WORK OF COMMITTEE DONE

What Ogden and Weber County Did for San Francisco Sufferers.

The final meeting of the Ogden-San Francisco relief committee was held here yesterday forenoon, when the committee completed its labors by making its report to the mayor. According to the report, the total subscriptions received were \$11,211.16, of which amount \$2,000 was subscribed by Ogden City and \$1,000 by Weber county. These amounts the committee did not find it necessary to draw upon, and the warrants have been returned, leaving a balance of \$7,211.16 available. The balance in cash on hand when the report was completed was \$1,621.08, which has been forwarded to San Francisco as a cash subscription. The report to the mayor was as follows: The committee on relief for the benefit of the sufferers of the late disaster at San Francisco, appointed by you on the morning of April 20, 1906, wish to report as follows: Enclosed find attached a list of cash contributions to the amount of \$11,211.16. A complete list of cash collections and expenditures will also be found in the local daily papers. In addition we have received listed contributions to the value of several thousand dollars in merchandise. Other contributions in merchandise, of which the committee has no record, have been forwarded to the mayor of San Francisco. An estimate of the value of the total subscribed in cash and merchandise would be about \$20,000. Roughly speaking, not counting the car sent by the school children of Ogden and the clothing and food, and clothing to the sufferers at San Francisco. In addition to the above, we have sent and clothed from 12,000 to 15,000 refugees at our quarters at the Ogden Union depot, and rendered medical and surgical assistance to at least 500. Herewith, in addition, we hand you the warrants on the treasurer of the City of Ogden and the treasurer of Weber county, Utah, to the amount of \$4,000, which it is our desire to return with our sincere thanks, and stating that this committee has not found it necessary to draw on the above sources. We also hand you a complete set of original minutes, together with copies of all accounts of every description handled by us, including all duplicate bills, communications and records. We wish to thank the good people of Ogden City and Weber county, and the ladies especially, for their generous and untiring support, and ask you, in their behalf, to appoint an auditing committee, and upon their favorable report to discharge this committee at your earliest convenience. The auditing committee's report, verifying the figures, was also enclosed. Upon receiving the report Mayor Conroy addressed the following communication to the committee: In closing the work of relief for the unfortunate people of San Francisco, it is fitting at this time for me to express my appreciation of your magnificent work in the above cause. To you one and all, men, women and children, I desire, as your chief magistrate, to express my sincere thanks. I want to convey to the local representatives of the State Journal, the local departments of the Salt Lake Tribune, Salt Lake Herald, Inter-Mountain Republican and Deseret News, I desire to extend sincere thanks. To William Allison, superintendent of the Ogden public schools, for his kind and generous aid to all the children, to Superintendent David O. McKay of the Weber Stake academy, and the students of his school, to the Sisters of the Holy Cross and their pupils, we are under great obligations. And especially to the general relief committee, through whose untiring and businesslike efforts this relief work has been conducted to its successful termination. I am under lasting obligation. Lastly, I feel proud to be the executive head of an organization which has arisen to the occasion as nobly as you have done.

MUST PAY INTEREST. Board of Education Orders Warrants Drawn for Amounts. At the board of education meeting last evening the finance committee reported \$2,387.11 on hand. Notification was given on the board that there were six bonds in New York, June 1, 1905, interest for six months on a \$5,000 bond issue. The board's attention was called to the fact that interest was due to Ogden City amounting to \$38.90 on notes for \$8,800 held by the city. Warrants were ordered drawn covering these amounts. Helen Powell applied for a scholarship in the state university, local college, and was recommended to State Superintendent Nelson. It was decided to open the bids for the building of the addition to the Lewis school at noon, May 21. The clerk was authorized to advertise for bids on plumbing and heating. The superintendent's report for the month of April showed the number attending school at any time during the month to be 4,319. The average daily attendance was 3,528. The per cent of punctuality was 99.8. One case of omphalitis was reported by the sanitary committee.

AN EMERGENCY HOSPITAL. Place Will Be Established by the Harriman Lines Here. In connection with the large number of improvements proposed by the Harriman lines for this city, it is stated that an emergency hospital will be established in the small brick building which stands just north of the Union depot. Hereafter when men were injured and brought to Ogden while waiting for the ambulance they have been kept in the baggage room exposed to public gaze. The south end of the building selected will be used for the telegraph office. It is now proposed to build an 18-foot addition to the building, the space reserved for the telegraph office. The work will be commenced as soon as the weighing of the mails has been finished, about June 10. Two Officers Named. The citizens' committee which will work in conjunction with the local lodge of the United Commercial Travelers in preparing for the coming convention of that organization, April 8 and 9, in Ogden, met in the Weber club rooms last evening and elected R. L. Reynolds secretary and James Pingree treasurer.

