

AMENDMENTS TO TEST OATH BILL

Patriarchal and Celestial Marriage Tacked on by Lower House at Boise.

FINAL VOTE WAS 24 TO 20

DIRECT PRIMARY BILL COMES UP TODAY.

(Special to The Herald.) Boise, Feb. 13.—The Mormon test oath bill was up in the house today and gave rise to much interesting debate and some equally interesting voting. The combination between a portion of the Republicans and the Democrats held together quite closely on the measure and it was recommended for passage by the committee of the whole after the adoption of the judicial committee amendments, including patriarchal and celestial marriage. Of Shoshone, offered an amendment to one section to include adultery and fornication. It was carried. Four of the members of the committee joined with the stewards. These were Keith and Barry, Democrats, and Wessels and Gleason, Republicans.

Report Accepted by House.

Comer offered the same amendment to the section prescribing the form of oath, but it was lost. Wessels and Barry dropping back into the old alignment. When the committee had risen Wyman moved that the report of the committee of the whole be adopted with the exception of the Comer amendment to the section prescribing qualifications of voters. His motion was carried by a vote of 24 to 20, Keith still voting with the stalwarts. The bill, already passed by the senate, now goes to the engrossment committee with amendments providing for the inclusion of patriarchal and celestial marriage, with bigamy and polygamy as disqualifications for voters.

Direct Primary Bill.

The house got tired of waiting for a report from the committee on elections on the direct primary bill and, by a vote of 25 to 16, ordered it to report tomorrow morning. On this vote the combination got help from two stalwarts. The committee has since met and agreed to report the bill without recommendation. It has always been supposed to be opposed to it and this action is regarded by friends of the bill as a favorable indication. Bradley, of the committee, moved to make an adverse report, but he got no second.

CASE OF SENATOR BAILEY

Representative Cooke Resents Having Been Called a Liar by the Defendant.

Austin, Tex., Feb. 13.—"If I am not mistaken, Senator Bailey called me a liar, only cat and dogs fight and bullies browbeat," Representative Cooke thus retorted today to Senator Bailey's statement before the legislative investigating committee, in which the latter denounced the men bringing the charges against him.

BIG NIGHT'S WORK FOR NORTH DAKOTA SENATOR

Washington, Feb. 13.—The senate tonight broke all records by passing bills at the rate of fifteen minutes for one hour and six minutes.

STOLE FOUR MEALS.

Former Messenger Boy Goes to Jail for Twenty-five Days. By Taylor, a former messenger boy, was sentenced to twenty-five days in the city for the theft of four meals from a restaurant. Taylor represented that he was a messenger and wanted four meals to take to patrons of the restaurant. He was given the tray but did not return with the money.

FATAL FIGHT IN MINE.

Topeka, Kas., Feb. 13.—Abe Hoskins and Bud Logue, convicts, engaged in a fight at the bottom of the Kansas penitentiary coal shaft at Lansing today, and Hoskins was so seriously wounded that he will die. Logue was armed with a hatchet.

Before anaemic people use Scott's Emulsion their blood is thin and starved, their general health poor, and their spirits depressed. After they use Scott's Emulsion their blood is rich and abundant, their general health excellent and their spirits buoyant.

SHERIFF BAILEY BARRED FROM THE CASE

Wallace Merchant Will Draw Venue of Jurors to Try Steve Adams.

POINT SCORED BY DEFENSE

AFFIDAVITS FILED BY THE STATE.

Spokane, Wash., Feb. 13.—The struggle of Steve Adams' attorneys to save him from conviction for the alleged murder of Fred Tyler was still centered in the efforts of the defense to disqualify the sheriff when court opened at Wallace, Idaho, at 10 o'clock this morning. The defense contended that Sheriff Bailey and his deputies should not be permitted to handle the special venire of jurors, because of animosity to the prisoner.

State's Affidavit.

At 12:30 today the state filed a lengthy affidavit by Sheriff Bailey, denying the allegations made by Steve Adams.

Denial by Sutherland.

An affidavit was filed today by former Sheriff Sutherland, who is now deputy sheriff, making absolute denial of the charges made in the affidavit of Steve Adams, filed yesterday. Sutherland denied that on the trip from Boise to Wallace, when in charge of Adams, he had referred to the members of the Western Federation of Miners as outlaws, thugs and dynamiters, in any way, other than that he at all times, as was his duty as sheriff, expressed detestation for acts of dynamiting which were being committed by the members of the organization who were charged. He admitted that he arranged a meeting between Adams and Detective McParland, but stated that he did so openly and in the performance of his duty as sheriff in the prosecution of crime.

Sheriff Cannot Act.

The defense won its point in the Adams murder trial this afternoon at Wallace when the court appointed J. P. Jones, a Wallace merchant, to draw a new venire of jurors, as the former panel had been exhausted. The defense contended that the sheriff's office was not competent to draw the venire.

Opinion of the Court.

Judge Woods, in passing on the question, said that he believed the sheriff's office was entitled to commendation for the manner in which the members had conducted themselves all through the Adams case. He did not feel that any of them were biased and did not believe the appointment of an outsider would cast any reflection on them. He wanted all sides to feel that a fair and impartial trial had been given to the case.

