

MRS. BRADLEY DENIES GUILT

Arraigned in Court, She Enters Plea to Charges.

EX-SENATOR BROWN ALSO HEARING IS SET FOR NEXT WEDNESDAY AFTERNOON.

With no apparent embarrassment or hesitancy Mrs. Annie Bradley yesterday entered a plea of not guilty to the three complaints which had been entered against her in the city court.

Ex-Senator Arthur Brown also appeared for arraignment in the city court on three complaints. He declared that he was not guilty of any and proceeded to make caustic and disparaging remarks concerning the manner in which County Attorney Westervelt had drawn the complaints.

Four Lawyers For Defense.

In company with Colonel M. M. Kalign, Judge W. H. Kinn, Soren X. Christensen and J. B. Jones, who will conduct the defense of both Mr. Brown and Mrs. Bradley, the two defendants waited in an adjoining room until their cases were called.

Mr. Brown then arose and stated that he desired to enter a plea of not guilty and demanded an immediate hearing of the case. He denied the charges in toto.

"Do you really intend to push the charges?" he asked of Mr. Westervelt, the county attorney.

Mr. Brown then arose and stated that he desired to enter a plea of not guilty and demanded an immediate hearing of the case.

At the request of the defendant and with the concurrence of the county attorney the date of the trial was set for 2 o'clock Wednesday afternoon.

At a late hour Friday night, paid the \$150 alimony, for the non-payment of which he was in contempt of court.

At the request of the defendant and with the concurrence of the county attorney the date of the trial was set for 2 o'clock Wednesday afternoon.

MANY SMALLPOX CASES.

Seventy-four victims are now quarantined in the city.

The number of births reported in Salt Lake City for the week ending Feb. 7, is in excess of the week preceding, and more than for the same period last year.

At the close of last week there were sixty-five cases of smallpox in detention, twelve cases were discharged, leaving seventy-four cases in quarantine.

TOOK A STRAW VOTE.

Interesting Experiment in a Restaurant.

An advertising agent, representing a prominent New York magazine, while on a recent western trip, was dining one evening in a Pittsburg restaurant.

While waiting for his order he glanced over his newspaper and noticed the advertisement of a well known dyspepsia preparation—Stuart's Dyspepsia Tablets.

He says: "I counted twenty-three men at the tables and in the hotel office I took the trouble to interview them and was surprised to learn that nine of the twenty-three made practice of taking one or two of Stuart's Dyspepsia Tablets after each meal."

Another, who looked the picture of health, said he never ate a meal without taking a Stuart's Tablet afterward because he could eat what he pleased and when he pleased, without fear of a sleepless night or any other trouble.

Stuart's Dyspepsia Tablets contain the natural digestive-pancrein, diastase, which every weak stomach lacks, as well as nux, hydrastin and yellow perilla, and can be safely relied upon as a radical cure for every form of poor digestion.

DYNAMITE IN A ROOM

Considerable Excitement Caused by Three Sticks Being Left at Albany Hotel.

The finding of three sticks of dynamite in a room of the Albany hotel, at the Elco Grand Hotel, the night of the hold-up of Morrison's store, caused considerable apprehension among the hotel people, and for a time stirred up the police.

A stranger visited the hotel during the day and engaged the room. He went away soon afterward, and has not been seen since. When an employee of the hotel entered the room the night after it had been engaged, he found three sticks of dynamite lying on the floor.

The police were at first inclined to the belief that the stranger contemplated making some illegal use of the explosive, and an officer was kept at the hotel to capture the owner of the dynamite should he return.

ARE PUMPING DUNGAN

Given Fifteen Days That Police May Question Him About Monday's Hold-up.

James Dungan, who is suspected by the police of complicity in the thrilling events of Monday night, was yesterday removed to the county jail for safe keeping. Since his arrest he has been confined in the city jail. Every effort has been made by the officers to keep the fact of his detention a secret.

With two others, who were also arrested on suspicion, he was tried in the city court on the charge of vagrancy. He was convicted and sentenced to fifteen days' imprisonment.

Dungan hails from Chicago, where his members of the gang are from. He insists that he had no connection with the attempted hold-ups and battle with Police Officer Heath further than buying drinks for the crowd.

At the request of the defendant and with the concurrence of the county attorney the date of the trial was set for 2 o'clock Wednesday afternoon.

OPERATORS WANT INCREASE

Associated Press Men Ask Melville E. Stone For 20 Per Cent Advance.

The Associated Press telegraphers have forwarded a petition to headquarters asking for a 20 per cent increase in salary.

In the east, where the day shift of the operator is from 7 o'clock in the morning until 6 o'clock in the evening, the men receive \$25 per week, which consists of six days, of ten hours each.

The local Associated Press office is a relay point and employs four operators. All of the operators are men.

FORMING TAX BILLS.

Two Measures Being Prepared by Representative Hamlin.

Another tax measure will be introduced in the house of representatives tomorrow by A. L. Hamlin. This bill will provide that the county treasurer must stamp on each tax receipt the amount of back taxes, if any, and whether the property has ever been sold for delinquent taxes.

