

FINANCIAL WORLD IS DISAPPEARING

Iron and Steel Trade Better and Belief That Copper Demand Will Be Renewed.

GREATER LOANS OF BANKS REPORT SHOWS INCREASE THAT OCCASIONS SURPRISE.

New York, Sept. 22.—A more cheerful feeling over the financial outlook has emerged through the clouds which remained over the prospect as revealed in the movement of the stock market.

Fears that similar experience awaited the iron and steel trade have grown less acute and points of difference in the conditions of the iron trade have been recognized, such as the less degree of inflation which has occurred in the iron trade.

Great Expansion of Loans.

It is subject for surprise that during the period characterized by the most drastic liquidation in the securities market there has occurred, nevertheless, an expansion in loans of the national banks of \$17,466,777 over the preceding year on May 30 of this year.

It is known that there has been a very extensive liquidation of the country's foreign indebtedness in the period under review and it is a question how far the transfer of those obligations to home institutions may figure in this loan showing.

The outlook for cotton exports is not so clear and the better condition of that crop have had a material effect on the price of cotton.

Beer is a Necessity

WITH THE TOILER

Five hundred men employed in the hat factories of Orange, New Jersey, went on a strike recently because they were forbidden the drinking of beer during working hours.

The men were most reasonable. Beer is a necessity with the man whose labor causes him to perspire. The body demands a certain amount of liquid.

FISHER BEER
