

GOOSE-TRAILER SPEED-REBELLION

Rev. Dr. Hunter Corbett Elected Moderator of Presbyterian Assembly.

Des Moines, Ia., May 17.—After one of the most spirited contests in recent years, Rev. Dr. Hunter Corbett, a missionary to China for many years, was elected moderator of the Presbyterian general assembly late this afternoon. Three ballots were necessary to determine the result, the final vote standing: Dr. Corbett, 22; Rev. J. B. Barkley of Detroit, 20; Rev. Dr. J. F. Handy of Missouri, 4. Five candidates were placed in nomination and the oratory that accompanied the presentation of names occupied a period of more than two hours. On motion of Dr. Barkley, the election was made unanimous.

Missionary for Forty-Five Years.

Dr. Corbett, the new moderator, is a native of Pennsylvania, and has for forty-five years been engaged in missionary work in China, where his services have been distinguished. His election is due to this unusual service, and is an expression of the evangelistic spirit that pervades the assembly. After his election Dr. Corbett made a brief address of acknowledgment in which he said he hoped that the church would enlarge its work of evangelization both at home and abroad. An impressive service was held in which the sacrament of the Lord's supper was administered. The women's board of home missions held a session and listened to the presentation of reports of missionaries.

HOUSE-TO-HOUSE SEARCH

Riotous Italians at Coeymans, N. Y., Had a Great Store of Ammunition.

Coeymans, N. Y., May 17.—Indications tonight point to a settlement, probably tomorrow, of the brick makers' strike, and the return to Albany of the four companies of the Tenth regiment of the National Guard called here by Sheriff Tuttle after the riotous battle of yesterday morning at the brickyards of Sutton & Sudeley. The employers today made overtures to the strikers offering to concede all the demands of the men except recognition of the union. This proposition was taken under consideration by the men and a meeting was in progress at a late hour tonight, the general impression being that the proposition of the employers would be accepted.

FAVORS SHIP SUBSIDY.

Roosevelt Unbosoms Himself to Merchant Marine League.

Washington, May 17.—To about twenty-five officers and members of the merchant marine league of the United States who called upon him today the president expressed himself as heartily in favor of the ship subsidy bill now pending in the house. The measure has passed the senate. The president told his visitors that he needed no argument to convert him to the belief in a policy of building up the merchant marine of the country. He was confident, he said, that the legislation now pending before the house would go far toward beginning the proper building up of a merchant marine and it was with pleasure that he personally was in sympathy with their efforts to get the bill through congress, he said it would be necessary for them to do some missionary work to induce the house to pass it.

LABOR BILL THROWN OUT BY THE LORDS

London, May 17.—The house of lords today by 96 to 24 votes rejected the second reading of the bill introduced into the house of commons by James Keir Hardie, the labor leader, the object of which is to prohibit the entrance into Great Britain of aliens to take the place of British workmen during trade strikes. The measure had previously passed the house of commons without discussion.

STEEL TRUST ORDERS ARE UNPRECEDENTED

Pittsburg, Pa., May 17.—Since the order books were opened two weeks ago, the United States Steel corporation, the Colorado Fuel & Iron company, the Jones & Laughlin Steel company, the Pennsylvania Steel company, the Maryland Steel company and the Tennessee Coal & Iron company have booked an aggregate of one million tons of steel rails for delivery in 1907. This is an unprecedented amount of business for this time of the year in the history of the steel trade. It is estimated that the tonnage booked by the various companies is more than 700,000 tons above the actual production of the United States in 1905. From present indications the year 1907 will be more active in the production of steel rails than any previous year.

WHY MANY WOMEN SUFFER FROM CONSTIPATION.

The Natural Remedy.

The delicate and intricate character of the female organs make them most susceptible to irregularity, and for the same reason it is most important that each one should be kept in a condition to perform its functions in a normal manner. At all of the special periods, when womanhood is performing the functions peculiar to her sex there is a decided tendency to sluggishness of the bowels. Nature then requires a gentle assistant. Not powerful and expensive drugs, that must be taken at frequent intervals and are so drastic as to damage the tender lining of the stomach and bowels and do more harm than good, but a pure and harmless laxative such as is the famous Natural Mineral Water—HUNYADI JANOS—one dose of which will move the bowels gently but copiously in a natural manner. The loss is half a tumblerful drunk on arising in the morning (slightly warmed for best results). One bottle contains many doses and costs but a trifle at all Druggists.

RAILROADS LOCK HORNS

Brief But Lively Controversy Between Rio Grande and Salt Lake Route at Provo.