STATE NEWS

MINER IS BLOWN TO ATOMS

Picked Into a Missed Shot at the Silver King Mine.

Park City, May 11.—This morning about 10 o'clock Alonzo Mason, a miner employed at the Silver King mine, was killed by picking into a missed hole. Mason, Fred George, Henry Alexander and George E. Oleson were the morning shift running a burley machine on the 200-foot level and were told by the night shift going off that they were two reports short, that it, that the shots in the fact had all exploded except two. This is the rule laid down for the protection of the men that the shift tells its relief how many of the reports are short. The shift went in and went to work and all were on the lookout for missed holes. Investigation showed that the back holes had been struck by the shot and begun picking the loose dirt at the floor of the mine. The shot struck the back hole and was instantly blown to atoms. All three of the other men were within ten feet of where the shot went off, but owing to the pile of earth and rock between them and the face were uninjured. Carriage sent for. The body was taken to town and made ready for burial. The miner has been in Park City about three years. He is married and leaves a wife and three children. So far as is known he carried no insurance.

Who Owns the Springs? Summons was served on D. B. Woodland, of Iowa, Woodland and the Ogden Hot Springs company yesterday, through their attorney, C. C. Richards, yesterday, in an action brought by John A. Woodland, C. H. Ward, the administrator of the estate of Sophronia Woodland, deceased, and others. The suit is to determine the right to use the water of a certain spring near the Ogden Utah hot springs, in Box Elder county, Weber county, Utah, to the amount of \$4,000, which it is our desire to return with our sincere thanks, and stating that this committee has not found it necessary to draw on the above sources. We also hand you a complete set of original minutes, together with copies of all accounts of every description handled by us, including all duplicate bills, communications and records. We wish to thank the good people of Ogden City and Weber county, and the ladies especially, for their generous and untiring support, and ask you, in their behalf, to appoint an auditing committee, and upon their favorable report to discharge this committee at your earliest convenience. The auditing committee's report, verifying the figures, was also enclosed. Upon receiving the report Mayor Conroy addressed the following communication to the committee: In closing the work of relief for the unfortunate people of San Francisco, it is fitting at this time for me to express my appreciation of your magnificent work in the above cause. To you one and all, men, women and children, I desire, as your chief magistrate, to express my sincere thanks. Lastly, I feel proud to be the executive head of an organization which has arisen to the occasion as nobly as you have done.

Body Not Recovered. The body of Hannah Keyes, the colored woman who was drowned in the Weber river Thursday, has not yet been recovered. Ogden Briefs. A sample voting machine was placed in the county clerk's office yesterday. Information against Charles Irwin on a charge of adultery was filed in the district court here yesterday. J. J. Brooks, who is being held here in connection with the robbing of the Bear-Craft store some time ago, waived preliminary examination for a hearing in court yesterday and was held for the district court under \$500 bail. The jury in the Pacific Collection business case, Thomas vs. Irwin, returned a verdict in favor of the plaintiff in the sum of \$165.20. The action was brought to recover on a promissory note. David Jenkins, son of Washington Jenkins, who was killed by the state mental hospital at Provo some time ago, has been returned to this city. An operation will be performed on his head in an effort to relieve his mania. The W. B. Call vs. the Union Pacific Railway company \$50,000 damage suit was called in the district court here yesterday. Call lost both legs while in the employ of the defendant company in the capacity of a switchman in 1905. The case was continued until Monday. Application has been made to the Union Pacific for the construction of a spur to the site of its new plant near Croftwood. This spur will necessitate the building of a bridge across Weber river at that point. The machinery for the plant is expected to arrive about July 1. P. H. Cook, traveling freight agent for the Union Pacific, was in Ogden yesterday conferring with the local sheepmen about the proposed shipment of wool. It is stated that this year's clip will be extra large and fine. The price advanced to 200 cents for oil, and 25 cents for wool. Twenty-five cents a pound was offered here yesterday by an eastern buyer.

DOVIE'S LIFE EBBING AWAY. "First Apostle" Said by His Doctor to Be Approaching Death. Chicago, May 11.—The condition of John Alexander Dowie is said to be nearing a critical stage. The venerable "first apostle" has taken to his bed and his strength is falling. The swelling of the extremities, which is a noticeable characteristic of his affliction, is said to have extended upward until within a few inches of the heart. Dr. Blanks, who has been in constant attendance upon Dowie since his return from Mexico, said that he might, in view of his great vitality, live a week or ten days, but that a fatal termination of the disease within two or three days would not be surprising.

