

FRENCH SHIPS OFF FOR VENEZUELA

Effort to Make Castro Come to Time. MAY BOMBARD LA GUERRA

Washington, March 20.—The French cable complications have reached a crisis and Minister Bowen has informed the state department that the French minister at Caracas, by instructions of his government, has notified the Venezuelan government that there must be no further proceedings on its part toward the cancellation of the company's franchise or interference with its property.

It is the expectation here that the appearance of these ships at Laguayara will cause President Castro to accede promptly to the demands of the French minister, falling which the minister probably will place the legation in the care of some other minister, and go aboard one of the warships, thus severing diplomatic relations between France and Venezuela.

The Dutch government has lodged a very serious complaint with President Castro against the treatment of its citizens, and it may join with France in coercive measures. The French government has not asked the consent of the United States to its proceedings against Castro, nor does it feel called upon to do so.
