

SUEVIC WILL BE A TOTAL WRECK

Passengers Taken From the Stranded White Star Liner by the Life Savers.

MANY VESSELS IN TROUBLE

STEAMER JEBBA STRANDED NEAR THE SUEVIC.

London, March 18.—Details received this morning of the disaster to the White Star steamer Suevic, homeward bound from Sydney, N. S. W., by way of Cape Town, with nearly 600 passengers and crew on board, shows that she struck the Brindley rocks, close under the Lizard lighthouse, at about 10:30 last night and probably will be a total wreck. Life boats and tugs from the Lizard and Falmouth soon reached the scene and commenced landing the passengers. The women and children were first sent ashore. There were no fewer than 100 children on board, many of them being babies in arms whom the local fishermen and their wives lifted out of the boats and carried through the surf to nearby cottages. A high wind, a rough sea and fog hampered the landing operations earlier, but about 7 o'clock this morning with passengers were sent ashore in quick succession.

All Safely Landed.

By 1 p. m. all the passengers had been landed but the crew were still standing on the wreck.

Captain Selby, commander of the Suevic, had been at sea for thirty-nine years and this was to have been his last voyage.

The North German Lloyd steamer Kaiser Wilhelm II., during the morning passed close astern to the Suevic, which was then thronged with passengers. As plenty of assistance was standing by the White Star line steamer the Kaiser Wilhelm did not stop, but proceeded to Plymouth, where she arrived shortly after 10 a. m.

Steamers, some of which are described as being large, are ashore near Dungeness, Rye, Dover and Cuckmere. The vessel ashore off Cuckmere is the British steamer Newcastle. Her position is serious.

Steamer Jebba Ashore.

London, March 18.—Almost within sight of the wrecked steamer Suevic, the Elder Dempster line steamer Jebba, from Lagos and other west African ports for Plymouth and Liverpool, ran upon the rocks near the cliffs near Frawley Point in the early hours of the morning. Her seventy passengers, many of whom were soldiers, were rescued from the wreck by the British Africa and her crew were safely taken ashore.

Heavy seas are breaking over the steamer rendering the lifeboats useless. The Jebba will prove a total loss.

STARTED BY THE PRESIDENT

Ripley of the Santa Fe Gives His Opinion of the Semi-Panic in Wall Street.

Los Angeles, Cal., March 18.—In an interview in an afternoon paper, President E. P. Ripley of the Santa Fe, who is now at Santa Barbara, is quoted as saying that President Roosevelt is responsible for the present uncertain conditions in Wall street, and attributes the recent semi-panic to "a brush fire which the president started." Mr. Ripley said that because of the general anti-railroad sentiment in the country that the Santa Fe was prepared to inaugurate a policy of conservatism in the matter of the expenditures and that many contemplated improvements in the company's property would have to await more favorable conditions. Mr. Ripley is also quoted as saying that he believes it is likely that the Santa Fe will retire from active railroad life within a year.

Mr. Ripley is quoted in part as follows: "I can see no good to come from a meeting with President Roosevelt, such as has been proposed by J. P. Morgan, if the press dispatches on the subject are correct. The president should be held responsible for having started a brush fire that now apparently has become a conflagration, and while I have always felt his motives to be of the best, to me it appears to be too late to stop the fire that now is pretty nearly burned out."

"Getting back to the subject of the apparent public hostility to railroad corporations, there is no doubt that to this feeling alone must be charged, up the country in New York financial circles, and while I have no desire to pose as a pessimist, as far as the Santa Fe is concerned we are prepared to draw in. The Helen cut-off is nearly completed and will be ready for all kinds of railway service in about three months, and the doubling of one line between Chicago and Kansas City will not be interrupted. Other work of importance, however, must wait until such time as money and securities are more plentiful than they appear to be at present."

"Take the Harriman organization of the Chicago & Alton, for instance. While I hold no brief for Mr. Harriman, that matter, after all, was one in which the public at large had no material concern. It was a Wall street affair purely."

