

GROCCER TRIED ON SECOND CHARGE

E. L. Price Says He Tried to Comply With Law.

TESTIFIES IN OWN BEHALF

JUDGE DIEHL RESERVES DECISION UNTIL THURSDAY.

E. L. Price, the grocer who is resting under two charges of violating the weight and measure ordinance of Salt Lake City, took the stand yesterday afternoon in Judge Diehl's court in his own behalf. Mr. Price's testimony followed that of numerous witnesses produced for the prosecution by Assistant City Attorney D. O. Willey. After the defendant had concluded, two additional witnesses were put on by Attorney James Ingebreten, whose testimony went to show that Mr. Price had endeavored to comply with the ordinance. The greater part of the afternoon was spent in deciding points of law which were the bases of continual objection from one side or the other.

Case Made by City.

The city's efforts went to prove that City Sealer H. P. Richards possessed a complete set of standard measures by means of which he tested such as might be offered by peddlars or grocers complying with the law. Mr. Price's peck measure did not meet the test. Mr. Richards told of his interviews on five different occasions with Mr. Price in regard to the subject of obtaining and having sealed correct peck-measures. Mr. Richards asserted that he had not been accorded the courtesy due an official from the grocerman.

On the other hand, Attorney Ingebreten produced a witness in the employ of a local tinning company, who swore that Mr. Price had given him an order for a standard peck measure on May 12, several days prior to his arrest. The measure, owing to a rush of business, was not completed until the date after the complaint had been sworn out against Mr. Price. It had not been ordered, however, until nearly a month after Mr. Richards' first call.

Decision to Be Given Tomorrow.

At the conclusion of testimony counsel agreed to take an adjournment for argument until Thursday morning. At that time Judge Diehl will announce his decision in regard to the first charge upon which Mr. Price was charged, that of having at his place of business measures unsealed by the city sealer. The charge upon which he was tried yesterday was that of having in his possession for the purpose of weighing articles for sale measures not conforming to the official standards.

Judge Diehl stated after yesterday's hearing that the matter was one of great importance to the public and he desired to make a full investigation into the subject before passing judgment.

STRIKERS PICKET PLANT.

Linemen Station Guards Around Telephone Company's Office.

Pickets have been stationed about the plant of the Rocky Mountain Bell Telephone Company by the linemen who went on a strike Saturday afternoon. No steps were taken by either side toward a reconciliation. The strikers declare that they will stay out until the company pays what they think they should receive. The strike has now become general and nearly all the workmen in the employ of the company have left.

"There is something more behind this affair than the strikers have spoken to you about," said General Manager D. S. Murray of the company, yesterday. "What their object is I do not know. It was a small matter regarding sub-foremen that they struck on, but I do not see what reason they had for striking. When a man is a sub-foreman we pay him for it, but when a man is not we are unwilling to pay sub-foremen wages."

Doctors Say Drink More Schlitz

The body requires ten glasses of fluid per day. Most people drink too little to flush the body of its waste. The result is bad blood, nervousness, disease.

Then the doctor says "Drink More;" and he knows this advice to be worth more than medicine.

That's one reason why pure beer is good for you. It leads you to drink more. And the beer is also a food and a tonic. But the beer must be pure.

Schlitz beer is brewed in absolute cleanliness and cooled in filtered air. It is aged for months so it will not cause biliousness.

That's why doctors say "Schlitz." Ask for the Brewery Bottling.