ENGLISH COAL MINES BILL. Measure Passes Second Reading in House of Commons. London, May 11.—The coal mines bill, the object of which is gradually to reduce the hours of work till they reach the eight-hour limit in 1906 without reducing wages, was passed unanimously on second reading in the house of commons today. The bill affects 650,000 persons. Previous parliaments had rejected the same bill four times after passing second reading. BEAUTIFUL OGDEN CANYON. Excursion Sunday, May 13. Via Oregon Short Line. Only \$1.00 round trip to Ogden. Carriages meet all trains at the depot for the drive up the canyon. Leave Salt Lake City at 7:10 or 10:30 a. m., or 1:30 or 4:05 p. m., returning leave Ogden at 4:10 or 6:20 p. m. City ticket office, 201 Main street. PARIS LEATHER MARKET BURNS. Paris, May 11.—The leather market in the Gobelins district was burned tonight. Many workmen's dwellings surrounding the market were also destroyed. Two repeated explosions of carboys of sulphuric acid, which were used to destroy the walls of the market fell, injuring several. The damage is estimated at \$2,000,000.

WILL WORK, NOT FIGHT

Students Settle Their Differences, and Will Unite in Placing Emblem on Hillside.

Provo, May 10.—The B. Y. U. students have agreed to placing "B. Y. U." on the mountain east of the university, and expend their energies in work instead of fighting. The spirit of "class pride" is said to have spread to the city schools, from the success with which it was developed in the university by the late unpopularity, and the little fellows in the schools have had several touchings. Some of them so serious a nature that the participants may have to be brought before the school board for punishment. They understand this. They thought they were doing a laudable act in imitating the university students. Dr. E. G. Gowans of the U. of U. addressed the students of the B. Y. U. at the Hot Pools at Midway Saturday. The B. Y. U. natural science classes and the school of music will go to the Hot Pools at Midway Saturday. NEBO STAKE OUTING. Next Wednesday Will Be Given Over as a Day of Amusement. Payson, May 11.—The Mutual Improvement associations of the Nebo stake will meet in this city next Wednesday for their annual M. I. A. day. There will be a full day of amusement, beginning with a programme in the Payson pavilion at 10 o'clock in the morning, consisting of a story-telling contest by the young ladies, an orchestra of everything he can muster, musical selections, songs and speeches. In the afternoon the track meet will take place, and the evening will be spent in a consist of a baseball game, Spanish Fork vs. Payson, a basketball game, running races, jumping and other sports, and to conclude with a dance in the evening. MANTI HAPPENINGS. Manti, May 11.—The religion classes of the Manti school today were held liberally to the fund to be sent to San Francisco. It is understood that this year the Manti school has secured for the Mormon church, that of a nickel donation by each of the members of the classes. The Manti school has secured for the fund a sum which will be the result. The I. O. O. F. lodge of this city has donated to the fund of the San Francisco relief committee. The little son of Mr. and Mrs. William Anderson of this city met with the death of his only child today at the right hand. The little fellow, who is only 5 years old, was caught in a shed crush-er while he was playing. Dr. W. H. Olsten is attending the case. Wallace M. Riddis has been appointed a ranger on the Pauntyville forest reserves. He left for his new field of labor this week. Arrapahoe Commercial club waited on the county commissioners at their last meeting, urging the erection of a new building for their regular session. The board proposed to the county board that Manti would raise \$10,000 in cash toward its erection, furnish \$10,000 toward the erection of a joint city and county building. The commissioners will act on the matter after their regular session. The board seemed to be very favorably impressed with the proposition, and it is expected that the Manti school will accept the liberal offer of the Temple City. An adjourned term of the district court opened today at which Judge Charles Erickson will preside. The regular May term of the seventh district court will open today at which Judge Erickson will be on the bench. The Manti jurors to serve at this term are: N. H. Peck, Conrad Erickson, John R. Braithwaite, Soren R. Nielsen. COALVILLE HAPPENINGS. Coalville, May 10.—Maud Marshall, daughter of Mr. and Mrs. William Marshall, after a lingering illness, died yesterday morning at the residence of her parents, aged 10 years. She was a very bright child, and was especially fond of her mother. She was especially fond of her mother, and was especially fond of her mother. She was especially fond of her mother, and was especially fond of her mother.

