Several Suits Disposed of by Judge Marshall. The following cases were disposed of yesterday by Judge Marshall in the United States court: Thomas Wylie vs. Southern Pacific, suit for \$10,000 damages for personal injuries alleged to have been received while in the employ of defendant; dismissed on motion of the plaintiff. United States vs. C. R. Potts, grazing sheep on forest reservation; dismissed upon motion of the United States attorney. Leonard Gillet vs. Daly-West Mining company, suit for \$50,000 damages for injuries to eyes while employed by defendant; settled out of court and dismissed upon motion of plaintiff. A. W. Valentine, administratrix of estate of Allan Towson, deceased, vs. Southern Pacific company; damages to the amount of \$20,000 sued for because of the negligent killing of Towson while in the employ of the defendant company on a gasoline launch in Box Elder county; judgment for plaintiff in the sum of \$250 by agreement.

Court Notes. Judge Morse will have a setting of jury cases Saturday morning. Herman Hardstein of Poland was admitted to citizenship by Judge Lewis yesterday. Judge Lewis yesterday discharged Orson Hudson, accused of obtaining money by false pretenses on account of insufficient evidence to convict. The proof of the guilt was some admissions he made and the court held that this could not be used against him. The prosecution was unable otherwise to bring sufficient proof of guilt against the man. The man was accused by Albert Sofer on December 15 of defrauding him of two checks, one for \$1,000 and another for \$2,000 on July 13, 1902. Sofer claimed that Hudson had bought 1,000 head of sheep in Idaho and had paid \$1,000 down as part payment. He induced Sofer to give him checks for \$3,000 for the herd. It later developed that the sheep were mythical. Henry P. Richards, George Y. Wallace, Jr., and Robert Harkness, the referees appointed to sell the property involved in the suit of Hyrum J. Debenham against Emanuel Kahn and wife, yesterday reported to the court that they had sold the land Saturday at public auction for \$2,000 to the plaintiff. The land comprises 25.78 acres in the southeast quarter of section 27, township 1, south of range 1 east of Salt Lake meridian. The parties originally owned the land in common. June 22 Debenham bought the water right of his partners, but not their share of the ground. September 15 he brought a friendly suit for a proper division of the land. Judge Hall last month ordered the property sold to the highest bidder and the proceeds be equally divided between the joint owners. Suit for divorce was commenced yesterday in the Third district court by Heber B. Smith against Ellen Smith on the ground of incompatibility. The couple were married at Logan, September 21, 1890. The husband says he and his wife have not been living together for some time. The husband alleges that at various times during 1901 and 1902 his wife has caused him through her conduct to cause him so much mental pain and distress that he was unable to perform his daily vocation in order to support his family. Suit to quiet title to a piece of ground measuring eight by one rods in the northwest corner of lot 4, block 20, plat B, Salt Lake City survey was brought yesterday by Permelia F. Bassett against Mary E. Bassett. Mrs. Sarah Warner of 84 State street was committed to the state mental hospital at Provo by Judge Lewis yesterday. Her husband, H. Warner, testified that she has been ill with hallucinations, imagining she hears music and other sounds. It is alleged she has attempted to kill her four children. Pain due to childbirth is given as the cause of the woman's insanity.

CHRONIC SORES

Wheeling, W. Va., May 28, 1902. Some years ago while at work, I fell over a truck and severely injured both of my thighs. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were healed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated, nor have the sores ever broke out again. Some 12 years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.

Care Schmulback Brewing Co. Chronic sores start often from a pimple, scratch, bruise or boil, and while salves, washes and powders are beneficial, the unhealthy matter in the blood must be driven out or the sore will continue. S. S. S. reaches these old sores through the blood, removes all impurities and poisons, builds up the entire system and strengthens the circulation. S. S. S. is a blood purifier and tonic combined. Contains no mineral whatever but is guaranteed purely vegetable. If you have an old sore write us and our physicians will advise you without charge. Book on diseases of the Blood free. UTAH'S SCHOOLS COST A BIG SUM

Few States in the Union Expend More Per Capita. REPORT OF THE COMMISSIONER OF EDUCATION. (Special to The Herald.) Washington, Nov. 7.—There are few states in the Union that expend a greater amount per capita each year in the maintenance of public schools than does the state of Utah. The annual report of the commissioner of education, made public yesterday, shows that the per capita cost of the public schools of Utah is \$5.06, while the general average per capita cost of the public schools of the entire United States is but \$3.15. Other interesting facts are brought out by the commissioner's report. It is shown that for the year 1902-03, the latest year for which statistics have been compiled, the public school system of Utah cost \$4,466,096. One of this amount \$34,735 went for the purchase of sites and the erection of new schools, and \$20,955 was paid out in salaries to teachers. Male teachers in Utah received a monthly salary of \$71.11 and females \$48.37. The average monthly salaries in the United States were \$49.58 for males and \$40.51 for females. Utah raises for the support of its schools \$418,381 from state taxes, \$886,376 from local taxes, and \$145,388 from other sources. Out of an estimated population of 255,000 there are 73,409 pupils in public schools and reports show a steady daily attendance of 57,916. To instruct this army of children a corps of 1,962 teachers is employed.

