

LINES ON PALM TELL OF DEATH

Chirosofist Has Theory O. J. Long Was Murdered.

SHERIFF SURE OF SUICIDE

DEAD MAN LEFT-HANDED—BULLET ON RIGHT SIDE.

A violent death was written on the palm of O. J. Long. A palmist accompanied County Physician H. N. Mayo yesterday to the undertaking rooms, where by the body of the former man of construction of the Western Union Telegraph company, found near Murray Tuesday. A wax cast of the dead man's hand was made and carefully examined. According to the palmist, Long's life line is broken short in a manner that indicates a violent death. The palmist reads that Long did not come to his death by his own hand.

Sheriff C. Frank Emery thinks differently, however. "After a careful resume of all the facts surrounding the death of Long, I am of the firm opinion that his death was the result of a bullet wound inflicted by his own hand," said Sheriff Emery last night. "There seems to be nothing that would warrant the theory of murder being considered. While I have not been called upon the case personally, the reports of Deputies Steele, Cowan and Beckstead are in and show beyond the shadow of a doubt that Long committed suicide."

Notwithstanding the view taken by the authorities, and which is borne out largely by their investigation, one fact connected with the case that will appeal strongly to lovers of mystery. Long, it appears, was left-handed. The bullet entered the right side of the head. "Superintendent of Construction C. L. McKean of Omaha is now here and is making an examination of Long's accounts," said Local Manager A. H. May of the telegraph company yesterday afternoon. "He has made no report as yet, but will do so soon as he completes his investigation."

According to advices received at this office today, Long's mother, Mrs. J. E. Long, resides at Des Moines, O. She has been notified of her son's death, and she is awaiting further word from her.

IDENTIFIED THE LETTERS.

Dimond on the Stand in the Land Fraud Hearing. San Francisco, May 6.—When H. P. Dimond took the stand today in the hearing before Commissioner Hoagcock in the Benson and Hyde land fraud cases, he identified a number of letters which were offered in evidence by the government. Some of them were letters written by Dimond as the counsel of Hyde and Benson, while he was acting as their attorney before the general land office at Washington. The letters, in part: "The laxity of the system you employed is the cause of all this, and as a consequence you are at this moment sitting over a mine that may be set off at any moment, and some move will be made and quick."

SENTENCED TO DEATH.

Montana Murderer Will Pay the Extreme Penalty. Great Falls, Mont., May 6.—George Hilboka, convicted of murder in the first degree in the district court, was today sentenced by Judge Leslie to hang June 17 in the county jail yard here between the hours of 4 and 10 a. m. The condemned man is a Slav, and came from Cleveland, Wash., several months ago in company with George Sedlack. The two men left Sand Coulee together the morning of Feb. 11, Sedlack having about \$1,000 on his person. The next day the body of Sedlack was found beside the trail which the men had followed, five bullet holes being in the head, and the clothing and everything of value. Hilboka had left the body and, returning to the hotel where the men lodged, had gathered up the effects of both men and fled to Chicago, being captured at Grand Forks, N. D. On the stand his defense was that Sedlack had thrown whiskey in his eyes and made him crazy.

GOLD FOR PARIS.

New York, May 6.—A shipment of \$2,500,000 gold for Saturday's steamer was announced today by J. P. Morgan & Co. One-half of that amount was ordered at the assay office and the balance is in gold coins, also for Saturday. Lazard Freres engaged \$1,000,000 gold for shipment to Europe Saturday. An engagement of \$1,000,000 gold by Goldman, Sachs & Co. also for Saturday, brought the total thus far announced for shipment to Paris on Saturday up to \$4,500,000.

STRIKERS THREW BRICKS.

Chicago, May 6.—Striking bakers caused a riot today. The occasion was an attempt on the part of R. Piper & Co. to send out twenty-five delivery wagons with non-union bakery goods. In spite of the efforts of the striking bakers to stop the wagons by throwing bricks and other missiles at the drivers the wagons finally made a successful arrest. None of the rioters were injured.

EXPELLED FOR CAUSE.

New York, May 6.—The expulsion of three members of the Consolidated Stock exchange was announced today. The expelled members are W. Grant Hoage, who is said to have been connected with the firm of Longley, Hale & Co.; M. E. Halley and A. H. Page. The expulsions were made on charges that these members had engaged in irregular transactions.

SMOOT SAYS HE IS CONFIDENT

Returns Home—Expects to Retain Seat.

BOOMS FAIRBANKS FOR VICE

TELLS OF WORK HE HAS DONE IN THE SENATE.

"I haven't the least doubt in the world but what I will be seated," said Senator Reed Smoot yesterday afternoon. "I have never intentionally done a man, woman or child a wrong in my life. If I have, I am willing at this or any other time to make reparation. There is nothing to prevent my being a good American citizen. If the time ever comes when I can't be a good citizen of the United States I am going to leave it. I do not want to live in a country when I cannot be a good citizen."

Senator Smoot had just returned from Washington when he made the above remark. He arrived in the city at 8:30 o'clock yesterday morning, spent the day attending to private business and meeting friends. He took the evening train for his home at Provo. He will not return to Washington until December, the next session of congress. When asked if a sub-committee was coming to Utah to make a further investigation, Senator Smoot said:

"Personally, I know nothing about my case. It does not interest me as much as it does some other people. I am going ahead and doing my duty as a senator just as though nothing of the kind were in progress. I have read the date a sub-committee is to come to Utah. It can do so as far as I am concerned. It can go where it pleases; do as it pleases and examine as many people as it pleases. I court the fullest investigation possible. I have done nothing wrong; there is no reason why I should be treated as a criminal. The whole matter does not worry me in the least."