CRAZY MAN BUYS LUMBER AND MAKES A COFFIN FOR AN IMAGINARY CORPSE. Laboring under the impression that a dead man was lying in his room in a boarding house at First West and South Temple streets, a man evidently demented, went to the George Romney Lumber company's yards and ordered a box made about the size of a coffin. The man did not disclose his "secret," and buying the lumber decided to make the box himself. The yard foreman noticed the man muttering to himself, but could not figure out what he was talking about. After the box was completed he had an expressman deliver the box in front of the rooming house. When he went to his room he got some money he had hidden there and paid for the box and also paid the expressman. The man commenced dragging the box up the stairway. The landlady asked him what he was doing, and he answered that he was going to put a dead man in the box. He said behind him a body was lying on the floor in his room. The landlady peaked into the room, but seeing nothing she walked in. In the meantime the stranger disappeared. The landlady called for the police, but they could not be found. The name on the register could not be deciphered which the stranger entered when he rented a room there Thursday night.

CAMPAIN IN TENNESSEE MAKING AN INVESTIGATION. State Board of Health Trying to Locate Origin of Cerebro-Meningitis Cases. The state board of health, pursuing its investigation of the cases of cerebro-meningitis which have appeared in the city, has tried to locate their origin. Reports from Murray and Bingham show the disease has been introduced, so the board's attention will now be directed to the other centers of population in the state. While most of all the camps, mining and railroad, are clear of cases, it is considered important to determine the exact source. Dr. T. B. Beatty, secretary of the board, said yesterday that his investigations are following the usual course in cases where an epidemic might follow by methods, and were not to be taken as a matter of policy. Health officials, either in Salt Lake or elsewhere, as some of them seem to infer. PROTESTS ARE MANY. Senators Inundated With Messages Against Anti-Pass Amendment. Washington, May 11.—The senate was again today swarmed with protest in opposition to the anti-pass amendment to the rate bill, being deluged with telegrams and protests which came principally from railroad employes, where presented by Senators Cullom, Warner, Morgan, Foraker, McCready, Frye, Beveridge, Wilson and Dick. Most of the senders of the dispatches complained of the injustice done them in depriving them of the privilege heretofore enjoyed. Most of the senators presented from fifty to one hundred messages, but they were not ordered printed.

KEEP CLEAR OF SAN FRANCISCO

Labor Leader Says Ruined City Is no Place for Skilled Workmen.

"There is nothing doing for labor in San Francisco for some time," said M. J. Sullivan, vice president of the International Electrical Workers, addressing the Utah Federation of Labor at its regular meeting last evening. "Many men are rushing in here who will have to be fed. In some way the impression has gone abroad that there is unlimited work to be had at \$3 or \$4 a day. This is wrong. When there is work there organized labor will let organized labor know it. We have had our troubles since the fire. We have every right to be proud of the laboring man in San Francisco. After the destruction of everything he was the first to come to the front. The Building Trades council offered to wipe out its trade jurisdiction, and the electrical and other workers were not behind. The employers were not so generous. While we were willing to take our share of the burden, we were not prepared to meet the proposition of working ten hours a day at single time and on Sundays and holidays. This would not be fair when men were walking about the streets idle and looking for a chance to work. Not Willing to Shut Men Out. We met them in everything else we offered to do everything else we offered the settling of things in order. We would trade distinctions and allow a union man of some trade to work with us if he could do the work, but we were not willing to shut men out by working any such hours. Because we would not give in on this the employers misrepresented us as the Federation. Take our share of the burden, we were not prepared to meet the proposition of working ten hours a day at single time and on Sundays and holidays. This would not be fair when men were walking about the streets idle and looking for a chance to work. We met them in everything else we offered to do everything else we offered the settling of things in order. \$1.75 Long Kimonos at 98c

He ought to be more or less gently shoved to the right. Another street brute is the one often class, a woman—with the sharp-pointed umbrella carried so that it is a menace to neighbors and faces. A job for a job should be the rule with these. Another variety uses a \$5 bill to pay a nickel fare at the elevated station window, and so holds up a long line of would-be passengers and makes them miss their train. Give him a nickel and a lesson. Another kind steps down from the street car platform to the step before the car comes to a stop and waits till he reaches his favorite paving stone before getting off, regardless of whether a half-dozen people are blocked behind him or not. Some time this brute will get pushed off, and after that he'll keep to the rear and give way to the rest of the world. Finally there's the brute who walks past another pedestrian, slides directly in front of him and slows up. The way to treat this variety is to walk past him in turn and slow up in his path. He's apt to fight, but, anyway, he deserves his licking. The street brute may have lived in the city half his life, nevertheless he belongs front rank among the truly rural elements of the population. The process may be slow, but he doesn't reform. He is bound to be ruthlessly eliminated.

SOAP SALE

Come in and look over our bargains in soap. We are selling many species of soap at greatly reduced prices. We can suit the most fastidious taste with the choicest soap that will soothe, heal and cleanse the most delicate or irritable skin. Both "phones 457. Remember the number.
