the prices of the metals produced in great quantities by Utah mines. This was given as a reason why Utah is prospering.

THE LINE OF SAFETY. Charles E. Hughes, chief counsel for the Armstrong insurance investigation commission, told a gathering of life insurance men some truths Tuesday evening.

MORAN'S POINT OF ORDER. It is a remarkable coincidence that the "American" councilmen should have just happened to misunderstand a point of order which they now insist upon the paving bids in position for Pat Moran to get a big job which he had apparently lost because he bid too high.

Those who have followed the proceedings may be curious to know why such an exhibition of stupidity happened to result over a plain committee report, and the more eagerly inquisitive will wonder why it happened when Moran was involved, although it has never happened before and could not possibly happen again—unless Moran could profit by it.

To spoil it all, those parliamentarians who are not working in Moran's interest insist that even the point of order can be construed so as to permit the contract to go to the lowest bidder. But it is hard to believe that the majority of the council will accept any such construction, however plain and reasonable, if it does not open the way for Moran to get the job.

UTAH'S RAPID GROWTH. A recent census bulletin gives some very interesting figures on Utah's growth in manufacturing enterprises.

HIGHER PAY FOR OFFICERS. There is a strong and growing demand for better salaries for public servants. This sentiment has been crystallized into a bill introduced in congress the other day providing for liberal increases in the pay of representatives, senators, cabinet officers, the president and vice president.

There are men serving in the senate and house today, and in the cabinet, who could earn very much more in private life than they receive from the government. However, there has been no difficulty in filling the places. Plenty of men are willing to make sacrifices in order to be in the cabinet or in congress.

It will be said that the salaries paid by some corporations do not represent actual service performed. This is doubtless true. "Judge" Hamilton did not honestly earn all the money he drew from the life insurance corporations.

Political activity by labor unions, as unions, was endorsed at a trades union meeting in Boston the other day. That ought to please D. M. Parry of Indianapolis, who hates labor unions as he hates nothing else in the world.

Miss Abbie Wells entertains the P. I. X. girls this afternoon for Miss Mary Sharp. Mr. and Mrs. Leroy G. Dinwoodey entertain at a dinner this evening for Mrs. Harold Russell.

A Washington dispatch says a house committee has reported favorably on a bill to make Salt Lake a port of delivery. Now the question that will agitate the patriots is: Who will be the deliverer?

The man that follows President Roosevelt's advice is mighty apt to be a pretty good citizen, but the man who follows Roosevelt's example is going to be in hot water pretty much all the time.

Governor Cutler has received a lengthy prayer by mail. He is being laughed at some about it but he'd hardly dare to say he didn't need it.

SOCIETY

Mrs. John Hunnan entertained a large number of her friends yesterday afternoon at cards, the game played being 500. The house was bright with yellow and white flowers, and the colors, yellow, green and white, were carried out in all the appointments.
