

BUSINESS ON THE UP GRADE Improvement Is Noticeable in General Lines.

REASONS FOR GOOD FEELING REALTY MARKET BETTER-BUILDING TO BE ACTIVE.

Business showed some improvement during the past week. There appeared to be a better feeling all around. Jobbers reported spring orders to be coming in at an encouraging rate. Country merchants have in the heavy snow-falls an assurance of sufficient water for the crops next season, and they are buying with more freedom than before. The metal market is in good shape, and while the speculative market for mining stocks is dragging, the actual mining operations are growing broader and bigger right along.

Money is firm, the bankers remaining conservative and watching the eastern situation with great delicacy of caution. That has improved to such an extent that money is being loaned with somewhat more freedom. Nevertheless, collections are still rather slow.

It is believed that the Russo-Japanese war will help the west, including the intermountain region. There will be a demand for foodstuffs to feed the armies, and Russia especially is likely to purchase great quantities of grain and meats from the United States.

Many Prospective Enterprises. Around Salt Lake several huge enterprises are incubating. When they hatch they can scarcely fail to give an immense impetus to business of all kinds. The launching of a \$30,000,000 company to develop copper mines and resources of the southwestern part of the state is expected before the close of the coming week, and active operations on a large scale are promised shortly after that.

Another contract for grading will probably be let by the Salt Lake route in a short time. The Western Pacific will begin in the spring to run a road on the new route between Salt Lake and San Francisco. The Denver, Northwestern & Pacific is steadily approaching Salt Lake from the Denver end. Plans are under way for the extensive development of the iron resources of Iron county and the coal deposits of Carbon and Emery counties.

The government is committed to undertake the preliminary work of a vast irrigation project which will reclaim 700,000 acres of land in the richest part of Utah, making it possible for close to 1,000,000 more people to live on the farms of Salt Lake, Utah and Cache valleys and adding not less than \$5,000,000 to the wealth of this region.

Drilling For Oil. Within a few miles of Salt Lake, to the northward, Guffey & Galey, the most celebrated oil experts in the world, are drilling for petroleum, backed with a fortune their judgment that oil and gas will be found in large quantities there. Should they be right, as they always have been in previous undertakings of this character, Salt Lake will be the center of a great oil boom.

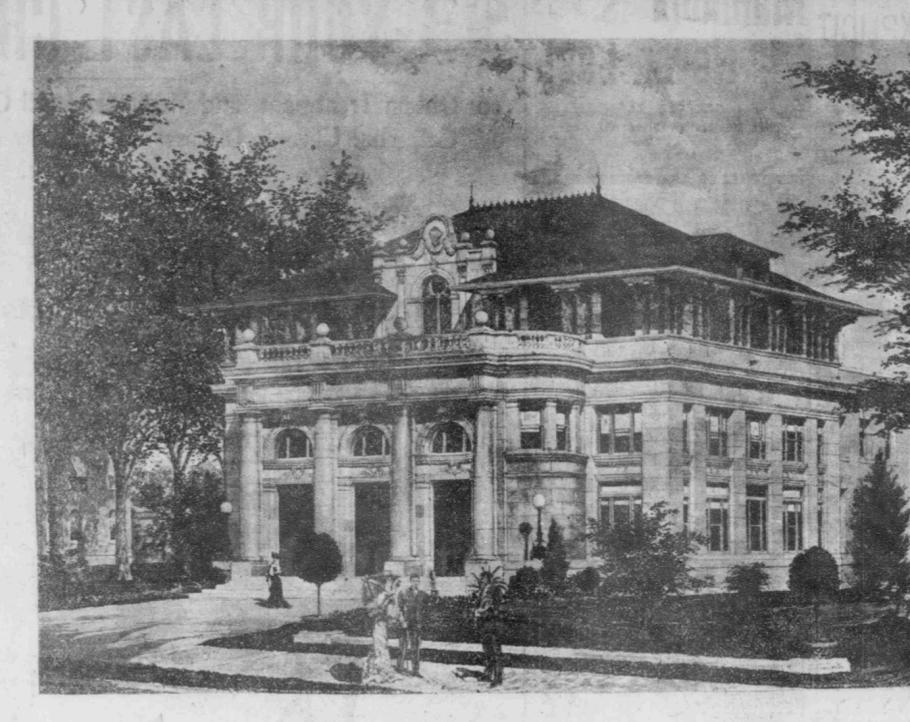

The real estate business is picking up. There is more activity in building circles. Plans are being considered for some extensive building when the season opens. Among the important undertakings is the new Packard public library, which is to cost \$75,000. There is a demand for building materials. It does not reach an exorbitant figure and there are no serious labor disturbances. Salt Lake is likely to see one of the most active building years in its history.

