FAIR MOVED HIS FOOT AND HIS WIFE HER HAND

According to the Story Told by the Gatekeeper's Wife, Who Witnessed the Accident.

The Doctor Who Was Called, However, Says Their Death Was Instantaneous.

PARIS, Aug. 16.—The chauffeur of the automobile in which Mr. and Mrs. Charles L. Fair were killed, whose name is Frey, returned to Paris this morning. In an interview with the correspondent of the Associated Press he threw some further light on the cause of the accident. His story is as follows: "I left Trouville, Mr. Fair was suffering from bronchial catarrh, he coughed frequently on the road and during the fits of coughing his face became congested, evidently producing slight dizziness. He had just been coughing when I found that one of the tires of one of the hind wheels was deflated. I saw the danger and jumped to my feet and called out. I shouted in Mr. Fair's ear in English: 'Stop quick! tire no good.' Mr. Fair glanced back, but he did not reply. Apparently he tried to make the wrong steering movement, as the machine swerved across the road and went in a straight line for a few feet. Mrs. Fair, as she saw the direction the automobile was taking, clasped her husband's shoulders with her arm and turned her face back towards me with a look which said plainly: 'We are lost.' The next moment came the crash, and I was thrown into the field beside the road and stunned. When I recovered, which I did quickly, I limped to the side of my master and mistress and, with the help of the gatekeeper's wife, extricated the bodies from the wreck."

EXPRESS COMPANY ROBBED REPORT FROM CAPE HAYTIE

Looks Like a Clever Scheme to Obtain \$28,000 and the Agent of the Company Is Suspected of Complicity in the Affair.

Arrival of Commander McCrea With the Gunboat Machias Was Opportune and Prevented a Bombardment by Rebel Fleet.

OWENSBORO, Ky., Aug. 16.—The agent of the American Express company at Owensboro, last night, under peculiar circumstances, was robbed of \$28,000. The money was placed in a package and sealed in the express office in this city, and addressed to J. H. Boatner, Fordville, is under arrest at Irvington, and J. C. Schmitzbaum, the agent of the company, is being held at Falls Rough. Several days ago a man giving his name as J. W. Boatner of Memphis, Tenn., appeared at the office of the American Express company at Deaneville, five miles from Fordville, and wanted to express \$28,000 to the latter point. Boatner took a receipt for the money and then remembered that he was allowed to ship only \$5,000 at one time, and made him take the cash back. Boatner kept the money until last night, when it was sent to Falls Rough by express, where it arrived late last night. The express agent, it is said, informed a number of people that the money had arrived. It was not put in a safe, as Mr. Boatner sent word that he would be there early this morning. Claims He Was Robbed. This morning Schmitzbaum turned up at Falls Rough, ten miles away. He stated that he was held up, robbed and kidnapped during the night. He first decided to stay at the depot all night, but, he says, finally got nervous and started to the hotel, which is only one square away. Between the two places he was set upon by a robber, who took the money by three men. The express people and the officers believe that the

WASHINGTON, Aug. 16.—The navy department today received a report from Commander McCrea of the gunboat Machias, dated Cape Haytien, July 31, detailing the conditions as he found them on his arrival. "The report is as follows: 'On the 21st I called again on the governor. He told me he had received a large consignment of arms and ammunition, and would at once advance against the enemy. To my question: 'Do you know of any antagonism against the foreign consuls or merchants by the lower classes of citizens?' he replied: 'No, I do not think it exists.' We then entered into an arrangement by which he was to inform me, by a signal, of the arrival of the consular agents, in which I agreed to land and protect the embarkation of foreigners, in case I considered it necessary. He reiterated the statement that a man-of-war in the harbor now was most welcome and necessary, as it prevented a bombardment and preserved the peace of the city."

IN HANDS OF A RECEIVER ANDREWS WILL APPEAL

Elgin Creamery Company, Largest Concern of Its Kind, Forced to the Wall.

Vice President of the Wrecked City Savings Bank of Detroit, Found Guilty.

Chicago, Aug. 16.—The Elgin Creamery company, which operates 13 creameries throughout Illinois, Iowa and Wisconsin, failed today. The creditors are estimated to number nearly 10,000, over 8,000 being farmers. The American Trust & Savings bank was appointed receiver and its bond fixed at \$500,000. The petition for bankruptcy was filed in the afternoon of the 16th. The assets of the company are claimed to be \$800,000, while the liabilities are estimated at \$2,000,000. Inability to realize on outstanding accounts is given as the cause of the failure. The Elgin Creamery company is the largest concern of its kind in the United States, and was organized by the consolidation of scores of independent plants throughout the country. Its authorized capital stock is \$400,000. Of this amount, \$275,000 is outstanding and paid up. The petition on which the affairs of the concern were placed in the charge of the trust company charges that the concern is insolvent, and that the claims of the creditors enumerated in the petition remain unpaid, although the petitioners have been paid in full. As soon as Referee Eastman had read the petition he granted the motion for the appointment of a receiver and designed the American Trust & Savings bank. The receiver took possession of the Chicago offices and agents will be sent out to take legal possession of the various plants of the company. The plaintiff creditors kept their action secret as far as possible in order to prevent attachment of one or more of the holdings of the company in other states. In order that a heavy financial loss may not be caused to the farmers dependent on the company for the sale of their milk, arrangements already have been made by the receiver to continue the operation of the various plants. Notices to that effect will be sent out at the same time agents for the receiver take legal possession of the creameries. The company ever since its organization has almost completely been in the hands of the three states in which it operated. When it was formed it took over all the best independent concerns engaged in the manufacture of butter. Its affairs were generally thought to be in a good condition. It has been doing a business of \$3,000,000 a year on a capital of \$255,000.

