

PRESIDENT KERR GOES TO OREGON

Is Unanimously Elected to Take Charge of Agricultural College at Corvallis. SALARY MUCH INCREASED

LOGAN JOYOUS BECAUSE OF MR. KERR'S RECOGNITION. (Special to The Herald.) Corvallis, Ore., May 3.—Dr. W. J. Kerr, president of the State Agricultural college of Utah, is president-elect of the Oregon Agricultural college. He was unanimously elected at a special meeting of the board yesterday afternoon, at which all members were in attendance.

Logan, May 3.—President W. J. Kerr of the Agricultural college was officially notified today of his election to the presidency of the Agricultural college of Oregon, and that his salary had been fixed at \$5,000 per year. His term of employment commences on July 1. The telegram conveyed the information also that the election was unanimous, the entire board of thirteen regents voting for him. The appointment came unsolicited, and as Professor Kerr had not made formal application for it, simply giving his consent for the use of his name, and stating the terms upon which he would accept. There were several candidates for the position, however, but Mr. Kerr's exceptionally strong recommendations won the appointment for him.

Among those who endorsed him were several government officials, including A. C. True, the director of experiment stations; Benjamin Ide Wheeler of the University of California, President Butler of Columbia university, President Snyder of the University of Washington and other prominent and influential educators. Nothing in a long while has afforded Logan folks in general such keen satisfaction as this appointment, as they regard it as a vindication not only of themselves, but of the many friends who have supported them. This satisfaction is made the greater when it is known that the salary given him is \$2,000 per year higher than that paid any of his predecessors at the Agricultural college of Oregon. It was Mr. Kerr's regard for his friends that caused the Oregon people to be offered an opportunity in a business way in Utah at a salary much higher than that offered him, and he deliberated a long time before permitting the use of his name. But the fact that his friends would be vindicated by his acceptance of the position, which he chooses the educational field once more.

This morning Professor Kerr spoke for a short time to the student body at the Agricultural college, making the announcement of his appointment to them. He was tendered an ovation by the students who cheered and yelled for ten minutes. Mr. Kerr's speech was biting and sarcastic. He said that in the comments made on his case recently he thought he had detected a note of pity, and he had seen evidence of a belief on the part of some that he was unable to care for himself when relieved of his position.

He said that he thought that any man whose power for good was limited to any one institution was not deserving of any honor. Making comparisons, he said: "I was assured by a high official of this state at evidently referring to Governor Cutler" ("that the reason I was no longer wanted here was because I was too professional and too aggressive; that I was making the Agricultural college too much of a rival of the University of Utah. In Oregon the only demand they made of me was that I should be progressive and aggressive."

The Agricultural college of Oregon is located at Corvallis, upon a tract of 225 acres of land. It has a student body numbering about 900, and gives degrees in nine courses, while the Agricultural college of Utah, gives degrees in but three. President Kerr will have \$200,000 to spend in buildings in the next year.

ANTI-EUROPEAN RIOTS IN INDIA

Postoffice at Allahabad Looted, Mission Church Pillaged and Bungalows Burned. TOWN NOW UNDER PATROL

SIGNS OF UNREST AMONG THE HINDOOS. Allahabad, British India, May 4.—Serious anti-European riots have occurred at Rawalpindi, Punjab. A Hindu mob burned two bungalows, pillaged the mission church, looted the postoffice, burned a garage and all the motor cars in it, destroyed the plant of a power house and smashed the windows of the residences of many Europeans. Armed police eventually dispersed the rioters. The town is now patrolled by a squadron of the tenth Hussars.

The outbreak at Rawalpindi is attributed to the incendiary influence of well-known agitators who have been making speeches throughout the Punjab and who also are held responsible for the recent outbreak at Lahore.

