

POPE LEOS SIGNS WILL BROOK NO INTERFERENCE

His Condition About the Same as For the Past Three or Four Days.

Cardinals Appreciate the Solitude of American Protestants For the Dying Prelate.

Rome, July 17, 9:45 a. m.—Dr. Mazzoni entered the pontiff's bed room at 8:30 o'clock this morning, after Dr. Lapponi had reported to him how his holiness had passed the night. He found the patient, as Pope Leo himself said, "unrefreshed and ill."

His holiness complained that while the doctors had promised that his illness would not last long, it is now two weeks since he went to bed. The pontiff prefers to sit up in bed, as in that position he feels less oppression on his lungs and can breathe more easily.

Dr. Mazzoni spent much time examining him, as his holiness is reduced almost to a skeleton, if a new operation is decided upon it will not be because of any hope of saving the patient's life, but simply for the purpose of rendering the death agony less acute.

even in his feeling. The best example thereof is perhaps the continual proofs of confidence that his holiness bestows upon Cardinal Rampolla, who, after faithfully serving as pope sixteen years, is now being made the object of most bitter attacks, especially during the last period, because of the Francophile attitude of the papacy. The pontiff seems to have had an intuition that while he lies with one foot in the grave, Cardinal Rampolla's advent is beginning to take advantage of his tottering power to pull down the idol which until yesterday they worshiped, so his holiness leaves nothing unattempted to show the world up to the last moment how much he trusts the secretary of state. No one was admitted to the sick room today except the cardinal secretary of state, who was only allowed in on the repeated request of Pope Leo, who ordered to his that he desired to confirm and extend the power his eminence already exercised in the shape of the pope's secretary of state, who in ordinary times would necessitate the direct intervention of the pontiff in recognition of his position, and to the pontiff and the services he had rendered to the church.

The pope was much pleased when Cardinal Rampolla informed him of the universal manifestation of sympathy toward his holiness coming from all, even from non-Catholics.

FATEFUL DAY PASSED.

Leo Outlined the Fete of the Carmelite Madonna.

Rome, July 16.—The fateful day of the Carmelite Madonna, on which Pope Leo had a premonition he would die, because of his position, and authorized him to take measures which in ordinary times would necessitate the direct intervention of the pontiff in recognition of his position, and to the pontiff and the services he had rendered to the church.

PRAYERS OF PROTESTANTS.

Solicitude of the World at Large For Leo Appreciated.

Rome, July 16.—A telegram from the Associated Press has been forwarded to Cardinal Rampolla informing him that on Sunday, July 15, prayers were offered in Rotterdam, in the United States for the recovery of Pope Leo, the cardinal has replied that the following is the text of the secretary of state of his holiness.

"Dear Sir—The communication forwarded by you has been most gratifying to the cardinal secretary of state, my master. His eminence hopes that the holy father's health will allow him, when the opportunity most comes, to inform his holiness of the contents of the telegram.

"The very great desire always felt by his holiness of reunion of the different churches will certainly render this demonstration of the interest of the American Protestant churches most acceptable. With true sentiments of esteem, I remain, your devoted servant, GIACOMA DELL'ACHESIA, Substituted Secretary of State.

"Rome, July 16, 1933."

State Department Has Received a Reply From Russia.

PETITION CANNOT BE SENT

END OF THE KISHINEFF MASSACRE INCIDENT.

WASHINGTON, July 16.—It was learned tonight that the state department has received a reply from Russia stating that it neither would receive nor consider the matter of the Jewish petition on the subject of the Kishineff incident. The information was received by cablegram from Mr. Middle, the American charge at St. Petersburg, who was given the difficult task of inquiring of the Russian government as to its attitude with respect to the petition of the Jews. It is believed that this will end the matter and that no further steps will be taken by this government to bring the views of the petitioners to the attention of Russia, although as no consideration has been given to the president to the course to be pursued in the light of Russia's response to our inquiry.

This reply that Russia would make all suggestions on the subject of the Kishineff massacre was forecasted very clearly by the Associated Press some weeks ago in an editorial statement, when the public was definitely informed that Russia regarded the affair as an internal matter as to which she, the Russian government, must refuse to receive suggestions from any other government or outside source.

FIRST DEGREE MURDER

Knapp Found Guilty and Will Probably Go to the Electric Chair.

Hamilton, O., July 16.—Alfred A. Knapp was convicted in the first degree of the murder of his wife, Hannah Goddard Knapp, by a jury in Judge Belden's court today. The verdict was reached at 7:30 o'clock, the American justice system today for conviction without mercy and two for conviction with mercy, being unanimous.

