LUCKY BLOW ON HEART KEEPS JEFFRIES CHAMPION

Fitzsimmons Beaten in Heavyweight Battle When Victory Seemed His For Certain.

Magnificent Struggle of Two Great Pugilists Ends in Eighth Round - Cornishman Accepts Defeat and Quits Ring Forever.

aggressive. When the champion took his corner his nose was bleeding slightly from Fitzsimmons' left jab. He looked confident, however, and sat watching Fitzsimmons during the minute's respite.

2-Jeffries went right after Fitzsimmons, trying the left for the head and falling short. Fitzsimmons jabbed his left to the neck, and Jeffries smiled and turned him to his corner. The latter fellow quickly stepped out of the way. Fitz tried a right for the head, but was quickly and neatly blocked. Fitzsimmons broke ground before Jeffries left, but finally tried a left for the head. It was light, however, and the champion caught it on the shoulder. They exchanged lefts, but neither did any damage. Jeffries crouched lower and sent Fitzsimmons back against the ropes with a left on the body. Fitzsimmons put two left hooks on the face and got out of the way of the champion's left. Jeffries went at him with a stiff left on the head. He got a left jab on the nose that brought forth a stream of blood from Jeffries' nose. At the close of the round Jeffries was somewhat worried, but took matters coolly during the break. Fitzsimmons, on the other hand, was as cool as a cucumber, and not the least blooded.

3-Jeffries came up, forcing matters. His bloody nose annoyed him a little. He changed his tactics for a moment and stood up straight. Two left leads were blocked by Fitzsimmons' nose. Jeffries tried another left, but was stopped with a left jab on the face. In a clinch Jeffries pushed Fitz back. Fitz put his right hand to the nose and Jeffries bled freely. Jeffries' cheek was opened with a left hook, and more blood followed. The champion rushed, swinging left and right. They were blocked, but a left caught Bob hard in the stomach. Bob jabbed left to face twice and Jeff looked worried. The lanky fellow was cool and got out of the way. Jeffries' face was covered with blood at the end of the round from his nose and a gash over the right eye. Billy Delaney busied himself over him between rounds.

4-Jeffries looked haggard. He crouched and clinched his lips. He was very careful and stayed clear of Fitzsimmons' nose. Bob blocked two swings for the head and got out of reach of another. A moment later they came together and exchanged lefts on the face. Fitzsimmons put a short right hook on the head and Jeffries landed left on the chest. Fitzsimmons put Jeffries' head back with left jab and started the blood. Jeffries got another right on the head, but came in with two left hooks, one for the head and another for the body. Fitz was going away, however, and the force was broken. Bob landed stiff left on the body, but got a right on the head. Fitzsimmons then took a turn at forcing, putting left on the face and compelling Jeffries to duck away from him. Jeffries looked determined, but worried, as he listened to Delaney's instructions.

5-They feinted and fiddled for a moment. Then Jeffries led left for the body, but missed and got a chop on the face. Fitzsimmons got a left to Jeffries' face, but took left and right on the body. Jeffries forced Fitzsimmons to the ropes and put left on the face twice. Fitzsimmons clinched and when they broke away sent in two body blows to left and right, delivered from the hips. They clinched repeatedly. Fitzsimmons put a terrific right on the jaw and moment later a left on the face. Jeffries cut Fitzsimmons' right cheek with left. They fought rapidly. Fitzsimmons cutting Jeffries' face with his left jabs and Jeffries came back with a right which was bleeding freely and was tired. Just before the close of the round, Fitzsimmons put a right over Jeffries' left eye, cutting it, and bringing blood. Jeffries came back with a right which was bleeding from the nose, left eye and right cheek. The only mark on Fitz was a slight abrasion on the right cheek.

6-Jeffries came up and crouched low. He missed his first attempt with a left for the head. He rushed, but the wily red head blocked every blow and got out of the way. Fitz put a right on the body, one on the body and another on the nose. Jeffries broke ground and ducked out of the way. They exchanged lefts on the head. Fitzsimmons being most damaging. Jeffries came back again, but he was smothered, and took three forced and a right on the face. Jeffries landed Fitz to the ropes, but got a right and a left on the body. Fitzsimmons showed remarkable cleverness in getting away from rushes. His left jabs were cutting and just as the song sounded Fitz put another on Jeffries' nose and nose.

