

UTE INDIANS MEAN NO HARM

Assert That They Would Starve
If Compelled to Live on
Utah Reservation.

LOOKING FOR BETTER HOME

NO DANGER OF CHEYENNES
GETTING EXCITED.

Gillette, Wyo., Oct. 29.—Three hundred and fifty Utes, whom the United States troops have been sent to intercept, still camped on the Powder river north of here, but are making preparations to move northwest to join the Northern Cheyennes on the Crow reservation. The Indians have already sent messages ahead to select camping grounds and to notify the settlers and ranchmen that they mean no harm.

It is believed by old Indian fighters here that if proper diplomacy is used there is no chance of a battle with the redskins, who are inclined to be peaceable, but resent the action of the government in demanding their return to their reservation.

They assert they left their reserve because they were dissatisfied with conditions there and were looking for a better home. They are not looking for a better home, but are looking for a better life, and are happy to live on the reservation.

Major Grierson, in command of the Tenth cavalry, has recommended that Indian inspectors and Sioux Indian diplomats be sent here by the government to hold a big powwow with the Utes, and in connection with the army to try to induce the Indians to return. Major Grierson is confident the Indians will not return to their reservation unless confronted by an overwhelming force and will resist any small force sent against them. When the Indians are rounded up they will be escorted to Fort Meade to be held pending further instructions from the war department.

Cheyennes Are Working.

Helena, Mont., Oct. 29.—Troop L, Sixth United States cavalry, left Fort Kough Sunday morning and troop for left bank of the river to effect a junction with the troops from Fort Meade on the Upper Powder river in Wyoming and endeavor to force the return of the Utes to their reservation, saying a special from Miles City. The troops from Kough are taking supplies for the troops from Fort Meade. Fears that the Utes will stir up the Cheyenne Indians are considered groundless as all the able-bodied Cheyennes are at present working on the grading of the Chicago, Milwaukee & St. Paul railway near here and are perfectly contented.

Fake Excitement.

Omaha, Oct. 29.—A special to the Bee from Sturgis, S. D., says two Indians, believed to be scouts from the Ute band, rode into Sturgis last night and after asking about the distance of Fort Meade, from the town, the men, the body of the Sixth cavalry left the fort, and a number of men left there, disappeared. The small body of troopers now at the fort were held in readiness for a call to action throughout the night and the people of the town slept on their arms. In the belief that a descent on the place was contemplated by the Utes, considerable excitement still prevails.

TRIAL OF ANTON BESOLD

Butcher Accused of Murdering His
Wife in Lonely Canyon Near
Santa Monica, Cal.

Los Angeles, Oct. 29.—The preliminary hearing of Anton Besold, a butcher, who is charged with one of the most mysterious murders ever committed in southern California, was begun before Justice Young today. Besold is accused of shooting and killing his wife, Claude Besold, in lonely Temescal canyon, Santa Monica, last July, for no other apparent reason than that she was afflicted with a serious malady and he desired to rid himself of the expense of her treatment. Nearly two months after Mrs. Besold was slain and her body carried into the deep underbrush of the canyon her decomposed remains were accidentally discovered by a passer-by. By means of laundry marks on clothing the body was positively identified as that of Mrs. Besold, who left her home in this city two months before the first week in July. Then the search for her husband, who had also disappeared, began. He was traced through several states, finally located in Washington, D. C., and brought back. He denied his guilt or any knowledge of the death of his wife.

Besold appeared in court neatly dressed and displayed nothing more than a casual interest in the proceedings.

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system, as it is mildly laxative. It is guaranteed. Do not risk taking any but the genuine in the yellow package.

"SOONERS" MADE FINALE ASSAULT

Gobbled Up All the Choice Locations in Walker Lake
Reservation.

INDIAN POLICE WERE EASY

BRIBED WITH MONEY AND A
FEW DRINKS.

Thorne, Nev., Oct. 29.—With the firing of a mighty blast of dynamite from the top of Grunt peak, the highest point in the adjacent mountains, the Walker Lake Indian reservation was opened at noon today. At the given signal hundreds of searchers for gold hurried helter-skelter over the boundary lines of plain and mountain, and before the great cloud of smoke which rose into the air from the dynamite explosion had drifted away, a spectacular race of automobiles, race horses and vehicles was on. So great was the rush across the desert from the line nearest Hawthorne that a number of persons narrowly escaped being trampled over and over, and numerous instances of injuries were reported.