When Knapp was brought into court there were but a few spectators present and there was no excitement. Knapp took his seat quietly and when the verdict was returned he did not show any sign of emotion or make any comment. Knapp was taken back to jail at once and Sheriff Blair will have him removed to see his mother, sister and sister were very much affected when they heard the verdict.

SITUATION VERY DELICATE

ISLANDS AMERICAN BY RIGHT OF CONQUEST.

LONDON, July 17.—According to the Daily Chronicle the action of the American government in annexing the islands of Borneo raises an exceedingly delicate situation, and the British foreign office has asked Washington for an explanation.

The islands concerned, says the paper, are a group of seven which originally belonged to the Sultan of Sulu, from whom they passed by a charter in 1881 to the control of the United States. The islands were sold to the American government and the British foreign office has asked Washington for an explanation.

The final period of delay given by General Gomez for a definite answer to his request for the surrender of General Ferrer is included in the exercise of mercy is a height of inequity. Speaking to you in sincere language, so that you may realize for a time that I prefer the triumph of the principles of justice at all cost, guarantees cannot be granted to Ferrer by one who upholds all else as truth, right, justice and equity.

"Referring to the last paragraph of your telegram, regarding the fulfillment of your duty, it is my duty to inform you that I judge you have done your duty. That remains to posterity and history. Yours countryman, 'CIPRIANO CASTRO'."

In view of these telegrams the opening of hostilities, which was inevitable yesterday, appears inevitable today.

The mayor took the matter under advisement.

HARK! FROM THE TOMB A DOLEFUL SOUND!

ENGLAND ASKS SILVER EXCHANGE COMMISSION

Annexation of Islands of Borneo Not Relished.

First Conference at Berlin, But It Is More Than Unlikely That Anything Can Be Accomplished For the White Metal.

BERLIN, July 16.—The American and Mexican international silver exchange commissions met the representatives of the German government for their first conference today. Germany was represented by President Koch and Director Lumm of the Reichsbank, Privy Councilor Dombols of the Reichsbank, and Director of the Reichsbank, Arthur Salomonson of the Disconto-Gesellschaft bank and Franz Urbig of the German-Asiatic bank.

The conference lasted an hour and was adjourned until Saturday. The German government has proposed to purchase a fixed amount of silver annually for Indian and colonial coinage. This is one of the commission's proposals, intended to stabilize the ratio between silver and gold. For many years delegates recognize that absolute parity is not possible without the cooperation of Great Britain and France and it is not believed here that the commission's work will lead to the calling of an international conference.

Saxen-Von Rheinbaben, the Prussian finance minister, has invited the commission to dinner on Friday and United States Charge d'Affaires Dozier has accepted a dinner invitation for Monday.

CASTRO WILL BE MERCIFUL TO ALL EXCEPT ONE DOUBLE-DYED TRAITOR

Soledad, Venezuela, July 15.—The situation is unchanged. The attack on Ciudad Bolivar by the Venezuelan government troops, which appeared imminent yesterday morning, as cable to the Associated Press at the time, has been deferred, at the request of United States Consul Henderson. Herr Brokmeier, the German consul, and the bishop, who transmitted to President Castro the request for the Venezuelan government to accept a formal treaty instead of an unconditional surrender as he desires, which is also another obstacle.

The foregoing suggestion does not in any way involve a manifestation of weakness on the part of the self-denying and heroic army which has honored its commander, or on my part, for if, unfortunately, we are not able to arrive at an honorable settlement, my arms know how to do its duty. With esteem, I remain, "NICHOLAS ROLANDO."

General Castro replied last night as follows: "If you were really an honorable and patriotic man, you would not have entered into this revolution of a most unjustifiable and criminal nature, not only because of its entire lack of motive, but because of the constance it has had with the enemies of the country, or, which is the same thing, with foreigners."

"It seems to me to ask under these circumstances that the double traitor Ferrer be included in the exercise of mercy is a height of inequity. Speaking to you in sincere language, so that you may realize for a time that I prefer the triumph of the principles of justice at all cost, guarantees cannot be granted to Ferrer by one who upholds all else as truth, right, justice and equity."

"Referring to the last paragraph of your telegram, regarding the fulfillment of your duty, it is my duty to inform you that I judge you have done your duty. That remains to posterity and history. Yours countryman, 'CIPRIANO CASTRO'."

WALL OF WATER BRINGS PERIL REWARD IN RYAN MURDER CASE

Cloudburst Endangers Family in Lamb's Canyon. Sheriff Emery Will Ask That \$500 Be Hung Up.

