

SALARY BILLS CUT BY HOUSE

Only \$200 Raise Granted to Superintendent of Public Instruction.

DEBATE IS LONG - WINDED ORDER OF BUSINESS FOR DAY IS CURTAILED.

The house session yesterday was devoted to a long and dreary discussion of the bill to increase the salary of the state superintendent of public instruction from \$1,800 to \$2,000 a year, to the exclusion practically of other business. The committee on salaries and fees brought in two reports, one amending the bill to cut the proposed increase to \$2,000, and a minority report to kill the bill entirely.

The rules were suspended to take up consideration of the measure and a long-drawn-out debate ensued on a motion to adopt the minority report. The motion was finally lost on a roll call vote by 20 to 24 and the majority report was adopted by a vote of 23 to 15. The house then reversed itself by adopting an amendment by Mr. Tolton reducing the amount from \$2,500 to \$2,000 and passed the bill with only two negative votes, those of Clegg and Westphal.

Mr. Parry, who signed the majority vote, voted for the minority report, explaining that it was understood when the committee acted that the bill to abolish the office of deputy superintendent, who draws a salary of \$400 a year, would also be brought up, but had not been done, he felt justified in voting against the bill.

To Codify the Laws. The senate bill providing for a commission to codify and annotate the laws of the state, including the laws of the present session, was adopted under a suspension of the rules.

Majority and minority reports were brought in on Croft's anti-cigarette bill, No. 74, but the discussion of the salary bill cut off consideration of the report, as it did with all other reports. Other bills favorably reported were: H. B. 31, by Cottam; S. B. 19, by Rasband; H. B. 31, by Richards; H. B. 64, by Tolton; the bridge measure bill; H. B. 55, by Tolton; H. B. 66, by Larsen; H. B. 11, by Benson (with a substitute).

Reference to the sending of a messenger for Mr. Clegg was expunged from the record, by vote of the house.

House joint memorial No. 1, relating to the withdrawal of coal lands, was reported from the senate, the amendments concurred in and the memorial passed and ordered to be engrossed.

A petition from the county commissioners of Washington county, asking an appropriation of \$5,500 toward the construction of a bridge across the Rio Virgin, was offered by Mr. Cottam and referred to the committee on roads and bridges.

House bills 73 and 52 were withdrawn.

ADMITS SCIENTISTS.

But Electro-Therapists Are Barred by Medical Bill.

A strong fight is being put up before the house committee on public health on the senate medical bill, which was drafted at the suggestion of the State Medical society. The bill was introduced in the senate by Senator Gardner and passed that body.

The adherents of electric treatment, or electro-therapy, are making a most determined fight for recognition and at the meeting of the house committee on Wednesday night had a strong delegation to present their claims.

The bill as it passed the senate expressly exempted those who profess to practice by divine power. This feature is considered to be a substantial victory for the Christian Scientists, who have heretofore been under the ban of the medical fraternity.

It is on this recognition of the practice of Christian Science that the adherents of electric treatment base their claims and at their suggestion an amendment was offered to the house committee which would place them on the same footing as the Christian Scientists, with the further provision that the electro-therapists should be subject to the same regulations as the state board of health, and that they should be graduates of a regular school of their so-called science.

This provision met the determined opposition of the representatives of the medical fraternity. The electric people had a number of patients at the committee meeting, mainly women, to testify to the benefits they had received from the treatment.

The committee did not reach a decision on the bill and it is probable a majority and minority report will be brought in. The committee held an informal session last night in the room of Chairman Hone at the Cullen hotel.

TIRED OF THE INDIANS.

Speaker Joseph Fails to Get in College Bills.

Representative Hett, of San Juan county, wants the wandering southern Ute Indians returned to their reservation in Colorado. In a memorial to the president which has been prepared for presentation to the legislature, he recites the fact that the southern Utes are permitted to leave their reservation in Colorado and enter San Juan county, where they commit depredations and cause great damage and annoyance to the citizens of said county, stealing stock and putting women and children in fear. He proposes that they be compelled to remain there.

Mr. Hett also proposes to introduce a bill to protect the relics of the cliff dwellers in eastern Utah, making it a misdemeanor for any one to remove from any land not his own any of these relics, punishable by a fine of not exceeding \$300 or imprisonment not exceeding three months.

SHUT OUT BY DEBATE.

San Juan Member Wants Them Returned to Colorado.

The suspension of the rules and the discussion of the salary bill in the house yesterday prevented the introduction of a big bunch of new bills, including those proposed by Speaker Joseph as a solution of the college consolidation question. The bills were prepared and on the clerk's desk, but adjournment was taken before this order of business was reached.

In addition to the bills mentioned yesterday, Speaker Joseph has prepared a general bill providing against

SENATE REVIEWS WATER SITUATION

Measure Provides for Loaning of Land Grant Fund to Private Parties.

MOVE TO AID RESERVOIRS MEANS RECLAMATION OF VAST ACREAGE, SAYS CALLISTER.

