

COLD WAVE OVER OLD MISSOURI

Candidate Fairbanks Freezes the Marrow of the Natives.

LUCKILY, TRAIN MOVES ON ELEMENT OF FAIRNESS ENTIRELY LACKING.

Kansas City, Mo., Sept. 3.—Senator Fairbanks departed early today for Chicago on the regular Atchison, Topeka & Santa Fe train en route to Bath, Mo., where he speaks on Monday. The programme for the day included speeches by Senator Fairbanks from the rear of the train at Carrollton, Marcelline, Laplate and Mead, Mo.

REAR PLATFORM SPEECH

Hoosier Candidate Advocates Defeat of Folk.

Marcelline, Mo., Sept. 3.—When Senator Fairbanks left Kansas City on his return to the east today he was scheduled to make brief stops at several points in Missouri, and finally plans were pursued. The first stop was made at Lexington Junction. There the senator made no speech, but he personally greeted all who were assembled.

At Carrollton there was a longer stay and a larger crowd, and he made a brief speech from the rear platform, saying, among other things: "It is gratifying, indeed, to witness as I travel through the great state of Missouri the evidence of interest which you are taking in the great political questions which concern the American people. Missouri during the past few years has enjoyed a measure of prosperity that has been unusual for her. There has been prosperity in the factory, prosperity on the farm, prosperity upon all the great lines of commerce. All of this in the fullest degree is a high tribute to the efficacy and virtue of Republican policies and Republican administration. Do we wish to continue our progress? If we do, then we should hold fast to the policies under which we have accomplished so much and we should support the administration which is achieving so much in our common interest. We have today in the White House a brave, splendid man, worthy of the continued confidence of the people of Missouri and of the entire United States, Theodore Roosevelt, and I am glad to see evidence in the state of Missouri which leads me to believe that the Republicans of this grand old commonwealth have determined to put a magnificent Republican in the governor's office."

Mr. Wallbridge, the Republican nominee for governor of Missouri, who was aboard the train, also spoke for a few moments. At Marcelline there was another crowd and also a brief speech on the presidential candidate. The greeting at all stopping places was respectfully cordial and there was liberal applause of the speeches.

CHEAP DEMAGOGY.

Disaster Following Harrison's Administration Wrongfully Applied.

La Plata, Mo., Sept. 3.—At a meeting, Senator Fairbanks recalled a trip he had made over the Santa Fe railway in 1896, and said there were by no means as many signs of prosperity along the line then as now. There then were, he said, many "empties" and many dead engines, whereas "today the equipment of the road is taxed to its utmost." "There are no engineers at the throttle today there were in 1896. Why, my good friends, I will tell you why. Because during the last seven years we have been operating under Republican policies, and there have been two great patriotic American statesmen at the throttle in Washington. One of them, William McKinley, we followed loyally and lovingly in 1896 and again in 1900, and in the language of Edwin M. Stanton, he now belongs to the ages. We have in the White House his constitutional successor, who is carrying into effect the same policies and the same principles for which McKinley stood."

there, with her crew on board; that she has not entered the repair dock; that her commander is still awaiting orders. Madam Nelkoff, wife of the Russian ambassador to France, is at Toulon supervising the final equipment of the hospital ship Ora. Owing to the amount of the French subscriptions, the Ora has been fitted out with a new flag, which will sail Sept. 27 for an unknown destination and will fly the Red Cross flag, which is expected to live her immunity from seizure by the Japanese.

CAUSE OF RUSSIAN RETREAT.

St. Petersburg, Sept. 4.—The following report has been received from General Kuropatkin dated Sept. 2: "The enemy (Friday) night attacked and seized most of the positions occupied by our troops at Sykstantun, and the troops holding the position in question retired to a rear guard position between the villages of Shanshtun and Shitshtun."

"The same night the First Siberian army corps which had sustained heavy losses during the last five days, and which was in danger of having its flank turned, owing to the enemy's superior forces, retired several kilometers to the westward."

"In these circumstances I ordered Liao yam evacuated and the troops to retire northward."

"A Toothsome Flavor."

"True for you, there's a treat in the crisp, nutty, delicate sweet taste of Grape-Nuts served with thick cream. (Don't spoil the food by trying to cook it. That work is done and perfectly done at the factories.) The cream should soften it a bit, but not enough to excuse the eater from at least a few good, earnest 'chews' for old Dame Nature sends rich blessings to the long chever. Of course, the one with weak teeth can soften the food with milk down to a mush if necessary, but the good old Dame doesn't smile quite so cheerfully on them."

"You know children and adults must use the teeth and grind freely to make them grow strong and to preserve them. Then the act of chewing brings down the much needed saliva from the gums, and that helps amazingly in the digestion of foods of various kinds. The saliva is not so much required with Grape-Nuts for this food is pre-digested, that is, the starch turned into a form of sugar in the process of making, and that helps give it the fascinating flavor."

"Grape-Nuts people are healthy and enjoy good things. 'There's a reason.'"
