

GRAND JURY MAY REPORT TODAY

Doubtful Whether Any Indictments Will Be Returned. FEW CASES INVESTIGATED. INQUISITORS WERE IN SESSION ALMOST TWO MONTHS.

The special grand jury will meet this morning at 10 o'clock after an adjournment since last Tuesday afternoon. It is thought this will be the last session of that body. When it meets this morning it is expected that the inquisitors will very shortly thereafter go to Judge Charles W. Morse's court, and after filing their report with him, ask to be discharged.

It was stated by one of the members of the grand jury Wednesday afternoon that they were through with their work unless something turned up between then and Saturday to warrant their investigation. He intimated further that if no one appeared before the jury Saturday morning, and if none of the members heard of anything during the three-day recess, their session this morning would be very brief. Whether anyone does appear before the inquisitors today remains to be seen. It is not known whether any of the jurors have had any of the reported to them since Tuesday demanding their investigation.

Matter of Indictments in Doubt. It is a mere surmise and nothing else whether the grand jurors have found evidence against anyone sufficient to warrant their bringing in indictments. It is said that if indictments are found against Mr. Luke, there is a question as to the minds of many prominent attorneys whether they would withstand the scrutiny of the courts on account of the presence in the jury room of County Attorney George W. Morse.

More than one leading attorney of the city holds that under the statutes the county attorney nor anyone else has any right in the grand jury room excepting the district attorney. County Attorney Westervelt has different ideas regarding the interpretation of the statutes, and he and the district attorney have more than one discussion relative to the matter. Just how many cases of perjury the jury investigated is not known, but judging from the evidence which was summoned before that body, it is surmised that at least four alleged infractions of the statutes were looked into. Chief among them was the case of Judge H. S. Tanner. His case attracted considerable attention before the grand jury was called. In fact, the persistent rumors that he had more than one wife had considerable to do with the signing of the petition asking the judges of the district court to summon a jury.

The number of witnesses who reside near Bishop Bennion gave rise to the rumor that the family looked into the case of Joseph A. Silver, vice president of the Commercial college, who had some inquiry at the hands of the inquisitors. Looked Into County Infirmary. The maintenance and manner of conducting the county infirmary was also looked into by the jurors. They had several members of the board of county commissioners besides attaches of the county institution before them. Just what the inquisitors ascertained is, of course, unknown. But inasmuch as more than members of the board of county commissioners have admitted that affairs at the institution are not what they should be, it is expected the jurors will have a few important things to say in their report as to how that place has been run.

About the middle of their session the grand jurors visited the penitentiary. Whether any complaint has been made against the management of that institution is not definitely known. Whether the inquisitors went to look into the matter, or just to make an examination on general principles, is not clear. The first time the jurors went to the penitentiary they were told about the hardships the operation of the new eight-hour law works upon the guards. But, as no one connected with the penitentiary was summoned before the jury, it is not thought they looked into the matter. Another matter brought to the attention of the jury was the charge made by the officials of the Short Line that they have been unable to secure justice in many instances in action brought in the police court.

Men Get Separate Trials. J. N. Clark, Albert Clark and Z. Graham were arraigned for trial yesterday morning in the criminal division of the district court. They are charged with stealing \$5 from C. F. Johnson of Lehi in a Commercial street saloon on April 25. The men were given separate trials and Graham was elected to face the bar of justice first.

District Court Notes. Frank Tocco, a native of Italy, was yesterday admitted to citizenship by Judge S. W. Stewart. In the Nash suit for separate maintenance Representative Albert Nash was given leave to file a cross-complaint and counter claim. Blanche Owen has brought suit for divorce from Wade Owen on the grounds of cruelty and non-support. They were married at Springfield, Mo., on Nov. 1, 1890. The church of Jesus Christ of Latter-day Saints lost the suit brought against it by George A. Edson to quiet title to a portion of E block 31, plat A, of the fifteenth ward branch of the church laid claim to the land. Judge S. W. Stewart yesterday gave the jury in the suit of John Evans against the Highland Boy Mining company permission to visit the company's smelter. The women of the county who plaintiffs claim, have ruined his shade trees and killed his crops. Judge Hall yesterday rendered a decree in favor of the Short Line company in the case of M. C. Moon vs. Salt Lake county, Salt Lake City and the Short Line. It was an action brought to quiet title to thirteen acres of ground in the Kinsey and Gouge additions.

CRAIG WILL BE LOCAL AGENT

His Appointment by Short Line Is Unofficially Announced. HEIGHO IS MADE AUDITOR. SAN PEDRO SENDS OUT COPIES OF RULES.

