CHAPMAN SHOWS OFF HIS FORM

Gets the Strong Glad Hand as He Wins His Race.

STARBUCK TO THE FRONT

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

Several sensational rides marked the finishes of one of the best evening racing sessions this season at the saucer track last night and the large crowd showed plenty of enthusiasm. Johnnie Chapman, the old-time star, was the only one in his glory when he won the final of the mile handicap by putting up one of the greatest amounts of speed from the start given a rider this year for doing so.

STARBUCK TO THE FRONT

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

Jack Sharp was liberal with his handicaps and the result the public was served with races from the start to the finish, which they evidently appreciated. Chapman had fifty yards in the lead with Hoffman, Downey and Hopper on scratch and the other riders strung out in a line on the ninety-yard mark, the limit.

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

The back mark formed their combination and the first rider was taken by Hoffman, who was in third position, started for the tape, and Jack Burris challenged him as he crossed the half-mile mark and those two fought it out until Burris, who was in the lead, was vainly trying to get around the other behind. Chapman seemed to work every muscle in his body for the last lap and, encouraged by the crowd, he kicked home a winner by inches.

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

Another hair-raising finish was witnessed in the final of the half-mile handicap race, which was the best of the best of the night and won by one of the best of the best in the professional, was markedly well handicapped and the riders started from the fifty-yard mark and cut the race for himself from the pistol to the finish. Hoffman, who was in the lead, was vainly trying to get around the other behind. Chapman seemed to work every muscle in his body for the last lap and, encouraged by the crowd, he kicked home a winner by inches.

STARBUCK TO THE FRONT

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

One of the surprises to a large number of spectators which he was able to express by loud calls from the stand, was the sudden reversal in form shown by Hardy Downing, the man who had been in the match race Friday night. Last night Downing failed to duplicate the performance of the first of the mile open was easily beaten by Hoffman, Hopper, Chapman and Hopper. The race was a close one, especially those who bet money on Hoffman Friday night and on Chapman Saturday.

STARBUCK TO THE FRONT

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

The racing game in Salt Lake this year is better footing than it has been for years, or as good as ever with the public, judging from the large crowds, went more of it, but a few more such exhibitions as the Hoffman-Downing race would surely kill it. There are just a few things in this city that have been a bicycle race, and a warning at this time if heeded will not hurt anyone.

GOOD PROGRAMME OF RACES PULLED OFF AT SAUCER.

Chicago, June 30.—Dick Welles set a world record for six furlongs at Washington today, running the distance in 1:14.5. He carried 99 pounds. The former record was 1:12, held jointly by Lax Foster and Bummer. Dick Welles set the new mark under remarkable circumstances. He was almost left at the post. When the barrier flew up his head was turned and his rider not ready. He was fully a second behind his field at the start. The race was terrific, but Jockey Knight set out after the field. He closed the gap of about ten lengths in the stretch and heaved ground on the turns and took the rail after entering the stretch. He was a mile and a half ahead of his nearest competitor and he hitched up with Runnels, who overhauled him and won by three-quarters of a length. Taking the official time as 1:14.5.

YANAGER-HANLON FIGHT AT DRAW

Two Clever Featherweights Go Twenty Fast Rounds.

DECISION MEETS APPROVAL

ALREADY THERE IS TALK OF ANOTHER CONTEST.

Los Angeles, June 30.—The Hanlon-Yanager fight at the Mechanic's pavilion tonight ended in a draw at the end of the twentieth round. "Biceps" Eddie Smith being unable to choose a winner between the game little man, featherweight, and the fight was one of the fiercest ever seen in this city. Both men fought with a vim from the tap of the bell in the first round until the referee gave his decision.

DECISION MEETS APPROVAL

ALREADY THERE IS TALK OF ANOTHER CONTEST.

So hot was the fighting during the first stanzas of the battle that it seemed to foretell a quick victory for one or the other of the contestants. But neither was able seriously to injure the other, and the contest lasted the limit. In Eddie Hanlon, Yanager met one of the greatest little fighters he has had in his career. He was a real fighter, and he fought as against, and in Yanager Hanlon found the strongest little man in the featherweight division today.

ALREADY THERE IS TALK OF ANOTHER CONTEST.

Yanager the Better at Start. From the first to the ninth round Yanager led slightly the better of the contest. He led the Californian on and by clever straight leads for the head occasionally broke through the crouching guard which is known as the "Craven" defense. Hanlon had Yanager's right hand in the ninth round the tide turned in favor of the Californian. He was in the lead by a few inches and he was in the lead by a few inches and he was in the lead by a few inches.

"WORK, TALK LESS."

Mrs. Coulter's Message to the Women of Chicago.

(Chicago Inter Ocean.) "Don't talk so much." This was the message brought to Chicago women yesterday by Mrs. Chester Coulter, Republican member of the state legislature of Utah and a resident of Ogden.

"It was industrial reciprocity day of the Daughters of the Revolution, and the regent, Mrs. Warren M. Springer, in a cool-looking gray silk gown, presided.

Mrs. Coulter was one of the guests of honor, but she said a double mission in being there. She intended to deliver that message, "You talk too much," believing that by a silent policy along can woman's work raise cause and her place in the world be taken and held.

"Did you make your campaign one of silence?" Mrs. Coulter was asked of her a little later.

"No, but I did not speak except when the central committee advised it. I was in the progress, she said, married, and her place in the world be taken and held.

"Always," they never altered a date on my account," Mrs. Coulter said.

Mrs. Coulter is one of the women who believe there is no sex in work; that work and brains should go together, and the brains be located in a man's or a woman's head.

She is a prominent chairman of the judiciary committee of the lower house, the only woman who has ever received the distinction. She is a lawyer and returned to her home in Salt Lake, and eventually found that a young man absorbed her interests.

"I never made butter in my life," she said, "but I mean those galls, and I am afraid I can't talk much more, really. My only actual knowledge in industry is that a man can make good butter and good bread."