Horses were ridden until they dropped and men recounted their ill fortune when their autos came stuck in the deep sands. Jaded and overcome by thirst, numbers of prospectors barely summoned enough strength to get their locations. Waited and Got Left.

Those who had waited for the signal from the top of Grunt peak, the highest point in the adjacent mountains, the Walker Lake Indian reservation was opened at noon today. At the given signal hundreds of searchers for gold hurried helter-skelter over the boundary lines of plain and mountain, and before the great cloud of smoke which rose into the air from the dynamite explosion had drifted away, a spectacular race of automobiles, race horses and vehicles was on. So great was the rush across the desert from the line nearest Hawthorne that a number of persons narrowly escaped being trampled over and over, and numerous instances of injuries were reported.

Indian Police Bribed.

The opening of the reservation was not as imposing as it promised to be on account of the fact that countless numbers of prospectors had been attracted into the night and early morning, completely overwhelming the Indian police, who had been waiting for an official dispatch sent to the land office at Washington last night, urging that the opening be postponed on account of the irregularities that he had discovered. Parks pointed out that the Indian police who had been named to guard the lines were not only inadequate and inexperienced but they had taken money and liquor as bribes and were intoxicated most of the time.

Discontent Is Great.

He stated in his dispatch that an account of the lax methods observed, hundreds of prospectors had paid no attention to the time set for the opening. This news spread rapidly through the camps where bona fide prospectors had gathered to make a rush, and as a result there was a great deal of discontent. Reports have reached here of the numerous shooting affrays in the vicinity of the old astrakhan mine, which was the objective point for hundreds of fortune seekers who had arrived only to find that the land had already been taken.

May Be Declared Invalid.

Special Land Agent Parks deplors the fact that the rush was allowed to take place, when it was known that the opening of the reservation was to be declared invalid and a new one called for. Subsequent Robert Lovegrove made the sensational statement this morning that United States engineers who were sent here for the purpose of carrying out reclamation work on the reservation of the Walker Lake reservation that has been allotted to the Indians had occupied their time in placing landmines on the edge of Walker lake for the purpose of participating in the rush, contrary to the law, which states that all persons shall keep off the reservation until the time fixed for its opening.

WOULD LIKE A SQUARE DEAL

Cyrus H. McCormick and Others Ask
to Intervene in Chicago Traction
Troubles.

Chicago, Oct. 29.—Cyrus H. McCormick and a number of other holders of stock in the North Chicago City Railway company and the Chicago West Division Railway company have filed motions for permission to intervene in the United States circuit court allowing them to intervene in the proposed settlement of the traction problems in this city. The two street car companies mentioned form the basis of the Chicago Union Traction company, which operates the street cars on the north and west sides of the city. The bulk of the stock of this company is owned in New York and it is claimed by the Chicago holders that the non-resident owners are trying to "freeze out" all of the local interests.

The petitioners state that ever since the leases came into the hands of the Union Traction company that company has neglected its duty as lessee, allowing the lines of railway to deteriorate, giving the service and "instead of entering into operating agreements with the city on fair terms to the city, they (the lessees) have endeavored to coerce the city into granting terms which would yield a return not only on the money actually invested, but also upon the fictitious capitalization of the Union Traction company."

EMPEROR WILLIAM

SUFFERS FROM COLD

Berlin, Oct. 29.—Emperor William is suffering from a cold which is sufficiently severe to require him to give up his projected visit today to Liebenberg. The court circular, in announcing the change in his majesty's plans, says his cold is light.

It was noticed Saturday that when the Emperor spoke at Professor Burgess' lecture and proposed cheers for President Roosevelt, he was extremely hoarse. All of his engagements on Saturday and Sunday were kept, though the emperor was obviously distressed by his cold.

ATTACKS SLAVER WIDOW OF H. H. VOSS STRIKES

Accused Murderer in
Court Room.

PRISONER IS BOUND OVER

HIS PLEA MAY BE SELF DEFENSE
IN TRIAL.

Mrs. H. H. Voss, widow of Horace H. Voss, the colored leader who was murdered on Franklin avenue two weeks ago, attacked A. T. Day, accused of the murder, in police court yesterday at the hearing of the latter for the crime.

Day was sitting in a chair across the room from Mrs. Voss when the hearing started. Suddenly the enraged colored woman jumped from her chair and ran across the room and before the prisoner with her fists. Before the officers could interfere the widow of the murdered man had given Day several telling blows on the face.