As predicted in The Herald several days ago, J. L. Craig, traveling auditor for the Oregon Short Line, will receive the appointment as will be the last session of that body. When it meets this morning it is expected that the inquisitors will very shortly thereafter go to Judge Charles W. Morse's court, and after filing their report with him, ask to be discharged.

It was stated by one of the members of the grand jury Wednesday afternoon that they were through with their work unless something turned up between then and Saturday to warrant their investigation. WILL REMOVE PLASTER CAST

Work of Straightening Little Muriel Rausch's Limb. WAS PATIENT OF DR. LORENZ. EVERY INDICATION THAT OPERATION WAS A SUCCESS.

The plaster of Paris cast upon the limb of little Muriel Rausch, who was operated upon by Dr. Lorenz in this city last October, is soon to be removed and the work of straightening the limb will commence. This is to be done by means of other casts that will be removed and replaced at frequent intervals.

The first cast, placed upon the limb by Dr. Lorenz, was removed about two months ago and another was put in its place by Dr. C. S. Baldwin and Dr. A. A. Kerr. At that time the limb was found to be in good position and the child able to walk on it, although this exercise was decidedly awkward, owing to the position of the limb. The new cast has been on since that time. The limb seems to be perfectly straight according to the statement of the mother, and the child suffers no pain whatever.

Straightening the Limb. Mrs. Rausch stated yesterday that the present cast was to be removed within a few days. The limb has been in the abnormal position for about eight months. When the cast is removed the leg will be straightened slightly and a new cast will be placed upon it to hold it in that position. After this has been allowed to remain for a time it will be removed and the limb will be straightened a little more. This operation will be repeated until the thigh has been worked into the proper position. The cast will then be left on for a while until the muscles have time to adapt themselves to their new positions and become thoroughly strong.

It is believed that by fall all of this work will have been accomplished and the girl will be able to use her limb the same as other children. Since the operation, according to the statement of the mother, Muriel has improved in health until she is now much heavier than she was before the operation. Despite the position of her limb, the child runs about the house almost as freely as the other children.

AMONG THE FLESHPOTS. Senator Warren Hustling For Good Things in Washington. (Special to The Herald.) Washington, June 26.—Senator Warren is in Washington to look into a number of matters of interest to his state. This morning he called on the president and called attention to the fact that Wyoming is at present without a single representative in the congressional service and suggested the name of General H. Donnell of Cheyenne, former United States consul at Prague, for the first vacancy that may occur. Senator Warren also called at the war department in relation to the work done at Forts MacKenzie and Russell. He found that the plans for the work at MacKenzie are progressing satisfactorily. Through the efforts of Senator Warren \$4,000 will be allotted for the construction of a gymnasium. Senator Warren also paid a visit to the treasury department in relation to the work on the Cheyenne public buildings. Mr. Warren suggested, and it has been approved, that the roof of the Cheyenne public building shall be of copper or slate, as originally contemplated. He also made some suggestions relative to drawings for the new public building at Laramie, the site upon which this structure is to be built having just been acquired by the government.

CIRCUS MEN AFTER MONEY. Five Former Employees Seek Aid of Attorney. Five men employed recently by Sells & Down's circus applied to Assistant City Attorney Russell Schuler yesterday to recover money due them by the management for services rendered. The men have been working for the show people for some time and yesterday did not get paid. They were told, however, that the matter would be settled when the circus reached Ogden, so the men accompanied the show north. When about halfway between here and the Junction city several employees of the company entered the car in which the men were riding and, covering them with revolvers, compelled them to leave the train. The men walked back to the city and reported the matter to the police, and it is in the hands of Mr. Schuler. The property of the circus may be attached when the show reaches Logan today.

J. SYO FALLS TO HIS DEATH. Dashes Seventy-five Feet Down a Shaft in a Bingham Mine. John Syo, a miner in the employ of the United States Mining company at Bingham, fell seventy-five feet to his death shortly after noon yesterday. Just how the accident occurred is not known, as no one witnessed it. The first knowledge Syo's fellow-workmen had that anything had happened to him was when they found his lifeless and badly bruised body at the bottom of an ore chute in Old Jordan workings. The last seen of Syo, who was about 30 years of age and unmarried, was when he told his companions that he was going into the drift to eat his lunch. How Syo happened to fall down the shaft is not known.

Tax on Babies. Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of food, so that they soon become strong, healthy and active. 25c at Z. C. M. I. Drug Dept.

WALKER'S STORE Saturday Night Specials

Saturday Night--All 35c to 50c Neckwear for Women One Priced, 25c. Dozens and dozens of the prettiest new fashions in stocks belong to the lines selling at 35c up to 50c each.
