

WORK ACCOMPLISHED AND IN PROGRESS ON SALT LAKE SEWER SYSTEM.

Salt Lake is making as rapid strides toward a greater sewer system as she is toward a greater water system, as may be seen from the accompanying map, showing extensions projected and under way. Black lines show lines completed. Dotted lines indicate sewers

ordered but not yet completed. Much has been done in the past two years to enlarge and improve the city's facilities for sanitary drainage, and much more is contemplated. Progress is being made daily in this respect and the greater part of the excavation has been

completed. In some parts of the city, as on Sixth East street between Fourth and Fifth South, where is located a large laundry, there is delay in getting both sides of the street sewered. In this instance the waste water is carried to the west side of Sixth East street.

pending the laying of the sewer on the east side. Until the laundry is connected with the opening of the sewer in the immediate district are "hung up." The sewer extensions authorized thus far this year will cost in the neighborhood of \$200,000. At the special bond election held early in the present year the sum of \$150,000 was voted for this purpose and the city council has since decided to increase this amount by \$50,000.

FLOWING WELL SYSTEM.

Lehi Will Augment Water Supply by This Means.

Lehi, Aug. 19.—The Lehi Commercial Club committee appointed to investigate a water system for the city and an increase of water for irrigation purposes for the Lehi farms, have been actively at work today. Engineer C. C. Kelsey of Salt Lake City down to Lehi to make estimates on their plans. It is confidently expected that a sufficient amount of water will be obtained to contribute enough money to sink a four inch well 300 or 500 feet deep just east of the city. The water will be pumped underground streams encountered, and it is expected that a sufficient amount may thus be obtained. Engineer Kelsey says that he has completed the survey through our city and will return in a few days from the east prepared to prosecute the building of the line. A. J. Bettles of the Newhouse staff, who in Lehi is engaged in the sugar factory on business connected with the big reduction works.

The Lehi man who were lucky in drawing good reservation numbers at Provo, are all desiring citizens and will locate on their farms and develop the same. Wm. Spray, No. 13, is a farmer with eight children. Moroni Peck, 182, is a young married man who works on a section. John D. St. Jeor is a mason by profession. He has a wife and three children. Robert is an employee in the sugar factory. Edward Karren, Evan College and Thurman are farmers, and the other twenty-two who drew numbers under 5,000 are all equally desiring and will go out and locate on their farms.

CZAR RETAINS GREAT POWER

Douma Can Be Dissolved by Imperial Ukase.

PROVISION FOR ELECTIONS

POLAND TO VOTE UNDER SPECIAL CONDITIONS.

St. Petersburg, Aug. 19.—The text of the document constituting a Russian parliament discloses many points of special interest to foreigners enjoying constitutional government. Safeguards for the maintenance of the autocratic power of the emperor crop out continuously in the course of the lengthy document. Although the members are to be elected for a five-year term, paragraph 3 provides that the douma can be dissolved by the emperor before the expiration of the term of five years and new elections ordered by imperial ukase.

Paragraph 4 sets forth that the length of the sessions of the douma and its adjournments during the year shall be determined by the emperor. Paragraph 5 provides that the president of the douma shall report to the emperor. Other paragraphs provide that in case of dispute between the cabinet ministers and the douma in regard to bills, the emperor shall have the final word as to the disposition thereof.

Oath of the Members.

The oath to be taken by the members is as follows: "We promise to perform our duties to the best of our knowledge and ability, in all loyalty to his majesty and mindful to the welfare of Russia."

Members of the douma can only be deprived of their liberty or limit thereof by order of the emperor and they may not be arrested for debt. Their payment is provided for at the rate of ten roubles (about \$5) per day during the session and members receive for traveling expenses five kopees per verst, twice a year to and from St. Petersburg. The usual provisions are made for the suspension of disorderly members and for holding executive sessions. Paragraph 41 debars the public from admission to either the general or sectional sessions, but gives the president of the douma the right to admit reporters of the press to the open sessions. Another clause provides for the preparation by sworn stenographers of reports of all sittings of the general sessions of the douma, and the approval of the president of the douma.

Election Safeguards.

The electoral scheme debars governors, vice-governors, police prefects and their subordinates from the voting places in the districts where they exercise their functions. The elections will be held under the general supervision of the minister of the interior, governors and police prefects, while each electoral ward in the principalities will have an electoral commission consisting of a president and two members chosen by the mayor from among the possessors of the franchise. Civil functionaries may not be elected to the douma unless they resign their posts, nor may any one be elected who is

Committee Appointed to Arrange For Elections.

St. Petersburg, Aug. 19.—The emperor lost no time in starting an investigation into the best manner of securing representation of the international assembly in Poland and other districts not provided for in the manifesto, which refers to them as some regions wherein special conditions obtain. An imperial decree issued this morning appoints a committee under the presidency of Count Goleky, president of the economic department of the committee of ministers, to discuss the beginning of the manifesto for the douma in Poland, the Ural and Turgai districts, Siberia, Turkestan, the Caucasus and among the nomadic tribes.