7-Jeffries covered up well and rushed Fitz determinedly. He put a left on the body, but missed, and right on the head. Neither were damaged, however, and when a moment later they came together, Jeffries put two terrific left swings on the body and determined look. As he stopped to spit, Fitz jabbed him three times on the mouth and forced him to the ropes. Jeffries came back with a right over his mouth and, bleeding from his nose, mouth and each cheek, he rushed the smaller man to the ropes, putting a left on the body and a right over his mouth. Fitzsimmons stood him off, however, with left jabs, occasionally sending a left to the head. Jeffries sent a left to the head and in the clinch they carried on a conversation, Fitz smiling good-naturedly while Jeffries was bleeding, and presented a terrible appearance. He was not tired, however, and took it easy in the wait.

8-Bob stood up straight, fainting with his left and drawing Jeffries on. Jeffries smiled through his bloody features, ducking a left swing and landing a right on the body. Jeffries went at it, Fitzsimmons putting a left on the face and taking one on the head. Fitzsimmons missed a right and took a stiff punch on the body. Jeffries forced the fighting at this stage, crouching low and carrying his right high and his left far back. They came together and clinched. As Fitzsimmons stepped back he smiled and spoke to Jeffries. Before he could get out of reach, Jeffries landed with a left hook to stomach, followed by left jab and Fitzsimmons went down on his back. He came up slowly, but before he could get upon both feet the referee counted ten and the fight was over.

CHINAMAN BEING ARRESTED. New York, July 25.-Inspector Jenkins of the department of Chinese inspection has arrested twenty-nine Chinamen in Brooklyn who failed to produce evidence of their having legally entered the United States. The prisoners were taken while at work in various laundries. Further arrests are promised.

GREAT CROWD SEES CHAMPIONSHIP STRUGGLE. Arena, San Francisco, July 25.-It was a magnificent sight to see the two champions in their fighting pose.

IN NEW ENGLAND.

GRIEF BROKE HER HEART

Mrs. Murphy Expires in Ogden From Shock of Seeing Her Baby Boy Burned to Death - Never Knew From Paroxysm Which Spectacle Sensed.

(Special to The Herald.) Ogden, July 25.-Died: Murphy - At her home, 2701 Wall avenue, Ogden, at 2:30 a. m., July 25, Matilda Anderson Murphy, wife of John Murphy, aged 37 years, of a broken heart. The above is the brief but strictly accurate account of the result of the demise of Mrs. Murphy. That she died of a broken heart is literally and figuratively true, and came directly from the shock resultant from the burning to death of her little 3-year-old boy, Thomas Edward, as related in today's Herald. Mrs. Murphy never rallied from the coma following the violent paroxysm of grief, and she died without raving to learn that the little boy's sufferings ended within four hours of the time the flames enveloped his body. Although at midnight and for some time afterwards, her condition was regarded as more encouraging, she failed suddenly and rapidly after a couple of hours and died at 2:30, in spite of all that medical skill or affection could do. The shock of seeing her child tortured with fire overpowered her heart, and it broke. The funeral of the mother, as well as her child, will take place tomorrow afternoon at 4 o'clock, at the Murphy home, 2701 Wall avenue, Rev. Father Cushman officiating.

WILSON'S MOTHER TO PLEAD FOR SON'S LIFE

Cleveland, O., July 25.-The mother of Dr. Russell Wilson, the young physician of Milan, O., will leave for Bluefields, N. C., today to make a plea for her son's life. Dr. Wilson is under arrest in Bluefields, charged with being a member of a filibustering expedition against the Nicaraguan government. Dr. Wilson is held in a jail there, and the outcome is feared, will be a sentence of death. Senator Hanna is interested in the case and has written to the governor of Washington to grant Mrs. Wilson all the protection possible on the trip.

CUBAN CATTLE FIRM FAILS.