BISBEE MINES SHUT DOWN

Fuel Shortage Given as a Cause—Efforts Being Made to Unionize the Camp.

Bisbee, Ariz., Feb. 13.—Seven hundred miners were laid off in Bisbee today. The reason given was that there was a shortage in fuel and lumber and that in order to make some necessary repairs it was decided to close down some of the shafts. Today the Big Spray shaft of the Copper Queen company was idle. This is one of the big producing shafts of the district and employs about 50 men. The announcement is that in all probability the Czar shaft will be idle tomorrow. There is a general belief that the situation is directly due to the attempt being made by organizers of the Western Federation of Miners to make Bisbee a union camp. The officials of the company, however, refuse to admit that this is the cause of the company's action. The men laid off are leaving for other camps in Mexico and Nevada.

DOINGS OF UNLISTED STOCKS ON EXCHANGE

Bingham Standard Copper was the only one of the unlisted stocks to attract particular attention yesterday. It commenced selling at \$1.25 and quickly jumped to \$1.27 1/2 and then to \$1.30. It closed at \$1.27 1/2 bid, \$1.30 asked. Copper (Glance) was inactive at 22 1/2. Other copper sold at \$6.10. Western Nevada Copper at \$1.15 and Yerington Ironsides at \$5. Ohio-Kentucky offered at \$4.85. Federal City at \$5 and Poly-Which at \$4. Western Pacific was quoted at 30 and 35. Keystone at 15c asked, while there was little trading for Naird and Thompson without making a direct bid or offer.

Copperfield Mining Company. The Copperfield Mining company has been incorporated in the county clerk's office with a capital of \$100,000 in shares of ten cents each. Of this 400,000 shares are treasury stock. The officers are: President, E. F. Grant; vice-president, James Chipman; secretary-treasurer, Thomas M. Wheeler; additional directors, J. William Knight, Prosser, A. W. Hart, Preston, Idaho; and Moses W. Taylor, Coaville. The company owns mining property on Silver Island adjoining the Western Pacific mine on its west line.

COULD NOT BE JARRED BY ROUSE

Burlington Hangs on to the Contract for Carrying Transcontinental Mails.

ROCK ISLAND TRIED HARD

LESS COST FOR THE SERVICE RESULTS.

Washington, Feb. 13.—It is announced at the postoffice department today that transcontinental mail will continue to be forwarded by way of the Burlington route. In this brief official statement is made known the decision of Postmaster General Cortright in a railway mail service case that has attracted attention throughout the country. For many years the Burlington route has carried the transcontinental mail from Chicago west. It has been the practice to transfer the mails across the city of Chicago from the Lake Shore line to the Burlington station. The expense of this, which fell upon the postoffice department, was considerable in the aggregate.

Rock Island Makes a Bid.

A few months ago the Rock Island road, desiring to obtain the contract for carrying the transcontinental mail to Omaha and other points west of Chicago, suggested to the postoffice department that the mails be turned over to it from the Lake Shore road at Englewood, a few miles outside of Chicago. Officials of the Rock Island argued that by this arrangement the cost of the transfer of the mails across Chicago could be saved, and, in addition, the cost of carrying the mails to Omaha would be less by the Rock Island than by the Burlington, because the former is a land grant line, and, under the law, the cost of carrying the mails on such a line is less than it is over other lines.

Influence Brought to Bear.

The Burlington, Rock Island and other lines interested have had representatives in Washington presenting to the postmaster general and other officials of the department all of the data which could have a bearing on the question. About ten days ago it was announced semi-officially that the Burlington and the Lake Shore officials had formulated a plan to transfer the mails across Chicago in solid cars without expense to the government. This was well received by the department officials. The representatives of the Rock Island pressed their claims vigorously, arguing that even if the Burlington and Lake Shore had met their rate by eliminating the cost of transferring across Chicago, the cost of carrying the mails to Omaha was less than the Burlington, because their line is a land grant road. Finally, the representatives of the Burlington, in order to eliminate the land grant feature from the arguments, agreed to meet absolutely the Rock Island's rate from Chicago westward. This was made the basis of the postmaster general's decision.

INCREASE IN THE AMOUNT

Agricultural Appropriation Reported to the Senate—Free Seeds as of Yore.

Washington, Feb. 13.—The agricultural appropriation bill was reported to the senate today, and notice was given by Senator Proctor that the bill will be called up for action tomorrow. As reported from the committee on agriculture the bill carries an increase of \$1,000,000 over the appropriation for the department proper of \$184,180 and of \$500,000 in the appropriation for the forestry service, bringing the total forestry appropriation up to \$1,900,000 and the grand total of the bill to \$3,202,180. The principal items of increase outside of the forestry service are \$35,000 for experimental stations; \$25,000 for soil grading investigations; \$20,000 for soil investigations and \$25,000 for experiments in animal feeding. The appropriation for the maintenance of the forestry service is regarded by the committee as the light of a loan, as it is promised by the forestry officials that the money shall be refunded from the receipts of the bureau.

