

GERMANY'S NEW NAVAL MONSTER

Launching of the Nassau Attended by Brilliant Assemblage.

TOTAL COST TEN MILLIONS OTHER GIANT BATTLESHIPS BEING CONSTRUCTED.

Wilhelmshaven, March 7.—Germany's first mammoth warship was successfully launched here today and christened Nassau by the Grand Duchess of Baden. Emperor William, the grand duke of Baden, Prince Henry of Prussia and Prince Henry of the Netherlands, as well as a brilliant assemblage of prominent officials, were present.

Wilhelm Von Hongstenberg, lord lieutenant of Hesse-Nassau, made a speech, in which he greeted the new vessel as a welcome addition to Germany's sea power and a defender of the interests of the empire.

The launch of the giant battleship Nassau inaugurated a new era in the German navy. In size, armament, speed and installation, she will be superior to any warship hitherto built in Germany.

Dimensions Kept Secret.

The Nassau displaces 17,960 tons and is built entirely of hardened steel. Her dimensions and the thickness of her armor are not exactly known, as everything connected with her construction has been strictly secret, by order of the marine minister. It is known, however, that she is to be fitted with three sets of triple expansion reciprocating engines, and is to be provided with three propellers. It is specified that she shall attain a speed of at least nineteen knots. Her crew is to number 886, including 27 officers.

The Nassau's first keel plate was laid down in the imperial navy yard at Bremerhaven in the last quarter of 1906, so that her construction has been very rapid. Her internal fittings and armament are to be completed in the first quarter of 1909.

Cost Nearly \$10,000,000.

The cost of construction, including trial runs, will total \$9,190,000, of which \$5,567,000 are accounted for by the hull and internal fittings, \$3,375,000 for artillery and \$247,500 for torpedo tubes. A twin ship in every respect, the Sachsen, is to be launched soon from the Weiser yard at Bremen, while work is proceeding rapidly on the Wurttemberg at the Vulkan yard, Stettin, and on the Baden at the Germania works, Kiel. These latter two ships, although classed with the Nassau, are to have an even larger displacement, namely, 18,700 tons, and are to be fitted with turbines, probably of the Parsons type. Two other battleships also are to be laid down this year, and these are, it is believed, to displace over 20,000 tons.

Latest Improved Guns.

It has been stated in well-informed naval circles that each of these vessels is to be armed with ten eleven-inch guns of 50-caliber in length, with great muzzle velocity. The projectiles of these guns weigh between 700 and 800 pounds, and as the guns are to be placed so as to fire simultaneously from either broadside, it would be possible to discharge an enormous weight of metal at one time.

The previous larger German battleships are of the Deutschland class of 13,121 tons, carrying crews of 730, including officers, and with a speed of eighteen knots.

PEST HOUSE BURNED.

Denver, Colo., March 7.—The city pest house at Sand Creek, just north of the city limits, in Adams county, was burned today. There was a panic among the fifteen patients, one man and fourteen women and children, when the fire was discovered at 10 o'clock in the woman's dormitory, but the strong helped the weaker ones and all escaped safely. The patients, without shelter, but amply provided with bed clothing, are now camped on the prairie.

DUCHESS IN ASYLUM.

Vienna, March 7.—Wilhelmina Wieding, the divorced wife of former Archduke Leopold Salvator, has been removed to an asylum. The woman recently purchased a revolver with which she threatened to kill her former husband and his brother. Physicians after an examination declared her insane.

So Job White has gone to Butte for a month. Address him Butte Hotel, Butte, Mont.

HUGHES STILL IN TALKING VEIN

Guest of Dutchess County Republican Club at Poughkeepsie.

GREETED WITH APPLAUSE FIGHT AGAINST RACE TRACK GAMBLERS CONTINUED.

Poughkeepsie, N. Y., March 7.—Governor Hughes was the guest of the Dutchess County Republican club tonight, and delivered an address, in which he dwelt upon the duties of the Republican party and the man chosen to office. The governor's allusion to his fight against race track gambling was received with hearty applause. He said:

"We can not fail to recognize the fact that at this time the Republican party is the party of golden opportunities, the party to which clearly is entrusted the safekeeping of our institutions and the protection of all that we hold most dear. We are opposed by some who represent familiar and long held Democratic doctrines and by others who represent the fleeting fancies of unquiet minds.

Matter of Conscience.

"The Republican party to succeed must represent the conscience of the American people. It has represented in the past the American conscience. It was born as an expression of the American conscience. Under Lincoln it spoke for the moral purposes of the people. Under the influence of the indomitable spirit of President Roosevelt it still represents the conscience of the people and their desire for reform and the correction of every known abuse.