"The object of this is to keep the owner regularly informed as to the shape of his title," said Mr. Hamlin yesterday. "It will be of great benefit in many ways. For example, a non-resident might send money for taxes to his agent in this state, and the agent might not be able to get rid of it if he changes agents or he himself pays the taxes, he will find out immediately that there has been neglect and can remedy the defect. Otherwise, he might wait for years, and then when he came to sell the property find out that somebody held the title that he could not settle for anything like a reasonable sum."

Mr. Hamlin also has a bill pending providing for the payment of taxes in installments, one in June and the other in November, as at present. A similar law is on the statute books of a number of eastern states.

UNHAPPY CROWN PRINCESS

Will Not Be Allowed to See Her Sick Son.

Dresden, Feb. 7.—The separation of former Crown Princess Louise and Professor Giron does not change the present legal situation, and will not have the slightest effect on the divorce proceedings, which will be resumed Feb. 11. The princess can never return to the Saxon court, but she may possibly effect a reconciliation with her own family and take up a permanent residence in Austria.

King George called a council of the ministers today and submitted to them a telegraphic request from the former crown princess, sent through her lawyers, begging to see her son, Christian, who is dangerously ill. The decision, however, was that such as the ministers might sympathize with the mother, it was impossible to allow her to return here, as it would occasion peculiar excitement.

SHIRT WAIST GIRL TURNS LAUNDRESS

Revised Price List Forces Her to Use the Flat Iron.

CAN'T STAND THE INCREASE

MUST DO HER OWN WASHING OR WEAR PLAINER CLOTHES.

The Salt Lake damsel who revels in fancy shirt waists and dainty lingerie, has troubles of her own. It is all on account of those horrid laundry bills that come around with such incessant regularity.

It is not the frequency of the bills that she objects to, for, of course, no girl can think of wearing a shirt waist more than two days without having it laundered, but it is the advance in prices for this laundering that is causing her to weep salt tears over blistered fingers acquired as the result of economical streaks that cause her to tackle the tub and ironing board in the seclusion of the kitchen, just to wash the laundries that they have on the monopoly on the scrub board. Alack, these laundries, they are raising the prices on most all these fancy garments that women so enjoy, and thereby hangs a tale of woe.

Girls Turn Laundress. "It's a shame," say the fair ones, "these laundries are just making these prices awfully high, and it looks just as if they didn't want our work, and were using that method to shut us out of the laundries. Oh, dear, for we can't get washerwomen to do our shirt waists—half decently, either. It's just the same with the other things. They charge us at least 30 cents for washing. And, of course, we have to have them washed every day, and we can't wear a white waist more than two days without having it laundered. And there it is, in a few times the washing costs more than a new waist! What are we to do? I tell you the prices have gotten so that lots of girls are burning their fingers and making blisters on their hands doing up their own waists."

Truly the lot of the shirt waist girl is a hard one. And she has a grievance, especially against the Troy laundry, which has made considerable advance in prices on waists and the like.

NANNIE TOUT GETS ENGLISH SCHOLARSHIP

(Special Correspondence.) London, Jan. 23.—In the correspondence from London last week it was mentioned that Signor Albert Visetti had been making arrangements to enter in the Royal College of Music for his favorite daughter, Nannie Tout.

It is understood that the concession came from the college only when there seemed a danger of losing Miss Tout as a pupil. Since she made so great a success in grand opera in November, several leading musical people of London have sought occasion to hear her sing. Among them was Lady Ronaldson, herself a talented singer, and one of the wealthiest women in England.

It is true, "that we have had to advance the prices in some kinds of feminine apparel a few cents, but with us it was a case of have to do it to meet expenses. The only fair way that we can regulate the charge for work is to time the employees, and see just how long it requires the cost of having her pieces. We have to pay the employees by their time, and, of course, we have to charge according to the time that various pieces require."

Laundryman Blames Dame Fashion. "Now, when Dame Fashion says that women must wear yards of heavy material it takes longer to iron and dry a heavy cloth than a light one, and the charge must be greater to meet the expenses. And the reputation of the Royal college masters is such as to insure thorough and satisfactory training for the career that is before her. She is a very hard working and conscientious student, and in addition to the several branches of musical training, she is devoting some time to dramatic work, and is studying French, Italian and German."

Whether Simple Scrofulous or Hereditary Speedily Cured by Cuticura Soap, Ointment and Pills.

When All Other Remedies and Best Physicians Fail. COMPLETE TREATMENT, \$1.00.

In the treatment of torturing, disfiguring, itching, scaly, crusted, pimply, blotchy and scrofulous humors of the skin, scalp and blood, with loss of hair, Cuticura Soap, Ointment and Pills have been wonderfully successful. Even the most obstinate of constitutional humors, such as bad blood, scrofula, inherited and contagious humors, with itching, the tetter, and all other eruptions of the skin, and all other ailments of the scalp, throat and mouth, sore eyes, copper-colored blotches, as well as boils, carbuncles, scurvy, sties, ulcers or sores arising from an impure or impoverished condition of the blood, yield to the Cuticura Treatment, when all other remedies and methods fail.