Discussing government ownership, President Ripley said: "My personal holdings in railroad securities are so very small that I cannot be accused of having a material prejudice on this subject. I am, however, unalterably opposed to public ownership as an American who loves his country and has made a study of the matter in all its phases. I am convinced that government ownership would mean the downfall of the republic."

Speaking for the 18,000 odd stockholders of the Santa Fe, I should not object to the government acquiring the system, provided it paid for the property what it is worth. The capitalization is at the rate of \$1,000 a mile, and it could not be duplicated at that figure."

BACK TO THE STAGE.

Chicago, March 18.—It is announced today that the Mabelle Gillman will return to the stage within a short time under the professional guidance of Richard Carle and Charles Marks. She will probably make her first reappearance in this country in Boston in the musical play of Mr. Carle called "The Hurdy Gurdy Girl."

Have you much Grape-Nuts

Try eating Grape-Nuts every day for 10 days and see how much better you can work.

"THERE'S A REASON."

STATEMENT OF BUSINESS MEN

Review of the Situation at Goldfield and Causes Leading to Present Difficulty.

HALT WAS FINALLY CALLED

LAWLESS ELEMENT MUST LEAVE THE DISTRICT.

Goldfield, Nev., March 18.—The following statement was made public today: "The Goldfield Business Men and Mine Owners' association desires to make an announcement of the present labor difference in Goldfield. For the past three years the camp has had a series of labor troubles that have had their origin in the existence of an organization known as the Industrial Workers of the World. This body of men have not only done these things, but have maintained a reign of terror in the camp so far as laboring men and business are concerned. Prominent men from other states have been warned that they could not enter the camp, and when some have ventured to disobey these mandates, they have been assaulted and forced to leave the district. Laboring men who have offended in any way have been beaten up and maltreated and sent out of the district without food or shelter."

Strike Followed Strike.

"Last December a general strike was inaugurated which was settled amicably early in January. Business at once revived and a genuine boom in building and mining commenced. Within several days a general strike was inaugurated and our prosperity again was threatened. This time it was a fight between the Industrial Workers of the World and the American Federation of Labor. The former served notice upon the miners that unless some of the agitators be discharged the miners would be immediately burned out. The restaurant keeper who dared to serve meals to carpenters under the ban of the Industrial Workers of the World was shamed and the Goldfield business men and mine owners' association was formed."

Union of Citizens.

"It is not, never was and does not propose to be a citizens' alliance, or a mine owners' and operators' association of the pattern of the Chicago Creek district mine owners and operators' association. It is simply a union of the business men and mine owners of Goldfield to preserve their own and protect life and property. There is to be no change in hours or wages. The settlement of wages made in January is to remain the same, the rest of the lawlessness and oppression must cease. The Industrial Workers of the World, as the representatives of lawlessness, must be removed from the only issue and all that is involved. Labor unions are not to be warded against or to be encouraged. The only issue is that the mine must be labor unions not under the control of or associated with the Industrial Workers of the World."

EXECUTIVE COMMITTEE.

Los Angeles, Cal., March 18.—In an interview in an afternoon paper, President E. P. Ripley of the Santa Fe, who is now at Santa Barbara, is quoted as saying that President Roosevelt is responsible for the present uncertain conditions in Wall street, and attributes the recent semi-panic to "a brush fire which the president started."

RUEFF CASE GOES OVER A FEW DAYS

Prosecution Willing to Await Action by the United States Supreme Court.

San Francisco, March 18.—Upon request of the prosecution, the trial of Abraham Rueff, charged with extortion, was postponed this morning by Judge Dunne until March 25, in order to await the action of the United States supreme court at Washington on the writ of error granted to Rueff by Judge Hebbard.

