mitchell also advised the strikers to remain firm and determined, as success was sure to crown their efforts ere long if they did not give up. He also stated that Senators Penrose and Quay are to use their influence with President Baer of the Philadelphia & Reading road and President Roosevelt to bring about an amicable settlement of the strike.

FATAL ACCIDENT NEAR FLORENCE, COLORADO.

Denver, Colo., July 5.—A special to the Republican from Florence, Colo., says eleven men were injured, three of them fatally, by the overturning of a wagon near Coal Creek today. The fatally injured are: Clyde Nevins, ribs fractured and internal injuries; William Skuff, skull fractured; Robert Easton, head hurt. The party, which numbered sixteen men, and included a baseball team from Pueblo, was driving to Coal Creek when the accident occurred.

Two Bottles Cured Him.

"I was troubled with kidney complaint for about two years," writes A. H. Davis of Sterling, La. "But two bottles of Foley's Kidney Cure effected a permanent cure." Johnson-Pratt Drug Co.

NO LIBERTY FOR WELLS FARGO MEN

Robertson and Duke Will Remain In Jail.

OTHER CHARGES ARE FEARED

DETECTIVE THACKER SAYS HE'D MAKE THEM.

THERE WILL BE NO liberty, temporary or otherwise, for Harry Duke and A. A. Robertson, if the either of them, should get bail, if it is realized that they confront a hopeless situation, the friends of the two accused defaulters yesterday abandoned all efforts to raise bail. This unexpected action was the result, principally, of a rumor that, even were the men released, their re-arrest on a charge of forgery would immediately follow.

Duke's Friends Give Up.

Duke said yesterday that his friends had given up the effort to secure bail on his own instructions. Robertson's case is in the hands of his intimate friends, and he made no comment, but they seemed to have resigned themselves to the situation as it exists.

The prisoners are not lonely at the jail. Robertson had about thirty callers yesterday and today, and a large number. Mrs. Duke visited the jail twice and made things as comfortable as possible in the cell for her husband, making him meals, and attending to other little needs, which usually come within the duties of a trusty.

Only Two Implicated.

The detective is of the opinion that only two were concerned in the crime. At least, if there was a third party in it, he declared that he knew nothing of it.

Morgan Makes Trip to Berlin in Saloon Carriage.

Berlin, July 5.—The trip of J. Pierpont Morgan from Kiel to Berlin was made in a saloon carriage, usually occupied by members of the royal family, which was obtained for Mr. Morgan by Herr Albert Ballen, director general of the Hamburg-American line. Accompanying Mr. Morgan were Clement Griscom, P. A. B. Widener, S. L. White and several ladies, including Miss Wetmore. The party were guests of Herr Ballen until they reached Berlin, where they arrived at 4:30 p. m. The party breaks up here.

HAILSTORM IN NEBRASKA.

Omaha, Neb., July 5.—The worst hail and rainstorm of the season visited central Nebraska last night, doing a great amount of damage to crops and other property. At Grand Island the hail practically destroyed vegetation over a strip of country seven miles long and four miles wide. In the city few plate glass windows were left whole, and trees and shrubs were destroyed. Corn and unharvested small grains were beaten into the ground, and are a total loss. Great pieces of ice, worthy the name of hailstones, fell in some places. Elm Creek, Elmhurst, Miller and West Point were other towns that were visited by the storm.

WOULD REDUCE SUPPLY OF WATER

Farmers May Demand Rights in Parley's Canyon.

WILL GREATLY AFFECT CITY

NOT GETTING SUFFICIENT FROM SALT LAKE CANAL.

THE farmers along the Salt Lake canal in Farmers' and Sugar wards want more water. They assert that they are not getting the supply their farms need, and that they are entitled to. Water they should have is going to waste, they claim, and unless the matter is remedied they propose to demand their water from Parley's canyon, which is exchanged to the city for an equivalent of canal water. If this is done the city water supply will be cut short and a war will be waged over water made available.

A number of farmers living along the canal were in the city yesterday registering protests against the shortage of water, and among them was John Gabbott, the representative of the farmers on the board of distribution. According to the statements made by several of the farmers to a Herald reporter, they are not getting anything like the water necessary for the raising of their crops and the cause they assert is neglect of the water ditch. According to their claim there are about 10,000,000 gallons of water daily going into the mouth of the canal, but they say that less than 4,000,000 gallons of that supply reaches the farms for which it is intended. On account of this shortage in water the crops are suffering, it is claimed, and the farmers feel that unless something is done to restore the full supply they will be forced to take some action themselves to get enough water.

The claim of the farmers is that the canal is overgrown with heavy water grass and weeds and this causes the water to back up in the canal until it seeps through and is in other ways lost from the canal until less than half the amount that enters the ditch reaches the places for which it is intended. The farmers say that all that is necessary to remedy the matter is to have the grass and obstructions removed from the canal and they would get the supply that they need.

ROBBERS OVERLOOK \$100,000.

Chicago, July 5.—That members of the "Kid" Curry band of bank and train robbers, wanted for complicity in the recent Union Pacific hold-up perpetrated the robbery of the Rock Island express train at Duquoin, Ill., Thursday night, believed probable by detectives, 100 of whom are working on the case today.

RIPANS

A common sense, effectual cure for indigestion, constipation, sour stomach, headache, dizziness and many other ills which originate in bad stomach or are the outgrowth of poor physical condition.

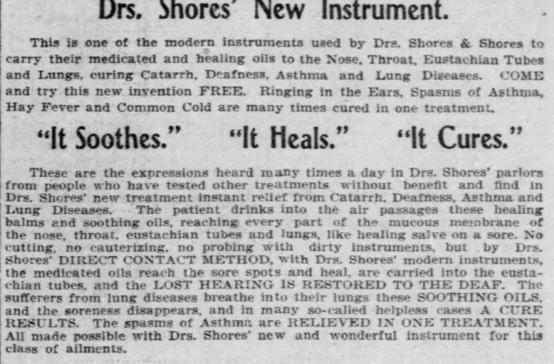

Doctors Do Not Endorse Patent Medicines!

WHY?

Because they know that they often contain COCAINE, OPIUM, MORPHINE or some other narcotic which is not only injurious but often positively dangerous to the patient.

EVERY CASE IS A SPECIAL STUDY

And requires special treatment to suit each individual case. CATARRH IS NOT A BLOOD DISEASE and cannot be cured by taking internal medicine. Catarrh requires careful local treatment, and treatment suited to the conditions existing in that particular case. No two cases are alike, and seldom will two cases yield to the same treatment. Often the Stomach is involved and requires special attention and treatment. The kidneys and bladder sometimes become affected, and unless they receive special attention serious trouble may follow.

Dr. Shores' New Instrument.

This is one of the modern instruments used by Drs. Shores & Shores to carry their medicated and healing oils to the Nose, Throat, Eustachian Tubes and Lungs, curing Catarrh, Deafness, Asthma and Lung Diseases. COME and try this new invention FREE. Ringing in the Ears, Spasms of Asthma, Hay Fever and Common Cold are many times cured in one treatment.

We Treat and Cure

Catarrh and Stomach Troubles, Nervous Diseases, Kidney Diseases, Bladder Troubles, Heart Diseases, Diseases of the Stomach and Bowels, Piles, Flatulency, etc. Dr. Shores' New Instrument is RESTORED TO THE DEAF. The sufferer from lung diseases breathe into their lungs these SOOTHING OILS, and the soreness disappears, and in many so-called helpless cases A CURE RESULTS. The spasms of Asthma are RELIEVED IN ONE TREATMENT. All made possible with Drs. Shores' new and wonderful instrument for this class of ailments.
