SALT LAKE HIGH WINS FIRST GAME

West Siders Take Lead in the First Game in Interscholastic League.

The interscholastic league opened its season yesterday with a game between the Salt Lake High and the All Hallows. When it was all over the west siders went home with the score of 10 to 5 in their favor. The game was a close one, but the good in what promises to be an interesting race for the High school championship of the city. Hammond was in the box for the red and black and had things his own way until near the finish of the game, when the batters solved his curves and hammered out five runs. Before the balloon went up it looked like a walkaway for the High school, but at that they managed to keep the lead until the last man was out.

Barney Quinn did the twirling for the collegians and had fairly good control. In the first inning, however, he was touched up in a lively manner, the team getting a ball case of rattles behind him, during which time the High school boys piled up four runs.

Murphy on first base played star ball for All Hallows as did Carlo at second. The latter pulled off the spectacular play of the day by successfully grabbing a hot grounder with one hand.

Hammond for the High school pitched good consistent ball throughout and in the first two innings fanned four men and allowed but one hit. Coates on first and Sheets at shortstop also played well. The line-up was:

High School	All Hallows
Hammond	Tooney
Coates	Quinn
Combs	Murphy
Billings	Carlo
Sheets	Wilson
Trick	Pitzmaurice
Loofbrow	Boyle
Dart	Homestead
	Griffin

MAY MEET DENVER U.

Varsity Athletes Working Now—May Be Something Doing.

There is still a possibility of a track meet between the university and a Colorado school. The athletic council will meet today to decide definitely on the matter. Early in the season a number of meets were scheduled with Colorado schools, but it was found necessary to call them off. Owing to the prosperous condition of the track team during the last few days the university athletic managers are inclined to think an outside meet would be a good thing. A meet with the Denver University will most likely be arranged.

LEHI TEAM BEATS APOLLOS

Old-Time Rivals Meet on Basketball Floor—Will Try It Again.

(Special to The Herald.)

Lehi, April 9.—The Lehi basket ball team met and defeated their old rivals, the crack Apollo team, in a most exciting game in the City pavilion last night, the score at the close of the game being 29 to 21.

This was the first time that all of the Lehi team had played together and at the close of the first half the score stood 12 to 17 in favor of the American Fork team, but as the locals warmed up the score began to change. A return game will be played at American Fork tomorrow evening and if the result is changed a third game will be necessary to decide who are the victors. So intense is the feeling between the two towns that outside referees are necessary, those last evening being Chamberlain and Perkins of Provo. The following was the lineup: Lehi: Gardner..... R. F. Bush Briggs..... L. F. Chipman Sabey..... C. H. Christensen Evans..... R. G. J. Christensen Adams..... L. G. Campbell

UTAH BECOMES AMBITIOUS

May Extend Its Athletic Relations to the Puget Sound Country.

Coach Maddock of the university received a letter from Ed M. Hausa, manager of athletics of the University of Washington, yesterday regarding a football match for next season. The plan includes a three-year contract with two games to be played at Seattle and one here, the last being played at the time of the Alaska Yukon fair. The only practical date the U has open next year is the Saturday after the university plays the Montana School of Mines at Butte. The university will most likely sign up a contract with Washington for this date, which will make a big trip for the team, named by the University of Montana, the Montana School of Mines and the University of Washington inside of a week.

If the east benchers take that trip it will take them an entirely new territory, and it will mark the beginning of athletic relations between them and that part of the country.

SMATHERS GETS CUP.

New York, April 9.—Elmer E. Smathers will retain the gold cup won by his son, Major Delmar, in a race with Lou Dillon in 1904, as the result of a verdict returned today by the jury in the suit brought by the Memphis Trotting association.

TEX PASSES UP GANS-LEWIS GO

Nevada's Only Real Fight Promoter Wants Nothing But the Best.

(Special to The Herald.)

Ely, Nev., April 9.—"If Gans holds out and insists that a purse of \$20,000 be raised to induce him to meet Harry Lewis, I do not believe they will come to gether."

