might believe he labored under a misapprehension as to the color of the applicant.
There is abundant reason for believing that Missouri would not have gone Republican last year, in spite of the money that was poured out there, if the negro doctor had been appointed in September or October. However, as Missouri did go Republican it is barely possible that the president may be induced to remove his appointee.

PARK IS NEEDED.

REPRESENTATIVE AUSTIN'S memorial to congress asking that Strawberry valley be set aside as a state park, is a most commendable measure. The valley lies at so high an altitude that it can never be of much value for agricultural purposes, it is situated on the headwaters of streams which supply an important part of the state with water, and it is one of the most beautiful natural fish and game preserves in the west.

Reached by wagon road from Heber City through Daniels' canyon, it is easily accessible in the summer months and furnishes one of the great summer camping grounds of the west. Some idea of the climate may be gathered from the fact that in June to be so cold that ice forms in the pools of the streams and the unaccustomed camper is apt to think he has strayed into the Klondike.

A HAPPY ENDING.

THE CONCLUSION of the Livingston-Erickson contest for the judgeship of the Seventh district cannot fail to prove a source of satisfaction, not only to the citizens of that district, who are most directly affected, but to citizens generally. Long before the case was concluded, errors in the first counting increased Mr. Erickson's plurality to such an extent that Mr. Livingston said that his case was hopeless and withdrew. If frauds were committed in the seventh district they were in favor of Livingston, not of Erickson. It is fair to presume, in the light of the Sanpete revelations, that a recount of the Carbon county ballots would have further increased Mr. Erickson's plurality. The Herald is very glad indeed that the contest has terminated in favor of Mr. Erickson. We do not say this because Mr. Erickson is a Democrat and Mr. Livingston is a Republican. If Mr. Erickson had acted during the campaign for the judgeship as Livingston acted, and Livingston had chosen the dignified course maintained by Erickson, The Herald would regret the termination of the contest in favor of Erickson.

EIGHT-HOUR LAW BEATEN.

THE IDAHO LEGISLATURE, composed almost exclusively of Republicans, on Thursday defeated by a tremendous majority a bill which proposed to limit the hours of labor in mines and smelters to eight hours a day. We do not regard this action as creditable to the Republican party in Idaho. It has been demonstrated time and again that eight hours is plenty long enough for any man to work in a mine or a smelter. Humane considerations would seem to dictate the passage of a law along this line. It was argued in Idaho that the passage of the law would have the effect of keeping capital out of Idaho's mines and smelters. The same sort of argument was made here, but we have not observed that it had any bad effect on our mining and smelting industry. On the contrary, there was never a time in the history of Utah when mining was being carried on more aggressively or when the smelting industry was more prosperous.

ANOTHER ROOSEVELT NEGRO.

MISSOURI IS THE LATEST state to feel the force of the president's policy for the negro. A negro doctor has been appointed on a board of penitentiary examiners that meets at Booneville. There are three members of the board, or rather there were, prior to the appointment of the negro. Now the negro holds the boards alone, for the other two examiners, one a Republican and the other a Democrat, promptly resigned when they were informed that they were to have a colored conferee. It is declared by the president it has been decided that there was no mention of a negro's color when the appointment was made, the inference being that Mr. Roosevelt thought he was a white man. In view of the president's pronounced preference for negroes in places where appointments of negroes are certain to cause trouble, it is hard to believe that he didn't know he was appointing a negro in this case. Now if he should appoint a negro to some important office in Massachusetts or New York, we

THE BOOK OF THE WARS.
(Chicago Tribune.)
When the book of the wars of men is done and the story is truly penned
From the yellow page of the tale begun
To the chapter that holds the End—
When the trumpets of peace the world around
Have blown in a chorus grand
And the battle flag shall no more be found
As a shadow above the land.

Will we keep the Book of the Wars of Men
In a high and an honored place
That our children's sons may be thrilled
Again, their stories they may trace?
Will we cherish the book in faithful pride
That men a future age
May recount themselves with the ones
Who died?
That the volume might have a page?
Will the Book of the Wars of Men tell truth
Will it mingle the songs and cheers
With the sacrifice of the bravest youth
And the dew of a mother's tears?
Will it blazon in gold the noble deed
That was a forgotten fame?
Will it tell of the grips of a ceaseless
That has wrought for a nation's shame?
O, the Book of the Wars of Men; it waits
Till the banners that tell of scars
And the glories of peace are furled—
Will we write it to tell of a ringing drum
And the peals that the fifeers know,
Or to speak to the men of the days to come
Of the ways that they might not go?