The senate session yesterday discussed senate bill No. 22, by Callister, providing for the loaning of the reservoir land grant and to private parties and corporations, able to give proper security, for the construction of reservoirs, whether public or private. Senator Lawrence asked if these private enterprises were generally successful and whether securities could be offered by private parties or corporations which would insure the safety of the fund. This brought out a general discussion of irrigation projects inaugurated by Senator Callister, John Y. Smith, Miller, Benner X. Smith, Walton, Callister, Rasband and Johnson.

Senator Walton's talk was an exhaustive explanation of the water situation in the state. He said: "The water situation in this state is of the greatest importance and it is our duty to take some steps in aiding to create reservoirs. The old settlers of this state, who located in the fertile valleys, have had no water for years because newcomers stole in by the night as it were and diverted their natural water rights in other directions. We want to build up the state, and this is one of the ways to do it. True, in the early days of private reservoir enterprises many were unsuccessful, but now they have passed the experimental stage and are upon a sound basis."

Senator Callister said that if the bill passes it will mean the reclamation of thousands of acres of land and will result in a blessing to the people.

Other phases of the situation were discussed at length. Senator Rasband said it might work against the interests of the poor farmer by combination of the poor farmer with a reservoir loan and after constructing the reservoir charge those not in on the deal exorbitant rates for their water.

Senator Gardner was uncertain as to the security and of the deal exorbitant that one-tenth of the loan should be paid back each year.

A discussion of the bill was made a special order for 2 o'clock this afternoon.

Senate bill No. 52, by Seely, regarding the breeding of cattle and hens upon off-shoots, was next considered. Several amendments of a technical nature were made, but failed to carry. Senator Clegg seemed to grasp the point aimed at and had his amendment adopted. The bill passed by a vote of 9 to 2. Absent and not voting, 7.

A petition from the commissioners of Washington county, asking a \$5,000 appropriation for a bridge over the Rio Virgin river, was referred to the committee on roads and bridges.

The Seely full weight butter bill was reported favorably by the manufacturers and commerce committee and the report was adopted. The committee on federal relations approved of a memorial to congress asking that the Smoot bill pensioning Indian war veterans be passed. This committee also acted favorably upon the Hulaniski measure denoting forty acres of land to the federal government for a post cemetery at Fort Crittenden.

A communication from the Commercial club asking that census be ordered for Salt Lake was received and sent to the committee on federal relations. The communication states that at present, with the population under 75,000 according to official figures, letter carriers receive only \$60 a year, while if it can be shown that the number of people here exceeds that figure the pay will be \$1,000.

The only bill introduced was by Senator Hulaniski, defining the boundaries of Ogden. The measure is known as senate bill No. 79, and was referred to the city and county corporations committee.

Senate Notes. It seems probable that the legislature will allow Salt Lake to make a \$500 appropriation for a bridge over the Rio Virgin river, was referred to the committee on roads and bridges.

GALVESTON BILLS WERE IN DANGER

Storm Blew Over, However, and They Will Pass Without Doubt.

COMMITTEE REPORT TODAY MEASURES WERE RECOMMENDED FOR FURTHER DISCUSSION.

For a moment during the senate session yesterday the fate of the Benner X. Smith bills, applying the Galveston idea of city government to Salt Lake, seemed to be in doubt. The committee report recommending that the measures be passed was read and President Love was about to put the question on the adoption of the report, when Senator John Y. Smith, of Lehi, objected. He said: "Four of the members of the municipal corporations committee were unable to be present at yesterday's committee meeting when these bills were acted on and we do not know what they contain. I wish they would be considered again and give us all a chance to discuss them."

The suggestion was received with amazement as it was supposed for an instant that Smith was preparing to wage war against the bills. Senator Lawrence observed that there really was no reason for delay as whatever faults that might appear could be fought out on the floor.

Smith Was Aroused. Benner X. Smith was considerably aroused and in the course of a few remarks said: "You knew of the meeting, senator?" "I state again that I was engaged with another committee," answered the Lehi man.

"I don't see any reason for this," interposed Lawrence.

"I don't want to argue the matter, but I would prefer to be able to discuss the bill in committee, where one has a distinct advantage over debate on the floor," was the only reply by Senator J. Y. Smith.

A vote was taken and the senate stood 10 to 6 for the adoption of the report. Senators Walton, Benner X. Smith, Seely, Miller and J. Y. Smith voting in the negative.

This was only one of the thirteen bills and the Utah county man continued his objection when the report on the next one was reached.

Accedes to Request. Senator Benner X. Smith, seeing the danger in not acceding to the request of the minority, then said that although he saw no reason for any further discussion he was perfectly willing that the bills should go back. "There being no objection it was so ordered and he immediately gave notice of a meeting of the committee after the senate session.

This was a very peaceful affair, all the members agreeing on the bills. Those present were Senators Benner X. Smith, John Y. Smith, J. H. Seely, C. R. Hollingsworth, G. N. Lawrence, Henry Gardner, E. T. Callister, E. T. Hulaniski, Peter Clegg and Willis Johnson, Frederick Rasband and Wesley K. Walton. The committee will hold another meeting this morning in the office of Benner X. Smith in the Auerbach building, to consider some other matters.

