Y. M. C. A. WINS STATE TITLE

L. D. S. U. and A. C. Are Tied for Second Place in Basketball Tournament.

The Y. M. C. A. of Salt Lake won the state championship in basketball last evening when they won the final game of the two days' tournament from the Agricultural college of Logan. The Aggies and L. D. S. U. team have yet to play a game to settle the title for second place.

On Friday afternoon the first of the eight teams entered on the tournament lined up and in all seven games were played to decide these honors. The Y. M. C. A. team was strong favorite in the race from the start and the form they showed all the way through proved they were equal to the expectations of the local fans.

Of the surprises of the tournament was the good showing made by the Aggies of Logan. This team finished last in the state school league without a contest won, but were game to compete for the open state championship. Last night in the finals they gave the Y. M. C. A. team the hardest fight it had in the tournament.

The Granite team showed good work by getting into the semi-finals, but here went down before the much stronger and larger Aggie team. The L. D. S. U. played an off game with the Y. M. C. A. yesterday afternoon.

BROCK MEETS MEMSIC.

Try Out Fighter Given Preference Over Sullivan.

Los Angeles, Cal., March 7.—Manager McCarey today matched Phil Brock of Cleveland and George Memsic to battle here April 2.

This is considered a good match. Brock came here from Atlanta and was given a tryout with Kid Dalton in the main preliminary to the Nelson-Britt fight.

Dalton is the local lightweight champion, and as tough as hickory. The bout was a hair-raiser from start to finish. Brock winning in a classy finish.

Frank Dwyer, the bookmaker, thought so well of Brock that he entered the ring after the fight and announced he would back Brock for any part of \$5,000 against any lightweight in the world barring Gans.

OFF FOR ATLANTA.

Roy Castleton's Team Goes South for Practice.

New York, March 7.—Several members of the New York American League baseball team left on the Pennsylvania early this morning for Atlanta, where the team is to go into training preliminary to the opening of the championship season.

Twenty-two players, including Secretary Mabon, will be under Manager Clark Griffith's direction in the southern city, the squad including eleven pitchers and six catchers. Among those who left here this morning was Hal Chase, who reported yesterday.

EXHIBITION BILLIARDS.

Former Champion Handles Cue at Alta Club.

Lloyd Jevne, the former billiard champion, who has lately become a resident of Salt Lake, gave an exhibition game of billiards at the Alta club last night. Rodney T. Badger, a well-known local expert, played the game with him. After playing a strong three-cushion game Jevne gave an exhibition of fancy shots for the benefit of a few selected friends. Jevne will shortly open a new billiard parlor in the rear of the New Windsor hotel.

OFFICIALS NAMED FOR STATE MEET

Intercollegiate Conference Hands Down Law to L. D. S. U.

The first active work toward the annual state track and field meet was done yesterday when representatives of the five schools who are members of the intercollegiate conference met in this city. Those present were Coach Badenoch of the R. Y. C., Coach Walker of the A. C., Coach Metzger of the B. Y. U., Coach Milne of the L. D. S. U., and Coach Maddock of the U. of U.

It appears that all was not serene at the meeting, judging from a resolution introduced and passed to the effect that the L. D. S. U. would have to get into the University class in track and field. Owing to the mixed conditions in this state in all kinds of athletics and the lack of a strong governing body, the different schools have been playing their games where they could and with whomsoever they could get a game.

"Until this year there has never been such an organization as a college baseball league. The L. D. S. U. has been strong on this game and having had a team for several years naturally went in the direction in which they could get games. This was in the High School class as the Salt Lake High and All Hallows have already had teams in the field in this branch of sport."

The same conditions existed in track and field. Practically the only competition for the Saints in the branch of sport in the past has been with the colleges so the L. D. S. U. drifted into the college class in track and field.

It now turns out that the high schools are kicking on the Saints in baseball, while the colleges say the Saints must get up in the class in baseball or get down in the high school class in track and field. To enforce this rule, a resolution was passed yesterday to this effect.

Coach Milne who was at the meeting said last evening that he did not know what course the L. D. S. U. would take, but that the matter would go before the athletic board at once.