"It is no time to throw out catch words to please an idle populace. It is no time to attempt to attract votes by any measure which are ill-considered with reference to the just demands of honest business enterprise.

Time for Confidence.

"It is a time for confidence in our institution, for confidence in our future, but because of that very confidence we must see to it that we devote ourselves sedulously to every matter which should engage our attention as citizens so that no mistakes may be made.

In speaking of the race track gambling, the governor said:

"We have a number of matters of great importance under consideration this year in the legislature. We have got one that goes right to the heart of things, and that is the abolition of this iniquitous race track gambling. I say it goes right to the heart of things, because we should, as Republicans, stand for the maintenance of our institutions.

Cannot Afford to Dodge.

"We say that we are sane; we say that we are safe; we say that the credit of the country will be supported. It all comes to this, that the government is going to be run according to law, and the fundamental law is the constitution, and I say that the Republican party of this state can not afford to legislate against it for the sake of gamblers—to turn down the constitution of the state. I stated that we have always been a party of moral purposes. If the party does not practice that it will go steadily into a decline. Here is one of those questions where you are not trying to execute some impossible moral reform by visionary legislation. The abolition of this evil will be the saving of thousands of men who are now going to their ruin. The Republican party can not afford to dodge this issue."

JAPAN IN THE WRONG.

Nevertheless China is Not in a Position to Resist.

London, March 7.—It is the general opinion in diplomatic circles that the chances of a rupture between Japan and China are small. The kingdom is not considered in a position to resist the demands of the island empire. Pending the receipt of advices from their respective governments, which have not yet arrived, neither the Japanese embassy nor the Chinese legation will discuss the Tatsu Maru incident. While diplomatists consider that China is technically in the wrong, considerable sympathy is expressed for her, as it is felt here that the Japanese customs authorities must have been well aware that the consignment of arms which was the direct cause of the dispute was intended for distribution to Chinese rebels.

TRAIN WENT OVER AN EMBANKMENT

Wreck on Burlington Road in Missouri—Twenty Persons Injured.

Kansas City, March 7.—Burlington passenger train No. 4, which left Kansas City at 7:30 o'clock this morning for Chicago, was derailed at Kearney, Mo., twenty-five miles north of here, and went over a fifteen-foot embankment. Twenty persons were injured, four seriously. The seriously hurt are: J. D. Guyton, Kansas city, horse and mule buyer, head cut and otherwise injured.

R. E. Wilcox, Kansas City, horse buyer, hip broken, hurt internally.

—Chappell, young divinity student, studying at Liberty, Mo.

A traveling man from the north, name unknown, unconscious.

Caused by Spreading Rails.

The wrecked train was made up of baggage car, smoker and two coaches. It is an accommodation train that stops at every station between Kansas City and Chicago and was not due in Chicago until Sunday morning. The accident was caused by spreading rails. The train was not running fast and this fact probably prevented more serious results. All but the smoker turned over and went half way down the embankment.

Physicians were sent to the scene from Brookfield and Kearney. The injured were cared for promptly and placed in the smoker until they could be taken to Kearney. There they were picked up by a later train and most of them continued on their journey.

Three of the injured were young preachers who were on their way from the Liberty college to fill pulpits tomorrow in neighboring towns.

HUGHES BANNER FLUNG TO BREEZE

Continued from Page 1.

Mr. Douglass declared that Governor Hughes would be known as the peace-maker, and urged upon the committee that it was time every man made up his mind what to do. There should be no further delay in voicing the sentiment of the state as to its choice for presidential honors.

"And the name I want to write on that banner," declared Mr. Douglass in conclusion, "is the name of Charles E. Hughes."

Mr. Douglass' remarks were received by many of the members with applause. F. J. Kruck of Brooklyn, in seconding the resolution, said:

"The Republicans of this state should justly and unitedly work to bring about the nomination of Governor Hughes, which we are all so anxious to have him secure."

"Tiny Tim" in Charge.

Chairman Timothy L. Woodruff presided at the meeting. Every congressional district in the state was represented. Former Governor Odell was present, but took no part except to ask if the representation as at the state convention will be governed by the vote cast in 1906 or 1904. Chairman Woodruff informed Mr. Odell that the vote of 1904 would govern. A resolution relative to calling county district conventions where there is no separate congressional committee, introduced by William L. Ward of West Chester, was adopted, following which the Hughes resolution was adopted. The committee then adjourned to meet Friday, April 10, after having been in session only about twenty minutes.

