THE CITIZENS' MEETING.

A number of prominent hotel men and some few other disinterested Republicans have called a meeting for tonight at the Commercial club...

The origin of the call for the meeting is sufficient evidence that it is meant by its originators as a political move...

IMPURE OLIVE OIL. While olive oil is not used very generally in this country in the preparation of food...

A WISE CHANGE. At the request of a number of Republican politicians, Willard Bean, promoter of the boxing contest between Mr. Wille and Mr. Ruhlin, changed the date of that event in order to prevent it from interfering with the Republican primaries...

WE WONDER HOW. If Stanley Sobiezik, a Chicago blacksmith who was arrested the other day on a charge of bigamy, will please tell a waiting world how he managed to get two families on \$12.50 a week...

Hard on the Host. William W. Russell, the new minister to Venezuela, was being congratulated on his appointment. "Thank you," said Mr. Russell, "I appreciate it very much, but I will try to do it in my new place."

Hard on the Host. William W. Russell, the new minister to Venezuela, was being congratulated on his appointment. "Thank you," said Mr. Russell, "I appreciate it very much, but I will try to do it in my new place."

of living this man Sobiezik continues to be a marvel. We really think he ought to be pardoned and given a chance to go on a lecturing tour. He could make very much more than \$12.50 a week going around the country telling mammoth audiences something about his system. It certainly is worth knowing.

HUMANE SENATOR PLATT.

Whatever else may be said about Senator Thomas C. Platt, New York's "ex-say boss," he is assuredly a humane man. A dispatch from Denver to the Chicago Record-Herald gives us an idea of the extent to which the senator's system is ruled by humane feelings.

The name of the poodle is Griffon. It did not take kindly to the high altitude that must be covered between Salt Lake and Denver. In fact, poor Griffon became very ill. His little heart throbbed painfully and his breathing was labored.

When the dog had recovered somewhat it was brought back to its silk cushion and the journey went on. The second time the same proceeding was gone through with. No bulletins as to Griffon's condition were given out when the Platt party arrived in Salt Lake.

Nobody will say now that the milk of human kindness has dried up in the body of Senator Platt. He may be unkind, even brutal, to men on occasion, but when the comfort of a poodle dog is at stake he will go to any length to insure it.

It is said that it is the custom of some dealers to bring olive oil into the country in this fashion, mix it with cottonseed oil and then put the product on the market as "pure olive oil." Dealers are quoted as saying that this practice is so general that not one gallon of so-called olive oil in a hundred is really the product of the olive.

Food products of every character should be honestly labeled, so that the purchaser may know exactly what he is getting. It will not do to say that any one of ordinary intelligence should know that he cannot buy a pure product at the price asked for it in some stores.
