New Orleans, March 21.—The same horses which were defeated with ease by Meelick in last Saturday's derby, today ran Meelick off his feet and beat him by several lengths in the City Park derby, \$10,000 guaranteed. Chapultepec made the pace until the stretch with Meelick hanging on two lengths back and failing to respond to the purchasing of Jockey Dugan, who wanted to work Meelick forward. Angelus stayed just behind Meelick until the stretch, when he moved up with a dash, passing Chapultepec and taking the lead at the eighth pole and winning by four lengths, with Chapultepec about two lengths in front of Meelick. Meelick was a 2 to 1 favorite and was backed generously by a large crowd.

LOCAL AMATEUR RETURNS

Frank Schnell Back From Coast—Bike Riders Start Training Today.

Frank Schnell, one of the best local amateur bicycle riders of Salt Lake, returned home yesterday after spending the winter on the coast. Schnell has been spending the last few weeks at Los Angeles, and says that in his opinion the cycle track out there will be a go this summer. Eddie Pickering, a former Salt Lake rider, is at the head of the new track. Schnell will start training at once to get in shape for the coming season's racing here, and will return to Los Angeles in the fall if that track goes through.

SUTTON MAY PLAY SCHAEFER

Billiard Experts Framing Up Match for World's Championship.

New York, March 21.—Within six weeks a match for the world's championship at 18 1/2 ballkine is likely to be played in this city. Jacob Schaefer, who holds the title, has covered the forfeit of \$250 deposited by George Sutton in support of his challenge to the winner of the Schaefer-Hoppe match, which took place in Chicago on March 11. Schaefer has announced his intention of retiring from the field because of his somewhat poor health, but numerous protests, from his friends, who urged him not to quit the game in which he had been an important factor for more than thirty years, have had their effect, and the preliminary arrangements for the match have been made. Schaefer has defended the trophy successfully three times in the last year. Sutton has held the 18 1/2 emblem twice, securing it both times for forfeit.

NEW WRESTLING CLUB.

Will Hold Its First Tourney Next Saturday Night.

The Y. M. C. A. Wrestling club announces that it will hold its first annual amateur wrestling tournament in the association gymnasium next Saturday evening. The fact that the great sport of wrestling is to be revived in Salt Lake and under the control of a strongly organized club is a source of great satisfaction to lovers of the game. The tournament next Saturday will be conducted under straight amateur rules which provide that rolling falls shall be counted and also for six minute bouts, the aggressor to be declared the winner whether a fall is secured or not. This makes every bout an interesting one and does away with the old time long bouts where the contestants rested half the time.

DERKUM OFFERS SALE OR SALE

Los Angeles Motor Cycle Rider Passes Out Strong Line of Con.

BY W. D. RISHEL.
The following letter from Los Angeles was received by Iver Redman yesterday: "Tours of 11th inst. at hand, and I wish to state that as for prizes, we are not out for them, but as Derkum holds the world's records from one to ten miles, we are out for nothing but the money, as this alone is all we consider, as the time for prizes is past for him."
"We will come to your circuit for a week for \$1,000, if you think it would make a feature attraction, and as we would have only time enough to make the east, where we are booked for twenty weeks, it would be impossible for us to stay longer than June 5."
"Derkum would ride against any states he stands alone as the champion motorcycle rider of the world, and until his time has been equalled or beaten he will not race unless a purse of large size is hung up to pay him to compete."
"If you consider this offer, let us know at once, as our date book is fast nearing its end as to being finished up for the season up to Nov. 13, 1908."
Signed, "B. FAY, Manager."

Now wouldn't this jar you? Evidently Mr. Derkum thinks he is some pumpkins in the motorcycle riding. The above letter is written on a lithographed letter head, probably for the purpose of impressing rubes around the country in charge of county fairs. But when Manager Fay sent his junk wire to Salt Lake he stepped on a live wire in cycling. Derkum's letterhead has done a mile in 57 3/4 on a straightaway track. Down in Los Angeles they may think this is a wonderful performance, but here in Salt Lake those who have seen Gussie Lawson whirl around an eight lap saucer at a mile a minute clip don't think much of the Los Angeles man's performance. Perhaps Derkum never heard of a motorcycle rider who hails from Massachusetts by the name of Curtis. Well, this New Englander has negotiated a mile in 25 1/2 seconds. Curtis could go over two miles while Derkum was making his mile. The Los Angeles man has such a reputation for his life if he cares to tackle the dizzy whirl of the saucer track, there are a few dub motorcycle riders around Salt Lake who don't stand alone and who will give Derkum a race for his life if he cares to tackle the dizzy whirl of the saucer track, in fact, there is plenty of Salt Lake money which says Gussie Lawson will give Derkum a lap in every mile and race him for as big a side bet as he or Manager Fay care to put up. Evidently Manager Fay and Derkum take themselves seriously, but it will be well for them to remain close to their own fireside and steer clear of the bunch of idiots that make Salt Lake their home in the good old summer time.