Favors Forest Reserves. Commenting upon his work in the last session of congress, Senator Smoot said relative to forest reserve matters: "There are to be eleven forest reserves in the state, which will be under the personal supervision of the secretary of the interior. My whole aim has been to make reserves for the purpose of preserving the streams and protecting the forests left in the state, small though some of them may be. On the strength of hundreds of letters and telegrams from the state, and upon the opinion of men living adjacent to the reserves, I have acted in the matter. It is my purpose to remain with the matter to the end."

Establishment of the forest reserves is not to prevent people from using the lands, but primarily to protect the watersheds. And secondly, to restrict the use of the lands by sheep and cattle so that they will not be ruined. Each reserve is to have a supervisor and a number of rangers, whose duty it will be to see that the laws governing the reserves are carried out. These local men will be under the supervision of the secretary of the interior. I feel confident that in the end the establishment of forest reserves will work to the benefit of all."

Talks For Fairbanks. "Politically, there is nothing particularly new. No one is talking for president on the Republican ticket in the east but Roosevelt, and he will be nominated by acclamation. There is a growing sentiment in the west for Fairbanks for vice president. At one time he came from a doubtful state, but now there is no question about Indiana. Fairbanks is well liked in the east. A strong-minded man and will make a good running mate for the president."

This morning I called upon Edward H. Anderson of the federal land office and told him that the land department wanted him to notify the people who have surveying contracts in the United States reservation that there will be no extension of time for the completion of their work after Sept. 1. All their contracts must be fulfilled by that date. It is now the wish of the department to follow the last law, and throw the reservation open March 10, 1905.

The reason I have insisted that the reservation be opened at such an early date is to permit the settlers to put in a crop that year. If the opening date were postponed it would be impossible for those who enter the land to put in crops for that year, meaning a delay of twelve months.

From the very start I have appreciated the necessity of a fish hatchery for Utah, and succeeded in getting through the senate a bill which I introduced to that end. When it reached the house the appropriation bill had already been made up, so it was impossible to get it through this session. But it has been placed upon the house calendar and will be passed by the next session.

Work on Pensions Committee. "I had the honor of being placed upon the pensions committee. I believe that every pension bill that came within the rules was passed by that committee. I wanted them as they came from the committee. As to the success I will let the old soldiers testify as to what has been accomplished. "The pension and claims committees are two of the hardest committees in the senate, especially the claims committee. We have men and women come to see us every day with all kinds of tales of woe. Some even go so far as to threaten a man. I have always made a rule, and intend to stick by it, never to vote for a claim that I will not pay myself. Because of my objection to favoring claims which I did not think were right and just, I have gained the name of an obstructionist or objector. I am willing to receive that title and carry it, for I am simply doing what I consider my duty."

Status of Blank Hawk Pensions. "The Herald published a story from Washington some time ago quoting somebody to the effect that the Black Hawk war pensions were not being passed because of the Smoot agitation. That is not so. As a member of the committee, I worked for the pensions. I had prepared a statement on the facts, and it was expected of me to make a speech on it, but it did not come up. It is a general pension claim, and there is a demand for a general pension law. But the party in power decided there be no general pension law, especially a general pension service law. "There is a peculiar feature about the Black Hawk war pensions, which I think very few people are acquainted with. The pensions were not passed because they are fully 300,000 civil war veterans who are not receiving any pension, and half that number who are only receiving \$6 per month. It is an admitted fact in Washington that all the Black Hawk war fighting was done by the militia. There is not a man or record of any kind showing that the men who fought the Indians were ever mustered into the regular service; ever received any money from the government, or were mustered out of service as regular soldiers. "In view of that fact, if the Black Hawk veterans were to receive a pension, it would be throwing down the bars for pensions upon a scope that is not now contemplated. It requires a special law to cover their cases. I be-

lieve, however, that the time will come when those brave men will receive due recognition from the government for their valiant services. "Physically, I am in perfect health. My appetite is good, and I sleep well. I have gained ten pounds since I have been gone."

MUNYON TALKS TO WOMEN.

Munyon's Witch-Hazel Soap is really a skin food and vitalizer. It nourishes the skin just as much as food nourishes the body. It puts every pore into a healthy condition; assists Nature in throwing off poisons from the body; always inflammation cools, soothes and heals all irritated parts. It cures chapped hands and lips, and all forms of chafing. No soap, no lotion, no wash ever made will so quickly quiet a baby suffering with prickly heat or any form of rash as Munyon's Witch-Hazel Soap. Its soothing effect upon the little ones is almost instantaneous. I want every person troubled with hives, or who is tormented by any itching, to bathe with Munyon's Witch-Hazel Soap, using water as hot as the skin can bear. Relief will be immediate. MUNYON'S Sold everywhere. Price 15 cents.

Correct Clothes for Men

HAT makes you stylish? Not so much your clothes as the way you wear them. The same suit or overcoat on another man might not be becoming, and you'd say he was not well dressed.