The writ of error will come up in Washington next Monday. The defense was somewhat surprised by the move made by the prosecution and readily consented to a postponement of the trial. Counsel for the defendant have contended all along that the writ of error granted by Judge Hebbard acted as a stay of proceedings in Rueff's trial before Judge Dunne pending the decision of the United States supreme court.

Defendants All Present.

When court resumed this morning there were present Rueff, Mayor Schmitz and Chief of Police Dinan, with their attorneys. The case against Dinan and Rueff, in which the two are charged with conspiracy, was continued by consent of both sides till next Monday morning. It was then agreed by the prosecution and counsel for the defendant that Mayor Schmitz is to be arraigned and will plead to the indictments. It was one of these indictments that the mayor surrendered himself into custody and applied to the state supreme court for a writ of habeas corpus to test the right of Judge Dunne to try him. The supreme court refused to grant the writ, and the mayor was disposed of, the Rueff trial was postponed as stated above.

The cases against Supervisor Nichols, Peter M. Duffy and Max M. Alder were continued to Judge Lawler's court to April 1.

CIVIL WAR VETERAN DEAD

General Joseph Stockton, One of Chicago's Heroes of '61, Answers Last Roll Call.

Chicago, March 18.—General Joseph Stockton, one of Chicago's oldest settlers, died yesterday after an illness of several weeks.

General Stockton was born in Pittsburg, Pa., on August 10, 1838, and came to Chicago in 1858.

In July, 1861, he enlisted in the Seventy-second Illinois volunteers, known as the First Board of Trade regiment. After the fall of Vicksburg he assumed command of the regiment and after the battle of Franklin, Tenn., in which he was wounded, he was breveted colonel and brigadier general.

He was a member of the board of commissioners of Lincoln park, from 1869 to 1882, and organized the efforts which culminated in the erection of the Grant monument.

General Stockton had been chief marshal of every Republican procession in Chicago since the war. He was chief marshal of the grand procession just preceding the election of McKinley, was chief of staff to General Sheridan at the reception to General Grant on his tour of the world, to General Forsyth, to General Garfield monument procession, to General Miles at the unveiling of the Grant monument, and at the World's fair parade in October, 1892. He was chief marshal of the peace jubilee parade in 1898.

George C. Parkinson leaves for Salt Lake today and from there he will go to Boise.

Professor John T. Miller gave a fine lecture in the academy on "Heredity and Environment."

The same old story of rain still goes. Mr. Rogers of the Scripps-Patterson company was in town today.

HARD LAW TO DODGE.

Jefferson City, Mo., March 18.—Governor Folk today signed the bill passed by the legislature amending the anti-poisoning law so as to make telegraph and telephone instruments devices for registering bets on horses.

GRAND JURY BEING SPREAD

More Eminent Citizens of San Francisco Have Reason to Be Alarmed.

DIGGING INTO CORRUPTION

EVIDENCE OF GRAFT IN HIGH PLACES.

San Francisco, March 18.—The action of the grand jury in bringing before it today the members of the board of supervisors aroused the greatest interest in the proceedings of that body, which has been forced to suspend its sessions on account of the doubts thrown upon its legality of existence by the attorneys of Mayor Schmitz and Abraham Rueff, indicted for extortion. When it was announced tonight that the grand jury would probably remain in session all night, it was conceded that extraordinary results might be looked for. To add to the public excitement the Bulletin tonight published an extra declaring that further exposure of municipal corruption had been made and that many indictments would soon be made. In certain circles the statements were given credence because of the knowledge that the Bulletin people have been openly securing evidence to aid Assistant District Attorney Heney in his prosecution of public officials.

Street Franchise Grant.

The Bulletin says that a plot involving the granting of valuable street railway privileges was laid bare today.

It is charged that the sum of \$450,000 was paid to high officials to permit of the conversion of street railway systems into electric lines, and that the bulk of this money was retained by "a mysterious man," and that small sums of money were parcelled out to minor city officials to secure enough votes to permit of the granting of the required franchises. Another story is that rival telephone companies each paid large sums of money, one to shut off competition and the other to secure the right of competing for public patronage.