THEY HAVE NARROW ESCAPE LEARNS MORE ABOUT WOMAN

BRIDGES, FENCES AND BUILDINGS CARRIED AWAY. IDENTITY MAY BE LEARNED IN A SHORT TIME.

THE heavens opened above Lamb's canyon at 5 o'clock yesterday afternoon and the cloudburst carried out all the bridges, brought down huge rocks, tore up trees and barely missed demolishing the home of William Bullock.

The wall of water came within ten feet of the house, bringing everything down before it. The frightened family watched the torrents sweeping toward them, apparently about to engulf the entire dwelling with its occupants. They were helpless, escape being impossible. They stood in front, expecting every instant to meet death, while the roaring water rushed up within ten feet of the house, and the cloudburst was about to reach them.

Lamb's canyon branches north from Parley's canyon opposite Roach's half-way house. The persons living there are the members of the Bullock family. For some time it was feared that they had all perished, but about 8:30 o'clock William Bullock, one of the sons, reached Roach's with the news that all were safe.

Mrs. Henry Rippe, who is stopping at the house, said she was almost last evening that young Bullock had a perilous trip getting down the three miles with the news.

All Bridges Washed Away.

"All the bridges were gone," said she, "and he had to wade or swim a great part of the distance. The entire family was badly frightened as the water came within ten feet of them. He said the cloudburst occurred at about 5 o'clock and came suddenly with a great noise like thunder. Thousands of tons of rock were moved by the water, which came in a great high wall past the house."

At 9 o'clock last evening the water was two feet over the bridge at Roach's.

Parley's creek was filled with logs and other debris, while the water was dark with the vast quantities of earth which had been washed down from the mountain sides. The flood reached the Parley's canyon about 10 o'clock. The water was so muddy that it was impossible to see the bottom of the canyon. At 9 o'clock, when it was twice the normal and still increasing.

As far as could be learned last night the cloudburst, beyond carrying out bridges and demolishing fences and outbuildings.

RIOTING WAS GENERAL

Squad of Forty Chicago Police Compelled to Use Their Clubs.

Chicago, July 16.—Unique preparations were made for the removal of the Kellogg Swiftboard & Supply plant today. A truck was ordered to start under police guard with sealed orders and the driver given a note in which he was ordered to open the note until after the start. A crowd of pickets and strikers gathered in front of the plant, and a squad of forty police and detectives assembled at the plant when the start was made.

The Kellogg Swiftboard & Supply plant increased until more than 3,000 persons had gathered, the greater number of whom were strikers and strike sympathizers. The strikers prevented the moving of freight from the factory. The blockade of the streets became so serious that Police Chief Connelley, with fifty policemen, charged into the crowd, which they routed with the free use of their clubs.

The saloons in the gathering places of the neighborhood were cleared in like manner. The rioting was general. One policeman was struck in the back of the head by a brick, and another was hit. Several other policemen were hurt.

When efforts of the striking teamsters and their sympathizers failed to prevent the delivery of freight from the Kellogg Swiftboard & Supply company to the railroad warehouses previous day, the Young Men's Christian Association union of strikers would darken the city unless the strike were settled. He announced that he would receive a refusal, he declared that he would make a delivery of freight tomorrow and demand that he shut off the power at the Kellogg plant. Should he receive a refusal, he declared that he would make a delivery of freight tomorrow and demand that he shut off the power at the Kellogg plant. Can Identify the Woman.

A witness who may prove valuable in identifying the woman was discovered yesterday in the person of Edward Oakes of Murray. He was coming home from Bingham Junction Wednesday when he met Ryan and the woman who was sitting on the seat of the wagon coming here from the north. The woman was wearing a single buggy. When they stopped across the creek from the scene of the murder they saw the wagon, but observed nothing of the woman in the buggy. The mysterious personages seen following a Park team up Parley's canyon to gray city from various reports have traveled with Ryan from Ogden or really there she might have joined him in some place else.

Gray Team Theory Exploded.

Sheriff Emery yesterday was convinced that the murderers, immediately after committing the crime Saturday night, came to Salt Lake and took the first train out, probably the Ogden Short Line train, which left at 12:30 a. m. The theory that a gray team has been employed in the murder was exploded yesterday afternoon when a woman was seen riding in a single buggy near the place belonged to William Smith of Murray, who was taking his family for an outing. They went in a single buggy, which was seen Sunday morning, while the gray team was following a Park team up Parley's canyon to gray city from various reports have traveled with Ryan from Ogden or really there she might have joined him in some place else.