The bills will be read the second time today and put upon their final passage tomorrow, if the senate does not adjourn over Sunday, in which event they will come up Monday. After passage they will be transmitted to the house, where they will be rushed through in short order, according to the program arranged by Speaker Joseph.

SO LONG, STEVE! (Contributed.) Steve Hicks leaves for Los Angeles.

"Dinner's Coming I Smell It" Does Your Stomach Feel Happy When Meal-Time Comes?

When you sniff in the air the appetizing aroma of something cooking, do you feel that you could sit down, open your mouth, place a fork in your hand and eat with a delicious gusto, everything set before you, and not feel any bad effects from it?

In other words, can your poor stomach take care of everything and anything you put into it? There are thousands and thousands of people who do not know what it is to have a good, strong, healthy stomach, nor do they realize what it is to have a good appetite.

You can have an all-powerful stomach and a fetching appetite for every meal, and every day, if you give your stomach a rest, and let something else take hold of your food for you and digest it as it comes into the stomach, something that is harmless but that really does the work of digesting quickly and thoroughly.

This "something" is Stuart's Dyspepsia Tablets, the most effective little tablets in the world for curing anything that may be wrong with your stomach. One ingredient of these precious little workers digests 3,000 grains of the coarsest or richest food put into the stomach. Think of it, 3,000 grains. They are really an artificial stomach, because they act just like the stomach, they digest your food, just as though you didn't have a stomach at all. It supplies the stomach with the digestive juices which have become weak and scanty.

Then your indigestion, dyspepsia, sour eructations, flatulencies, acidity, fermentation, loss of appetite, aversion to food, bloaty feeling, heartburn and nausea, will be a thing of pleasure to have, your meals will be a pleasure to eat and relish, and your digestion will be thorough and soothing to the whole body.

You can't do your work well, or be cheerful, or have energy or vim or ambition, when your stomach is bad. Make yourself feel good after a hearty meal, feel good all over, clear your mind and make you enjoy life, by taking Stuart's Dyspepsia Tablets.

Give your stomach a rest, so it can right itself, then you need fear nothing. Send us your name and address today and get a free sample package of Stuart's Dyspepsia Tablets by return mail. After you have tried the sample, you will be so thoroughly convinced of what they can do for you that you will go to your nearest druggist and get a 50 cent box of them.

Send us your name and address today and we will at once send you by mail a sample package free of charge. Address: Stuart Co., 24 Stuart Bldg., Marshall, Mich.

Wishes Letters of Administration. James M. Fisher, Jr., has applied in the probate court for letters of administration of the estate of his father, James M. Fisher, who died at Mill Creek, Jan. 1, 1907. The estate is valued at \$300 personal and \$4,000 real property. The deceased left two widows and twelve children, all of whom, except one, are of age.

ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate

Cures Chronic Constipation, Stomach and Liver Trouble

Stimulation Without Irritation.

ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

Constipation.

ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

Why ORINO is different.

ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

For Biliousness and Sick Headache.

Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

Clears the Complexion.

ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

OUR GUARANTEE

Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

What the People Say About FISHER BEER

THE BUSINESS MAN—"When tired and worn out from overwork, either physical or mental, I often step in somewhere and get a glass of Fisher beer. It never fails to immediately revive me and I feel stronger and better the remainder of the day for having drunk it."

THE HOUSEWIFE—"We always keep Fisher beer on hand and frequently have it on the table at meal times. It fills a gap that nothing else seems to satisfy. Every member of the family enjoys it and we are all healthier for having used it. When company comes we usually serve Fisher beer, and it is always appreciated by our friends."

THE LABORER—"I don't know what I would do without my drink of Fisher beer to go with my noon lunch. I wouldn't enjoy the lunch without it, and the beer always braces me up for the afternoon's work."

THE DOCTOR—"Fisher beer not only nourishes the body, but has the influence of aiding the digestive apparatus to digest other things taken as food. For a long time I have prescribed it and have found its use of the greatest advantage."

Fisher beer is on sale by leading dealers and is supplied by the case by

Dandelion

unequaled for the cure of dyspepsia and all stomach trouble.

Guaranteed under Food and Drug Act, June 30, 1906; Serial No. 3,517.

It is the work of the stomach to ferment the food and anything that interferes with this process of fermentation may be a cause of dyspepsia. Strictly speaking, there are dozens of causes of stomach trouble. The kind and quantity of food taken, worry, mental excitement, nervousness, lack of proper exercise, it takes many forms, such as debility (that tired feeling), loss of appetite, pain after eating, acidity, flatulence, vomiting, palpitation, cramps in the stomach.

Dyspepsia is dangerous because it has a very marked influence on the bowels, the kidneys, and the heart. It should therefore never be neglected. One or two boxes of Dr. Edward's Compound Dandelion Tablets have cured many severe cases of stomach trouble. If you are a sufferer from this complaint buy a box of this famous vegetable remedy and enjoy your meals the same as you used to do.

Both tablets and pills sold by druggists, price 25c.