Provo, May 16.—Last night the San Pedro Railway company commenced the construction of the extension of the spur on Sixth South street, which is now built and used by both companies to deliver freight at the Z. C. M. I., and this morning about a hundred feet of track was laid and some forty men were at work laying ties and rails. As soon as this was noticed by the D. & R. G. that company commenced action in opposition. A freight train was run over the spur, which prevented the San Pedro people from getting construction material over the line to the point where work was going on. An iron freight car placed at the head of the obstructing train was run into a push car used by the San Pedro construction forces, and the push car, smashed flat on the track, remains under the big iron car and marks the terminus of railroad facilities to the new track. The San Pedro force of workmen continued to lay track east and east of the point where their work was interrupted, using ties and rails already on the ground and preparing to carry other material, but this work was interrupted by the D. & R. G. crowd of men of about equal number, and no progress could be made. Sheriff Harmon was interrupted by the D. & R. G. crowd on the ground, but there were no breaches of the peace, and the officers decided they could not make any arrests. The conflicting forces were just laying out the more—the San Pedro men in laying ties and tracks and the D. & R. G. men in moving them, but no violence was used.

The attorneys of the respective companies—S. E. Thurman of the D. & R. G. and J. W. N. Whitton of the San Pedro—were consulted by Agent Fouts of the D. & R. G. and Agent Craig of the San Pedro. The latter is now in a warring mood, and work was begun on restraining orders by the San Pedro against the D. & R. G. against the work and by the D. & R. G. against the San Pedro for doing the work, and operations of the constructing gangs were postponed awaiting developments.

The object of building the track by the San Pedro was to reach the cannery factory now being built a block east of the Z. C. M. I. The two companies have a franchise from the city for a joint track on the street and the joint track has been built and has been used for many years as far east as the Z. C. M. I. It is claimed that by the San Pedro extending the track east independently it would secure some preferential rights over it which would permit it to shut out the D. & R. G. at will, or at least that the D. & R. G. would have secondary traffic rights over the extension, and that this is why the D. & R. G. objected to the construction of the extension by the rival road.

This afternoon Superintendent Van Horn and Attorney Thayer of the San Pedro and Superintendent Elliott and Attorney Waldemar Van Cott, representing the D. & R. G., came down on Sixth street and the local trouble and with the local attorneys, a conference was held and it was soon decided that nothing would be gained by a fight; that under the terms of the franchise the companies had equal rights. The contest was then declared off and it is probable that a joint track will be constructed by the two companies.

The San Pedro people claimed at the conference that they were not aware that the D. & R. G. company had accepted the franchise granted by the city council for a joint track in 1897, which as a matter of fact the D. & R. G. did not accept until a few days ago, which was accepted by the Oregon Short Line at the time it was granted. On the supposition that the D. & R. G. did not care to join in the track the San Pedro people commenced building operations in good faith.

EXCITING RUNAWAY IN PARK

Maddened Animals Dash Down the Street Demolishing Vehicules in Flight.

Park City, May 17.—A delivery team belonging to the Sutton Meat company became excited today and ran away, and for a time it looked as though several persons would be killed. The team was being driven by Ed Malin, jr., and was on Park avenue. Just as the wagon went to get into the street, between the Silver King office and the store of Wilson & Morrison. At this place the team struck an independent telephone pole and detached the horses from the rig. The frightened beasts ran headlong down the street, smashing into a team belonging to Chinese venders of green vegetables, and as a result of the collision a mule was badly disabled and a harness broken to pieces. There was no one injured but the driver of the team is a remarkable thing, for the streets were full of teams and the sidewalk was the usual number of persons. The driver was badly bruised about the body and for a while it was thought that his injuries were serious. However, he went to a doctor, and from reports there is nothing more serious than a bad bruising.

COMPLAINTS ARE MANY.

Japanese Not Living Up to Their Manchuria Agreement.

Washington, May 17.—Complaints of American merchants engaged in the eastern trade and particularly of members of the American Asiatic association, that the Japanese authorities in Manchuria have not been living up to the open door policy, were made today. The association and the Japanese embassy, the embassy communicated the complaints to the home office and this has made reply by asserting positively that it has faithfully carried out its intention to open Manchuria to foreign trade. The foreign office points out that foreigners already have been permitted to enter certain specified ports and that consuls have been admitted.

OGDEN NEWS.

Office, 2484 Washington Avenue. Ogden, Friday, May 18.

PLAN GREAT ENTERTAINMENT

Commercial Travelers' Convention at Ogden to Be Notable for Fine Programme.

The central committee organized to arrange the handling of the United Commercial Travelers' convention met with the chairman of the various sub-committees at the Weber club last evening. The finance committee reported having collected the sum of \$1,710 the first day they were out. Lengthy reports were received from all the other committees. In addition to the attractions mentioned heretofore, it has been decided to ask the city for the use of the City Hall park for a reception to the visiting delegates and business men on Friday evening. Three thousand electric lights will be used in decorating the streets from the Union depot to Washington avenue on Twenty-fifth street and on Washington avenue to Twenty-third street. An effort will be made to hold an automobile race meet. According to the report of Sheriff C. A. Sebring, chairman of the parade committee, the parade will be a monster affair. In addition to a number of bands of music, there will be an automobile exhibition section and a number of others. The police department, fire department and a large number of organizations, as well as the two baseball teams, will be in line.

