Overland Mail. Its route was 2,759 miles, from St. Louis to San Francisco—pending far south, via El Paso, Yuma, and Los Angeles, to avoid the snows of the Rockies.

Service Was Organized as a Monthly Stage Line in 1850. Our "through" traffic across the plains was first organized by reason of the mails.

It began as a semi-weekly stage, but was soon promoted to six times a week. The deadly deserts through which nearly half its route lay, the sand-storm, the mirage, the hail of dust, the dangerous Indian tribes, and the vast length—40 per cent greater than that of any other stage line in our national story—made it a monumental undertaking.

Butterfield deserves to be remembered among those Americans who helped to win the west. The "Southern Overland Mail" was organized in 1850, and its "impossible" mail-carrying so far south, and the overland had to be transferred to a shorter northern route, where it took its chances with the snows.

The first daily overland stage on the "Central" line left St. Joe and Placerville simultaneously July 1, 1881; and each finished its 2,600-mile trip on the 18th—Charles F. Lummis, in World's Work.

Denver and Return, \$22.50. On Dec. 23d and 24th the COLORADO MIDLAND will sell round trip tickets from Salt Lake to Denver and other Colorado points for \$23.50.
