St. Petersburg, Aug. 22.—A story is in circulation here that an attempt had been made to poison General Trepoft, commander of the imperial palace, whose illness has just been announced.

St. Petersburg, Aug. 22.—On account of the threatening spirit exhibited by the constituents of Onipko, the peasant member of the late parliament who was arrested after the Cronstadt mutiny charged with inciting armed revolt, an offense the government does not deem because of the fear of outbursts in the province of Stavropol should be condemned by the forthcoming court-martial, the city and district of Stavropol and two other districts of the province, with the entire approval of the cabinet, were today declared to be in a state of extraordinary security and the rest of the province in a state of reinforced security.

MURDERS EACH DAY.

Crime Not Diminishing in Russia in Spite of All Efforts.

St. Petersburg, Aug. 22.—In spite of the wholesale arrests and deportation of revolutionists, the big centers' daily chronicle of murder and robbery is not appreciably diminishing. The police seem utterly powerless to capture the perpetrators of the crimes. They do not effect an arrest in one case out of twenty-five.

Meinikoff, who was associated with the famous Russian revolutionary agitator, Gerschunin, in the conspiracy which was responsible for the assassination of former Minister of Public Instruction Bogoloubov and former Minister of the Interior Sipilagine, in company with Sasanoff, the assassin of former Minister of the Interior Von Plehve, and several other terrorists, has escaped from Akkult, Trans-Baikal.

It is announced that some amelioration of the conditions of the prisoners will be made without awaiting the action of parliament. A commission is sitting at the ministry of the interior elaborating a general project of laws, whose provisions, however, will only include an extension of the limits of the pale of residence and an extension of the rights of higher education.

Peasants Acquiring Land.

St. Petersburg, Aug. 22.—Official statistics show the condition of the peasants among the land owners. Since last November 1,762,557 dessiatines (a dessiatine is a little over two and a half acres) of land were offered to the peasants' bank at about \$62 per dessiatine, but the amount actually bought and sold to the peasants is not stated. The bank is paying for the land in notes worth in the market \$65 and selling it to the peasants in installments sufficient to meet the interest and amortization of the notes. In some places, it is stated, the land question is settling itself by this method.

Witte Operated Upon.

St. Petersburg, Aug. 22.—Count Witte, the former premier, submitted to an operation on Tuesday at Frankfurt-on-the-Main, which was performed by Professor Epilus. A telegram received here today from the ex-premier declares that health was the sole reason for his visit to Frankfurt, all former political aims to the contrary notwithstanding. He will be obliged to remain at Frankfurt or in the vicinity in order to effect a cure.

UTAH POTATOES SCARCE

Rain Causes Famine in Tubers—Fine Utah Peaches Now to Be Had.

The heavy rains of this week have led to a potato famine in the local markets. There were few or none to be had yesterday. The farmers have not been able to dig or bring them in, hence the shortage. Some shipments are expected today to relieve the situation though they may not be plentiful this week.

Utah freestone peaches have been arriving in abundance. They are a fine fruit and are selling rapidly at three pounds for 25 cents. Utah watermelons are not arriving in such quantities as to be depended on for the present. A car of bananas arrived yesterday and relieved the market somewhat in that fruit. There are good Bartlett pears to be had at three pounds for 25 cents.

BEST FRUIT WILL BE LATE

Exhibition at Boise Consequently Will Not Be Finest Product of Either Utah or Idaho.

On account of the lateness of the season it is stated that the exhibit of fruit at the National Irrigation congress will not be of the finest product of either Utah or Idaho. The best grade of fruit will not be ready for the market until perhaps two weeks after the time set for the convening of the congress.

Tree Inspector Robert E. Wilson, who has charge of selecting the exhibit from Weber county, states that he has advised announcing the collection of apples, peaches, plums, apricots, pears, grapes and nuts, all of which have been placed in cold storage and will be used for the Utah exhibit. Mr. Wilson is very enthusiastic over the prospects of returning the Clark cup to Utah. He thinks that many of the fruit growers in Weber county have given their fruits for the exhibition gratis. The car which will convey the fruit to Boise will start from Salt Lake after the exhibit from the southern part of the state. The collection from northern Utah has been collected at Ogden and will be loaded Aug. 20. Mr. Wilson will accompany the car on its journey and look after the unloading upon arrival at Boise.

Union Drivers at Funerals.

The local lodge of the Teamsters' International union served notice on all of the Ogden undertakers yesterday that, commencing at once, they would insist that in the event of the death of one of their number all teamsters driving conveyances in the funeral cortege would have to be members of the union. Hereafter this matter has never been brought up and although the union is strong in Ogden both non-union and union drivers have been permitted to drive the equipages on such occasions. The local undertakers will undoubtedly agree to the demands of the union.

Crops Helped by Rain.

Considerable speculation has been rife as to whether the recent heavy rains did more damage than good to the various crops. It is said that the rains materially benefited the tomato crop as well as the peach, pear and sugar beet crops. It has also helped the third crop of alfalfa and will be a good thing for the fall plowing. Clark Howell Buried Out of Sight in the Primaries for Governor of Georgia.

Atlanta, Ga., Aug. 22.—The state Democratic primaries today resulted in a victory for Hoke Smith, candidate for governor, unprecedented in the size of the majority. Of the 145 counties in the state he has carried probably 110. By the returns available at 11 o'clock tonight, Clark Howell carried six counties; J. H. Estill of Savannah, two; R. E. Russell, eight, and James M. Smith, three, leaving sixteen to hear from. This result will give Hoke Smith 219 votes in the state convention out of a total of 356.

Mr. Howell's paper, the Constitution, in its first edition, concedes more than 100 counties to Hoke Smith, and says his nomination for governor on the first ballot in the convention is practically assured.

For the remainder of the state ticket there was little opposition, all the incumbents of the various state offices being candidates for re-election. Senator Bacon was unopposed. The state convention will be held at Macon, Sept. 4.

The Popular Novelist's Opinion. "Of course, I am gratified with the favorable notices my last book, 'The Colossus,' is receiving, because I consider it my best work; but more than all, it pleases me because it demonstrates that men don't know what they are talking about when they say that the Keeley Cure is injurious to the brain. 'The Colossus' was started since I took the cure, two years ago, and I have worked more hours and more carefully upon it than upon any other of my books, and I am glad to see that the critics decide it my best work. That doesn't look as if the Keeley Cure had affected my brain matter, does it? The fact is my imagination is more fruitful, my style clearer and my ability to work greater than it was before I took the Keeley Cure." OPIE READ.
