CRIME OF TRAINWRECKING.

TWO BOYS are under arrest, one in Salt Lake and the other in Davis county, charged with the same offense—the very serious crime of attempting to wreck railroad trains.

Hundreds of light-hearted, innocent people are on their way to or from a pleasure resort. The thought of danger is far from them. Suddenly the train strikes an obstruction. Cars are smashed, limbs are broken, lives are lost.

The man who robs another at least takes a chance; the burglar knows that at any moment he may be shot down without warning, without mercy.

The idea of having European marriage brokers to make easy the suits of foreign titled men to wealthy young American women is a good one.

Utah lake will be at the mercy of any corner now that the national guard encampment has broken up.

No doubt the billboard proprietors think the police an impudent set of fellows for daring to suggest that the law should be complied with.

Just because a man pays five or six dollars on a piece of mining stock it is no cinch that he has faith in the future of the property.

Should the Jews accept the offer of a tract of land from the British government in Africa there can be no doubt that the Russian Jews will find the change from Russia to cannibals as neighbors most agreeable.

Even should it be true, as the letters received here show, that Mr. Hodge is a bold, bad man who maligned his wife, that will scarcely serve to acquit Mrs. Hodge.

Many actors will no doubt vigorously fight the proposition to install steel ties on the railroads.

It is a reasonable supposition that one who denounces carriage riding on Sunday does not own any stock in a livery stable.

Why not have professional witnesses as well as professional jurors? That would make it a cinch.

When people read that two young hoodlums were painfully injured in an early morning fight on Commercial street there is little sympathy wasted.

WHERE THE MONEY IS.

A BOSTON PAPER finds occasion for asking what has become of the money of the country. It submits statistics that show that out of \$2,563,200,000, roughly speaking, in the United States, more than half is in the hands of the people.

Those colored rioters at Batavia, Ill., missed the chance of their lives when they failed to lynch the town marshal who arrested one of their number.

Should Andrew Carnegie be presented to the Kaiser it is an even bet that the library of the German emperor will be enriched soon thereafter by several interesting volumes.

With all this Macedonian trouble, yacht racing, etc., poor Mr. Machen has about passed from mind.

Few, if indeed, any, of us will live to see the one-minute trotter.

The failure of the union to induce Chicago cooks and waiters to strike may be taken as an indication that the hot weather is about over and that sleeping out nights will soon cease to be a luxury.

Should General Miles come out strong for good roads and also condemn race suicide he would be hard to catch.

Now that Schwab has lost his job the stock market means one thing—enough to come out with a statement to the effect that he only got a miserable \$100,000 a year in the way of salary.

Seriously, though, wouldn't the state of Minnesota rather have the \$10,000 defaulted ball than have Ames?

It may be that General Miles has hit upon a policy that will make him many friends by steadily refusing to discuss politics.

SPARKS SOCIETY

Sad and True. Seizing till your neck is sore, Until your eyes are red, Beware from every pore, Aches all through you; head, Day outside is scolding hot, No breeze goes for you, Cooling drinks for you are not, Worst thing you can do Is sitting where the wind may hit, You and cool you off, If it's hot you must bear it, Must just blow and cough, Saddest story ever told, In stately prose or rhyme, Is this one of a beastly cold In the summer time.

We must admit that Sir Thomas is beginning to cut close and stands a show to win that cup if he will expend a few more millions.

Meanwhile, don't forget that we claim our tea is superior to all other makes combined.

Nevertheless, no charges of applying the water cure to the men under him have been made against that German sergeant who is being court-martialed for cruelty.
