

MINES AND STOCKS

SOUTH COUNTRY IS HEARD FROM

Strikes Are Reported From Fay, Pioche and Las Vegas.

The mysterious strike reported from Fay yesterday by The Herald's Nevada correspondent is cleared up in a letter that has just been received from camp.

It has been an open secret from the beginning of the strike that the Snowflake mine carried lots of rich ore and that its future simply depended upon the clearing up of litigation in which it had become involved.

As this is not the strike referred to as being so carefully guarded at camp, then it is evident that Fay is "doing things" of more than ordinary moment in some other portion of the district.

Further news from camp will be awarded with the clearing up of litigation in which it had become involved, but it seems certain that, once the difficulties are adjusted, the property will make a noise in the market.

Just what the status of the legal battle is that has been waged over the property for the past year or two is not understood, but it seems certain that, once the difficulties are adjusted, the property will make a noise in the market.

WILL SINK NEW SHAFT

Tetro to Go to Depth of About Seven Hundred Feet.

(Special to The Herald.)

Eureka, Aug. 29.—Ground was broken this morning on the Tetro property preparatory to the sinking of the new shaft about 600 feet to the east of the old tunnel entrance to the mine.

It is believed that before the week ends the sinking of the shaft will have been completed to this spot and the necessary buildings, as soon as the shaft is completed, will be started.

A shaft with a single compartment and 200 feet in diameter will be sunk to a depth of about 700 feet. Superintendent John Strang is now able to be in active field again, he has completely recovered from his recent illness.

BANKERS ARE FIGURING BOTH RUSSIA AND JAPAN WILL NEED MONEY.

New York, Aug. 29.—To those who expected a tremendous manifestation of bullish enthusiasm to follow the peace news from Portsmouth the course of today's stock market must have been somewhat disappointing.

The entire five foot average more than 21 per cent lead with gold silver values and the gauge is iron and lime, no specks of silver being present.

From the surface to the present depth two-thirds of the entire ledge has been and is being sacked up to 50 feet of lead carrying other good values.

Mr. William Lloyd, who is authority upon mining conditions and ore occurrences in this section, makes this statement: "I consider it one of the most important strikes in this section which has occurred in many years and certainly a fortunate one for Mr. Gordon."

HAVE A GOOD THING.

Utah Talent Opening a Fine Gold Mine in California.

Local shareholders in the San Andres Gold Mining company, and practicing their head, pretty high these days.

The company was recently formed for the purpose of operating a property adjoining existing mines in California. Development was commenced about sixty days ago and a shaft 100 feet deep has been sunk.

From B. Burton, who has had the financing of the proposition in hand, it was learned yesterday that D. N. Elder, of the Taylor & Branton sampling firm, returned from a trip to the mine with samples of the ore, and a report from the mine that has been the cause of all kinds of rejoicing on the part of those interested.

The Pioneer sampler yesterday reported the receipt of two cars of ore from Alta, one car from the Nevada-Utah line and one car from the Nevada-Utah line.

Receipts at the Taylor & Branton sampler yesterday included five cars from the Nevada-Utah line, three from the Nevada-Utah line, and one from the Nevada-Utah line.
