

LEONARD WOOD IN GREAT LUCK
Promoted to High Rank While Rathbone Went to Jail.
FUTURE HONORS IN STORE
BEVERIDGE WATCHING HIS FENCES IN INDIANA.

(Special to The Herald.)
Washington, D. C., April 4.—Brigadier General Leonard Wood is truly a soldier of good fortune. Scarcely ten years ago he was an assistant surgeon with the rank of captain, and now he is a full-fledged brigadier general in the regular service, and destined to be a major general before many years shall elapse. General Wood is not a graduate of any military school and entered the army from civil life. Luck entered his way when he was made colonel of the First United States volunteer cavalry in the Spanish-American war. Within a year he was major general in the volunteer service and when he was discharged from this service, it was to be made a brigadier general in the regular army. As military governor of Porto Rico, he enjoyed all the extravagances which the unlimited use of government funds could give, and while the extravagance of Director of Posts Rathbone landed that gentleman in jail, those of General Wood were apparently all right. General Wood is now to be given a tour of the world at the expense of the government. He has been assigned to command the military department of Mindanao in the Philippines, and en route to his post he has been directed to visit Egypt, Singapore, the Straits Settlements, Batavia, Java and other points to study the methods of various powers in their colonial possessions, and especially to study the manner and extent of the utilization of natives as soldiers in connection with their army. This is all preparatory to giving General Wood command of the division of the Philippines.

Junketing Trips.
Vacation junketing trips have not been particularly in favor for several years, but thirty senators manage to work in at least one every session. Last summer it was a trip of a subcommittee of the senate committee on Pacific Islands across the Pacific ocean to Hawaii. This trip was pleasant enough and the report was voluminous, but scarcely a recommendation was acted upon by congress. In fact, the report of the subcommittee was delayed until so late in the session that practically all legislation for the session was decided upon before the report was rendered. The cost of the junket to the government was between \$5,000 and \$10,000, and the value received practically nothing. A similar extended junket was taken by a subcommittee of the senate committee on territories into New Mexico, Oklahoma and Arizona. Senator Beveridge, the frothy Demosthenes of Hoosierdom, was the star performer on this trip, and this year he is to assume the same roll in a nice little junket to Alaska at the expense of the government. Senator Beveridge had made all of his plans for the trip, and just expected to stop off for a few weeks at his home state before going on to Alaska, but he was warned by friends that it would be well for him to stay at home if he wished to retain his prestige and get back to the senate at the expiration of his term, which will end two years hence. The senator took heed of this warning, and the first result was a mix-up with his colleague, Senator Fairbank, in the indian affairs majority fight. It is expected Fairbanks will make it so warm for his young colleague that he will have to abandon his Alaska pleasure trip.

Women Mail Carriers.
It has been frequently said here that A. W. Machen, the general superintendent of the postoffice department, is partial to women in the allotment of appointments. Congressmen brought the criticism to Mr. Machen's attention, and remarked that his office was having the big gray postoffice department every day who would be glad of the jobs held by his women clerks. "Of course they would," said the superintendent, "they could save them, if they could do the work." Mr. Machen has opened up a new occupation for women. There are now some hundreds of them all over the country acting as rural letter carriers, and the records show that they are doing wonderfully well. Under the rules for the appointment of rural carriers, the regular carrier, after he has entered upon the duties of his office, may name his own substitute. Of late carriers have been naming their wives, daughters, and even their mothers, as their

STRANGER THAN FICTION.
A Remedy Which Has Revolutionized the Treatment of Stomach Troubles.
The remedy is not heralded as a wonderful discovery, nor yet a secret patent medicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles, with which nine out of ten suffer.
The remedy is in the form of pleasant tasting tablets containing vegetable and fruit essences, pure aseptic pepsin (government test), gold-seal and diastase. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the digestive power of Stuart's Tablets show that one grain of the active principal contained in is sufficient to thoroughly digest 3,000 grains of raw meat, eggs and other wholesome food.
Stuart's Tablets do not act upon the bowels like after dinner pills and cheap cathartics, which simply irritate and inflame the intestines without having any effect whatever in digesting food or curing indigestion.
If the stomach can be rested and assisted in the work of digestion it will very soon recover its normal vigor, as no organ is so much abused and over-worked as the stomach.
This is the secret, if there is any secret, of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago and now the most widely known of any treatment for stomach weakness.
This success has been secured entirely upon its merits as a digestive pure and simple, because there can be no stomach trouble if the food is promptly digested.
Stuart's Dyspepsia Tablets act entirely on the food eaten, digesting it completely, so that it can be assimilated into blood, nerve and tissue. They cure heartburn, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive power which weak stomachs lack, and unless that lack is supplied it is useless to attempt to cure by the use of "tonic," "pills" and cathartics which have absolutely no digestive power.
Stuart's Dyspepsia Tablets can be found at all drug stores and the regular use of one or two of them after meals will demonstrate their merit better than any other argument.