And greater still, if possible, is the wonderful record of cures of torturing, disfiguring humors among infants and children. The suffering which Cuticura Soap and Ointment have alleviated among the young, and the comfort they have afforded worn-out and worried parents, have led to their adoption in countless homes as priceless cures for the skin and blood. Infantile and birth humors, milk crust, scall head, eczema, rash, and every form of itching, scaly, pimply skin and scalp humors, with loss of hair, of infancy and childhood, are speedily, permanently and economically cured when all other remedies fail for children, and even the best physicians fail.

WILL MARRY AGAIN

Announcement From England That John W. Young Will Wed a New York Girl.

(Special Correspondence.) London, Jan. 23.—Following the announcement made recently of the engagement of Miss Mary to Young and Harold Eldredge, both of whom are now in Paris, comes the news that John W. Young, the widely known financier, is soon to marry Miss Mary.

Rumors to this effect have been heard for some weeks, but word comes today from Paris that the engagement of Miss Judge and Mr. Young is no secret there. The date of the marriage is not known here, and probably has not been set.

Miss Judge, with her mother and two brothers are in Paris, and have been for some months. The young lady is 20 years of age. She is said to be pretty and well educated. Mr. Young is a student in the Champs de Elysee, where he and his daughter are residing, and where their visitors always find a warm welcome.

Professor English Coop has been lost to his English friends for a month or two. We had all supposed he was in America, but it is now known that he is in Paris, doing some teaching and more studying. He hopes to leave for America before many weeks have passed, and will be leaving Paris.

George T. Vaughn of Lehi, Utah, was in London this week on his way home from three years doing missionary work. After spending a few days in other parts of England he will sail for home on Jan. 29 from Liverpool.

Andrew Jensen left here last Monday for a trip through Holland, Germany and Scandinavia. They will be a month in the business, and will return to Salt Lake in March.

(Special Correspondence.) London, Jan. 23.—In the correspondence from London last week it was mentioned that Signor Albert Visetti had been making arrangements to enter in the Royal College of Music for his favorite daughter, Nannie Tout.

It is understood that the concession came from the college only when there seemed a danger of losing Miss Tout as a pupil. Since she made so great a success in grand opera in November, several leading musical people of London have sought occasion to hear her sing. Knowledge Necessary... The growth of a crystal takes place merely by addition to its outside; the new matter is laid on particle by particle, and layer by layer, and when once laid on it remains unchanged. In a living structure, on the other hand, as, for example, a brain or a muscle, where growth occurs, it is by addition of new matter, not to the surface only, but throughout every part of the mass.

W. A. COOK, M. D. and the renewal of that which is lost so exact, that no difference may be noticed except at long intervals of time. A lifeless subject, such as an oyster shell, is formed by the living animal which it encloses, but is as lifeless as any other mass of inorganic matter, and not subject to the constant decay and reconstruction which belong to the living, like, for instance, the hair and nails. In the treatment of any ailment there is an imperative necessity for thorough understanding of the modes as well as means of repair. Even the man who is a student in the text-books, and has a determination to leave nothing unlearned which will add to his usefulness in modern channels of medicine, can only expect to be successful by confining his practice to a specialty. He must map out only that which he can master. Man's ability and powers are limited, and with overhauling more grain should not be cut down than the harvester can care for. There are thousands of diseases in the text-books, and one mind cannot entirely master them. The field is too large. Years ago I made up my mind that I would rather treat a few diseases understandingly, and with satisfaction to the patient, than to be uncertain in them all. I, therefore, selected

Varicocele, Lost Manhood, Blood Poison and Reflex Disorders

for my specialty, and after private courses in the various hospitals and schools of medicine, and association with eminent specialists of foreign countries, covering years of wide and varied experience, I challenge the profession for a case in the above class that I cannot cure quickly and permanently. In spite of the antipathy felt by the regular profession against doctors who talk through newspaper advertisements, my advice is constantly sought by many of them in a quiet way, and always cheerfully given. I have developed a treatment for varicocele in which I cure the worst forms in one week without knife, surgical operation or loss of time. I cure Specific Blood Poison in twenty to forty days without potash or mercury. Lost Manhood in from two to twelve weeks, and remove all complications, such as strabismus or debilitated conditions. The mind is made vigorous and clear, the eyes bright, and ambition succeeds to despair. All promises are reduced to writing, and a guarantee to fill them to the letter is given in each case. "Sings-songs" competitors make similar promises, but after conversing with them a few minutes you will realize that their knowledge and ability do not harmonize with their "copied advertisements." If you do business with them it is your own fault. I give bank or personal references, and charge nothing for consultation either at office or by letter.

Cook Medical Co., 116 South Main Street, SALT LAKE CITY, UTAH.

We want to Show you our Stock of good Dependable Trunks, Valises, Suit Cases, Telescopes, etc. THEY'RE ALL OF THE GOOD KIND. Meredith's Trunk Factory, 155-157 Main St., East Side.