Corruption Fund.

Another charge is that a corruption fund of \$28,000 was raised by prize-fight promoters to secure a monopoly of light permits. The railway franchise and the telephone franchise were passed by the supervisors in the wake of the confusion immediately following the earthquake of April 18. The supervisors were directly concerned with all of these legislative acts. It has been believed by persons closely associated with the district attorney's office that some confessions have been obtained which have direct bearing on charges privately and publicly made. Assistant District Attorney Heney said a few days ago when asked for a candid opinion of the situation of the grand jury, that he had stronger evidence against these people than he had in the land fraud cases in Oregon, and where the juries convicted."

All Night Session.

The inquisitorial body was called together at 11 o'clock this morning, and by 8 this evening practically all the members of the board of supervisors had entered the grand jury room. With the exception of a very brief recess at 1 o'clock, the grand jury was in session all day, and shortly after 6 District Attorney Langdon announced to the newspaper men that it would not complete its work of examining the city fathers until midnight or even later.

Beyond stating that all the supervisors had been subpoenaed to appear before the grand jury and would be interrogated, Mr. Langdon refused to talk or give any inkling as to the investigation that the inquisitorial body was pursuing.

Assistant District Attorney Heney and Detective Burns were much in evidence around the grand jury headquarters.

Commissioner Wilson, an ex-supervisor; H. M. Owens, an attorney; Rudolph Spreckels and a young woman whose name was given by Burns as Miss Smith, and who is said to have been employed by the board of supervisors as stenographer, were also before the grand jury during the day.

Wall Paper.

Our new line is full of new and snappy ideas. Everything from the finest Chambrays and Engravures to the 10c papers. Vast varieties of every kind. GEO. W. EBERT & CO., 57 Main.

TOWN BOARD MEETING.

Citizens of Preston, Idaho, Interested in Water Question. (Special to The Herald.)

Preston, March 18.—The town board meeting scheduled to take place on the 15th was held with a goodly number of citizens present. Considerable interest was centered in the waterwork proposition, fire protection and systematic drainage for the town. The chairman of the board reported what had been done in the past two years in placing Preston on a more up-to-date footing. The report showed that various springs had been considered for a waterworks, some were feasible, some were not. The new board nominated is composed of some of the best citizens and business men and is as near non-partisan as it can get, and they are pledged to see this much-needed innovation put in Preston. The town of Nampa is watered from an underground stream, and while there is plenty of water in and around Preston, the underground proposition would not go very well, as there is no quicksand to encounter, and there would not guarantee a permanent flow. The final solution of the proposition will probably be that water will have to be taken either from Cub river or from Mink creek. The new board is composed of James Johnson (Republican), Sol H. Hale, Sol Roberts (Republican), W. Chatterton (Republican), Clint B. Meehan (Democrat), and Hugh S. Geddes (Democrat). This is considered by persons well informed to be the best board Preston has ever had.

From talk on the street this town will soon gravitate into a city of the fourth class, as it has enough population now.

Quite a number of residence blocks are to be erected as soon as the spring blossoms.

George C. Parkinson leaves for Salt Lake today and from there he will go to Boise.

Professor John T. Miller gave a fine lecture in the academy on "Heredity and Environment."

The same old story of rain still goes. Mr. Rogers of the Scripps-Patterson company was in town today.

HARD LAW TO DODGE.

Jefferson City, Mo., March 18.—Governor Folk today signed the bill passed by the legislature amending the anti-poisoning law so as to make telegraph and telephone instruments devices for registering bets on horses.

A CARD

While there's no apology to be made for our magnificent opening display of millinery yesterday, it should be known that many of our most select novelties were delayed in transit. Some of these delayed shipments came in yesterday and will be on display this morning for the first time. Banks, 116 South Main Street.

TRYING TO BEAT UNCLE SAMUEL

Colorado Stockmen Refuse to Take Out Permits or Pay for Grazing Privileges.