Bank clearings last week showed an increase. They were \$3,155,311.42, compared with \$2,945,512.24 for the corresponding week last year. Clearings yesterday were \$380,100.39, compared with \$381,848.14 for the corresponding day of last year.

There was a low sale of local commercial stocks and bonds. Yesterday's quotations were as follows:

Table with 2 columns: Local Stocks and Bonds, and their respective values.

BIDS BEING RECEIVED FOR NEW PACKARD LIBRARY.

Handsome Structure John Q. Packard Will Give to Salt Lake City.

For something like three years Mr. Packard has been studying libraries, with a view to securing ideas for the building he had promised Salt Lake City. He has visited public libraries all over the United States, gleaming suggestions from each. These ideas are embodied in the plans for the structure to be built on the site of the old club house, which is 10,000 feet. The building will be 70x32 feet, and two stories and basement in height. The structure will be fireproof, being built with concrete and brick. The only wood will be the interior oak finishes.

Enter through the porticoed doorway, the visitor will pass into the large reading room, 23x55 feet in extent. This will be the distributing desk. From one side will open the librarian's office. From the other side will open the children's room, which was designed by Mr. Hale, and the adjoining university club, but at the same time it will have great individuality. Built of Kyune gray sandstone and terra cotta, its solidity will be relieved by a large pilaster and arched portico in front, by projecting eaves and by other features, adding grace and beauty.

The lot, which directly adjoins the club house, is 10,000 feet. The building will be 70x32 feet, and two stories and basement in height. The structure will be fireproof, being built with concrete and brick. The only wood will be the interior oak finishes.

South of the Alta club on State street will soon be rising the walls of one of the handsomest public libraries in the United States. This is the new Packard public library, on which it is expected work will begin early in the spring. The plans are now in the office of Architect Fred A. Hale. Bids are being received. If the bidders remain within the estimated cost of \$75,000, the contract will probably be let inside of a month. If the price exceeds that figure, a decision as to the future course will remain with John Q. Packard, the donor of the building. He may ask for a new set of bids, may require changes which would bring the cost within the \$75,000 limit, or he may order work to be started on the contract being let to the lowest bidder.

may be remedied. The changes will involve an outlay of about \$10,000 and are expected to be completed in short order. The building site is owned by Messrs. Chamberlain and Deal, millinery, and will be fitted up with the most modern and elaborate fixtures, including about 1,000 feet of white vitreous tiling. The second floor will be occupied by a prominent building, which will also have elaborately fitted-up offices.

Building Permits. Building permits issued during week: Smoot & Eyer, Market street, brick stable, 5,000; Liberty Park M. E. Church society, Ninth South and Eighth East, brick church, 5,000; S. O. Kerkeby, 57 South State, brick shop, 1,000; D. E. Jones, 448 South Second West, brick cottage, 500; E. E. James, 408 South Main, frame barn, 500; B. J. Wilson, Washington street, frame barn, 500; Eliza Maney, 1151 South First West, brick cottage, 1,000; A. M. Pendleton, 1000 East Second, Fourth and Fifth South, iron shop, 200; A. M. Gordon, 308 East Second South, brick cottage, 1,500.

Real Estate Transfers. Jennie E. Mitchell to Louis C. Mortensen, 2x10 rods southeast from corner of 4th block 15, plat B., \$2,000; John Stoffer et al. to John Berger, 2 acres in section 13, township 2 north, range 10, \$1,000; P. A. Virtue to Harry B. Brooks, lot 22 and east half of lot 24, Avondale, \$1,000; Agnes K. Hill to Anna H. King, lots 25 and 26, block 5, South Lawn subdivision, \$1,000; William Oldfield to Alice L. Oldfield, east half of northeast quarter of township 2 north, range 2 west, John Bradwhite to George R. Wheeler, lot 19, block 8, Muscatine place, \$1,000.

Horticulture in Schools. The Salt Lake County Horticultural Society is very anxious to have fruit raising taught in the county schools. At the meeting of the association yesterday President Burgen, A. W. Casey, John Boyce and John P. Sorenson were appointed a committee to take the matter up with E. W. Ashton, county superintendent of schools. They will discuss with him the advisability of either making horticulture a regular part of the school course, or having lectures delivered upon the subject on certain days by competent persons.

