CLEAN UP THE RUBBISH.

IF SALT LAKE CITY escapes a serious fire tomorrow as a result of the Independence day celebrations...

After the department had finished extinguishing a blaze in some rubbish in the rear of a building on Third South street...

It is criminal carelessness to allow vacant rooms, basements, air shafts and the like to become filled with waste...

The Herald wishes the chief all possible success in his prosecution. A casual survey of the alleys and back lots in the down town section is sufficient to convince any observer that prosecutions for violation of the ordinance can easily be maintained.

Former Congressman Loud of California says the people who sold the government letter devices under fraudulent contracts are entitled to their money.

Word comes from Russia that the American protest against the Kishineff massacre will be handed back with assurances of Russia's tenderest regard.

The interest that is taken in baseball in Salt Lake is wonderful. Hundreds of local enthusiasts, fearful that Walker's field might not be in condition for the opening of the new league season next Tuesday afternoon...

An eastern newspaper published a dispatch about the birth of a boy in the American legation house in Paris. His mother is French and his father is English.

The income of the United States for the fiscal year that ended June 30, 1902, was only a little more than \$900,000,000.

It is announced that Postmaster General Payne will stick to his position. Isn't it rather a case of the position sticking to the man?

Those of us who have been laboring under the impression that President Schwab of the steel trust didn't do any work for his salary will have to revise our opinions.

The calendar to the contrary notwithstanding, the small boy is convinced that today is the longest day of the year.

If Secretary Cortelyou makes good his promise to keep the new department of commerce and labor out of politics, he will accomplish a vast deal of good.

"God bless the United States," Emperor William is quoted as saying with fervor. Now, what in the world does William want from this country?

Even if that shipment of canned salmon did turn out all right, it is good to know that our food inspection department is alive and working.

It certainly looks as if Sir Thomas Lipton will have to keep on building Shamrocks. Reliance seems to be about the fastest thing that ever carried canvas.

William Wilson, who was shot by a policeman in Liberty park, will recover. It is to be hoped that the young man will profit by his lesson.

Who told Old Man Winter it was time to come back, anyway? Hasn't he sense enough to stay up north somewhere until he's wanted?

Surely there has been enough trouble in the local postoffice without old Boreas getting in and taking a hand.

REHABILITATE THE GUARD.

THE ANNOUNCEMENT that Governor Wells is to begin at once an investigation into the conditions that have all but disrupted the National Guard of Utah will give satisfaction to all friends of the state's soldiers.

Time was when the state troops formed a body of men of which the commonwealth might be proud. Well drilled, soldierly, alert young fellows, they always did themselves and the state credit under every condition.

Lately a change has come over the guard. Discontent is everywhere manifest, and the men are dissatisfied.

Local doctors give us the assurance that they have arranged matters so that regular patients will require but a small portion of the doctors' time.

One good thing about a dust storm is that it does not often occur during the muddy season.

Don't blame the boy if he turns out bad. Most boys try to grow up to be just like their fathers.

We can recall the names of several public spirited citizens who have resolved to drink no more water this summer in order to help out the local water situation as much as possible.

Don't be afraid of the man who tells about the people he has licked, but watch out for the fellow who occasionally names a man that licked him.

Don't come limping around to us after the thing is over and say you didn't know it was loaded. Everything is supposed to be loaded on the Fourth, guns, street cars, citizens, etc.

A Salt Lake weekly paper, in its account of a social affair recently given in the city, says it was not a success.

Salt Lake's former noted colored dog catcher, J. Gordon Macpherson, is now a minister of the gospel and is planning a lecture tour through the south.

Among other useful things we have learned from the investigation is that there are such things as "postoffice physicians."

In regard to Senator Hopkins' declaration that it is a shame and a disgrace that colored men are not sent to congress from the southern states...

If the local messenger boys would strike a gait occasionally it would be a strike the public would feel like endorsing.

It seems even our local postoffice was given quite an airing Wednesday evening.

Sir Thomas says the Reliance "looks like a wonderful boat." He may learn that in this case looks are not deceptive.

By means of its ratt and cable scheme, Saltair expects to make a strong pull for more patronage.

We take the position that there is some elephant blood in that Salt Lake horse which has a tall growing out of its forehead.

Many friends, both in this city and abroad, will be surprised to learn of the marriage of Miss Ora Harkness, daughter of Judge and Mrs. Harkness, to Mr. Tom E. Dwyer of West Virginia.

The wedding took place yesterday at 1:45 at the home of the bride's parents on Brigham street.

The bride wore a handsome gown of dotted silk muslin over taffeta. The skirt was accented with plaited and the bodice was exquisitely trimmed with rare lace.

The groom is a brother of Mrs. George F. Downey and belongs to one of the oldest families of West Virginia.

The only friends present at the ceremony were Major and Mrs. George M. Downey, Mr. and Mrs. George Y. Wallace and Mrs. Tuttle of St. Louis, Mr. and Mrs. William Bradley, Mr. and Mrs. Robert Harkness, Mrs. Calhoun, Mrs. Faber, mother of Mrs. Downey, and the parents of the bride.

One of the prettiest affairs of the summer time was the luncheon yesterday at the Country club given by Miss Gertrude McGrath in honor of Miss Edna Donnellan.

It certainly looks as if Sir Thomas Lipton will have to keep on building Shamrocks. Reliance seems to be about the fastest thing that ever carried canvas.

William Wilson, who was shot by a policeman in Liberty park, will recover. It is to be hoped that the young man will profit by his lesson.

Off the Earth.

There sat a Chinese gentleman, and with a winning smile he greeted the reporter.

He strongly urged that one and all should patronize his little stall, and anyone could see he was a terrestrial celestial.

Upon that pyrotechnic pile one threw a flaming match, and it withal, therefore, he had the books that Chink was hard to catch.

His place of business was a wreck, and nobody would say he was a terrestrial celestial.

"Little Joe" died over on the reservation Thursday night. Joe was a good Indian, says the Verbal Express.

Presently we shall be saying, "The unparalleled Salt Lake team has won another glorious victory," or, possibly, "decayed bunch that was given us by Portland has had the books thrown into it again."