For Nearly \$400,000 - Thousands of Cattle Died in Pasture. New York, July 25.-The house of R. Duran, cattle importer, has failed for nearly \$400,000, cables the Havana correspondent to the Tribune. Duran is reported to be a member of the Cuban government. The merchants of the city have discussed the failure at a general meeting, with a view of inducing the creditors to hold off for six months. It is estimated that the cattle firm are said to be about one-half of the liabilities. It is reported that Duran is buying cattle in Mexico, South America and Mobile. The immediate cause of the failure was the death from disease in Cuban pastures of 4,500 head of cattle, the cost price of which was over \$150,000. This is the first failure of any consequence in several years.

"MOTHER JONES" DEFIANT.

Says She Will Not Stop Her Work Among Miners. Parkersburg, W. Va., July 25.-District Attorney Bilzard in the United States court today stated that there were eleven cases pending of alleged violators of the court's injunction, but if they would agree to refrain from further violations he would consent to their release on their own recognizance. The court agreed to this, and they were released, pending their good behavior. John P. Gehr, who is charged with making a vicious verbal attack on Judge Jackson, is now on trial. "Mother" Jones says she will not stop her work among West Virginia miners, but will try to observe the law.

MANY DYING OF MALARIA.

Cairo, Egypt, July 25.-The total number of cases of malarial fever at Cairo and Aousha, near Assiout, since July 15, is 26, of which 25 proved fatal.

RUSSIA'S TRUSTS NOTE

Communication Deals Principally With Regulation of Sugar Production.

Washington, July 25.-Through the United States charge of embassy at St. Petersburg, Mr. Riddle, the state department has just received a copy of a circular which deals with the Russian trusts touching upon trusts, which has excited so much comment in Europe. This note, which takes the form of a circular, was identical and was handed in St. Petersburg to the representatives of all the powers that participated in the Brussels sugar conference, and, in addition, to Mr. Riddle for transmission to his government at Washington. It is supposed the Russian government supplied this to the United States as a matter of information and as a courtesy. Certain it is that in the present view, the United States executive cannot participate in such a conference as it described, by reason of limitations that cannot be escaped, even if there were no other objections. From a perusal of the note it appears that its references to trusts have attracted the principal share of public attention, although the whole note appears to be framed as an argument in support of the Russian system of regulating sugar production and export. The reference to an international trust conference is actually, therefore, presented in the shape of an alternative proposal of information and as a case of the soundness of the Russian contention in support of its present system. It is not supposed that there will be at once any action toward calling another congress, but rather that the discussion of the Russian system of regulation of sugar production will proceed, certainly up to the date set for the application of the agreement of his late Emperor, on the stoppage of sugar bounties and the exclusion from importation of bounty-subsidized sugars. That action will, it is expected, precipitate some decision upon the Russian proposals.

YOUNG MAN DIVES INTO FUNNEL OF LOCOMOTIVE

Joplin, Mo., July 25.-Olin Grelisch, aged 23, of Leavenworth, Kan., committed suicide between Lebanon and Springfield by jumping into the funnel of a locomotive drawing the west-bound Frisco passenger train. According to passengers who arrived here today, Grelisch climbed on top of the water tank and with a whoop dived into the funnel. His dead body was pulled out by the trainmen with difficulty.

KITCHENER IN LONDON.

South African Hero Forced to Call on Police For Protection. London, July 25.-Lord Kitchener, who has been largely lost to public view since his triumphant re-entry into London, July 12, received an unexpected demonstration of London enthusiasm today when a cab in which he rode the city was actually mobbed close to the Bank of England, the conqueror of South Africa had to be rescued by police. Lord Kitchener drove to a private bank near the Mansion house. He was instantly recognized and such a crowd collected outside he had to escape by a side door. He was detected, however, and drove off amid frantic cheers, which he smothered by covering his face with a scarf. While passing through Queen Victoria street, Lord Kitchener was again recognized and the cab was held up by a cheering crowd. The police had to open a way before the vehicle could proceed.

