

HERALD ANNOUNCING

TWELVE HOURS IN BIG AIRSHIP

Dr. Julian P. Thomas and Roy Knabenshue Sail 225 Miles Through Clouds.

TWO NEW DEVICES TESTED

MOST SUCCESSFUL BALLOON TRIP YET MADE.

Brant Rock, Mass., Aug. 6.—Sailing above the clouds and over 225 miles of pacific land and water from New York City and landing today at the little seashore resort of Brant Rock, near the historic town of Plymouth, Dr. Julian P. Thomas of New York and Roy Knabenshue, a professional aeronaut, made the most successful balloon trip yet undertaken in this country and learned much, it is believed, that will assist in the development of aerial navigation.

ONE STOP MADE

The voyage was made with one stop and that voluntary, at Noank, Conn., early this morning, where by the aid of a new guide rope, Dr. Thomas quickly brought his balloon to the earth to procure breakfast and water. The aeronauts landed at Brant Rock at 11:20 a. m. and as they left New York at midnight last night they were nearly twelve hours on their trip.

The trip was made for the purpose of testing two new appliances, a guide rope and water anchor, the former device worked with great success. The start in New York was made without mishap at midnight. This balloon, rose over New York City and sailed in a westerly direction. After several miles a thick fog swept over the sound and the aeronauts were unable to tell whether they were drifting. By the use of his guide rope, Dr. Thomas brought the car nearer earth and from the blasts of the fog horns knew he was still over the waters of the sound.

YACHTING PARTY ASTONISHED

Off Bridgeport, Conn., attracted by one of the whistling craft, Dr. Thomas brought his airship still closer to the water and anchored. The former device worked with great success. The start in New York was made without mishap at midnight. This balloon, rose over New York City and sailed in a westerly direction. After several miles a thick fog swept over the sound and the aeronauts were unable to tell whether they were drifting. By the use of his guide rope, Dr. Thomas brought the car nearer earth and from the blasts of the fog horns knew he was still over the waters of the sound.

FINAL DESCENT MADE

Over Narragansett bay and into Massachusetts the balloon sailed and finally the crew came into view and preparations were at once made for a final descent. The car dropped rapidly until it struck the meadow land belonging to George H. Thomas at Brant Rock. The car, made unsteadily by its lack of ballast, bounced along the ground for over 100 yards before its anchor brought it up with the open water of Massachusetts bay scarcely 300 yards away.

POSTAL INCREASE IS BIG

Receipts for July Show 25 Per Cent Gain Over Last Year.

The report of Postmaster A. L. Thomas for July was completed yesterday. The figures show that, in stamp, postal card and stamped envelope sales the month's business was higher than that of any July in the history of the office. The increase was approximately 25 per cent over July, 1905, and the biggest July. The figures follow:

July, 1905, July, 1906
Stamps \$11,725.00 \$13,308.30
Postal cards 380.00 400.00
Stamped envelopes 4,305.20 6,308.27
Total \$16,410.20 \$19,786.17

NEW RECORD AT SARATOGA

Season Opens With Handicap Capturing \$10,000 Handicap—Tangle Second.

Saratoga, N. Y., Aug. 6.—F. H. Hitchcock's entry, Dandelion and Tangle, captured in the betting at 12 to 5, ran first and second in the \$10,000 Saratoga handicap, one-mile and a quarter and the topping of Saratoga's racing season today. Dandelion, in winning, created a new track record for the steeplechase, stepping it in 2:42.5, which is three-fifths of a second faster than Irish Lad's time, made in 1902.

MATCH SHOOT AT TRAPS

Burgess and Mills Beat Parker and Keefe.

An overheated argument in the hot air club resulted in a challenge for a shooting match at the traps. Burgess and Mills decided they could beat Parker and Keefe. The quartette retired to the local traps yesterday afternoon and in the presence of a number of witnesses had it out. When the last blue rock was broken Burgess and Mills won the match, having to give up five and six shots to Parker and Keefe's four.

BIG TEE GIES TO GOLDFIELD

Efforts of Graney and Levy to Change Nolan Prove to Be Fruitless.

PARADE IN THE MORNING

MANY SPORTS WILL BE HELD AT SALT PALACE.

Labor day will be celebrated this year in Salt Lake on a grander scale than ever before, if the plans of the Utah Federation of Labor are carried out. A committee composed of J. N. Spading, chairman; John E. Osborne, secretary; D. I. Elton, Joseph Elton and Louis Lynn have the preparations in hand. The sports and games will be at the Salt Palace but the real feature of the day will be the parade in the morning when an especial effort will be made to make a great turnout of organized labor in favor of the earthquake town. This, it is claimed, is Graney's first trip out of the native state. This may have had something to do with his failure. Like Levy, Graney's first word on meeting Nolan was to meet him at the Salt Palace. Nolan took advantage of the opportunity and pushed Graney into a hack and drove him all over town. Whenever the fight was broached Nolan explained some local point of interest. Finally Graney got down to business, and Nolan would say, "I have given my word to the Goldfield people and intend to make good. Eddie, you will hear me a million, but I go to Goldfield."