When an effort was made to see Governor Hughes at the Hotel Astor, C. L. Treadwell, his military secretary, said the governor was too busy to receive anyone prior to his departure.

General Stewart L. Woodruff, president of the Hughes National League, when informed of the action of the committee today, said:

"I expected just such action. Of course, I am deeply gratified. I believe it expresses the purpose of a united Republican party in New York. If New York stands with us, so as to include by Governor Hughes, I expect his nomination at Chicago."

ANOTHER DAY OF FUNERALS OF CHILDREN

Continued from Page 1.

The school children of this city erect a monument to the memory of the little ones who lost their lives in the ill-fated Lakeview school fire. An effort will be made to broaden the plan so as to include the school children of northern Ohio, if not the whole state. Each pupil will be requested to give one penny for the purpose of meeting this expense. Already the school children of Cleveland have given several hundred dollars toward the general relief fund for the sufferers from the fire.

A complete canvass of Collinwood has been made by the village officials to ascertain where assistance is needed. Several thousand dollars were distributed today for purchase of coal, groceries and clothing. The village also will bear the expense incident to the public funeral.

The investigation being conducted by the county coroner was omitted today, but will be resumed early next week, after the last of the funerals will have been held.

Measure of Precaution.

Following a conference between City Fire Chief Wallace, City Building Inspector Loume and Director Orr of the city schools, an order was issued by the director late tonight closing the Mayflower school, containing twenty-four school rooms and eight school rooms in other buildings until repairs can be made which will safeguard the school children against such a catastrophe that overtook the children at Collinwood. About 1,000 children will be out of school. The Mayflower school will be completely fire-proofed and fire escapes will be placed on the walls of the other buildings.

RAILWAY TO RAWHIDE.

Reno, Nev., March 7.—A special dispatch to the Nevada State Journal says that the contract was signed between the Rawhide Western Railway company and the California Construction company for the immediate construction of a railway from the new camp to Walker lake, thus connecting the camp by rail with the outside world and giving the mine a chance to ship their ore.

The Vienna Bakery, boss bread maker. Ask your grocery.

TICKETS FOR MUSIC FESTIVAL at Clayton Music Co., Monday.

Tea Tales:

Good tea is healthy and invigorating. Good tea gives brilliancy to the eye and a youthful freshness to the complexion. Poor tea is dear at any price.

HEWLETT'S THREE CROWN TEA IS GOOD TEA.

If double the price was paid the consumer could not get better. Ask your grocer for Hewlett's and refuse to accept any other.

RIGHT OF WAY IS SOUGHT BY SUIT

Goldfield Consolidated Mines Company Trying to Build a Railway.

(Special to The Herald.)

Goldfield, March 7.—The Goldfield Consolidated Mines company has brought two condemnation suits in the district court, one against the Sandstorm Annex Gold Mining company and the other against the W. N. Brock, A. Huyser and Sam H. Anderson Mining company. It is asserted in the complaints that the Consolidated company is engaged in building a railroad from its property to its new cyanide mill reduction plant, a distance of a mile and a half, and the inability to arrange for a right of way over property owned by the defendant corporations has forced the plaintiff to resort to the Esmeralda King mining claims are directly involved by the actions. A fifty-foot right of way is wanted by the consolidated company. The complaint in each case asks that a commission to consist of W. C. Stone, E. R. Thompson and J. Casey McDaniel be appointed for the purpose of adjudging the contention that the ground is necessary for the plaintiff in the construction of the road and to ascertain the damage that the defendant will suffer to the extent that an order of condemnation may be granted.

Walker C. Clark, the Goldfield contractor is down from Rawhide and reports a strike of \$600 ore on the Black Butte. Clark says the ledge runs almost east and west from the Last Chance into the Paymaster ground and he is seeking it on a lease on the Sunflower claim of the Paymaster company. W. J. Barnes and C. E. Spelman of Goldfield have a lease on the same claim on which the strike was made.

A. C. Corbett received a telegram from Rawhide this morning saying that the Morrissey lease on the Last Chance claim of the Rawhide Mining company had been sold to a New York capitalist who has a representative in the camp and that a contract was immediately let for a shaft which is to be sunk 100 feet within twenty-five days. The shaft is in Esmeralda county. The United States government has officially declared the boundary line and the survey completed yesterday leaves no doubt as to the jurisdiction over the new camp.

The survey was made by Deputy United States Surveyor General Stewart of Reno and his findings confirm the joint survey made by the county commissioners of Churchill and Esmeralda counties some months ago.

BECOMES INSANE.

