

LAST EDITION. WEATHER FOR SALT LAKE Fair. The Metals. Silver, 59c per ounce. Gold, 132.00 per ounce. Lead, in ore, 30c; New York, 31.00.

SPECIALIZED COMMITTEE SETS FORTH REASONS WHY PLAN UNDER DISCUSSION SHOULD BE RATIFIED AT THE POLLS.

The committee named to prepare the address to the taxpayers of the city on the water problem completed its labors yesterday afternoon. The address is given herewith in full. It bears the signatures of all the members of the committee, with the exception of A. J. Davis. He attended none of the committee meetings.

The report was prepared by the subcommittee composed of Mayor R. P. Morris, State Engineer A. F. Doremus and Attorney Franklin S. Richards, with John E. Hansen acting as secretary. When completed at 2 o'clock yesterday afternoon it was submitted to the full committee in session in the city hall. The committee, with the exception of Messrs. Morris, Doremus, Richards and Hansen, were John Clark, O. J. Sallibury, R. S. Fernston, Nephel L. Morris, George A. Whitaker and Attorney Dean. After some minor modifications, the motion to ratify the plan was carried by a unanimous vote, and the signatures were attached.

The chief modification made in the plan as originally submitted to the committee is that the spring creek is eliminated. The money proposed to be expended for the purchase of this property and the erection of a pumping plant is devoted to the purchase of improvements at Utah lake. All the other important features of the original plan, including the \$150,000 sewer for the southern and western part of the city, are retained.

Scope of the Plan. The final plan as provided for in the address is to secure 22,342,556 gallons per day at the lowest stage in the year from Big and Little Cottonwood and Mill Creek, making, with the present supply from City creek, Emigration and Parley's, 42,000,000 gallons per day at low water in the lowest stage of the water supply in Utah lake available for the use of the city is placed at 20,000,000 gallons every twenty-four hours. The items of cost in the proposed plan are given as follows in the address:

Conduit from Big Cottonwood, \$350,000. Power plant in Parley's, \$40,000. Work at Utah lake, 200,000. Repairs to City canal, 20,000. Extension of city mains, 10,000. Money paid farmers in exchange, 50,000. Power rights, etc., 20,000. Engineering, preliminary work, etc., 40,000. Total, \$559,000.

FULL TEXT OF THE ADDRESS TO THE PEOPLE.

To the Property Taxpayers of Salt Lake City: The city council having ordered a special election to be held Jan. 2, 1905, for the purpose of voting on the proposition to ratify the proposition of the issuance of \$500,000 1 per cent bonds, with which to obtain money to purchase the right to adequate water supply, and to make necessary sewer extensions, it is deemed advisable that this address be distributed as widely as possible among the people to be affected by the proposed plan. It will be given to the taxpayers of Salt Lake City and county for their consideration on the proposition. It is to be given to the taxpayers of Salt Lake City and county for their consideration on the proposition. It is to be given to the taxpayers of Salt Lake City and county for their consideration on the proposition.

What the City Can Do. Under the law the city has the right to borrow for water works. The sewer improvements to the sum of \$1,500,000, for the purpose of the city, have been ordered to be voted upon by the people. In addition to the price of water, which might be procured through either purchase or lease, the city has a large amount of water which it can bring into the city by gravity through sources which will cost infinitely less than those needed to bring in an equivalent supply from any other possible source. The water from these streams has already been appropriated and is being used by a large number of individuals to irrigate a considerable area of high priced land that is not available to the city. This water must therefore be acquired before it can be used by the city in any other way.

MILL CREEK AND COTTONWOODS HAVE FINE SUPPLY.

Coming into the valley from the northeast are the several streams known as Mill Creek, Big Cottonwood and Little Cottonwood, respectively. The water from these streams is of well known purity and is so situated that it can be brought into the city by gravity through sources which will cost infinitely less than those needed to bring in an equivalent supply from any other possible source. The water from these streams has already been appropriated and is being used by a large number of individuals to irrigate a considerable area of high priced land that is not available to the city. This water must therefore be acquired before it can be used by the city in any other way.

WHAT MUNICIPAL OWNERSHIP DOES.