County Fruit Growers Anxious to See It Taught There. The Salt Lake County Horticultural Society is very anxious to have fruit raising taught in the county schools. At the meeting of the association yesterday President Burgen, A. W. Casey, John Boyce and John P. Sorenson were appointed a committee to take the matter up with E. W. Ashton, county superintendent of schools. They will discuss with him the advisability of either making horticulture a regular part of the school course, or having lectures delivered upon the subject on certain days by competent persons.

LIBERAL GAIN. London, Feb. 13.—The bye-election yesterday of a member of parliament for the St. Albans division of Hertfordshire resulted in the liberals' winning the seat. The vote was: J. Bamford Slack (liberal), 4,735; Vicary Gibbs (conservative), 4,425.

HOLIDAY EXTENDED. Baltimore, Feb. 13.—In response to a request from the various trades bodies it was decided at a meeting today of the Clearing House association to extend the municipal holiday until Feb. 22. The banks have arranged to clear through the clearing house on Monday and will meet all demands next week, but the holiday will prevent any notes from going to protest.

NEW CONTRACT ON SALT LAKE ROUTE

Bids Likely to Be Asked For Soon.

WORK PROGRESSING FAST TRACK HAS REACHED THE THIRTY-NINTH MILE POST.

Within a week or ten days the contract will be let for another section of grading on the San Pedro, Los Angeles & Salt Lake road in Nevada. The engineering department is working on the specifications, and it is believed everything will be in readiness soon to ask for bids. The management is anxious to take advantage of the weather conditions prevailing during the winter months and get all possible work completed before the hot season sets in.

MR. BANCROFT RETIRES. Has Not Decided to Remove From This City to Omaha.

W. H. Bancroft, general manager of

the Union Pacific and Oregon Short Line systems, has returned to Salt Lake for a short stay. He departed yesterday that he had not decided to move to Omaha, as stated in dispatches from that city.

HE WANTS HIS CHILD.

Why J. D. Paul Is Searching For His Runaway Wife. The whereabouts of Mrs. J. D. Paul and Percy Brunner, who disappeared from this city about ten days ago, are still a mystery. Sheriff Emery has been at work for nearly a week and has sent photographs of the pair to cities throughout the western country, but as yet his efforts have been unsuccessful.

Mrs. Paul took with her a 4-year-old child, and this is the principal reason that she is being pursued. The father is anxious to recover the boy, and for this reason is leaving no stone unturned in the search for his missing wife.

Shortly after Mrs. Paul disappeared Sheriff Emery received information that she and Brunner had been seen in Denver. Efforts were at once made to locate them, but without avail. Later reports said that the couple had gone to California, but this statement is still unverified.

Are You Restless at Night And harassed by a bad cough? Use Ballard's Horehound Syrup. It will secure you sound sleep and effect a prompt and radical cure. See and \$1.00. Z. C. M. Drug department.

Rescued on Way to Grave; Professor Stops Funeral; Restores Donor to Life. Does He Possess Divine Power? Woman Threatened With Burial Is Revived by This Man's Mysterious Mastery Over Disease.

Most Phenomenal Miracle of the Age Without the Use of Drugs, Medicines or the Surgeon's Knife He Defeats Death and Restores Life and Health to Suffering Mankind. Completely Upsets Modern Medical Practice. Gives His Services to Rich and Poor Alike Without Charge—Refuses Large Check From Grateful Husband—Cures Men and Women Thousands of Miles Away as Surely as Those Who Call in Person.

(From Cincinnati Post)

ROCHESTER, N. Y.—Restored to life by a miracle, the woman who was on her way to the grave has been rescued by that world-famous savior of this city, Professor F. Adkin. The woman was being prepared for her long last journey when the attention of this scientific wonder-worker was called to her case. Responding instantly, and succeeding where doctors had failed, he restored her to life. Many sufferers from that dreaded disease of diptheria remained in quarantine from last week, one new case was reported and two discharged, leaving four cases in the city at the close of this report. Four cases of whooping cough and two cases of chicken pox were also reported.

MINES ALL WORKING. Denver, Feb. 13.—Orders have been issued at the state house reducing the military force at Cripple Creek to fifty-five men. These will remain in the field until the close of the present season in the Cripple Creek district at present, it is said, than ever before, and the output of the mines has been steadily increasing since the start of the year.

