

TO YOUTH SLAYS AGED FATHER

Sidney Sloane, 17 Years Old,
Confesses to Committing
Crime at Spokane.

USES AX FOR BLOODY WORK

TRIES TO COVER UP EVIDENCE
OF FOUL DEED.

Spokane, Aug. 28.—The body of James F. Sloane, a pioneer merchant of this city, was found behind a pile of rocks in an alley near his home on Sixth avenue near Stevens street. Great gasps on his head showed that he had been murdered, apparently with a hatchet, and a trail of blood led from the alley to Mr. Sloane's home. Investigation proved that he was murdered in his room shortly after midnight, his body being loaded into a wheelbarrow, trundled to the alley and dumped against the rocks. Sidney Sloane, the 17-year-old son of the murdered man, was taken into custody by the police shortly after the body was discovered. At first he protested complete innocence, but broke down and confessed the murder. He said he slew his father with an axe in the hope of getting \$500 which he thought his father was carrying. The murdered man had been one of Spokane's leading merchants for years, being the senior member of the Sloane-Paine company.

Deliberately Planned.
Investigation of the Sloane murder by a representative of the Spokane Chronicle shows one of the most cold-blooded crimes ever committed in this city. Sidney Sloane was the only member of the family in the city, excepting his father, had made every preparation for covering up his tracks.

He had stolen an axe from a neighbor's back yard and waited for his father's appearance on the upper floor of his home. Evidently he struck his father on the head with the axe as the latter entered his room. The noise awakened Mrs. Miss Spyners, who were sleeping directly under Mr. Sloane's room. Sloane was a heavy drinker and they thought he had stumbled over the center table, so they let the matter rest.

Carted Body in a Wheelbarrow.
As soon as the boy had searched his father's clothes for the money, which was the motive for the murder, he went to a neighbor's back yard and unloaded a lot of apples from a wheelbarrow and, carrying his father's body down stairs, placed it in the vehicle. He then wheeled it around the block and dumped the body in an alley. Returning, he washed the wheelbarrow, replaced the apples and left them in their original position. He carefully washed off the axe and also replaced it.

There were rugs on the floor of the bedroom and the blood from the wound on Mr. Sloane's head had soaked through the rugs on to the floor. These rugs the boy rolled up and took up, carrying them to the back porch thoroughly washing them. He washed the floor clean and placed several Indian blankets on the floor.

Murderer Arose Early.
He arose early this morning and, calling to Mrs. Spyners, told her his father had not been in that night and that he was going out to look for him. While he was talking several policemen arrived and told the boy that his father had been killed. The boy at first pleaded innocence, but finally confessed.

The police suspect that young Sloane had older accomplices, including a woman. He is also suspected of being the burglar who robbed two stores in the block where his father was long engaged in business. He is also suspected of being a partner of the burglar who was shot and killed a few weeks ago while breaking into Slap's candy store.

Told Rambling Story.
When submitted to a rigid questioning by Chief Waller and Detective McDermott, young Sloane first told a long story about making arrangements with a man named Riley in Sheridan, Wyo., to come on here and murder his father.

He said he and Riley planned to secure \$500 in cash, which his father had on his person, and divide it. He stated that Riley came last night and carried out his part of the program, and that it was Riley who struck his father with an axe. He said Riley then took \$500 and fled to Roseland, B. C., leaving Sidney with \$50. The police had previously found \$50 on him when he was arrested.

He later broke down completely and confessed that he alone killed his father, but said it was in the heat of passion, his father having attacked him when intoxicated. The boy, who is only 17 years old, broke down and cried.

Chief Waller believes the boy coolly planned the murder to secure the \$500 which he believed his father had.

BIG DAMAGES AWARDED.
Racine, Wis., Aug. 28.—Judge Powell of Food du Lac, today awarded Otto B. Schütz, a baker \$200 damages in his suit against eighty members of the trades and labor council for boycotting his business and placing his name on the unfair list because he refused to put the union label on his products.

REDUCTION IN OIL.
Independence, Kan., Aug. 28.—The Prairie Gas & Oil company today announced a reduction of 3 cents a barrel in the price of all western oil. High grade now brings 28 cents and fuel oil 25 cents.

GOOD NIGHT'S SLEEP
No Medicine so Beneficial to Brain and Nerves.

Lying awake nights makes it hard to keep awake and do things in day time. To take "tonics and stimulants" under such circumstances is like setting the house on fire to see if you can put it out.

The right kind of food promotes refreshing sleep at night and a wide awake individual during the day.

A lady changed from her old way of eating, to Grape-Nuts, and says: "For about three years I had been a great sufferer from indigestion. After trying several kinds of medicine, the doctor would ask me to drop off potatoes, then meat, and so on, but in a few days that craving, gnawing feeling would start up, and I would vomit everything I ate and drink."

"When I started on Grape-Nuts, vomiting stopped, and the bloating feeling which was so distressing disappeared entirely."

"My mother was very much bothered with diarrhea before commencing the Grape-Nuts, because her stomach was so weak she could not digest her food. Since using Grape-Nuts she is well, and says she don't think she could live without it."

"It is a great brain restorer and nerve builder, for I can sleep as sound and undisturbed after a supper of Grape-Nuts as in the old days when I could not realize what they meant by a 'bad stomach.' There is no medicine so beneficial to nerves and brain as a good night's sleep, such as you can name after eating Grape-Nuts."

FIRST HEARING UNDER NEW LAW

Inter-State Commerce Commission in Session With Railroad Representatives.

Washington, Aug. 28.—Four members of the interstate commerce commission, Chairman Knapp and Commissioners Clemens, Cockrell and Lane, were present today at the initial hearing under the new railroad freight rate law.

The law recently enacted by congress became effective today. Already, in partial compliance with the law, tons of tariff rate schedules have been filed with the commission by the various railroads and common carrier lines of the country and additional tariffs are being received by the commission in every mail.

Big Salary Begins.
It was not expected that the full commission under the new law would be present in Washington today. Commissioner Prouty of the old commission and Commissioners Clark and Harlan, recently appointed by President Roosevelt under the new law, could not be present at the hearing today. The commission today begins its work under the operation of the law, which increased the salary of its members from \$7,500 to \$10,000 per annum.

Railroad Men Heard.
The four commissioners, who are in Washington, conducted a hearing in the rooms of the commission today at which the trunk line, New England and Central railroads were heard, through their representatives, as to some phases of the operation of the new rate law. Thirty-four representatives of these railroads, including traffic officials and counsel and eight representatives of various shipping organizations were in attendance upon the hearing.

Every speaker representing the railroads informed the commission that the railroads of the country had no disposition to lay obstacles in the way of its enforcement of the act.

We guarantee every treatment of "TRIB" Price \$2.50 a full four weeks' treatment and a GUARANTEED cure. Liquor or tobacco causes a diseased condition of the nerve cells. You have, no doubt, often made strong resolutions, saying you will never use either again, but when every little nerve cell cries out for the poison it has been accustomed to, you are easily persuaded to grant that desire and return to its use. You are unable to keep this resolution without the aid of a remedy which will take charge of your entire system and place it in its natural healthful condition.

"TRIB" permanently restores the diseased organs to their former activities and leaves the patient in the same physical condition in which he was before he formed the habits. The action of "TRIB" is wonderful. It commences at once to dump the impurities out of the body so that when you open the pores of the skin with a hot bath you are truly surprised at the disagreeable odor coming from the body.