For several years past there has been applied a sum averaging over \$50,000 annually for water service betterments, redemption of old bonds, and the purchase of water works and reserve fund, every cent of which has been derived from the department itself. The city has a large amount of water which it can bring into the city by gravity through sources which will cost infinitely less than those needed to bring in an equivalent supply from any other possible source. The water from these streams has already been appropriated and is being used by a large number of individuals to irrigate a considerable area of high priced land that is not available to the city. This water must therefore be acquired before it can be used by the city in any other way.

SUBPOENAS FOR MARSHAL HEYWOOD'S WITNESSES.

Wanted to Appear at Smoot Investigation at Washington. MARSHAL HEYWOOD IS BUSY.

FOUR OF THE LIST OF THIRTY FOUND YESTERDAY.

SUBPOENAS for witnesses in the Smoot case have reached United States Marshal B. B. Heywood and are being served as rapidly as possible. It is understood over thirty subpoenas have reached the marshal. The names are widely distributed over the state, so that it is a gigantic task to reach the persons wanted in time to enable them to arrive in Washington on the day set—Dec. 12—Marshal Heywood and his deputies are busy, and it is believed most of the witnesses will have been served by this evening, which would allow sufficient time to make the trip to Washington. Among well-known men for whom subpoenas have been received are Apostles Heber J. Grant, John Taylor and M. P. Cowley. Testimony from John Anderson, chief recorder of the Salt Lake temple, George Reynolds, one of the seven presidents of seventies and clerk of the church; Bishop Robert Morris of the Eleventh ward; W. Hamlin, the painter, and J. H. Wallis is also desired.

Subpoenas have been issued for a number of women. Mrs. Fred A. Ellis was found at her home, 74 North First West street, last evening. An effort to serve a subpoena upon Mrs. Nell Clayton Brown at the home of her father, Bishop H. E. Clawson, resulted in the receipt of information that she had not been in the city for some time and that the family does not know where she is. It is believed Mrs. Brown in Canada. Mrs. Lillian Hamlin Cannon, another witness desired, is understood to be in Canada.

Messrs. Nicholson and Reynolds it is believed, will be expected to testify as to the nature of the marriage arrangements, etc. It is thought Mr. Hamlin and Mrs. Ellis, who is understood to be a widow of the late Apostle Abraham Cannon, are also almost certainly in the city. Mr. Hamlin is a brother of Mrs. Lillian Hamlin Cannon.

The nature of the testimony expected from the witnesses named from Mr. Wallis, who is a shoemaker at 417 South Fifth East street, is not known. Inquiry at the Salt Lake address of the witnesses desired, is understood to be in Canada.

ART EXHIBIT AT OGDEN.

Utah Institute's Annual Picture Show Opens For One Week Tomorrow.

The Utah Art Institute's annual exhibition of paintings, sculpture, decorative arts, etc., opens at the Carnegie library in Ogden tomorrow and will continue for one week. The exhibit is the work of the artists of the institute, and is the largest and most complete ever shown in Ogden. The exhibit is the work of the artists of the institute, and is the largest and most complete ever shown in Ogden.

LAND FRAUD CASES.

Arguments Begun in Behalf of the Accused. Portland, Ore., Dec. 5.—The argument of counsel for the defense in the land fraud case commenced today. Lawrence F. Pate of Eureka, Cal., brother of one of the defendants, being the first speaker to address the court and jury on behalf of the persons accused by the federal government of a conspiracy to defraud the government of public lands. The speaker held that the government has failed to make out its case against the prisoners and attacked the testimony of the government's principal witnesses, Montague and Heidecke, as being unworthy of belief. Counsel claimed that the principals in the defense were innocent purchasers of the lands and not responsible for claims presented upon them, and that the persons whom the government claims are fictitious are living human beings who actually went upon the lands in question.

THREE OF A KIND.

Two Suits of Stolen Clothes Are Identified. The two suits of clothes over which John Collins, J. B. Stone and J. D. Egan sought in a recent interview, were found to be identical. The suits were found in the possession of the three men and were identified as having been stolen from the store of J. B. Stone, 29 West Temple street, at the preliminary examination not being ready, an adjournment was taken until Wednesday.

INJUNCTION DISMISSED.

