

SEVERAL PUBLIC BEQUESTS MADE

Will of the Late Charles T. Yerkes Read by Attorney Clarence A. Knight.

ART GALLERY FARES WELL

FAMILY SATISFIED WITH ALL THE ARRANGEMENTS.

New York, Jan. 2.—In his will, read today by Clarence A. Knight, his attorney, the late Charles T. Yerkes makes many public bequests, including \$100,000 in trust, the income to be paid to the University of Chicago for the maintenance of the Yerkes observatory at Lake Geneva, Wis. Provisions are made for the disposal of his New York home, after the death of his wife, to a corporation organized for the maintenance of his art gallery, the sum of \$750,000 to be given this project on Mrs. Yerkes' death. Mr. Yerkes also provides for a hospital to be erected in New York. His widow, son and others are provided for. The will was read to the members of his family today and they expressed entire satisfaction with its provisions. An epitome follows:

Provision for Wife. "Fifteen thousand dollars to Greenwood cemetery; \$300,000 to Mary Adelaide Yerkes, his wife; his wife, the homestead at the corner of Sixty-eighth street and Fifth avenue, together with all the paintings and works of art, statuary, bronzes, tapestry and bric-a-brac there and elsewhere." On the death of his wife, the premises, works of art, etc., to go to a corporation to be organized under the laws of the state of New York for the maintenance and preservation of an art gallery on the premises which is given to said corporation. Five trustees are to be appointed to control what shall be known as the Yerkes Galleries, one to be the mayor of New York, and the other four to be designated by the Metropolitan Museum of Art. Upon the death of his wife the trustees are to pay over to the directors of the Yerkes Galleries out of the one-half of the estate set aside for his wife the sum of \$750,000 in cash for maintenance of such galleries.

Other Relatives. Two hundred thousand dollars to Charles E. Yerkes, son; also provided that son Charles can dispose of will of \$200,000 of the estate; \$200,000 to Bessie L. Rondinella, daughter; also provided that Bessie L. Rondinella can dispose of will of \$300,000 of the estate; \$100,000 in trust for Ethel Link Yerkes, daughter of his daughter, Clarence Yerkes; to Louis S. Owsley of Chicago, \$50,000. The income of sums from \$20,000 to \$50,000 to various relatives.

One hundred thousand dollars in trust, the income to be paid to the University of Chicago, for care and maintenance of the Yerkes observatory, located at Lake Geneva, Wis.

Four Equal Shares. The remainder of the estate to be invested and divided into four equal shares, the income from two of the shares to be paid to Charles E. Yerkes, and his daughter, Bessie Rondinella, during their lifetime, receiving the income of the other two shares.

On the death of Mrs. Yerkes the will provides for a hospital in New York City to be known as the Yerkes hospital, the aggregate cost of the ground and buildings not to exceed \$500,000. He directs that the hospital shall be open for the public without regard to creed, race or color, and any patient received or admitted whose financial means are not such as to entitle the patient to pay for the necessary treatment shall be treated free. Provisions are made for the maintenance of the Yerkes hospital from the remainder of the portion of the estate going to Mrs. Yerkes and from the part going to his son, Charles E. Yerkes, the latter's share going to the hospital if he dies without issue and at any rate after the children have reached the age of 21 less the \$300,000 which Charles E. Yerkes is authorized to devise by will, Yerkes Galleries.

In case his wife should notify the trustees that she desired to relinquish her right to use the premises at Sixty-

A QUESTION OF COST.

In any number of stores you'll see various preparations of cod liver oil at as many different prices. You'll wonder, perhaps, why Scott's Emulsion costs more than some other kind in as large a bottle. Hearing only one side of the question you may be led into buying the "just as good as Scott's" at the lower price. That's false economy. Scott's Emulsion costs more because its more expensive to make. Every ingredient is tested and guaranteed of the purest quality. No adulteration, no shaving of quality. There's no economy in bargain medicine. If you can afford to experiment with your health, substitutes may satisfy you. We take it, however, that you want a pure preparation, a reliable remedy and something that's going to help you. That's what you get in Scott's Emulsion. Thirty years the standard.

eight street and Fifth avenue as a home, then the trustees are directed to pay to the Yerkes Galleries \$20,000 per annum out of the income set aside for wife and children under the fifteenth paragraph of his will.

He appoints as trustee under his will the Central Trust company of New York. In case that it refuses to accept, then the Illinois Trust & Savings bank of Illinois is made trustee.

He appoints his wife, Mary Adelaide Yerkes, Louis S. Owsley and the Illinois Trust & Savings bank as executors, and declares that his home is in the state of Illinois.

WOMAN BURNED TO DEATH

Her Clothing Caught Fire and Flesh on Body Was Literally Cooked.

Castledale, Dec. 31.—Mrs. Karen Maria Rasmussen, a widow, and a resident of Ferron, was fatally burned on last Friday afternoon, dying on Saturday morning at 1:30. The unfortunate lady lived at a home of her own, and sometime between 3 and 4 o'clock she was putting on clean clothing. The fire in the stove was about out, and she lifted one of the stove lids and put a skirt over the hole hoping to warm the garment a bit. The skirt caught fire. Not noticing the matter, Rasmussen took the garment from the stove and put it on her person. In a moment all her clothing was ablaze. Then she ran out on the porch and screamed for help, but by the time assistance arrived all her clothing was burned from her body. From the knees to her neck the Rasmussen's flesh was badly burned. Her sufferings were terrible, although she retained consciousness to about one and a half hours before her death.