The date of the track meet was definitely settled upon as May 16, and a set of officers were chosen to handle the meet. These officers are: Referee, John F. Tobin, clerk of course, Elwood Brown; scorer, Freeman Bassett; starter, D. A. Callahan; judges of finish, Dr. C. G. Plummer, A. Lund, Annis, Judges of finish, Hedges, Thatcher, Varnick; timers, Dr. Ellerbeck, R. A. Barney, G. Crawford.

CORNELL BEATS COLUMBIA

Captures Two-Mile Relay Race for Championship of United States.

Washington, March 7.—The feature of the tenth annual indoor meet and field games of Georgetown university, held here tonight at Convention hall, was a two-mile relay race for the championship of the United States. It was either Cornell or Columbia which would win the Cornell runner gradually pulled away from the Columbia man and won by a margin of 22 seconds.

F. C. Smithson of the New York Athletic club in the 50-yard hurdle race broke the American record of 16.25 seconds held by W. Stearns of Chicago. Smithson's time was 4.15 seconds.

Smithson was second in the 50-yard invitation race, which was won by J. A. Rector of the University of Virginia in 4.45 seconds.

JACK TWIN'S OFFER.

Anxious to Avenge the Beating Given Mike.

San Francisco, March 7.—Jack T. Sullivan issued his ultimatum today in the matter of a fight with young Ketchel.

"Ketchel has licked one of the Sullivan family and he should give me a chance to avenge the insult," said Jack. "I offered to do 153 four hours before for him, and he said he would box me at 155. I sent Mike over to the city today to tell him I would make it get up in the matter of a fight with Ketchel. Here's my last proposal: I will make 156 pounds four hours before fighting for Ketchel, and will allow him to name how the money is to be divided. If he refuses it will simply mean that he doesn't care for my name. He talks about fighting Papke or Hugo Kelly. Why, those fellows are to fight in a day or two at 158, and I'm willing to make two pounds less for Ketchel."

WHITNEY SIGNS TRAINER.

A. J. Joyner Will Look After His Stables.

New York, March 7.—Harry Payne Whitney has announced that he has engaged A. J. Joyner as trainer for his racing stable in place of the late John J. Rogers.

"Jack" Joyner ranks as one of the best trainers in the country. He handled a big stable for Sydney P. Hays up to last season, when the latter sold most of his horses. He brought out and developed such good horses in recent years as Water Boy, Water Cooler, Hamburg Belle, Cairnwood, Water Pearl and Charles Edward.

Leavenworth, Kan., March 7.—The army car, carrying a message from General Grant in New York City to Colonel R. L. Long, arrived here at 11:32 o'clock this morning. The exact running time from New York was 18 days 2 hours 32 minutes.

Practically the whole garrison of Fort Leavenworth turned out to meet the car. It was escorted to the fort by the Leavenworth Automobile club with fifty machines.

Prin Pinover, a New York newspaper man, who carried the message, delivered it to Colonel Longborough a few minutes after arrival.

SALT LAKE HIGH SCHOOL GIRLS' BASKETBALL TEAM

The above squad of girls represent the Salt Lake High school's first girl team. This season is the first that the girls have represented this school in any line of athletics. The completion of the new gymnasium has made it possible for them to have their share in athletic work. Early in the season each class organized a team. Hotly contested games were played for the class championship and at the close of the series the Juniors had come out victorious. Very soon after this the first team was picked from the four class teams.

The girls and their relative positions, noting from left to right, are as follows: Front Row—Gladys Barlow, guard; Gay Vance, center; Myrtle McEvoy, forward; Elenore Herring, manager. Back Row—Mercedes Gilson, running center; Ella Benson, forward; Nellie Brooks, guard.

Already two games have been played in which the High School team out victorious by a large margin. They defeated the Gordon Academy by a score of 27 to 3. Last Saturday they went to Ogden and defeated that school by a score of 22 to 5.

MAY STOP LONG DISTANCE RACE

New York Man Objects to Bronchos Running From Ogden to Denver.

Denver, March 7.—W. O. Stillman of Albany, N. Y., has appealed to the governor of Colorado, Wyoming and Utah by letter to enforce the laws and prevent the carrying out of the plan for an endurance race from Ogden, Utah, to Denver, a distance of over 600 miles.