So said "Tex" Rickard, fight promoter, when shown an Associated Press dispatch announcing that Gans and Lewis had signed for a mill to take place within three months for a purse of \$20,000.

"I do not believe that the fight would be worth anything at that figure. I will not have Gans offered \$20,000 to have Gans and Battling Nelson meet at Ely, July 4. 'It is certain that I will make no effort to get the fight off at that figure. I will not bid for this fight. The money for this purse has not been raised, according to this dispatch, though \$5,000 has been put up."

"I do not want to be considered as a knocker, but it looks to me as though this would be a bundle of easy money for the black."

"Of course if this fight is a go, the match between Gans and Nelson for Ely on July 4 is off. I have said all that is worth while for me to say concerning the proposed match. Money talks, and my \$20,000 is waiting in the bank for Gans and the Battler if they want it. Gans surely wants it. Nelson is still holding out, though I have not yet given up hope that I can get the men here. I am waiting for word from Nolan to the effect that the mill offer for the fight is accepted. I will not give up the idea of having this fight here, though I will make no further overtures to the men. If they want my money—and it's good money—all they have to do is to come here and get it."

U TO MEET A. C.

SAYS HE WAS "TOUCHED"

Lehi Man Loses \$36, Taken From His Pocket While Attending Conference.

Lehi, April 9.—T. R. Jones, a local resident, was touched for \$36 while attending conference in Salt Lake City, last Saturday. Mr. Jones was using his purse just prior to going into the afternoon session, but when he went to pay for some oranges, as he came out, his money was missing. He says that two young men who sat beside him in meeting pined him with many questions about the speakers and things in general, and he thinks they relieved him while he was thus interested.

The funeral services over the remains of William Farthingham, who was killed near Stevensville, Mont., last Wednesday, by an explosion of dynamite, were held here yesterday. The speakers were B. J. Anderson, who was with him at his death; Edward Southwick, George Webb and John Y. Smith. The floral tributes were profuse and the services followed the remains to the cemetery.

Sheep shearing is now in full swing at Webb's shearing corral west of the Jordan river. From 2,000 to 3,000 sheep are being clipped here and they are averaging from six to eight pounds of wool per head. Most of this wool is already sold at prices ranging close to 20 cents per pound.

Rockhill, Eugene Marcus, Nate Rockhill, Edward Southwick and other citizens have formed a company and will erect an opera house and dance hall here the coming summer costing from \$30,000 to \$40,000. Rodney and Buell Alfred left yesterday for Washington, where they hold extensive farming interests.

Mr. and Mrs. David Winn arrived in Lehi yesterday for a month's visit. Mr. Winn is engaged in the saw mill business in Mexico.

Karl Hopkins has been engaged as principal of the Lehi High school for the coming year. Another grade will be added, making a three year course, which will be given above the eighth grade, and in which about 100 pupils will be enrolled. Agriculture will be introduced and be made a prominent feature. On May 1 the six high schools of this county will meet in Lehi and hold athletic contests at the city park. A general educational meeting will be held in the forenoon and a ball at the city pavilion in the evening.

PROVO NEWS NOTES.

Provo, April 9.—Miss Ada Chamberlain of Westburg was brought to the Provo general hospital today suffering from a compound fracture of the leg, which has been reduced, and Mitchell Stewart of Laramie underwent an operation for appendicitis. Both patients are progressing nicely.

A TRIP TO MEXICO.

Elias S. Kimball has just returned from a three months' trip to Mexico, where he went with H. C. Mortehsen and H. L. Griffin to inspect the plantation of the Montezuma Orange & Banana company, located thirty miles up the Tamesi river, from Tampico, which is situated on the Gulf of Mexico.

The Tamesi river, which is little known except to those who have traversed its waters, is in reality one of the most beautiful tropical streams in the world.