R. H. WHIPPLE ILL.

Is Very Sick at His Los Angeles Home. (Special to The Herald.) Ogden, July 25.-Word reached Ogden this morning that R. H. Whipple, formerly of Ogden and until recently United States commissioner at Dutch Harbor, Alaska, was very seriously ill at his present home in Los Angeles, Cal. A telegram received late last night by his son here states that Mr. Whipple is slightly improved, but still very ill.

WATER FAMINE AT TRINIDAD.

Trinidad, Colo., July 25.-The water famine which has been threatening Trinidad for so long is now a reality. The city is without fire protection and water for domestic purposes has to be purchased by the bucketful.

BRYAN GIVES GREAT OVATION

Silver Champion Makes Several Addresses in Maine.

"MONEY ISSUE IS NOT DEAD" SENDS WIDOW OF ARTHUR SEWALL HANDSOME BOUQUET.

ROCKLAND, Me., July 25.-A night in a railway train with breakfast at the hotel, greetings by representative Democrats of this city and an open-air speech delivered to 5,000 people, comprised the programme of W. J. Bryan from the time of leaving Boston today to the hour of his departure from this city before noon. With Mr. Bryan was Senator Carmack of Tennessee, Charles S. Hamlin of Massachusetts. After breakfast and a brief reception the party were driven to the court house, where a stand had been built out from the steps. From this platform Mr. Bryan and Senator Carmack addressed an audience of at least 5,000. Mr. Bryan discussed taxation, the money question, trusts and imperialism, the reason being that the measure for needed reform in taxation a tariff for revenue only, and an income tax. Money Issue Not Dead. He said that the money issue was by no means dead, and that he hated a private monopoly as he hated a monarchy. Taking up the question of imperialism, he said: In defense of our national policy, the reason being, first, that there is money in it. Those who urge this should show that it will pay. I would not put human life and blood against all the trade of the Orient. Secondly, that we are in it because we cannot get out of it. I denounce a doctrine that a nation or man can go so far as to be unable to retrace his steps. We had no business to make a war in the Philippines unless there was no occasion for war. Had we treated the Filipinos as we did the Cubans, there would have been no war, and the same moral victory in the Philippines as in Cuba. He said that the money issue was by no means dead, and that he hated a private monopoly as he hated a monarchy. Taking up the question of imperialism, he said: In defense of our national policy, the reason being, first, that there is money in it. Those who urge this should show that it will pay. I would not put human life and blood against all the trade of the Orient. Secondly, that we are in it because we cannot get out of it. I denounce a doctrine that a nation or man can go so far as to be unable to retrace his steps. We had no business to make a war in the Philippines unless there was no occasion for war. Had we treated the Filipinos as we did the Cubans, there would have been no war, and the same moral victory in the Philippines as in Cuba.

WARMLY GREETED AT CAPITAL. Bryan and Carmack Address Large Crowd in August.

Augusta, Me., July 25.-An immense crowd warmly greeted Mr. Bryan and his party when they arrived here this afternoon. The entire party, with the exception of Mr. Bryan, was driven to the city hall, which was filled with citizens desiring to hear the speaker. The Democratic candidate for governor, Samuel W. Gould, was the first speaker. Charles H. Hamlin of Boston followed Mr. Gould and then Senator Carmack of Tennessee spoke briefly. Mr. Bryan came to the city hall and was given a tremendous ovation. In his address he referred to the leading issues, which the voters of Maine should consider between now and election day.

MOURN MACKAY DEAD

Directors of the Commercial Cable Company Pass Resolutions of Sympathy. New York, July 25.-At a special meeting of the board of directors of the Commercial Cable company today, the following was unanimously adopted: "It is our sad duty to record in the minutes of our board of directors the death of our beloved director, John W. Mackay, which occurred at his home in London on Sunday, July 20, 1902, after an illness of five days. In making this record, this board desires to record also its high appreciation of the surpassing merit of Mr. Mackay as a man, a citizen and a friend, as well as in his capacity of chief officer of this company. We recognize that the existence of this company is due to his foresight, his courage, his ability and his generosity. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception. We believe that no other man would or could have created a telegraphic system of such wide extent and such merit, under the great oceans and throughout our vast continent, in the midst of such difficulties and discouragements as have surrounded these enterprises almost from their inception.