substitutes, and the work performed by these substitutes has been wholly satisfactory to the department. Not long ago, during a western blizzard, a woman took her husband's place in the little mail wagon one morning and worked her way through twenty-five miles of storm-torn country, delivering and collecting the ranchers' mail. Route inspectors say that female rural carriers do not waste time in gossiping, but that the innate love of gadding about and meeting their neighbors makes the work particularly attractive to them, and robs the long daily drive of twenty or more miles of its tedium and drudgery.

LIVED 110 YEARS.
Death of Margaret Neve, King Edward's Oldest Subject.

London, April 4.—Margaret Neve, King Edward's oldest subject, died today at her home in Guernsey. For 110 years she preserved her health, strength and even her eyesight, and was known throughout the United Kingdom. She was a wealthy woman, lived on a charming estate and gladly welcomed visitors who came to see this old friend of the late Queen Victoria. During the lifetime of the late queen, Mrs. Neve never missed sending on her majesty's birthday a telegram of congratulation to Queen Victoria. Her majesty never forgot to return this compliment, and had Mrs. Neve's portrait hung in a conspicuous place at Osborne. When, at the age of 92, Mrs. Neve went to Craze to see the Kosciusko monument, she enjoyed the trip so much that she went on to Russia, accompanied only by her younger sister, who was 89 years of age. Among the many accomplishments of Mrs. Neve, who entertained Marshal Blucher shortly after the battle of Waterloo, was a translation which she made of her Dante's works into French. She had been a widow for fifty years. She had no children and in May would have been 111 years of age.

INDICTMENTS HELD UP.

Chicago Grand Jury Said to Have Been Hasty.
Chicago, April 4.—Undue haste in voting true bills for prominent boards made shortly yesterday gave rise to an investigation of the action of the grand jury today and caused the state's attorney to interfere with the return of the indictments and delay final action on the charges. The true bills are said to have been voted despite the protest of Assistant States Attorney Sprague, who insisted that the testimony introduced did not constitute a prima facie case. When the matter came to the attention of States Attorney Dineen he at once summoned the foreman of the grand jury and for two hours the men were in conference. At the end of the grand jury is said to have divided on a question of whether to reconsider the vote or to report the indictments to Judge McEwen.

JOHN W. YOUNG SILENT.

Refused to Talk Concerning His Private Affairs.
New York, April 4.—John W. Young, father of Hoopes Young, who is now serving a life sentence in Sing Sing for the murder of Mrs. Pulitzer, has returned from his long sojourn abroad. Concerning the rumor that he had married Miss Lillian Judge of this city, and the report that financial trouble had overtaken him as a result of his connection with the United States Ship Building combination, Mr. Young was silent. His answer to all questions invariably was: "I have no statement to make. By and by, perhaps."
There was nothing in the appearance of Mr. Young, who is now in his 40th year, that would lead one to believe that he was ill. He looks well and said he felt very well.
He shook his head when his son's name was mentioned and refused to talk of the case.

IN PERFECT HEALTH.

Roman Pontiff Shows No Signs of Breaking Down.
Rome, April 4.—Dr. Lagoni, the pope's physician, in an interview today relative to the current reports that the pontiff had become permanently enfeebled as a result of his recent illness, declared that the pope was in perfect health and added that the pontiff continued his audiences and performs his habitual occupations. Owing to his advanced age, however, Dr. Lagoni has counseled the pope to limit the number of his audiences, and accordingly these will be suspended during Holy week, although he will receive the foreign pilgrims on Wednesday next.

GOES TO SUPREME COURT.