"These exhibitions," Mr. Stillman says in his letter to Governor Henry A. Buchtel of Colorado, "are little better than the bull fights which we are prone to condemn in the Mexicans, and give color to the feeling which exists in many parts of the country that the myriads of livestock which are allowed to perish from starvation and exposure on the northwestern ranges are allowed to go to their fate with a brutal indifference to their agony and sufferings on the part of those who should be held responsible for them."

Governor Cutler was seen yesterday and said that he had received a letter from Albany, and that it had been referred to State Humane Officer Dr. Beattie, with instructions to stop the race if necessary.

NEW YORK-PARIS RACE.

Chicago, March 7.—The last of the automobiles in the New York-to-Paris race left Chicago for the west today. French car No. 2, starting at 9:35 this morning and the German car at 2:45 this afternoon. The teams had previously agreed to leave from Chicago together, but owing to delay in finishing repairs to the German car the French team got away in advance. The other cars were reported tonight as follows:

The American car at Chappelle, Neb.; the Italian car at 11:30; Drive Roberts said he hoped to reach Sidney, twenty-five miles west, before stopping for the night.

Omaha, March 7.—The Italian car reached Omaha at 8:15. It was escorted by an immense crowd, including almost every Italian in the city, which cheered it wildly as it made its way up Farnam street to a local garage. It will leave here tomorrow.

Leavenworth, Kan., March 7.—The army car, carrying a message from General Grant in New York City to Colonel R. L. Long, arrived here at 11:32 o'clock this morning. The exact running time from New York was 18 days 2 hours 32 minutes.

Papke's Town Will Back Him

Chicago, March 7.—"Any time, any place, any weight and for any amount of money."

Tom Jones, Papke's manager, hit the long distance telephone from La Salle, Ill., to answer in this way some of Stanley Ketchel's remarks made out on the Pacific coast.

"If Papke beats Hugo Kelly in Milwaukee next month, Ketchel will have to move out of his tracks to get a match with Billy," declared the Illinois thunderbolt's manager. "Any time he wants, any place he names and for any amount he chooses. That's the way we stand."

"He says he will be \$5,000 he can beat Papke. I'm glad he thinks so well of himself. It's a good sign—for us. Now,

we may not have that much money to bet on a single fight, but there are plenty of Billy's friends around this section of the country that are just aching for a chance to show their loyalty by backing him to this extent.

"Tell Mr. Ketchel," the La Salle manager yelled, "that if on St. Patrick's morning he reads that Papke has won, all he has to do is to wire you at the American office and the match will be closed instantly."

"The weight won't stand in the way for a minute. Anything he names will suit us. He can make it as low as 152 pounds and from that on up to 138, or even over that. But as it would be for the middleweight championship, he should stick inside of that figure."

STADIUM SEATS MANY THOUSANDS

London's Big Amphitheatre for Olympic Games Fast Nearing Completion.

The last girder for the steel structure of the great stadium at Shepherd's Bush, near London, in which the Olympian games will be contested this year, has been placed in position, and some idea can now be obtained of the magnitude of the British Olympic association's undertaking. This stadium has been designed to accommodate 70,000 spectators, and, besides, will contain rooms for the competitors, officials and general public, and a lot of floor space for exhibits of sporting implements. The center is a track arena, 700 feet in length by 300 feet in width, around which has been laid a running track having three laps to the mile, and outside this again a cycling track having two and three-quarter laps to the mile. Alongside the arena is a swimming pond, 100 meters in length, with a deep space in the middle for high diving and water polo.

The games to be contested in the stadium will be divided into two parts, the main Olympic games, opening July 13, and which will include athletics, cycling, fencing, gymnastics, archery, swimming and wrestling, and the winter games, commencing October 19, and including football, both Rugby and association, hockey and ice-crosse.

Upward of twenty countries have formed Olympic committees to promote the participation of their athletes in these games, and if the men respond as they have promised the meeting will be one of the greatest ever held. The American committee has been most active, and in reply to a circular as to what events they intend to compete in, the secretary has replied "all."

ANOTHER STAB AT A. A. U.

Swimmers to Organize Association of Their Own.