Pitiable Condition of Former Lieutenant in Coast Artillery.

Leavenworth, Kan., March 7.—Allen LeFort, formerly a lieutenant in the coast artillery, now serving a five-year term in the federal prison for forging the names of brother officers was today adjudged insane. The examining physician recommended that he be transferred to St. Elizabeth's sanitarium at Washington. He was sent here three weeks ago from Fort Hancock. He is too emaciated to stand, and mutters prayers constantly.

NEW FOREST RESERVE.

Washington, March 7.—The president today signed a proclamation creating the Ozark national forest in the northwestern part of Arkansas. The new forest brings the total area of the national forests in the United States to 164,492,599 acres, practically all located in the Rocky mountains and the Pacific coast regions, and all of it west of the Mississippi river.

SAVED HIS LIFE AND HIS MONEY

New York Italian Banker Bags Member of the Black Hand.

New York, March 7.—Repulsing a daylight attempt of the Black Hand to rob his bank today at the point of a pistol, Pasquale Patti, who conducts a large banking and exchange business in the Italian quarter in Elizabeth street, in a pistol duel in which his son-in-law, Louis Carliar, joined, shot Francesco Pellatro, alias Giuseppe Saggio, who is dying tonight in a hospital with five bullet wounds in his body as a result of his attempt to hold up the bank. A wounded man, Michaelo Dogostino, whom the police believe is an accomplice of Pellatro, was arrested while running from the bank after the shooting.

Threatened for Years.

For fourteen years, Patti told the police, he was constantly receiving Black Hand letters, and only a month ago the front of his bank was blown out by a bomb and \$40,000 scattered in the street, which was saved by prompt work on the part of the banker.

The closing hour of the bank was near at hand today and the streets in the neighborhood were teeming with people returning from a half holiday's toil when Pellatro entered the bank.

Banker Was Too Quick.

Patti was talking with his family when Pellatro, drawing his revolver, declared his intention of killing the banker. Quickly seizing a revolver on the shelf, Patti opened fire on Pellatro, while on the other side of the bank door, who conducted the branch postoffice station, the institution, drew his revolver and also began firing. Pellatro fell to the ground with five bullet wounds in his body and Dogostino was caught running from the bank.

Pellatro told the coroner tonight that he went to the bank to kill Patti, but fired no shots. The police have been unable to find Pellatro's revolver. Patti is held by the police pending further investigation of the affair.

SUICIDE FOLLOWS SPREE

William Wardrop, Whose Wife and Children Reside at Logan, Kills Himself in Nevada.

(Special to The Herald.)

Ely, Nev., March 7.—William Wardrop, aged about 45 years, well known mining man and former foreman of the White Pine Gold Mining and Milling company, shot and killed himself at Currie Station, about thirty-five miles north of Ely, while suffering from a fit of temporary insanity, superinduced by excessive use of alcoholic stimulants.

Wardrop had been working for several weeks at the Vulcan mine. About two weeks ago he decided that he needed a holiday, and coming to Ely, started to drinking. His mind became somewhat unsettled, but friends had him about straightened out when he suddenly went insane and wandering off to Currie Station, where he attempted to batter down the door of the house of a friend. Violence was necessary before he could be subdued, as he wished to kill every one in sight, having the idea that he was about to be murdered.

A party of his friends at Green Station finally managed to control him and he was taken to Currie. The whole party were standing in a store, when he managed to secure a revolver, and, placing it to his head, killed himself, at the same time exclaiming that he did so to escape from the persons who would murder him.

Wardrop has a wife and several children residing at Logan, Utah.

KEEPS MUM AS AN OYSTER

Governor Johnson's Lightning Rod Up, but His Secretary Is Doing the Talking.

St. Paul, Minn., March 7.—Governor Johnson last night declined to make any statement of his attitude in regard to the action of the Minnesota Democratic state central committee.

He could not be located this morning either at his residence or at the capitol.

His private secretary, F. A. Day, who is chairman of the state committee, said to the Associated Press:

"The governor is not ready to make a statement yet. I doubt very much whether he will make any statement as to his position until after the state convention I presume there is considerable interest in the east as to what position he will take, in view of the action of the committee yesterday, and while that action practically placed him in the presidential field, I know he will not say anything now."

SHOWN EVERY ATTENTION.

Torpedo Boat Flotilla Entertained by Peruvian Authorities.