Speaking of this river, Mr. Kimball said: "Tropical fruit and forest trees, mosses and vines in verdant luxuriance cover the winding banks the entire distance. Banana, orange and coconuts, groves, olive and mango plantations, anona and cypress trees and bamboo jungles fringe the water; the state palm and cloistered palmettoes, with here and there a moss-covered tree taller than temple spires, covered with ferns filled with flowers, chattering parrots and hundreds of bright-plumaged birds. Many kinds of water fowl, fish and turtle abound in the river. Near our plantation the river is fully 500 feet wide and about forty feet deep, and the clear blue water reflects thousands of delicate shades and tints which would baffle the artist to paint or the pen to describe.

Trip to Plantation.

We were accompanied on one of our trips to the plantation, in a steam launch, by a number of business men and their ladies, and one and all declared the trip and scenery the most

THE TAILOR

I fit them all, and fit them well. Materials fine and styles that tell!

Let's have a little talk about left-on-hand New York, Chicago, Boston and Philadelphia fine tailored suits which I buy twice a year when I go East.

They are fine Suits. Made of the best wools. Made to fit real men. Made in the leading tailoring establishments for men of means. In most cases deposits were put up.

In some instances they were not called for. In others they were not accepted for one reason or another.

These are the suits I buy. The regular prices are \$40.00, \$50.00, \$60.00 and \$70.00.

I bring them out to Salt Lake. Men who wear good clothes know me.

Then I have hundreds of customers that I make suits for.

I have just put these fine, unaccepted suits on sale to Salt Lake patrons at \$10.00 to \$25.00.

One of these suits will fit you, as I have both large and small sizes.

Do you want to save big money and get a finely tailored suit worth \$40.00 to \$70.00 for the small sum of \$10.00 to \$25.00?

The first selection is best! Come in and see them—and depend upon me to make them fit!

HAD PROVED HIS HONESTY.

(Harper's Weekly.)

A small town out west had for a long time a chief of police, one Alf Church noted for his bluntness and honesty. One day a grocer went to him for information about a certain Joe Whiteman, who had applied for credit and a book at his store, and the following dialogue ensued:

"Good mornin', Mr. Church."

"Morning."

"Do you know Joe Whiteman?"

"Yes."

"What kind of a fellow is he?"

"Pretty fair."

"Is he honest?"

"Honest? I should say so. Been arrested twice for stealing and acquitted both times."

PROPER FOR HIM.

(The Catholic Standard and Times.)

"You announced the text of your sermon," said the cranky old deacon, "Let Not Your Right Hand Know What Your Left Hand Doeth."

"Well, it should have been, 'Let Not Your Left Hand Know What Your Right Hand Doeth.'"

"But I'm left-handed."

Transportation Facilities.

"Labor troubles are unknown, and plenty of peon labor can be had at 75 cents a day in Mexican money or a fraction over 37 cents in gold."

"There are two railroads running into Tampico, and eleven steamship lines depart from that port for the United States and Europe. One of the largest custom houses in the world is located here, and the exports include hides, ore, corn, sugar, bananas and oranges. The Mexican government has expended \$3,000,000 on the harbor and \$5,000,000 in building a sea wall at the mouth of the river."

"A movement is now on foot by American and Mexican capitalists for the erection in Tampico of a large cold storage plant for the storing of fish and game, which abound there."

Discusses Resources.

In discussing the resources of this locality, Mr. Kimball said:

"The climate is moist and warm the year round, the soil is rich, water is abundant, with a rainfall sufficient to produce good results most of the year, even without irrigation; and all fruits grow luxuriantly when properly cultivated. Labor and transportation are cheap and right at our doors; markets are certain and unlimited."

"In the Tampico district orange trees grow as much in three years as they do in six years in California or fifteen years in Florida. On one acre of land there can be produced in from nine to twelve months from 500 to 800 bunches of bananas. The climatic conditions of the country are very favorable to fruit growing; the average temperature being 77 degrees above.

Fruits and vegetables of many varieties grow in abundance. For thirty
