

DIRECT ADDRESS TO THE COUNTRY

Russian Parliament Will Try to Counteract Effect of Government Proclamation.

DISTRUST OF THE PEASANTS

DEBATE ON BIALYSTOK REPORT RESUMED.

St. Petersburg, July 9.—The initial steps toward the adoption of a direct address to the country to counteract the impressions of the government's communication with regard to the settlement of the agrarian question are making among the peasantry today when an interpellation was introduced asking for an explanation of the dissemination of the governmental proclamation to the peasants July 3.

This proclamation accompanied the publication in the Official Messenger of the government's agrarian bill and set forth the emperor's constant solicitude for the peasants' welfare and denied that the government was opposing expropriation in the interest of the landlords, concluding with an expression of the vital necessity of maintaining the rights of property as being the foundation of the state.

Counter Appeal Probable. The interpellation was referred to a commission which is expected to recommend the issuance of a counter appeal setting forth the views and intentions of parliament.

Professor Kuzmin-Karavaleff, the legal expert of parliament, has developed the theory that the action of the administration is spreading views directly opposed to the expressed policy of the legislative branch was an illegal encroachment on the privileges of parliament.

Warning Issued. Count Mukhanoff, president of the house agrarian commission, dilated on how the law which the commission was now elaborating was handicapped by the circulation of the emperor's proclamation. New tactics had been necessitated by alarming news from various sections as to the effects produced by the proclamation. The slow progress of parliament was contrasted with the government's fair sounding promises of the distribution of all arable state lands and other measures to relieve the land hunger of the peasants.

Peasants Distrustful. Deputy von Rutzen, from the province of Kursk, who has just returned from a visit to that section, told the Associated Press today that he had found many peasants harboring a distinct feeling of distrust if not of animosity toward parliament, which petty officials naturally are doing their utmost to encourage. The government's agrarian proclamation, he said, was distributed broadcast in the form of hand bills and posters throughout the country, and agents of the administration are actively attacking parliament's principle in the agrarian question as being aimed as much at the small holdings of peasants as at the vast estates of the nobility.

Debate on Bialystok. The house made slight progress today with the debate on the Bialystok report. The principal new contribution was Deputy Vilaver's assertion that anti-Semitic pamphlets are still being printed in the office of the prefecture of police at St. Petersburg, the deputy giving the title of the pamphlet and the name of its author. The discussion will be continued tomorrow.

During today's debate Baron Ropp, a Catholic bishop, representing Vilna, said a general had informed him that the soldiers would never fire on Christians, but only on Jews. He said he was convinced that the chief administrative officials al-

ways were capable of stopping excesses if they cared to do so.

Accused of Massacres. Deputy Vilaver, in the course of a long speech, endeavored to prove by documentary evidence that the central government had participated in Jewish massacres for the purpose of forcing the Jews to betray their revolutionary brethren, but the deputy added, these Jewish revolutionaries constituted a source of greater danger to moderate Jews than to the government. The Jewish race, he said, was small, but strong and its strength was in its despair. Its ally was the whole Russian race, which was indignant against such acts of criminal barbarity. This statement was applauded by the center and left.

SECRETARY SHAW ASKS CO-OPERATION OF BANKS

Washington, July 9.—Secretary Shaw has issued an appeal to national banks to assist the government in supplying a pressing demand for notes of small denomination. He has sent to all banks a letter requesting them to issue as much of the aggregate of their circulating notes in five-dollar bills as is possible, indicating to them that there is more profit in the issuance of such notes than in putting out notes of larger denomination.

PRIEST MUST PAY FINE. Leipzig, Germany, July 9.—The imperial supreme court today confirmed the decisions of the lower courts in fining Father Woerner, a Catholic priest of Constance, Grand Duchy of Baden, \$20 for threatening a voter for an election campaign there with denial of the sacraments if he did not vote for the center party candidate for the reichstag.

OFFICERS RE-ELECTED. Denver, July 9.—At the annual meeting of the directors of the Denver, Northwestern & Pacific railroad this afternoon, all the present officers were re-elected. No other business was transacted.