Pueblo, Colo., Dec. 5.—The injunction proceedings brought by John A. Martin, Democratic candidate for senator from Pueblo, against Governor Peabody and other members of the state canvassing board, was dismissed by Judge Voorhees in the district court today.

WATER UP HIS CHIN.

Ferry hands and passengers joined the rescuers. The water had risen to Fahey's chin. One man held his head above the water and poured whisky down his throat while the firemen chopped with all their might at the piles which held him prisoner. When it was nipped and tuck whether tide or rescuers would win, the piles gave way and Fahey was taken out, a raving maniac and resisting efforts to revive him. Shortly afterward he died in a hospital. No one knows how he came to be in such a plight nor anything about him.

"BOBTAIL" FOR PUTNEY.

Washington, Dec. 5.—The war department has directed that Robert Stephen Putney, Jr., of the general service, Jefferson barracks, Mo., be discharged without honor from the army without honor.

UTAH SENATORS CLIMBS A FEW MILLIONS EACH YEAR.

Estimated Amount of Money Necessary to Run the Government During the Fiscal Year Ending June 30, 1906, is \$619,669,852.

WASHINGTON, Dec. 5.—The estimates of appropriations required for the support of the government for the fiscal year ending June 30, 1906, were transmitted to congress today by the secretary of the treasury. These estimates aggregate \$619,669,852, as against \$614,948,937, the amount of the appropriations of the current fiscal year.

Following is the recapitulation of the estimates by departments: Departments. 1906. 1905. Executive..... \$28,340 313,357 Legislative..... 3,828,392 2,107,970 Treasury..... 176,547,000 174,486,956 War..... 109,019,390 116,490,574 Navy..... 117,349,248 105,275,662 Interior..... 122,824,425 117,578,908 Postoffice..... 15,429,500 2,211,127 Agriculture..... 6,419,510 5,312,570 Commerce and labor..... 13,795,389 10,989,083 Justice..... 8,248,197 8,624,297 Grand totals..... \$619,669,852 \$614,948,937

The estimates for 1906 include \$146,536,320 permanent annual appropriations already provided for by law.

ENFORCEMENT A MATTER OF DOUBT.

Bourke Cockran Introduces a Couple of Bills Designed to Make Public the Names of Large Contributors to Campaign Funds.

WASHINGTON, Dec. 5.—Representative Cockran (New York), introduced a bill today providing that when any sums exceeding \$5 shall be contributed to the funds of any political party or any moneys shall be expended by or on behalf of any candidate for representative in congress or for presidential electors, before an election at which representatives or presidential electors are to be chosen, a statement shall be filed within three days from the time of receiving contributions or expending such moneys in the office of the clerk of the district court of the United States for the district in which the person or firm or corporation making such contribution or expenditure shall reside, specifying the amount, the name and residences of donors, and of the person or officer receiving it.

WATER CREEPING UP INCH BY INCH.

George Fahey, Caught Between Two Piles of a New York Pier, Became a Raving Maniac and Died After Being Released.

NEW YORK, Dec. 5.—Pinned between two piles of a pier at the foot of West Twenty-second street so tightly that the combined efforts of a score of firemen and policemen only released him after long and frantic efforts, and with the rising tide threatening death by drowning, a man supposed to be George Fahey, became a raving maniac and died today after having been removed from the pier today and after being released. A policeman heard cries from under the pier today and as the calls for help seemed to be growing faint Fahey was found wedged between two piles whose tops were close together. A rope was passed under the arms and five men attempted to pull Fahey out of his plight, but only wedged his body more tightly in its prison. The rising tide was at the level of the frightened man's chest and his screams urged the rescuers to greater haste. Four more policemen were summoned, but the man could not be released. An urgent call for more help brought a fireboat and three members of a nearby hook and ladder company with ropes and hooks.

MEN PEOPLE INJURED.

Fire in an Automobile Garage in New York—Many Lives Were Endangered.