All was confusion in the courtroom. There were some fifty or sixty colored people in the room and they all leaped to their feet wildly excited at the show of anger of Mrs. Voss. Everyone was outburst in the courtroom and it looked for a moment as though a riot would ensue.

Woman Ordered Away.

Order was restored with difficulty and Judge Diehl ordered Deputy Sheriff Axel Steels to remove Mrs. Voss from the courtroom. She was taken to the clerk's office, crowded empty into the southern friends kept her quiet. She was taken to her home shortly before the hearing of the case.

Five witnesses were called by the state but the defense offered no evidence and Judge Diehl held the prisoner to the district court on the charge of murder in the first degree without bail. From the nature of the questions asked by Walter W. Little, attorney cross-examination Day will probably attempt to justify the shooting of Voss on the ground that he had threatened him and that he feared for his own life and therefore acted in self-defense.

Testimony by Witnesses.

Joseph Weir of 49 Franklin avenue, in whose house the shooting occurred, said that Day followed Voss into his house and without a word passing between them Day raised his revolver and fired, the victim falling dead at his feet.

Dr. E. E. Whitney testified that the bullet wound in the head had been caused by the death of Voss. The bullet that was removed from the victim and was taken away with the body was introduced in evidence by the state.

Mrs. Sally Varber, to whom Voss was married at the time he was murdered, corroborated the testimony of Weir as to the manner in which Voss was killed.

Matthew Edwards swore that on the day prior to the murder he and several other men had a quarrel and that Day had struck him several times. Voss, who separated the two men, remonstrated with Day for striking an old man and several angry words passed between them though they did not come to blows.

Mrs. Mary Edwards told of the fight between her husband and Day and verified the story of her husband of the affair.

No Witnesses for Defense.

At the close of the state's case Attorney Little announced that the defense did not intend to call any witnesses at the hearing and Judge Diehl bound the prisoner over to await action of the district court.

Day was taken back to the county jail in the custody of Sheriff C. Frank Emery. Deputy Sheriffs Isaac Emery and Axel Steele.

When Day was first arrested it was feared that the negroes might attempt a lynching as it was known they were bitter toward the accused murderer. For this reason he was closely guarded when he was brought to the courtroom, and from the attack of Mrs. Voss on the prisoner there was no hostile demonstration on the part of the colored people.

COSSACKS NOW ON GUARD

Russian Officials Will Try to Prevent
Such Robberies as Occurred
Saturday.

St. Petersburg, Oct. 29.—Extraordinary measures have been instituted to prevent such affairs as the customs robbery of last Saturday. Cossacks have replaced the escorting of money transports, and the street in front of the central postoffice will be closed for half an hour at noon.

Among the twenty-one persons arrested yesterday on suspicion of having been concerned in Saturday's robbery are several who have been identified as members of the band, and one of them, who is thought to have been the leader, is confined in the fortress of St. Peter and St. Paul as a prelude to an attempt at rescue. No trace has been found of the body, the exact amount of which was \$18,820, or of the woman who carried away money. Plans for several similar robberies which the band intended to execute were found in the rooms occupied by one of the persons arrested.

In addition to the cashier, M. Hermann, who was robbed by the band, his two assistants and several other persons employed have been arrested on suspicion of complicity in the plot.

The police say that most of the robbers have been arrested. The two dead robbers were Jews.

Result of Neglect.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations, and you should insist upon having the genuine in the yellow package.

Sold by F. J. Hill Drug Co., the never substitutes.

LINEMAN'S FRIGHTFUL FALL

Roy Merrill Has His Back Broken in
Tumble From Electric
Light Pole.

Logan, Oct. 28.—Roy Merrill, a grandson of the late Apostle Merrill, while at work in Richmond yesterday, fell from an electric light pole to the ground and his back was broken as a result of the fall. He was brought to this city last night and is now in the hospital.

The regular quarterly conference of the Cache Lake was held here yesterday and today. It was well attended today, but not many were present yesterday. Rudger Clawson was the only one of the up-country authorities present, and he spoke several times during the two days.

Nothing of a political nature was hinted at, all the sermons delivered being upon doctrinal points. The Fourth ward bishopric was reorganized at this afternoon's session. Thomas X. Smith, who had served for forty-six years as bishop, was released, and Joseph Newbold was selected to succeed him. Newbold's counselors are J. S. Campbell and Andrew Ellison. Joseph E. Wilson was released as stake clerk, and Frederick Schreier named to succeed him.

