MURDERED IN MEXICO

Killing of Anthony Swensen May Call For Action by State Department.

Los Angeles, Cal., June 20.—The reported murder of Anthony Swensen by Newton Brown at Altiz, Mexico, may result in an international incident. John H. Foley, the attorney acting in behalf of Mrs. Swensen, will tomorrow make a formal request to Senor Andrade, Mexican consul at Altiz, for an official investigation of the alleged killing of her husband. If this request is granted, it is expected that the United States government will demand that the Mexican government furnish definite information within a reasonable time. It is proposed to make a formal demand for the return of the body for action by the United States government. Swensen and Brown were business partners in a valuable copper mine at Altiz, seven miles from the town of Sonora. Seven weeks ago Brown was lost track of and early in the month Swensen left for Altiz to investigate. Soon after Swensen's arrival at Nogales word was telegraphed to Los Angeles that he had been murdered by Brown. It is believed here, however, that Brown himself was murdered weeks ago, that his murderer then masqueraded as Brown and killed Swensen upon the latter's arrival in Sonora. Tonight Attorney Foley received a telegram from Altiz, Sonora, stating that it was reported there that Brown had killed Swensen. It is believed here that Brown is being held for the crime and that some time ago Brown had sold the copper mine in question.

FELLOW SERVANT LAW.

An Interesting Case Coming Up in California. Los Angeles, Cal., June 20.—A case involving an important point in law and one which especially concerns railroads will come up in the United States circuit court in this city on June 30. On the face of it the case is a damage suit for \$2000 filed by Holmes, a former engineer on the Santa Fe, for personal injuries sustained in a wreck at Franconia, Utah, about twenty two years ago. The company will, it is asserted, set up as a defense the "fellow servant" doctrine, which makes an employe, instead of the employer, responsible for injuries sustained by a fellow employe when the cause can be laid to the carelessness or negligence of one engaged in contributory work. The plaintiff attorneys contend the law on this point, which was held to be favorable to the employe, Holmes, suit brought under the provisions of the old law, and both sides will fight the case to the bitter end. The suit is the first of its kind in California to establish a precedent for similar cases now pending.