Rawalpindi is a fortified town of the Punjab, capital of the Rawalpindi division and district, and has about 90,000 population. The Rawalpindi division has about 4,000,000 inhabitants. There was considerable excitement at Lahore about the middle of February, following the conviction of the proprietor and editor of a local newspaper, who was accused of stirring up hatred against the British community. A story was printed to the effect that an English officer shot a Mohammedan policeman for refusing to carry the carcass of a dead boar which the officer had speared. The government prosecutor showed the story was fictitious and that the policeman was killed by being thrown from a horse. The prisoners pleaded that they had pursued an unverified rumor in good faith, but the court sentenced the proprietor to two years in prison and a fine, and the editor was condemned to six months' imprisonment.

After the sentences had been imposed a crowd of Hindus paraded the streets, angrily denouncing and hooting every European they met. A dispatch from Lahore April 27 announced that rifles and twenty rounds of ball cartridges had been served out to the local volunteers in consequence of signs of marked unrest among the Hindu student element, due to the publication of articles in the local newspapers inciting the government by means of an elective parliament. The authorities had the unanimous support of the great Mohammedan population, who at numerous mass meetings emphatically condemned the anti-European movement.

EPISCOPAL MISSIONS. Some Changes Proposed by the Convention at Boise. Boise, Ida., May 3.—At today's session of the Episcopal convocation of the seventh missionary department the proposed memorial to the general conference respecting restrictions on the admission of students to cut off western Colorado from the Salt Lake district and make it a district by itself, and to make Nevada a district by itself, is proposed further to take the Idaho Panhandle of the Spokane district and attach it to the Idaho district. Bishop Funsten will be given the Panhandle instead of the western portion of Wyoming, which is now covered. The plan involves the appointment of three more bishops. It is pointed out in the memorial that the western states, covering two-fifths of the area of the country, have only twelve bishops.

SCALY SORES AS BIG AS SHINIES

CURED IN 3 WEEKS BY CUTICURA COSTING \$1.50

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. I used one bottle of Cuticura Resolvent, one box of Cuticura Ointment, and two cakes of Cuticura Soap. I think it a splendid medicine, and I recommend it whenever I can. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

RELIGIONS AID MEDICAL WORK

Interesting Discussion at Missionary Conference Now in Progress at Shanghai. Shanghai, May 3.—The missionary conference at today's session discussed medical work in general, religious work in hospitals, medical training for Chinese doctors, nursing as a profession for Chinese women, and so on.

An elaborate paper was presented by the committee on medical work (Dr. Donald Christie of the United Free church of Scotland), showing that in round numbers there are 30 fully qualified missionary physicians, 100 Chinese assistants, 250 hospitals and dispensaries, and that at least two million patients are treated yearly.

It was resolved to recognize medical missionaries as an integral part of the missionary work of the Christian church, to recommend that medical missionaries should receive their commissions from the home churches and societies in a public and unmistakable way; that no partially trained men and women should be appointed to undertake respectable medical work, and that medical missionaries should have the best possible professional training and equipment, so that the work may be of a high standard.

It was further resolved to urge the various missionary societies to unite in establishing thoroughly equipped medical schools in as many of the large mission centers; to urge on missionaries throughout China that they should seek more energetically to combat the great evil of opium in every possible way, and to appeal to the home churches to send forth more men and women fully qualified and fully consecrated to carry out and extend this work.

Tonight Colonel E. E. Haskell, of Boston, presided. The speakers were J. F. Goucher, president of the Woman's College of Baltimore, and founder of the West China mission and Korean mission of the Methodist Episcopal church, and H. P. Beach, educational secretary of the student volunteer movement for foreign missions of New York.

Mrs. S. Joyce, 180 Sullivan St., Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Cure. It cured me of a severe case of Kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it. F. J. Hill Drug Co. 'The Never Substitutors.'"

Officials thus far indicted will probably be tried in October. On Monday, it is said, Assistant District Attorney Smythe will begin an examination of the ballots cast for officers of the Mutual in the recent insurance elections.