FINALLY RELEASED. Three Americans and One Englishman Have Taste of Russian Prison.

Victoria, B. C., July 9.—A dispatch from Japan states that three Americans, one British and three Japanese sealers, who were imprisoned for sixteen months at Vladivostok, have returned to Japan after being released. One of the Americans was loaded with chains while in confinement. The Americans and Britisher, who are distressed, are being maintained at the seaman's institute at Yokohama. They were members of the crew of the Japanese sealing schooner Kyoichi Maru which was sunk by Russian cruisers from Vladivostok, off Saghalien, in 1903 and the sealers were taken to Vladivostok on the cruiser Gromobol.

The Japanese government has enacted legislation for the protection of fur seals, specifying closed areas and closed seasons for fur seals and sea otter, and also restricting the nature of the hunting boats and apparatus as well as the method of hunting. The ordinance also prohibits the killing of animals under a specified age limit. The law came into force at the commencement of the month.

The remedy is, (and get to work in time) to quit the drug and therefore stop the daily destruction. Then take a liquid food such as Postum and go to rebuilding. That is a sure and dependable road to Wellville.

AMUSEMENTS

"Men and Women" really ought to be worked in two shifts, like "Parsifal." It lacked but a half hour to midnight when the lid was clapped on at the Salt Lake theatre last night. A greater familiarity with the lines and with the scenery will doubtless shorten the play, so that tonight the finish will come at 11 o'clock. It is that. There is a strong human interest in the play, and three or four of the players measure very well up to it. Mr. Mayall as William Prescott, the hero, who is a thief, is one. Mr. Gilfeather is admirable as Israel Cohen, the rich old banker. Mr. MacLean, in the role of Calvin Standish, made a pecked villain, and Scott Robertson appreciated most of the possibilities of the part of Stephen Rodman. Miss Ellsmere had the principal woman's part, that of Agnes Rodman, and she did the strongly emotional scenes very well indeed. On the whole Salt Lakeers will find "Men and Women" worth seeing. As this is the last week of the Mayall company's engagement, the attendance will doubtless be large.

"The Tramp Detective" was the offering at Casino Park last night, with some clever vaudeville stunts switched in between the acts. It need hardly be said that the action swings around a detective who is made up as a hobo and who is always John in the center of the circle just when he is needed. Last night's audience was large and gave many manifestations of approval. "The Tramp Detective" will continue through the week at the park.

EFFORTS TO CHECK A SOURCE OF TROUBLE

Washington, July 9.—Carrying out a suggestion made by the house committee on foreign affairs, a board assembled at the state department today to inquire into the laws and practices regarding citizenship of the United States, expatriation and protection abroad, and to report recommendations for legislation to be laid before congress next session. The primary purpose is to devise means of checking the abuses of American naturalization by persons who take out papers with the deliberate purpose of returning immediately to their native countries where they have given much trouble to the state department by claiming immunity from all the obligations of the natives of their own government and thereby causing great discontent abroad and leading to much diplomatic correspondence.

NOTIFIED OF TREATY.

Berlin, July 9.—The Italian government has confidentially notified the German foreign office of the contents of the treaty negotiated between Great Britain, France and Italy on the one hand, and Abyssinia on the other. The main features of the Anglo-French-Italian treaty with Abyssinia, it was announced from Paris July 5, are a guarantee of the integrity of the Abyssinian empire, the open door and commercial equality for all countries and the continuation of the railway connecting Addis Ababa, the capital of Abyssinia with the coast, and Italy having representatives on the railway directorate.

CINCINNATI WON OUT.

Newark, N. J., July 9.—The most important work of the German-American gymnastic alliance in session here this morning was the selection of Cincinnati as the place of meeting two years hence, and the abrogation of a rule by which Indianapolis remains the headquarters of the executive board. St. Louis was a strong competitor for the next convention. When a delegate's voice in the rear of the hall said, "There is danger of a bishop's bill in St. Louis," everybody laughed at the jocular reference to Newark's dry Sunday, and a chorus responded, "Cincinnati, Cincinnati." A resolution favoring the army canteen was passed.