BODIES TAKEN FROM THE WATER

Remains of 72 Victims of the Larchmont Disaster Have Been Recovered.

Block Island, R. I., Feb. 13.—Twenty-two more bodies of victims of the Larchmont disaster were brought ashore late today by fishing schooners. The survivors of Monday night's disaster off Watch Hill were today taken to Providence on the steamer Kentucky, where they will receive medical treatment. Fifty bodies recovered yesterday were also taken aboard the steamer. The Kentucky had just cleared the harbor when it came the schooner, one after another, with their grewsome load and with their flags at half-mast. The little life-saving stations then were once more turned into morgues. As yesterday, the surf boats were run out and the dead were placed on the floors, side by side, to await the arrival of another steamer to carry them to Providence.

NEVADA RAILROAD BILL.

Drastic Measure Introduced in Lower House of the Legislature. Carson, Nev., Feb. 13.—A bill introduced in the lower house of the legislature today provides for a railroad commission to supervise railroads, telegraph, telephone, private car lines and all facilities of transportation. It provides maximum rates, requires all companies to report to a commission and make the decision of the commission remain in effect until set aside by a final court of appeal. It makes the maximum rate on one and one-half cents and the maximum rate on other commodities eight cents. It adopts the western classification, No. 41, now in force on all roads in the state, and makes the limit "on four times first class," of twenty cents a ton a mile.

LITTLE BABY CURD OF ECZEMA

Parents Applied to Hospitals and Doctors but Could Get No Relief—Grew Worse Under Doctor's Prescription—Friends Recommended Cuticura—Result

A SPEEDY AND PERMANENT CURE

"We express to you herewith our best thanks for the cure of my baby from eczema. The eczema appeared when the child was three months old. We applied to several doctors and hospitals, each of which gave us something different every time, but nothing brought relief. A physician recommended a salve which we threw into the fire after two days' use as the eczema became worse so that the baby scratched his face. At last, one of our friends recommended to us Cuticura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all \$1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamster, but I recommend the Cuticura Remedies strongly to all mothers whose children suffer from such diseases. They are cheap, harmless and good." P. J. Hill and Wife, 845 East 65th Street, New York, March 30, 1906.

FOR SORE HANDS

Soak the hands on retiring in a hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Ointment on thin pieces of old linen or cotton. Wear during the night old, loose, kid gloves, with the finger ends cut off and holes cut in the palms, or a light bandage of old cotton.

HOW OUR GOOD OLD GRANDMOTHERS CURED COUGHS AND COLDS.

Our grandmothers had the right idea: when any one had a cough or cold on the day their day, the good old goose grease and turpentine were trotted out and the chest was plastered good and thick and a piece of flannel was put on; then a tea was made of flaxseed, with addition of sugar, licorice and lemon juice—pretty good stuff, too. Why? Because the principle was all right. The writer was talking to one of the leading local druggists about this the other day and he remarked that they didn't do things like they used to. The druggist remarked that there was one firm he had started on the right track and had brought the good old principles of our grandmothers down to date. He then went and brought out a package of the BROMO-COUGH REMEDY and showed the writer found a BROMO-COUGH MIXTURE. The druggist explained that the plaster was to put on the chest to relieve the congestion on the lungs that usually accompanied coughs and colds. This loosened up the cough, just like the goose grease did, and made it easy for the cough mixer to do its work. The writer thought this a pretty clever idea, and certainly a most practical one. Incidentally the druggist remarked that the whole package only cost 50 cents, so you see he got the plaster free.

PANAMA CANAL CONTRACT Associates of W. J. Oliver at the White House Are Quizzed by the President. Washington, Feb. 13.—Another conference on awarding the Panama canal contract was held at the White House today. J. B. McDonald and John Pierce, both of New York, associated with W. J. Oliver and were consulted by President Roosevelt regarding their experience in handling big contracts. No conclusion was announced. Further conferences are expected in which the president and his advisers will consult with other associates with Mr. Oliver and his contract. Among these are P. J. Brennan of Washington and P. T. Walsh of Davenport, Ia. The next conference, it was announced, will take place next Tuesday. During today's session General Alexander MacKenzie, chief of engineers, was called upon by the president for some information respecting the professional ability of some of the contractors who have been associated with Mr. Oliver and were called upon to detail their records as contractors with the government.

HUSBAND GETS DECREE. End of Sensational Divorce Case at Washington. Washington, Feb. 13.—Justice Gould in the District Supreme court today rendered an opinion in the suit for divorce instituted by Charles C. Bassett, an employee of the United States geological survey, against his wife, Fannie Rice Bassett, a daughter of ex-Senator Rice of Arkansas. Justice Gould announced that he would issue to Mr. Bassett a decree of absolute divorce. The case was a sensational one, in which the name of Rev. E. Lawrence Hunt of Brooklyn was made one of the defendants. A suit of Mrs. Bassett against her husband for divorce is pending in Omaha. Special Announcement Regarding the National Pure Food and Drug Law. We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law, as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults.