Wyoming. The department estimates that 14,299 out of the total population of Wyoming attended public schools during the year 1903-04, or 14,152 pupils in all. The total expenditure for public schools in Wyoming amounted to \$83,651, or \$2.50 per capita of population. Out of this total \$180,286 was spent in salaries of teachers and \$27,397 for the purchase of sites and erection of new schools. In Wyoming the male teachers are paid monthly salaries averaging \$72.88, while female teachers receive \$48.37. The salaries are away above the general average for the country. The total public school property of Wyoming is estimated to be worth \$452,497. In support of its schools \$223,394 from local taxation and \$25,223 from other sources.

Idaho. Out of an estimated population of 187,738 Idaho last year had 43,131 pupils in her public schools, and employed 1,234 teachers. The annual expenditure for Idaho's schools was \$356,598, which would amount to \$2.40 per capita of population—away above the general average for the country. Idaho raises receiving an average of \$85 a month and females \$52. The school property in Idaho is valued at \$1,071,283. In support of its public schools Idaho raises \$223,394 from local taxes and \$266,544 from other sources, state and local.

GRADES OF LEmons ADVANCE

Quality, However, Makes Up Difference in Price. Navel Oranges Expected. UTAH EGGS SCARCE, EASTERN RECEIPTS FEW. A carload of lemons arrived on the market yesterday and the wholesale price was raised \$1.00 on all the grades. The extra fancy were quoted at \$5.00 a box and the standard grade at \$4.00. The best part of the lemon crop is now on the market and most received yesterday were the largest of the season. Oranges are off the wholesale market entirely and the next crop comes on in about three weeks and later on the market. The price of lemons in Utah is but \$3.15. Other interesting facts are brought out by the commissioner's report. It is shown that for the year 1902-03, the latest year for which statistics have been compiled, the public school system of Utah cost \$4,466,096. Music and Drama. The fact that it was the night before election didn't have any effect on the patrons of the Grand last night. They turned out in full force and enjoyed the "Darkest Russia," and were rewarded by a performance that was a thriller. "Darkest Russia" is full of Nihilist heroics, narrow escapes and other things of that sort too numerous to mention. Everything worked out happily in the end, too, and everybody went home delighted, including some forty or fifty doctors, who had turned out to see Russian devilishness exposed. The company presenting "Darkest Russia" is a large one. There are many very clever people in it and some who are not so clever. On the whole, though, the cast is well balanced, and the play is more than creditably presented, as the frequent applause last night abundantly showed. The setting is all that could be desired by the most critical. "Darkest Russia" will be seen again tonight, tomorrow night and at a matinee tomorrow.

Orders have just been received from the secretary of the Interior by R. W. Charlton, forestry inspector in charge of the forest division, to the effect that no sheep grazing will be allowed in the Salt Lake reserve for the season of 1905. Regulations limiting the grazing of cattle and horses, the orders state, will be decided upon later. The only land in the Salt Lake reserve not coming under the jurisdiction of the United States government is City Creek and Parley's canyon property, owned by this city. According to sheep owners and interested parties in this state, the orders from the department of the Interior will work a hardship upon no one. "To my knowledge there are no sheep in the Salt Lake reserve except a few in the vicinity of Clear Creek," said Jesse M. Smith, state sheep inspector. "For several seasons the reserve has been used only as a byway by herders who wished to get their flocks over to the east side of the mountain ranges. Owners can drive their sheep through to the east side of the mountains without fear of interference from the government. While it can declare the reserve closed, its use for the purpose I have stated cannot be prohibited."

LEAVES THE PRESIDIO FOR EASTERN STATION. San Francisco, Nov. 7.—After nearly a year spent in the infantry cantonment at the Presidio, where it had been since its return from Minidabo campaign of last year, the Twenty-eighth infantry left this city today for its new stations at Fort Snelling, Minn., and Fort Lincoln, N. D., under the command of Lieutenant Colonel W. L. Fitcher, Colonel Sweet, the regular commander of the regiment, being already in the east on leave of absence. The Twenty-first infantry, which arrived late Friday night, will remain in the cantonment vacated by the Twenty-eighth until the early spring, when it will proceed to the Philippines, being relieved at the Presidio by either the Fourteenth or the Twenty-third infantry, both of which regiments will soon be ordered home from the islands.