Detroit, Mich., Aug. 16.—Frank C. Andrews, late vice president of the wrecked City Savings bank, was this afternoon found guilty of misappropriation of the funds of that institution, after a month's trial. An appeal will be taken to the supreme court, and a stay of proceedings for sixty days was granted. Although he was very nervous when the jury was out, Andrews took the verdict calmly. But two ballots were taken. The first one stood ten for conviction and two for acquittal. When the verdict was announced, Andrews' face whitened. "It's a terror," he said, "and it is unjust. I never intended to cheat or defraud anyone; God knows it." After the stay of proceedings had been granted, Judge Murphy committed Andrews to the custody of the sheriff, and he was taken to the county jail and locked in a cell. Attorney Beaumont announced that on Monday he would ask the judge to bail for his client, pending an appeal.

Wenatchee, Wash., Aug. 16.—Two men killed and one wounded as the result of a quarrel, is the word that comes from Chivauau, where Sheriff Keller charged the woman, Wenatchee, on the Great Northern. D. C. Bowman, general counsel for the fuel company, said: "Although the bill in the case looks formidable, it is nothing more than a matter of mere meandering through a maze of falsehood. It is merely another of the phantoms that have been recently troubling the dreams of the state bar." Judge Ryner this afternoon granted counsel for the plaintiffs permission to file an amendment to their bill, based on a telegram received from H. D. Mason at Chicago asking: "Have you seen minutes of directors' meeting of July 20 modifying by-laws so that president vice president of chairman may preside, appoint teller, etc.?" PROMISING OIL WELLS LOCATED

Major Foote of Evanston, Wyo., Has Fine Prospects.

UTAH MEN ARE INTERESTED

UINTA COUNTY DOTTED WITH DERRICKS AND RIGS.

(Special to The Herald.) HEYENNE, WYO., Aug. 16.—Major Frank M. Foote of Evanston, who as sovereign grand inspector general for Wyoming and Utah Masons, has taken a prominent part in the work of the Wyoming consistory in conferring degrees upon a class of fifty candidates here this week, was interviewed today upon the recent strikes in the Uinta county oil fields in southwest Wyoming. Major Foote is taking an active part in the development of these fields, and is well posted on the character of the ground, quality and quantity of the oil found there, and other conditions. He is a member of several oil companies, and is located the Union Pacific, regarding the character of which the interior department is now making an investigation. His other holdings of oil lands amount to about 20,000 acres, and if oil is found there in quantity Major Foote will, in a few years, be one of the wealthiest men in the west. Strike in Section 27. The American Consolidated Oil company is the lessee of section 27, and is now engaged in putting down a number of wells thereon. The Union Pacific well was bored to a depth of 1,150 feet, and was, it is alleged, filled with chains of old iron and other obstructions to prevent, it is alleged, its further exploitation. At the second sand in this well, at a depth of 421 feet, oil was struck which flowed at the rate of four barrels per day. As a result of the controversy over the well and the investigation being made by the interior department, the large sand 100 wells in the Spring valley fields and in the vicinity of section 27. The company is composed of five wealthy California oil men, whose aggregate wealth is estimated at \$5,000,000. A. B. Butler, president of the company, is known as the raisin king. He owns 27,000 acres of raisin lands near Fresno, and last season shipped 100,000 tons of raisins to market. The other members of the company are engaged in the oil and fruit business, and it is their intention to seek shipping routes to the oil fields in the Uinta fields during the next few years.

The Uinta Fields.

Major Foote states that there are nearly thirty oil rigs up or in course of construction in the Uinta fields. In the Spring Valley district there are nine rigs, while in the Spring Valley, miles of the coal camp of Spring Valley, and five or six more have been unloaded from the cars and are now being hauled to the field. In the Fossil district there are seven derricks, several of which are in steady operation. Thus far four flowing wells have been secured in the Uinta fields—three within the past month. Of these, the Union Pacific well is the only one that has gone down to the third sand. The Becker & Anderson well, 100 feet deep, but owing to the dip of the oil stratum the third sand is not expected to be reached until a depth of 2,000 feet has been attained. The American Consolidated company is now putting down five wells, and has expended over \$60,000 in development work. The Horn Oil company has three rigs on the ground, one placed and working. The company has installed a large pump, and has put up five large frame buildings. A number of wealthy residents of Utah are also interested in the southeastern Wyoming oil fields, chief among them the number of Senator Kearns. The Fossil Consolidated oil company, operating at Fossil, is composed largely of Utah men. Senator C. D. Clark of Evanston and Hon. P. J. Quealey of Kemmerer are also interested in this concern.