NEW YORK, Dec. 5.—Ten persons were injured and a large amount of property destroyed as the result of explosions caused by a spark falling on a gasoline tank in an automobile garage on West Thirty-third street today. Forty automobiles were destroyed or badly damaged, and so rapid was the progress of the fire that men working in the second story of the building had no opportunity to escape, and were forced to leap from windows. The sparks which started the fire communicated with a tank holding 100 gallons of gasoline. There were forty-five automobiles in the building, and the flames and smoke prevented the rescue of the majority of them. Forty gallons of gasoline exploded soon after the fire started, and spread the flames and smoke. The fire started in the second story of the building, and the flames and smoke prevented the rescue of the majority of them. Forty gallons of gasoline exploded soon after the fire started, and spread the flames and smoke. The fire started in the second story of the building, and the flames and smoke prevented the rescue of the majority of them.

TEST OF CREED OPPOSED BY ALL.

Interviews With Candidates Wells-Fargo Express Car Robbed on the Santa Fe.

HIGH IDEALS INDICATED VICTIM IS FATALLY HURT.

NONE WILL PERMIT SECTARIANISM OR PARTIALITY. PERPETRATOR OF THE DEED A NEGRO.

LOS ANGELES, Cal., Dec. 5.—The express car on Santa Fe Overland passenger train No. 1, west bound, was entered by an unknown bandit this morning, some time between 2 and 4 o'clock, Wells-Fargo Express messenger Evan C. Roberts was shot twice and fatally wounded, and the way safe riddled of its contents. The robber then leaped from the car while the train was running at full speed and escaped.

The robbery occurred there somewhere between the stations of Daggett and Daguerre, but was not discovered until the train reached the latter place. Conductor Hawes opened the door of the express car at Daggett and found Messenger Roberts lying on the floor of the car in a semiconscious condition and the contents of the riddled safe scattered about the car.

Roberts was so seriously wounded that he was unable to give any account of the robbery except to say that he had discovered someone on the "blind baggage" shortly after the train left Daguerre and had opened the door, when the officer with the rifle struck Roberts in the left breast, passing through his body, the other striking him in the right side. Roberts fell to the floor and the robber immediately went to the open door and took what he wanted of the contents. He then opened the door and leaped out. Roberts was so badly hurt that he was unable to give any account of the robbery.

Buty Secured Unknown. The amount of money and valuables secured is not known at this time. Messenger Roberts was brought to this city on board the train, which arrived shortly after noon today.

The way continued envelopes holding money and checks which were being sent to the general offices by station agents along the line. Santa Fe officials are endeavoring to make a statement regarding the amount of money that was likely to have been in the safe, but maintain that it was not large.

Messenger Roberts was a resident of Los Angeles and was one of the oldest and most trusted employes of the Wells-Fargo company.

Assistant Superintendent Fridham of the Wells-Fargo company, stated that the amount taken from the way safe was only a few hundred dollars. The principal treasure safe was locked and the robber was unable to force an entrance.

Messenger Roberts is at the Sisters' hospital in this city and is expected to live but a short time. Examination by the coroner's jury has shown that he was shot but once, the bullet striking him in the breast and passing entirely through his body.

Much Money Aboard. The Wells-Fargo company was expected to have a large amount of United States pension money, totalling \$290,000, it is said, and it is possible that this shipment may have been on the train. The money was in several trunks which were greatly exercised over the robbery and at Barstow placed a sub-messenger on board the car with orders to guard everything in it with the greatest care. Officers were ordered to discuss the reported shipment of pension money in any way. It is not certain, however, that this safe was not entered, as the robber fled the moment the messenger as he lay on the floor of the car and took away his keys to the two safes. It is also reported that more than one man was on board the train, and that the main safe was not entered at all.

Much Money Aboard. The Wells-Fargo company was expected to have a large amount of United States pension money, totalling \$290,000, it is said, and it is possible that this shipment may have been on the train. The money was in several trunks which were greatly exercised over the robbery and at Barstow placed a sub-messenger on board the car with orders to guard everything in it with the greatest care. Officers were ordered to discuss the reported shipment of pension money in any way. It is not certain, however, that this safe was not entered, as the robber fled the moment the messenger as he lay on the floor of the car and took away his keys to the two safes. It is also reported that more than one man was on board the train, and that the main safe was not entered at all.

Messenger Roberts is at the Sisters' hospital in this city and is expected to live but a short time. Examination by the coroner's jury has shown that he was shot but once, the bullet striking him in the breast and passing entirely through his body.