Attorneys Have Agreed in the Lorimer Contest Case.
Chicago, April 4.—At a conference today between attorneys for William Lorimer on the one hand and the election commissioners on the other it was decided to refer the Lorimer-Durborow election controversy to the supreme court for adjudication. The stipulation entered into provides that the case shall be sent to the supreme court on two propositions of law of which one is original jurisdiction. The agreement ends for the present further proceedings in Judge Haney's court and will result in the guard which has been kept for a week over the ballots being withdrawn.

STRIKE OF DRIVERS.

Shamokin, Pa., April 4.—The drivers and loaders at the Philadelphia & Reading Coal & Iron company's Hurdside, Bear Creek and Sterling collieries went on strike today because the company refused to agree to give them nine hours' work on Saturdays if they quit toll at 1 o'clock. Heretofore they received a full day's work by starting at 7 a. m. and quitting at 4 p. m. Five hundred men and boys were rendered idle.

CABINET RESIGNS.

Port au Prince, Hayti, April 4.—The cabinet has resigned, owing to the senate having passed a vote of censure against the ministers for the failure to take proceedings against those who were responsible for the interruption of the sittings of the chamber of deputies March 29, by the firing of shots. It was reported at the time that the disturbance was due to the complexity of certain of the bills.

FOUNDRY BURNED.

Johet, Ill., April 4.—The Bates Machine company's works, a narrow escape from destruction early today. Fire totally destroyed the foundry, entailing a loss of \$50,000, partially insured. The pattern warehouse, containing \$100,000 worth of patterns, and the machine shop, were saved. The fire caught from the coke ovens in the foundry.

SLAUGHTER OF NATIVES.

London, April 4.—The war office today received a dispatch from Aden, Arabia, under current date, saying that Major Sherrin, a narrow escape from destruction, returned to the base of the Damont Somaliland after a week's successful operations southward and that the enemy's losses amounted to eight men killed and 2,000 camels and 5,000 sheep captured.

ENJOYED HIS VISIT.

Copenhagen, April 4.—The German emperor, who arrived here Thursday and who intended to leave Copenhagen this evening, is enjoying his visit so much that he has postponed his departure for twenty-four hours.

DENVER'S NEW CHIEF.

Denver, Colo., April 4.—Assistant Chief of Police Owens has been appointed chief of the police department to succeed W. E. Roberts, resigned.

BEECHER AND AN UNKNOWN GHOST

Rev. Dr. Funk Has Talks With Disembodied Spirits.

MANY SECRETS REVEALED

ALL INVENTIONS FIRST TESTED ON THE OTHER SIDE.

New York, April 4.—As a culmination to his revelations regarding a spiritual communication from Henry Ward Beecher, the Rev. Dr. Isaac K. Funk of this city declares he looked into the face of the dead preacher and talked with him a few nights ago. Dr. Funk asserts that he saw the clear outline of Mr. Beecher's head and shoulders and the ghost told the man in the flesh that he had a work to do, and that it would be to apply to him in time. Strange and almost uncanny as were Dr. Funk's statements concerning the famous clergyman, still more weird were his minute details of a long conversation with an unknown ghost. This took place in Brooklyn at the time when a voice from the grave accused him of causing unrest to the subliminal body of Mr. Beecher and the unknown visitor revealed many secrets of "life on the other side," as Dr. Funk puts it. The ghost, according to Dr. Funk, declared that all inventions now in use in the world were first discovered by the second part of men. No discovery that has to be made in the spirit world, with discoveries perfected, the ghost said, and his fellows go about the world looking for a mind in the receptive mood for the secret to be imparted. The progress of the spirit world in the higher life was revealed also, and to Dr. Funk's ears came the cheering words that he is time long or short, every subliminal body in the end begins to grow better.

OCTOPUS IN FRANCE.

People Averse to Giving Franchises to Rockefeller.

Paris, April 4.—It is reported that the project of American capitalists to purchase the Paris gas franchise is playing a considerable part in the present bitter political controversy before the municipal council, aroused by the question of extending the franchise. Several newspapers have asserted that one of the leading companies seeking the franchise is American, and the Matin said Rockefeller interests controlled four-fifths of its capital. This has brought out a sharp letter of denial, which the Matin publishes, from several leading French capitalists interested in the company. After referring to the report that the Rockefeller's control the concern, the letter says: "Our project is not American, but is French. Its organization will be French and its administration will be exceptional." The letter further denies the reports that some of the alleged owners own part of the company's stock.