FIASCO IS EVIDENT

Order to Strike Coidly Received All Over Russia.

St. Petersburg, Aug. 7, 3:30 a. m.—In the light of yesterday's developments the general strike may almost be regarded as a fiasco. The summary of the day's events, the printers and the street car men and part of the employees of the gas, water and electric light plants quit work, but these are more than offset by the defections in St. Petersburg. An enthusiastic acceptance of the strike is nowhere recorded. Even in the Donetz mining district, where practically all the miners already were out of the factory hands, according to a staff correspondent of the Associated Press, declined to strike.

ONE CHANCE REMAINS

The revolutionists may possibly yet be saved by the railroad men, but the central committee of the railroad men have not yet reached a final decision, and up to the present time, in spite of the frantic efforts of the agitators, not a single important line of the empire is affected. The line to Irkutsk, upon which a train stopped last evening, is not important.

WILLIE WINS PRIX DE LAVILLE

Paris, Aug. 6.—W. K. Vanderbilt's Pimplo won the Prix de Laville at the Caen races today.

HAVE IRRIGATION SCHEMES

Companies Seek to Appropriate Water From Green River in Eastern Utah.

Three irrigation companies filed applications for water rights with the state engineer yesterday. The Isopha Agriculture & Stock company of Salt Lake applied for 2,400 acre-feet of water which is to be used for irrigation and for domestic purposes for a proposed town site in the second ward. The water will be diverted from Cheokerry, Low Pass and Little Pole creeks in Tooele county and 2,400 acre-feet of water in the Green river. The Ninia Reservoir, Land & Improvement company of Pueblo, Colo., ask for 2,640 acre-feet of water which is to be taken from the Lake Fork Branch of the Green river in Wasatch county to irrigate 2,500 acres.

DESPAIR OF THE AGITATORS

The organizers of the strike are in despair over the prospect of failure. Some electric counsel calling the strike off in an effort to save prestige, but the majority is waiting in the last hope for some action on the part of the railroad men. Except for the dispersal of several military gatherings by Cossacks and mounted police, St. Petersburg yesterday was almost as quiet as ordinary times.

AMUSEMENTS

Resident Manager W. L. Jennings of the Orpheum has arrived from New Orleans, and about the first announcement he makes regarding the opening of the house on Monday next is one requesting regular patrons to make their reservations for the season at the box office. These seats will be held until 5 p. m. on the night selected each week, and then if not called for will be sold. Next week's bill will have for its headliner an intensely interesting and novel comedy, "The Mechanical Dog," which will be a real treat to the audience, and will include comedy gymnasts, magicians and other good turns. From here the bill will go to Denver or Portland in its entirety. Finishing touches are now being put upon the decorations, and the patrons of the popular State theatre will hardly recognize the place.

THE GRAND THEATRE

The Grand theatre will open its regular season Aug. 12 with Georgia Harper as the attraction. Miss Harper will present "Coralie" for the first half of the week. This play is one of unusually strong interest. Miss Harper's work in the title role is marked by great strength and dignity, yet full of the passion and caprice of an understanding an intensely loving nature. She has a charm all her own and plays with a dash that makes her work most convincing. She will be supported by Joseph Detrick and a capable company.

CASSIDY'S MUSICAL COMEDY COMPANY

Cassidy's musical comedy company will be seen in the burlesque in "Camille" at Casino Park tonight for the last time. Tomorrow night they present "The Mechanical Dog." It is replete with catchy musical fun, magnetic charming girls, pretty costumes. This piece will finish out the week commencing Monday, Aug. 13. Zinn's travesty company will return for an engagement which will run for the balance of the summer at Casino Park, where they became such favorites on their former visit.

ULCERS OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real seat of the trouble is in the blood and cannot be reached by external remedies, and soon the sore will return. After awhile the deadly poison begins to eat into the surrounding flesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with cancer. Cancerous ulcers start from a boil, wart, mole or pimple, which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers and sores is the remains of some constitutional disease or the effects of a long spell of sickness. S. S. S. goes down to the very root of the trouble and cures so thoroughly that there is never any sign of the trouble in after years. As soon as the system gets under the influence of S. S. S. the place begins to improve, the discharge gradually grows less, the inflammation leaves, the flesh resumes its healthy color, and soon the sore is well, because every vestige of the cause has been removed from the blood. Book on sores and ulcers and medical advice without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

I was suffering greatly from a cancerous ulcer on my left breast, which had begun to eat, and at times would discharge very offensive matter. I knew the trouble was hereditary as my only sister, my mother and two of her sisters died of cancer. I am fully satisfied I would have gone the same way but for S. S. S., which cured me. Bolton, Mo.