WESTERN PACIFIC TRACKS ARE NOW AT EDGE OF DESERT—BUT 250 MILES LEFT TO BE COVERED.

While little has been heard of the Western Pacific's progress in its line-building from Salt Lake across the desert into Nevada for some time, work has been going ahead as rapidly as the shortage of labor and materials has permitted. The line now eighty-seven miles out of Salt Lake and a good shoving is made by the end of each day's work. Carloads of ties and rails and other materials are passing through Salt Lake daily and being rushed to the present end of the Salt Lake end of the new road.

MAY BRANCH TO GOLD HILL

TRAFFIC AGREEMENT WITH NE-
VADA NORTHERN MADE.

The car shortage is also an obstacle to rapid line building. The cars built in the local shops are being sent to the local shops for the Western Pacific, as well as the Grand Canyon are being sent into Oregon and out to the sawmill at Boca to hurry the consignments needed at the end of the Western Pacific on its Salt Lake division.

While little news is being brought in from the track building, the information volunteered which shows that the work is being pushed against all odds. The Nevada Northern at present is ninety miles wide and it is estimated that a month or more will be consumed in laying this amount of track. Word comes from Nevada and California that work in these states is also going ahead as rapidly as existing obstacles will permit.

It is rumored that the Western Pacific was going to build a branch line to the Gold Hill district in Utah and across the desert. Properties are owned there by the Western Utah Copper company, a corporation whose members comprise F. Augustus Heinze and Duncan MacVickie of Salt Lake, general manager of the company. This branch can be built from the Salt Lake end of the line, a distance of twenty-six miles to the sea.

Traffic Agreement Reported.

The Western Pacific is said to have made traffic arrangements with the Nevada Northern, the Elly road. The Western Pacific crosses the tracks of the Nevada Northern at a point about twenty miles north of Ely and Western Pacific cars and those of the Nevada Northern are operated over both lines with no trouble.

Shops Making Cars.

The Rio Grande shops in this city have been turning out equipment for the Western Pacific for some time. This comprises freight cars and such rolling stock as is now needed in the transportation of supplies and materials from Salt Lake to the end of the division.

With eighty-seven miles of track laid on this end there are but 250 miles of ground yet to be covered by the main line. A stretch not yet contracted for extends from Death to a point south of Elko in Nevada. The present shortage of laboring will not last many weeks more if the hopes of the Western Pacific is fulfilled. The company believes many men will be looking for work when the harvest season is at an end, and the thousands of men employed on farms will be ready to accept employment for the rest of the winter and this will be offered to them by western railroads.

Railroad Notes.

General Manager George W. Valley of the Colorado Midland at Denver was in Salt Lake yesterday.

D. P. Stubbs, district freight and passenger agent of the Oregon Short Line at Boise, was in Salt Lake yesterday during Sunday. Mr. Stubbs is a son of J. C. Stubbs, traffic manager of the Harriman system.

Charles M. Levey, third vice president of the Northern Pacific at Tacoma, Wash., arrived here in his private car yesterday. Mr. Levey is making a pleasure trip through the western country and is accompanied by his family and a number of friends. He left yesterday evening for Portland.

Vice President C. H. Schlacks of the Denver & Rio Grande at Denver was in Salt Lake Sunday evening, leaving for his headquarters yesterday morning. While here he was in conference with General Superintendent A. E. Welby of the same system. Mr. Welby is still in Salt Lake. Mr. Walker, superintendent of telegraph, who has been here adjusting wire matters since the recent windstorm, returned to his headquarters in Denver Sunday. Mr. Welby is looking over local conditions.

Tourist travel to the coast is heavy. Local officials of all railroads say west-bound travel is surprisingly heavy, considering the recent San Francisco catastrophe. The Salt Lake route's west-bound trains are running crowded. North reservations are being made days in advance by travelers leaving for Los Angeles and other points and coming back. Coaches are filled on every trip. Travel to the northwest is also heavy. Travel towards the east is unusually slow, many farmers going into the Canadian north-west.

Foley's Kidney Cure will cure any case of kidney trouble that is not beyond medical aid.

ARTHUR SMITH DIES.

Was Formerly Resident of Utah and
Well Known Here.

Word was received in Salt Lake yesterday of the death of Arthur Smith at Hialeah, Fla., where for several years he was proprietor of the Alturas hotel at that place.

Mr. Smith was for years a resident of Utah, having been a pioneer at Bingham. Death came suddenly Saturday evening. The funeral will be held at Hialeah.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
