NEW CAMP OWNED BY SALT LAKERS

Rooklidge and George Wilson Control New Discoveries at Powhatan, Nev.

CAN BLAST DOWN \$300 ORE SEVERAL OTHER SALT LAKE MEN NOW AT CAMP.

"It is either a great big bluff or one of the biggest and richest discoveries of gold and silver ever made in Nevada," said C. D. Rooklidge yesterday in summing up the strike that has recently been made in the Rosebud district, thirty miles west of north from Humboldt House, on the Southern Pacific railroad, Humboldt county, Nevada.

Ledges Traceable for Miles. Mr. Wilson, who came in with Mr. Rooklidge, says the great dykes and ledges of granite, which are scattered in the Rosebud district from Seven Troughs, to the southwest, paralleling the rich silver-lead vein at a distance of 12 feet, are a matter, is a straight gold-bearing ledge, it is also sensationally rich, while the graded material between them carries fine values itself.

Seven different strikes of greater or less importance have so far been made in the new district and within a radius of five miles. In the new town there is now being fitted out a camp of tents and scattered about the district are as many more. Both Messrs. Rooklidge and Wilson predict that there will be 1,000 people in the camp before Christmas.

To go in now the traveler should get off the train at Mill City, which is the only place that transportation can be secured. It is expected that within a few days a daily stage will be running from Humboldt to the new camp, and that closer to the camp and at which preparations are being made to care for the expected travel.

Scott Crismon, P. M. McGregor, W. J. Lawrence, Joseph Morris and R. E. L. Collier of this city are now at the new camp sifting up conditions and looking for a favorable block of ground on which to build fortunes.

SILVER BELL ASSESSES.

Calls on Stockholders for Twenty-five Cents a Share.

The directors of the Silver Bell Mining company met yesterday and levied an assessment of 25c per share on the issued and outstanding shares of the company. The assessment will become delinquent on Dec. 21 and sale day is fixed for Dec. 21, in order to liquidate the company's property and provide means with which to carry out the plans of the management respecting the transportation of the ore from the mine at greater depth, it may become necessary to levy two or three such assessments. We have now reached that stage in the opening up of the ground where it is absolutely necessary to go to greater depth. To do that will require heavy machinery and the sinking of a shaft.

SCHWAB'S TONOPAH MINE.

Tonopah Extension in Prime Condition for His Inspection This Week.

The visit of Charles M. Schwab to Tonopah this week, according to the Tonopah Miner, will occur at an opportune time, in view of the developments in the Tonopah Extension. Ore of a higher grade than has ever been shipped here before is now being sent out. It is being extracted from all parts of the mine, top and bottom, and the stock is being put up from the west drift on the 90 level, where the rich shoot was encountered a few days ago. This ore provides a uniform value of better than \$100 across a width of ten feet. This body will be opened next week on the 200 level. It occurs to the westward, the fault, which proved to be a slip of only a few feet.

AFFAIRS OF MAJESTIC CO.

Rise in Price of Its Shares Attracts Attention in Boston.

Majestic has been attracting quite a little attention of late through a pronounced rise in the price of its shares. The company owns one lead-silver and two copper mines in Beaver county, Utah, says the current market letter of Hayden, Stone & Co., Boston.

TALISMAN IS IMPROVING.

Now Has One Foot of Horn Silver Ore in the Nine-Foot Ledge.

Word from the Talisman property in Beaver county is to the effect that the vein recently reported to be a block of ore, one foot of which is filled with horn silver. General Manager P. J. Donohue, P. B. McKee and Joseph Stringfellow, who were busy during the day completing the organization of the company that has taken over the famous old mine, pulled out for camp tonight to size up conditions.

Mining Notes.

Morris M. Johnson leaves for Nevada today to make an examination of mining property. Word from New York is to the effect that Samuel A. Newhouse will be home again Tuesday. Henry Catrow of the Ohio Copper company has returned from a trip to the Black Hills. The Taylor & Branton sampler yesterday reported nine cars of ore from Tintic, three from Bingham and three from California.

NO ANIMATION ON WALL STREET

What Business Was Transacted on Change Was of Desultory Character.

SELLING TO TAKE PROFITS

MONEY SITUATION ABROAD IS UNSATISFACTORY.

New York, Nov. 7.—The speculation in stocks proved to be of a desultory character today in spite of the signs of animation in the early selling. The largest part of the activity was during the first hour, and this was largely under the domination of foreign influences. Reported apprehension of a further advance in the Bank of England discount rate at the weekly meeting of the governors tomorrow was a principal factor. There was some selling out by the buyers of the last few days. That buying had been due to a hope that with the election out of the way there would be a revival of speculative demand for stocks.

The local call money rate was maintained today, but it did not advance. The tone of the money market, however, was strong and nervous. Very little money was in the market. There is some confidence that the interest rate in December, but the condition of the local money market in the immediate future is believed to be uncertain.