Walker's Great Mill End Sale. It's the Greatest Ever. A Record Smasher. Great as were our expectations, they were nothing compared to our realizations. Never before has the wonderful capacity of the great store been so severely tested. Never before have such throngs surged through the aisles as did yesterday. We thought 150 extra salespeople would be enough, added to our regular force, to handle the crowds. They couldn't touch them. Hundreds and hundreds of people went home disappointed; couldn't even get near the counters. But come today. Come tomorrow and all week. Quantities are great. There'll be enough for all. See our big four-page circular and Sunday papers for quotations. Bring them with you. You'll find everything just as advertised at the greatest sale Utah ever saw.

REFUSED AMERICAN MEATS. Action of British Ship's Officers Has Placed Our Products Under the Ban. London, July 9.—As the result of the refusal of one of the ships of the British attacking fleet to take on American tinned meats during the recent British naval maneuvers, the admiralty directs that ships' companies be supplied with Australian or Argentine brands in lieu of American. The remainder of American tinned meats now on hand is being returned to the victualing yards and will be no longer a compulsory ration for the navy. Winston Spencer Churchill, under secretary of the colonies in an official communication to William Redmond, nationalist member of parliament for the east division of Clare, says he is informed that special care is exercised by the New South Wales government that only absolutely healthy heaves are slaughtered for food, and that every precaution is taken at freezing and canning works to insure a cleanly method. Where any breach of the regulations regarding cleanliness is proved licenses are immediately withdrawn. Persons slaughtering a diseased beast are liable to imprisonment for two years, and the seller of diseased meat is liable to imprisonment for a longer term. Government inspectors report weekly. Twelve hours' notice must be given of intention to slaughter, and where no such notice is given a penalty of \$25 a head may be imposed.

AVOIDED VEXED QUESTIONS. Secretary of War Root Makes a Speech at San Juan. San Juan, Porto Rico, July 9.—Elihu Root, the American secretary of state, who arrived here yesterday on the cruiser Johnston on his voyage to Rio Janeiro as the representative of the American government at the Pan-American congress, was entertained at luncheon today by George C. Ward at the Union club. Other guests included the military and naval authorities of Porto Rico and several Spanish merchants and bankers. Auditor Hyde of Porto Rico proposed the toast to President Roosevelt. In responding Mr. Root said he fully appreciated the difficulties attending the island's adjustment to the new conditions resulting from its separation from Spain and the severance of relations between church and state. The United States, he said, was greatly interested in the welfare of the islands and in holding its friendship, and strongly desired for Porto Rico the utmost prosperity and happiness. Mr. Root avoided all reference to insular problems such as the question of citizenship, the coffee growing industry and the presence of troops on the islands.

BUTTER LEGS

Are Really Unfit for a Hot Climate.

A sarcastic one said, "A person who won't quit the coffee habit when heart and nerves are crying for relief, has less stability of character than a pair of butter legs in hades." Truly a melting remark. It seems hard-hearted to poke fun at the coffee "crank" who "Just can't give up my coffee" for the habit sometimes becomes a disease just as truly as the whisky habit, but it is easy for the worst old coffee toper to shift over to Postum Food Coffee, provided it is well made. Postum has the deep, seal brown color of drip coffee and a certain snappy flavor, not of the rank, strong, bitter coffees but much like the mild and high grades of Java. It supplies in liquid form the needed food elements required to rebuild the nerve centres, hurt or destroyed by coffee. What do we mean by "nerve centres"? These are found in various parts of the body and each little nerve sack or envelope is filled with a soft, pulpy, gray substance that is really the life and energy of the nerve. Coffee and other stimulant narcotic poisons tend to destroy this gray matter and when enough is broken down, nervous prostration or other form of disease will set in. The trouble may show in weakened heart, lungs, stomach, bowels, eyes or any other organ, for the lack of life power or nervous energy is likely to attack the weakest part first. The remedy is, (and get to work in time) to quit the drug and therefore stop the daily destruction. Then take a liquid food such as Postum and go to rebuilding. That is a sure and dependable road to Wellville.