WANT PUBLIC TO HELP CLEAN UP. Ladies' Literary Club Will Wage Campaign. REFUSE TINS ARE NOT USED. EXPECTORATION ORDINANCE IS DAILY VIOLATED. The matter of cleaning the city streets was again taken up yesterday by the home and education section of the Ladies' Literary Club. It was decided to wage a thorough campaign in an effort to arouse public sentiment. The section has made every effort to have the expectoration ordinance enforced, as yet without success, and the policemen, through the city council, complain that they are powerless to act in the matter. The refuse tins placed at the street corners, the policemen say, are not used by the public, and no effort is made to compel their use. One policeman claims to have watched a hundred persons who did not make use of the garbage cans for scraps of paper, etc. The destruction of valuable trees by unequal grading and the wilful disregard of the rights of property owners were also taken up. The former matter was referred to the committee on forestry. Some steps will be taken to stop this. In addition to this line of work, the section voted a sum of \$25 toward the free night school fund, the money to be given some time next month.

SOME ASK FOR TEMPLE. County Clerk James Explains About Marriage Licenses. John James, county clerk, said yesterday that the reason the marriage license blanks containing cuts of the Mormon temple had been destroyed and certificates bearing a picture of the city and county building substituted was not because some persons objected to the former. He said that the certificates upon which were printed a picture of the temple were torn up because they had become too soiled to use. "This form of certificate is used only when persons ask for them," continued Mr. James. The blanks were supplied the office by the Latter Day Saints church for those couples who come to Salt Lake to be married in the temple and wish to have their certificates as a souvenir of the place in which they were wedded. The certificates bearing the picture of the city and county building are issued to all couples unless the other style is asked for.

SOME ASK FOR TEMPLE. County Clerk James Explains About Marriage Licenses. John James, county clerk, said yesterday that the reason the marriage license blanks containing cuts of the Mormon temple had been destroyed and certificates bearing a picture of the city and county building substituted was not because some persons objected to the former. He said that the certificates upon which were printed a picture of the temple were torn up because they had become too soiled to use. "This form of certificate is used only when persons ask for them," continued Mr. James. The blanks were supplied the office by the Latter Day Saints church for those couples who come to Salt Lake to be married in the temple and wish to have their certificates as a souvenir of the place in which they were wedded. The certificates bearing the picture of the city and county building are issued to all couples unless the other style is asked for.

MUNYON'S PAW-PAW. Look for the Shield of Quality. on the marble boy—and you'll get the genuine Kelsbach marble. All Dealers. I want to make it very plain to all sufferers from indigestion that nature has in my Paw-Paw provided a certain cure for this distressing ailment and all of its troublesome consequences. The native tribes of the tropical countries where the Paw-Paw grows use the fruit as a digestant and cure for all stomach ailments, but as I have compounded it and combined it with well known therapeutic agents in my Paw-Paw Tonic, it becomes a scientific specific for Dyspepsia, Nervousness and Sleeplessness. I know it will cure these troubles speedily and thoroughly. It does away with all desire for beer, wine and whiskey. Gives exhilaration without intoxication. If the liver is sluggish and you find yourself constipated, bilious and feeling dull and heavy take a dose of my Paw-Paw Laxative Pills. I consider them the best stomach and liver pill on earth. Every druggist will give you the names of hundreds who have been cured by Munyon's Paw-Paw Tonic, Paw-Paw Pills or other Munyon remedies. Munyon's new Illustrated Magazine of Health sent free. DR. COOK'S QUICK, CERTAIN AND SAFE CURE FOR VARICOCELE. The only known method that cures the disease without a surgical operation, loss of blood, the least bit of pain and not interfering with occupation. My treatment by Acupuncture and Absorption checks the overflow of blood to the scrotal veins and removes the stagnant blood that obstructs the circulation, so that the ganglionic nerves, the weakness of which causes Varicocele, are restored to strength, and normal circulation to the organs is resumed without a sign or symptom of Varicocele ever returning. In treating Varicocele it is always necessary to cure the complications, if the disease has been neglected, which are often worse than the cause, and I never dismiss a patient until I have restored the organs to their natural size, strength and soundness, revitalized the nervous system so that nervousness, dizziness, stoppage of vital drains and losses, REVIVED SEXUAL POWER and renewed the body with a robust condition and perfect health. There are thousands of men deceived by unskilled doctors who claim to cure Varicocele by medicines, electricity, suppositories and many other deceptive schemes, and this is why there are so many who have become so skeptical as to think there is no cure for them. There never was a cure for Varicocele except by surgical operation or MY METHOD. Surgical operations are often dangerous, unsuccessful and painful.