New York, March 7.—Pronounced interest in the swimming matches in Madison Square Garden during the past few days had given an impetus to the movement for organizing a body which would devote its entire efforts to building up this one branch of sports.

ENGLISH SYNDICATE IS NOW DISGUSTED

London, March 7.—After the news had been cabled for America that the forfeits for the proposed fight between Tommy Burns and Jack Johnson had been withdrawn, Kelly, the representative of the syndicate which put up the purse, received the following telegram from Sam Fitzpatrick, Johnson's manager in New York:

"Accept if you allow \$1,000 expenses. Agree to post \$2,500 extra." Kelly replied: "Syndicate disgusted with Johnson's action, calls everything off." Johnson knew terms.

Burns is training hard for his contest with Jim Roche, which will be placed at Dublin on St. Patrick's day. Burns takes a more serious view of this match than any of his previous ones in England, and has done a lot of road and gymnasium work during the past week, with occasional sparring. He will leave for Dublin on March 15.

THE CORRECT VERSION.

Maud Muller, on a summer's day, Said, "My, I'm feeling far from gay!" "I've read the latest novels through, And all the daily papers, too."

"I'm lonely and I'm rather blue; I truly don't know what to do!" Just then the same old judge rode by, And Miss Maud Muller chanced to spy.

"Ah, little Maudie, come with me 'Unto the baseball park," said he. "A double header's on today; Pray, get your lid and let's away!"

But Maudie sat there mystified, And to his honor softly sighed: "Inform me, ere from here I budge What is a double header, judge?"

A look of scorn lit up his eye, As to the dame he made reply: "I miss Muller, you will pardon me, I'm disappointed mightily."

"I marvel you can so dispense Contributory negligence. "Henceforth our ways must sever wide, So dense a girl I'll ne'er call 'bride'!"

"Upon my little prancing roan I'll hie me to the game alone!" Thus speaking, lo! he doffed his hat, And left the maiden where she sat. (C. P. McDonald in Chicago Tribune.)

EXPERT TALKS ON BILLIARDS

Edward McLaughlin Says Acoustics Make Difference in Style of Game.

Acoustics make a deal of difference in expert billiard playing, in the opinion of Edward McLaughlin, himself an expert and the best-known billiard referee in the country. McLaughlin has been referee in important matches for twenty years or more, and has made a study of the conditions which have prevailed.

"The matter of acoustics is one that has received little or no attention in the arrangements of most of the public halls—I don't mean the regular rooms—that is, acoustics as applied to the effects on billiards," he said. "I presume that most people who play billiards never have given it a thought. Yet it is a subject that ought to be considered carefully, for there would be better playing if the rooms were arranged to give the most favorable sound."

"Where does sound come in in a billiard match? I'll tell you. The sound made by the contact of billiard balls is music when the sound is what it should be, and the proper atmospheric and architectural conditions have the desired effect on the sensitive ivory balls. Would a music room be built without regard for these conditions? No, of course not. The same is just as much reason why a billiard room should not."

That Tinpanny Sound.

"If billiard balls have a tinpanny sound or sound like cobblestones when they roll and meet, something in the conditions of the hall is having a bad effect on them. And the sound of the balls has its effect on the player, as well as showing that the balls are alling. So the player suffers as to his game. With the more delicate calculation of the expert the more he will be affected by tools which are not perfect; but under similar circumstances any player would be affected, though he might not be as quick to discover the reason as the trained expert. The primary cause of the condition of the balls, and consequently of the poor playing of the expert, is to be found in the conditions of the ball itself, but the sound of the balls also, if it isn't the clear and musical note it should be, will be a second reason."

"There may be those who think this is a far-fetched theory, but it isn't in the least. When the sound is right the play will be twice as good. "I have never seen a billiard room in a private residence that was properly equipped with regard to sound. Architects apparently have not studied the subject. I have heard men in well homes say they couldn't play in well as they could in some of the big Broadway rooms, and the reason is their private rooms are not so well adapted to playing. I remember many years ago when Vignaux was over here practicing. He complained that he couldn't play at all. He moved to another room, but with identically the same cues, table, balls and cues—and the move made all the difference in the world."