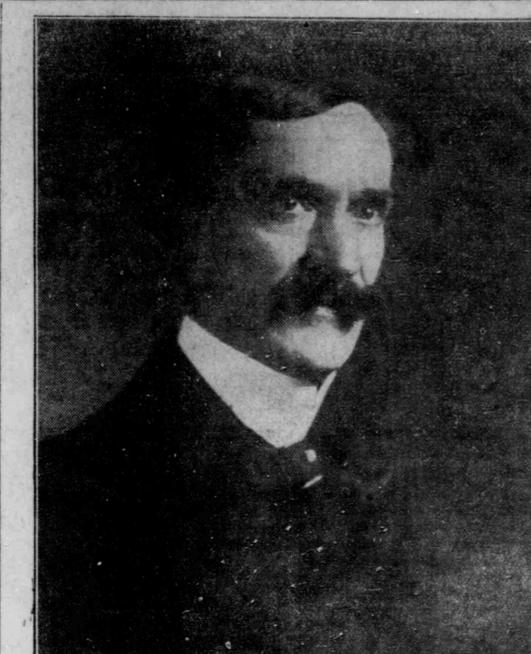

Lima, Peru, March 7.—The officers attached to the American torpedo boat destroyer flotilla, now in Callao harbor, are receiving every attention from the Peruvian authorities. In addition to being received yesterday by President Pardo, Foreign Minister Polo and Minister of War General Elspuru, luncheons, dinners and garden parties are being given every day by official and private citizens in their honor. The sailors of the flotilla are showing exemplary conduct on shore, seeing the sights. Yesterday the destroyer Hopkins maneuvered off San Lorenzo island and today the flotilla is taking coal. The flotilla will leave here for its next stopping place, Panama, at 7 o'clock Monday morning.

VICTIM OF TONG WAR.

Portland, Ore., March 7.—Lee Dai Hoy, a member of the Quong Sang Wai company, and a prominent Portland Chinese, was shot and fatally wounded tonight by "hatchet men" who had been imported from San Francisco for the purpose of killing Lee. The trouble is said to be due to internal dissensions in the Bow On Tong.

AGREED AS TO WAGES.

Wilmington, N. C., March 7.—The Atlantic Coast Line railroad and its employees have reached an agreement as to the wage scale, and there will be no appeal to Commissioners Knapp and Nell.

After a notable period of experiments McDonald has developed a cocoa, the quality of which is on a scale characteristic of his chocolates, famous the world over because of their superiority over other high grade bonbons.

The finest cocoa on the market today—better than any made in America; superior to the best produced in Europe.

A strong statement for a house to make—a fearless statement because it is the statement of a fact.

It is in the character of the beans used—the rare and exclusive, grown only in limited quantities—with the expensive beans; in the peculiar blending attained by his Holland experts; in the perfection of the imported machinery.

It is of double strength, richer in aroma, better in color and of heightened flavor. It lasts longer and therefore is more economical.

Of superlative excellence, the chocolate is soluble by pouring on hot water, and then—here is the important point to remember:

MAKE IT ACCORDING TO DIRECTIONS—MAKE IT THE M'DONALD WAY. DO NOT USE SKIM MILK; DO NOT USE MILK. USE CREAM OR CONDENSED MILK!

Then will be produced an exquisite beverage different in taste from the cocoa you have been accustomed to—for the other grades which are sold are cheap, medium and good (the latter manufactured by only three concerns in the world).

MARK IT: THIS EXTRA CHOICE M'DONALD COCOA WILL MAKE COCOA LOVERS!

This is attested by the unprecedented, overwhelming sale in Salt Lake, Denver, Seattle, Los Angeles, San Francisco, Minneapolis, Chicago, New York—wherever the McDonald cocoa has been introduced.

According to local reports, letters and telegrams, M'DONALD'S PURE COCOA IS THE SENSATION OF THE HOUR!

You cannot conceive of the delicacy of the drink unless prepared and served the McDonald way!

2,500 CANS USED IN SALT LAKE MONDAY—10,000 CANS THE FIRST WEEK.

The drug stores here and elsewhere are now serving McDonald's cocoa at the fountains. The fountain men find it a pleasure to offer an article which elicits a customer's praise.

Housewives are delighted with it! Members of the family now insist upon it once a day at least.

Women who have enjoyed it at the fountains place an order forthwith. Men who have partaken of it—carry home the news of its rareness (and a can of the cocoa).

Come in and find fault.

That's what we'd like to have you do.

Just come in and pick these spring Hart Schaffner & Marx clothes to pieces.

They'll stand it, for the fabric is all wool and the linings and trimmings are better than most custom tailors put into their clothes. Find fault if you can. Priced \$20 to \$50.

Richard Schaffner

172 MAIN STREET.