The electric light plant installed by C. L. Allen Co. in this city to light the towns of Orangeville and Castledale, is now all ready for operation and we will have electric lights turned on tomorrow (New Year's) night, if nothing unforeseen happens.

Mrs. Elmira Bulkley Day, one of the oldest women in this county and also one of the pioneer settlers of Utah, passed away at the home of her son, E. S. Day, at Castledale Thursday morning, Jan. 1, 1906. She was 85 years old and was born at Paimyra, N. Y., Jan. 30, 1820. The funeral services were held at Castledale Thursday morning and the body was interred at Lawrenceville in the afternoon.

Dr. C. E. Elden Snyder of Provo is now developing his copper claims known as the Norma group, situated about twenty miles south of Castledale. Mr. Snyder has moved his family to Ferron to remain during the winter.

County Tree Inspector D. H. Leonard has just completed his latest inspection of the orchards of this county, following is his report:

Table with 4 columns: Towns, No. of Value of Orchards, Acres, Product. Lists towns like Emery, Ferron, etc.

The Perron creamery have added this week to their excellent stock of milk a carload of Jersey cows, having procured them in the state of Iowa. They being particularly fine animals, with the latter acquisition the Creamery company will be able to run its machinery to its full capacity and be better equipped to furnish the local market.

FIX THE DATE AT JUNE 1

Intermountain Electric Company State Plant Will Be Running at That Time.

Park City, Jan. 2.—The first installment of poles for the work to be done in carrying power over from the plant of the Intermountain Power company, which is to supply the power for the Summit Electric company, arrived in town yesterday and at once work on the stands ready will be begun. At one of the last meetings of the last council an extension of time was given this company on their franchise and it was stipulated and agreed that the company might have until July 1 to have their plant in working order and lights in the city hall. The authorities of the company here in town state that while they accepted the long time limit of the council, they haven't the least doubt but that the power and light will be in here by the end of June, and probably sooner than that time.

For the first time this winter the town has had a coal famine. The dealers here have always managed to have coal to supply all demands, but today, for the first time, there was not a pound of coal in the town. Under contract with the mines in Grass Creek and other points in the state it is agreed to supply coal to the town. The coal is now being shipped to the town and it is expected that there will be ten cars in by morning.

Mrs. Kate Carpenter, who has been so critically ill with pneumonia, is now what improved and hopes are now entertained for her immediate and complete recovery.

The members of the local corps of school teachers of the Park City public schools leave this afternoon for Salt Lake where they go to be in attendance upon the state association meetings to be held in that city. The schools of Park City employ a corps of thirty teachers in all and it is probable that every member of the force will be in attendance on the meeting there.

The members of the new force of officers appointed yesterday by the new council took their oaths at once yesterday. Today the old force is out and the work is being done by new hands. A general rule the appointments give general satisfaction to the public, but, as is always the case, there are a few who will not be satisfied unless they have their own way. This, however, cannot be helped, and the general public being satisfied the others will have to bear up with the government.

The first meeting of the new council will take place tomorrow evening and the general city work not handled by the outgoing council will be disposed of.

The New Year's calls made in Park City yesterday were numerous and in many places open house was kept on the callers. The Blythe-Fargo clerks, the married men, and the Score club were the organizations who called in force. These parties had each a four-horse rig and were out in style. The Score club kept open house at once yesterday in the evening and made their calls.

The case of Burt vs. Elder in the first case to be brought before Judge P. H. Tallon of the city justice's court. Although delayed by failure of the railroads to deliver goods to them in time and hindered by weather conditions and other obstacles, the Independent Telephone management expect to have things working in their exchange and toll lines open to Salt Lake and other Utah cities by Jan. 10.

JOHN MAGUIRE IS ILL.

TERRIBLE ECZEMA ON LITTLE BOY

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

MIRACULOUS CURE BY CUTICURA REMEDIES

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest, and back, in short the whole body, was covered over and over. We had no rest by day or night. Whenever he was laid in his bed, we had to pin his hands down; otherwise he would scratch his face and make an open sore. I think his face must have itched most fearfully."

"We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We bought a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared, it began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as never before." F. Hohrath, President of the C. L. Hohrath Company, Manufacturers of Silk Ribbons, 4 to 50 Rink Alley, June 5, 1905. South Bethlehem, Pa. ONE THOUSAND PER MONTH

Grover Cleveland Appointed Referee by Big Insurance Companies and War on Rebating Agreed.

New York, Jan. 2.—An agreement to abolish rebating on premiums has been entered into by the New York Life insurance company, the Equitable Life Assurance society and the Mutual Life insurance company. Announcement was made today that Grover Cleveland had been appointed referee to decide all questions in dispute that may arise in such matters, and that his salary as referee will be \$12,000 per annum, to be paid jointly by the three companies. Mr. Cleveland has accepted with the understanding that the officers of the three companies are to second him in his efforts to stop rebating. A similar agreement was held by the late Thomas B. Reed. Any agent who gives rebates will be dismissed from service and will not be re-employed by any of the companies that the parties to the agreement.

It is the desire of the companies to secure the co-operation of all other life insurance companies in this agreement. It was said today that if rebating can be entirely abolished first-year premiums should be reduced. It is understood that this agreement is the result of a suggestion by President Paul Morton of the Equitable Life Assurance society.