The programme so far decided upon is as follows: Thursday the business of the convention will be transacted. In the evening a ball will be given by the local C. T. lodge to their brother delegates and grand officers. Friday will be the big day. There will be the parade at 10 o'clock, ball game and horse races in the afternoon, and in the evening the public reception. On Saturday will be the excursion over the cut-off, a trip through Ogden canyon and other places of interest about the city and possibly the automobile meeting. There will also be races at the saucer track each night, in addition to special performances at the different theatres.

WILL BUY MACHINES.

City and County to Divide Expense for Election Equipment.

A committee consisting of five of the city councilmen met with the county commissioners last evening and discussed the matter of purchasing voting machines to be installed in Ogden City. It was estimated that the city would save about \$1,000 each election by installing the machines. They figured that the city could reduce the voting precincts to thirteen from twenty-five as at present. It was decided, therefore, to purchase thirteen machines, the city and county to stand each one-half of the expense. The purchases will be made on the installment plan, the first payment to be made on delivery and four additional payments within the next four years.

WELL PAID FOR WORK.

Ralph Wilcox Collects \$200 From Oregon Short Line.

In the municipal court yesterday the case of Ralph Wilcox against the Oregon Short Line was decided in favor of the plaintiff. Damages were allowed in the sum of \$200. Wilcox asked for \$250 damages for being compelled to walk into Ogden from the Utah Hot springs. He had purchased a return trip ticket to Ogden and the train passed the station, coming in without stopping, consequently he was forced to walk and the action followed.

"Frisco Banks to Reopen.

The Pingree National bank of Ogden has received the following telegram from the Anglo-American bank, limited, of San Francisco:

"Commercial banks will reopen for general business May 23, saving banks May 28. You may therefore resume your usual remittances on all points immediately."

O'Neill Loses Suit.

The application for a restraining order by John P. O'Neill against the local lodge of the Fraternal Order of Eagles to restrain the lodge from using a portion of the O'Neill block for dancing purposes was decided yesterday against the plaintiff.

COLLEGE EXAMINATIONS.

How Students May Obtain Entrance to Various Institutions.

Examinations for entrance to the different colleges over the country will be held at the Ogden High school June 18-23. Those expecting to enter any of the following schools are requested to call upon Principal Austin of the High school to make the necessary arrangements:

Adelphi college, Barnard college, Brown university, Bryn Mawr college, Bucknell university, Case School of Applied Science, Colgate university, Harvard university, Johns Hopkins university, Massachusetts Institute of Technology, Mt. Holyoke college, New York university, Rutgers college, Swarthmore college, Syracuse university, Columbia college, Cornell university, Union college, University of Pennsylvania, University of Rochester, University of the State of New York, Vassar college, Washington College, Jefferson college, Wellesley college, Western Reserve university, Western University of Pennsylvania, Women's College of Baltimore.

WILL DYNAMITE RIVER.

Effort to Force to Surface Body of Drowned Woman.

Commencing at 10 o'clock this morning, under direction of Sheriff G. A. Sebring, Weber river will be dynamited in the hope of forcing the body of Mrs. Anna Keyes to the surface. Mrs. Keyes was accidentally drowned while crossing a foot bridge about nine days ago.

Boy Has Bad Fall.

Elmer, the 10-year-old son of Thomas Bartlett, 129 Twenty-fourth street, fell through the floor at the new army building yesterday afternoon and fractured his right wrist. He also received a severe gash above the left eye. Dr. G. W. Baker dressed the injuries and reduced the fracture.

Ogden Briefs.

Attorney J. N. Kimball of Ogden was in Salt Lake yesterday.

Elder Beus of Burch Creek returned yesterday from a two-years' mission to the French part of Switzerland.

A marriage license was issued yesterday to H. E. Wood, aged 25, and Miss Bertha Hamer, aged 18, both of Uintah.

The Union Portland Cement company yesterday awarded a \$15,000 contract to the Westinghouse Electric company for stokers and auxiliary engines.

Tom Jenkins, who is matched to meet Willie here the latter part of this month, together with his manager, Jack O'Keefe, went to the Oaks, in Ogden canyon, yesterday, where they have established their headquarters.

F. J. Lucas and a co-worker of the Y. M. C. A., Salt Lake, will deliver an address to the boys of Ogden at 3:30, Twenty-fourth street, at 8 o'clock this evening. Light refreshments will be served. There will be no charge.

Attorney H. H. Henderson filed two actions in condemnation proceedings for the Utah & Idaho Railroad company against Anna R. Shaw and Ann Cardon. The land sought is condemned in on the line to the mouth of the Ogden canyon. This is the third suit of a similar nature that this company has pending in the district court.

THREE NEW BISHOPS.

Birmingham, Ala., May 17.—After a day of exciting balloting at the Southern Methodist Episcopal general conference, which continued up to 10:30 o'clock tonight, the following three new bishops were elected: Dr. Seth Ward, assistant missionary of the M. E. church; Dr. John Treet, book editor; Dr. James Atkins, Sunday school editor. Treet was elected on the first ballot, Ward on the second and Atkins on the twelfth.
