

venue to Justice Van Goud, and this...
 "I had entered the United States secret service while he was in prison, and on the day of his release happened to meet him in the papers that he had left in Joliet. There were the nine Star Line indictments against him, and I called the attention of a police officer to the fact that he was still 'wanted.' He was never arrested on these charges, however, and disappeared. Later it was given out by his attorney that he was dead. Although I never came into contact with him afterward, I have always believed the story of his death at that time fabrication for the purpose of allowing him to escape trial on the Star Line indictments.

Baron's wonderful ability as an organizer and manipulator of thieves was shown after he was sent to prison by the frantic efforts of his lieutenants to escape. Deprived of the brains of their organization, the western outlaws making headquarters in Chicago nudged their minds for a scheme by which they could raise \$100,000 in a lump sum, which they were led to believe by certain attorneys and politicians, would effect the release of their leader.

In a saloon in South Clark street the band met nightly to discuss ways and means. Train robbing, warehouse looting and similar plans were rejected as soon as suggested because they could not be made to produce enough ready money. These meetings were attended by John Lamb, John Ryan, Thomas White, Michael Jones, 'Reddy' Filkins, John Allen, David Raggio and many others of Baron's former confederates. The robbing of the Union Stock Yards National bank was looked upon with favor, but was finally discarded with previously suggested plans. Then a member of the council suggested the derailment and robbing of a railroad pay car. The scheme was canvassed in all its phases and approved as the one likely to produce the largest amount of cash. The Rock Island Central road selected. The attempt was made by the westerners, but failed, and Baron remained in Joliet.

The events here related had the effect of breaking the backbone of the Baron organization, which, without its proud leader, soon disintegrated, many of its members being caught and sent to prison.

whole place been reduced to such absolute ruin that, save some twisted cylinders and iron piping, not a trace remained of the machinery which had cost our unfortunate acquaintance so dearly. Large masses of nickel and of tin were discovered stored in an out-house, but you could see to put into which may have explained the presence of those bulky boxes which have been already referred to.

"I was much afflicted with rheumatism, writes Ed. C. Nud, Iowaville, Sedgewick Co., Kansas, 'going about on crutches and suffering a great deal of pain. I was induced to try Ballard's Snow Liniment, which cured me, after using three 50c bottles. IT IS THE GREATEST LINIMENT I EVER USED; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, and am able to perform a great deal of light labor on the farm.'

Chagrined as I was over the apparent end of this case, I determined that Baron should not escape me if it were in my power finally to "settle" him behind the gates of the penitentiary. With this general purpose in view, I went about my other duties, but, through the information secured from Mike Kelly, I kept my hand to the movements in Chicago.

There are two sets of people in the world—those who keep things up and those who let things run down. The first have never indulged in the habit of putting off till tomorrow what ought to be done today. "If the roof leaks or there is a crack in the ceiling or a loose board in the floor or a sagging hinge or a broken window cord, they repair the damage at once. They know perfectly that it costs less to mend than to mar, and marring goes rapidly on where there is no mending. As everybody knows the best way to let even a fire house go to absolute ruin is to shut it up and leave it without an inhabitant. A house that is lived in lasts longer and looks better than a house that is untenant, because the forces of nature are constantly making war upon the buildings of men, and a constant battle must be waged against them if men are to come off victors."

be said to perish by the act of God. But when a man takes hold of the wire with bare hands, he has only himself to blame if he drops dead the next instant. The accident was stupid and avoidable.

A man may be "fast asleep" but "slow" when awake. Any man is slow who does not protect his best interests and insure his property against loss by fire.

Baron's leadership of the band of train robbers and his disposing of goods stolen were established beyond question, but to go into the details at this time would consume more space than I have at my disposal. I reported to Chief Washburn that I knew where Baron was and was ready to go after him.

Children are sometimes left in the care of thoughtless hirelings and are maimed for life through falls for which there was neither excuse nor occasion. A man fearfully deformed with a great hump between his shoulders was in his infancy the most noble and beautiful of children. While his pretty nurse was flirting with a gallant policeman the baby carriage took a slide down a steep hill and was overturned at the foot, and years of pain and wretchedness, with the handicap of the hunchback, had paid for that folly.

Accidents of this kind are common enough, but should never be taken granted. They drift into our days like extra sunbeams and should be received with thankfulness. The happiness of a people may begin each morning with the expectation that some accidental joy will overtake them before night.

What's the use of dragging your legs about like a wooden man? Feel like a man of spirit. Away with the pains and aches; off with this wretched feeling as if you were seventy years old and had one foot in the grave. Come and let me put life into your nerves; let me give you a new supply of youthful energy. Let me make you feel like throwing your chest out, and your head up, and saying to yourself, "I'M A MAN!" Let me give you back that old feeling of youthful fire, vim and courage. I can do it, so that in two months you will wonder that you ever felt so slow and poky as you do now. Act today. Life is sweet, so enjoy every minute.

"IT HAPPENED BY ACCIDENT."

MARGARET E. SANGSTER.

NINE-TENTHS of the untoward happenings that people call accidental are due to gross carelessness and shameful neglect.

There are two sets of people in the world—those who keep things up and those who let things run down.
