

FARMERS BRING LITTLE PRODUCE 1905 TEACHERS ARE SELECTED

Scarcity of Local Fruits and Vegetables Noticed. Board of Education Names Those For Next Year.

STRAWBERRIES ARE FEW FEW CHANGES ARE MADE

UTAH BLACK CHERRIES BEGIN TO ARRIVE. ALL PEDAGOGUES OFFERED THEIR OLD POSITIONS.

Grocery men say that for this time of the year, the farmers are bringing in less produce to the city than for almost a decade. The dealers are unable to account for this scarcity of fruits and vegetables. Contrary to the general expectation and hope of a large crop, Utah strawberries are coming in slowly. A few boxes were brought into Salt Lake yesterday morning, and were sold at a price almost incredible for the time of the year. The farmers tried to raise the price to the merchants, as the fruit was so scarce, but the dealers would not stand for it, preferring to go without rather than pay high prices. The berries this year, although large and solid, have little flavor. Some of them are almost tasteless. Utah black cherries are now on display at the local stores. They can be procured at a price cheaper than the California variety, which sell for 20c a pound. Fish continue scarce as ever. Some of the dealers were out of brook trout yesterday. Yesterday's retail quotations:

TRAIN JUMPED TRACK Accident on Northern Pacific in Montana—Three Men Injured.

Helena, Mont., June 8.—Westbound passenger train No. 3 on the Northern Pacific jumped the track near Park City, Mont., about eighty miles east of Helena, today while going at full speed. The engine ran about 100 feet on the ties and then with the mail car went into the ditch, the mail car being badly wrecked. The fireman and express messenger are said to have been severely hurt. The passengers escaped with a severe shaking up. Wires are down and further particulars are unobtainable.

Three men were injured in the wreck. They are Fireman R. Rowland, Livingston, leg crushed; E. B. Capp, engineer, ribs hurt; William Ogden, extra express messenger, scalp cut; W. C. Dillon, regular messenger, bruised and shaken. Many passengers were cut by glass from the windows which they broke in an effort to escape by that means. One was seriously hurt. A Great Northern railroad surgeon was aboard and attended the injured, who are being cared for in the Pullman car of the train No. 3, which is behind the wreck at Park City. The track will be cleared in a few hours.

SITUATION IMPROVING. San Francisco, June 8.—The strike situation at the Southern Pacific freight yards was improved today so far as the railroad is concerned. Cars were rapidly loaded at the receiving sheds and the check-out of the cars for the business was about normal. The men who replaced the strikers are being boarded by the company.

SUIT FOR DIVORCE. Wooster, O., June 8.—Major E. G. Taggart of the U. S. army, located at Fort Leavenworth, Kansas, brought suit here today for divorce from Grace Culvert Taggart, who was a prominent society girl of Chicago. He alleges desertion.

SURE! I'd like to know of a delicious hot meal time drink to take the place of COFFEE.

OIL IS STRUCK NEAR FILLMORE

Land Board Gets It While Drilling For Water.

QUALITY ABOVE AVERAGE

EXPERTS SAY IT EXCELS THAT FROM BEAUMONT.

Drillers for water on a quarter-section of land about three miles northwest of Fillmore, Millard county, have struck oil. As yet there is not a sufficient quantity to call it a flow. Samples of the oil have been examined by Chicago oil experts and carefully analyzed by chemists. Both say it is exceptionally high grade, better than the finest found at Beaumont, Tex. A peculiar feature of the strike is that if an oil well does develop that it will be owned by the state. The state was drilling for artesian water for irrigation purposes when the first evidences of oil were found. The legislature appropriated \$10,000 to be expended by the state land board in making experimental borings for water. It was only recently that anything was done, owing to the inability of the board to procure the right kind of machinery. A short time ago it was decided to sink for water just above Fillmore. At a depth of forty feet water was struck. The quantity was not sufficient for irrigation purposes, and the drill was kept at work at a depth of 700 feet there was 640 feet of water in the bore. At the same time oil was encountered in the shale deep in the ground. The farther the drills are forced down the greater the evidences of oil. It is now secured in sufficient quantities to warrant the belief that at some depth a strong flow will be struck.