BURNED TO DEATH.

Santa Fe Brakeman Caught Under Mass of Wreckage.

Santa Rosa, N. M., April 4.—In a rear-end collision at Guadalupe station, on the Santa Fe road, one man was killed and three others seriously injured. The dead: James H. Munger, brakeman. Injured: Gus Englehart, conductor; E. M. Rempe, engineer; F. T. Bowser, engineer. The wreck was caused by a severe sandstorm that prevailed at the time. Ten freight cars were stacked up by the accident, and with their contents, Brakeman Munger was caught under the wreckage and burned to death.

Wall Paper Sale Continued One More Week.

Largest stock in the city. Prices to make you investigate. Best quality neutral, light colors, 25 cents per double roll. Dark colors, 40 cents per double roll. All high-grade good papers up to 50-cent values at 35 cents. All goods up to 40-cent values, 25 cents; 25-cent papers at 20 cents; 20-cent papers at 15 cents; 15-cent papers at 10 cents; 10-cent papers at 8 cents. GEORGE W. EBERT & CO., Phone 1288 K. 326 State street.

There is more catarrh in this section of the country than all other cases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 if your case fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

STEAMER DISABLED.

Liverpool, April 4.—The White Star line steamer Cedric, from New York, which arrived here yesterday, reports that on March 28 she passed the Allan liner Buenos Ayres with her machinery disordered. Proffered assistance was declined.

The Buenos Ayres left Philadelphia March 22 for Glasgow.

"ONLY TWO WEEKS

THAT'S THE TIME IT TOOK TO CURE ME."

"I suffered from Kidney and Stomach trouble for more than six months. My feet and limbs would feel numb and lifeless. I found no relief until I began the use of Dr. David Kennedy's Favorite Remedy, and that came after four weeks' treatment. I am now well and using the Remedy only two weeks. I have recommended it to several who have used it with great success."
—PAUL BESSETTE.

ANNUAL STOCKHOLDERS' MEETING.

NOTICE IS HEREBY GIVEN THAT the annual meeting of the stockholders of the Constellation Mining company will be held at the office of said company, rooms 7 and 8 Central block, Salt Lake City, Utah, on Monday, April 6, 1903, at 2 o'clock p. m. for the election of five directors for the ensuing year, and for the transaction of such other business as may legally come before it.
H. WEEKS, Secretary.

Notice of Stockholders' Annual Meeting.

NOTICE IS HEREBY GIVEN THAT the annual meeting of the stockholders of the Constellation Mining company will be held at the office of the company, Empire Canyon, Park City, Summit county, Utah, on Monday, May 4, 1903, at 2 o'clock p. m. for the purpose of electing seven directors to serve for the ensuing year, and to transact such other business as may legally come before said meeting.

ECZEMA
Psoriasis, Scalled Head, Milk Crust, Tetter, Ringworm, etc.

Speedily, Permanently and Economically Cured, when All Else Fails, by

Cuticura

The agonizing, itching, and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Complete External and Internal Treatment

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent to cool and cleanse the blood. This complete treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fail. As evidence of the wonderful curative properties of Cuticura Remedies and of their worldwide sale, we quote from

The Hon. Mr. Justice Finnemore's Letter.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema chiefly on the scalp, face, ears and neck, and on one limb. I was for several months under professional treatment, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured, and I lost nearly all my hair. At last, my wife prevailed upon me to try the Cuticura Remedies, and I gave them a thorough trial with the most satisfactory results. The disease soon began to disappear, and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible women to report if any case should come under her notice when a poor person is so afflicted, so that your remedies may be resorted to."
ROBERT ISAAC FINNEMORE,
(Judge of the Natal Supreme Court.)
Pietermaritzburg, Natal, Oct. 25, 1901.

CUTICURA REMEDIES are sold throughout the civilized world. PRICES: Cuticura Resolvent, 50c. per bottle. (In the form of Chocolate Coated Pills, 25c. per vial of 50.) Cuticura Ointment, 50c. per box, and Cuticura Soap, 25c. per tablet.