(Special to The Herald.) Washington, March 18.—The forest service issued the following notice: Stockmen who refuse to pay grazing fees may be denied future privileges on national forest reserves. Some of the stockmen who held permits last year to graze horses and cattle on the Holy Cross reserve in Colorado made an agreement among themselves not to apply for permits or pay the grazing fee this year and make an effort to prevent their stock from drifting upon the reserves. This action was taken for the purpose of testing the legality of the act which authorizes the secretary of agriculture to make regulations, violation of which may be punished as a criminal offense. By a recent act of congress the government is now able to carry directly to the spot and grant grazing privileges on lands against it under certain circumstances when the ground of the act is invalidated by the supervisors in the state upon which an indictment is founded. This for the first time puts it in the power of the forester to secure from the supreme court a decision of this question, and under the advice of the attorney general, the forest officials will make such arrests for grazing trespasses as the forest reserves are necessary to secure final adjudication upon the validity of the criminal provisions of the act.

Stockmen have been notified that those who held permits last year and have failed to make application, may lose their personal opinion of his evidence against officials indicted and about to be indicted, said: "I have stronger evidence against these people than I had in the land fraud cases in Oregon, and where the juries convicted."

STANDARD OIL CASE.

Government Puts in Evidence to Sustain Rebating Charge.

Chicago, March 18.—G. A. Kennedy, agent of the Chicago & Alton at Champaign, Ill., testified today at the trial of the Standard Oil company on the charge of giving rebates.

Certain waybills and vouchers were placed in evidence by the government. These, the government attorneys claim, will establish the fact that the Standard alleged illegal rates from the railroad.

During the afternoon numerous freight conductors who had handled the oil tank cars in the shipments from Whiting, Ind., which are mentioned in the indictments, were called to show the movements of the cars, and their delivery at other points along the line where one run ended, and another commenced.

CONSTRUCTION STOPPED.

Union Pacific Ceases Work on Topeka & Northwestern Branch.

Topeka, Kan., March 18.—A special to the Capitol from Onaga, Kan., says: Pursuant to orders from Union Pacific headquarters at Omaha, the construction of the Topeka & Northwestern branch from Onaga northwest has been suspended and work all along the road camp to standing made 8 o'clock last night. Already the grading outfits from along the route are arriving in this city for transportation to other parts of the country. As a result of the shutdown thousands of men have been thrown out of employment and every train leaving this city is crowded with discharged laborers.

PILES

Pastor's Wife in Southern City Restored to Health by the Wonderful Pyramid Pile Cure.

We Want Every Pile Sufferer to Test This Great Cure at Our Expense. —Send Your Name and Address for a Free Trial Package.

"In 1900 my wife was attacked with piles and suffered from them four years and was unable to attend to her domestic duties. She tried many remedies, but all failed, and she gave up in despair. Mr. Edwin Shaver, of Salisbury, N. C., who was cured by your Pyramid Pile Cure, recommended it as a sure cure to me. I have used five boxes of it, and the part of a box of salve, on my wife, and she has been cured. May God bless you and your remedy. Yours very truly, M. Albert Eagan, Mammoth, Utah. Mrs. D. L. Feeney, 48 W. 3d So. city.

We want to send you a free trial of this remedy at once, so you can see with your own eyes what it can do for you. You cure yourself with perfect ease, in your own home, and for little expense. Pyramid Pile Cure gives you prompt relief. It heals sores and ulcers, reduces congestion and inflammation, and takes away pain, itching and irritation. After you have tried the sample treatment, and you are satisfied, you can get a full regular-sized treatment of Pyramid Pile Cure at your agent for 50 cents. If he hasn't it, send us the money and we will send you the treatment at once, by mail, in plain sealed packages.

Send your name and address at once for a trial of this marvelous, quick, sure cure. Address: Pyramid Drug Co., 54 Pyramid Bldg., Marshall, Mich.