CONTRARY TO LAW. Berlin, Feb. 13.—The Vorwaerts (socialist) says the Prussian police recently arrested ten young Poles, deserters from the Russian army, near Butzen, and handed them over to the Russian authorities. This, the Vorwaerts avers, is contrary to organized practices under international law.

WILL SOON ORDER SALE. (Special to The Herald.) Washington, Feb. 12.—Senator Dubois today received a letter from the secretary of the interior stating that in view of the withdrawal of the opposition of the Washington senators to the sale of the Fort Sherman lands, an order for sale would be published immediately.

WELL TOLD. Doctor Explains Feeding Without Medicines. "It is a well substantiated fact," says a Maine physician, "that a very large per cent of the ailments of humanity are due to errors in diet causing indigestion and the myriad affections following in its train. It was Dr. Abenathy, I believe, who said: 'One-fourth of what we eat keeps us, the other three-fourths we keep at our peril.'"

UTAH HAS SIX DELEGATES. Anderson Receives Copy of Call For Republican Convention. A copy of the call for the Republican national convention, to be held in Chicago on June 21, was received yesterday by James H. Anderson, chairman of the Republican state committee. The call states that Utah is entitled to six delegates, and that many alternatives to be selected not later than thirty days before the convention. Notices of contests must be filed within twenty days after the date of the call.

SAYS HUSBAND WAS BRUTAL. Mrs. Segourney Declares He Attempted to Kill Her. In her suit for divorce against Thomas Segourney, Mrs. May Segourney says that on Jan. 30, 1904, while a resident of Seattle, Wash., he attacked the plaintiff with his fist, beating and bruising her, and then there attempted to kill plaintiff with a butcher knife.

SUFFRAGE SENTIMENT. Washington, Feb. 13.—Today's session of the Woman's National Suffrage association was largely devoted to a discussion of enrollment matters. The speakers, led by Mrs. Priscilla D. Hookstaff of New York, contended that suffrage sentiment is growing.

A PLEASANT SURPRISE. In Store For Those Who Doubt. When you read that a sufferer of many years' standing has been completely restored to health by using Smith's Cure-all, you are inclined to doubt the statement, and, in fact, have no belief in it whatever. The reason for this is that so much is claimed for the Cure-all it is impossible for anyone to believe it; if the advertiser confined his claims to the curing of one disease, as do the proprietors of Pyramid Pile Cure, readers would have much more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merit may be relied upon implicitly, also that the cures brought about by its use are little short of marvelous.

RESCUED ON WAY TO GRAVE; PROFESSOR STOPS FUNERAL; RESTORES DONOR TO LIFE. DOES HE POSSESS DIVINE POWER? Woman Threatened With Burial Is Revived by This Man's Mysterious Mastery Over Disease. MOST PHENOMENAL MIRACLE OF THE AGE Without the Use of Drugs, Medicines or the Surgeon's Knife He Defeats Death and Restores Life and Health to Suffering Mankind. COMPLETELY UPSETS MODERN MEDICAL PRACTICE. Gives His Services to Rich and Poor Alike Without Charge—Refuses Large Check From Grateful Husband—Cures Men and Women Thousands of Miles Away as Surely as Those Who Call in Person.

Physicians said there was no hope that she could recover, but you have saved her life. She improved from the very first day she commenced your treatment. The clot of blood has disappeared, she sleeps well and has a splendid appetite. Many sufferers from that dreaded disease of diptheria remained in quarantine from last week, one new case was reported and two discharged, leaving four cases in the city at the close of this report. Four cases of whooping cough and two cases of chicken pox were also reported.

Many sufferers from that dreaded disease of diptheria remained in quarantine from last week, one new case was reported and two discharged, leaving four cases in the city at the close of this report. Four cases of whooping cough and two cases of chicken pox were also reported.

ROCHESTER, N. Y.—Restored to life by a miracle, the woman who was on her way to the grave has been rescued by that world-famous savior of this city, Professor F. Adkin. The woman was being prepared for her long last journey when the attention of this scientific wonder-worker was called to her case. Responding instantly, and succeeding where doctors had failed, he restored her to life. Many sufferers from that dreaded disease of diptheria remained in quarantine from last week, one new case was reported and two discharged, leaving four cases in the city at the close of this report.