Both Managers Redman and Chapman consider the Los Angeles letter as a joke. In talking to them yesterday, Redman said if Derkum came through Salt Lake on his way east to fill all these engagements, he might put on a handicap motor race and give Derkum the limit, in order that the Los Angeles man might see who is the speed is as the other dashed around him. Manager Chapman said he would attend the race, and if Derkum could negotiate the curves without going over the edge of the Salt Palace, he might consent to let Derkum try out the new Saltair track, if he would ride when no one was around to be killed.

DOG OWNERS TO HOLD MEETING

Utah Kennel Club Will Talk Over Coming Bench Show on Tuesday Night.

The executive committee of the Utah Kennel club has called a meeting of that organization for next Thursday night at the Western Arms & Sporting Goods store. The object of the meeting is to perfect plans for the second annual bench show, which is scheduled for April 2, 3 and 4, in this city. The meeting will also be a sort of a boosters' meeting for the show, and entries will be received. The executive committee issues a general invitation to everybody interested in dogs. Owners of English bulls, French poodles and all other breeds will be allowed to mix at this meeting, providing their dogs are left at home.

Secretary Jones, who is handling the special prize end of the show, announced yesterday that he had already secured two special silver cups as trophies. "Gold Harkness" will give a special for the best collie in the show, and Dr. Waddell, who keeps collies, immediately came back at Harkness with a similar cup for Airdales, which breed is Harkness' weakness in the dog line. Jones says he has several other trophies in view, and expects to be able to make the announcements within a day or so.

President Redman and Vice President Keefe are working hard to secure a suitable location for the show. They have three or four places in view, and expect to make their choice within the next few days.

The past couple of days has seen more interest in the entries, and Secretary Jones reports that they are fully up to expectations. The entries do not close until March 26, but Secretary Jones is anxious to have all entries in before that date. If possible, so the copy for the program list can be handed in to the printers immediately after the official closing of the entries.

SOCKER GAME A TIE.

Salt Lake and Jordan Swifts Score One Goal Each.

The Salt Lake and Jordan Swifts soccer football teams plays a tie game on the Ninth West grounds yesterday afternoon.

Salt Lake had the wind in their favor the first half, but were unable to score for a long time, the backs and goalkeeper of the Swifts sowing well, and at the same time the Swifts kicked the dizzy whirl of the saucer track, in fact, there is plenty of Salt Lake money which says Gussie Lawson will give Derkum a lap in every mile and race him for as big a side bet as he or Manager Fay care to put up. Evidently Manager Fay and Derkum take themselves seriously, but it will be well for them to remain close to their own fireside and steer clear of the bunch of idiots that make Salt Lake their home in the good old summer time.

The big Y. M. C. A.-affiliated Sunday School club indoor track meet which was held in the association gymnasium yesterday afternoon rivaled in warmth of competition and excitement of spectators any meet ever held in the city. The fight for first place was a hot one from start to finish, one team and then another leading for a short time, and finally, after the last event had been run off, it was found that the First Congregational club and the First Methodist club were tied for first place with 22 points each. E. J. MILNE Who joins the athletic department of the University of Utah.

The board of regents announced yesterday that E. J. Milne, at present director of athletics of the L. D. S. U., had been secured as an associate athletic director next year. It is the intention to give Milne charge of the coaching of the basket ball and baseball teams in the future and to have him help Maddock with the football and track work. Milne is considered one of the best men in the state in this line, and will probably help make many victories for the red and white in the future.

AEROPLANES DO GOOD WORK

Paris, March 21.—Following his record performance of yesterday in flying a mile and a half in his aeroplane, Henry Farman today made another spectacular flight at Issy, covering two and a half kilometers, a little less than two miles, in three minutes and twenty-one seconds. Later, in company with Leon Delagrange, he entered the latter's aeroplane, which moved over the ground at a rate of about thirty miles an hour, and then went into the air, making a short but highly successful flight.

This is the first time that an aeroplane carrying two persons has made a successful flight, and the aeronauts were cheered by thousands of spectators who had gathered.

These accomplishments of yesterday and today are hailed with delight, as they are considered as having demonstrated that the problem of aerial navigation can be definitely solved, especially the question of equilibrium. It is believed now that only an improved motor is needed to ensure the long flights of the aeroplane.

ITALIAN CAR REACHES OGDEN

Finds Good Roads in Places Where Americans Were Tied Up.

(Special to The Herald.)
Ogden, March 21.—It was exactly 4:30 o'clock this afternoon when the Italian car in the New York to Fargo race reached Ogden and made its way to the garage where it will be housed until tomorrow morning, when the journey west will be resumed. The trip from Evanston, Wyo., a distance of 76 miles, was covered in only one day and six hours from the American car more than a day and a night to cover the same distance on account of running out of gasoline and bad roads.

If the Italian car gets away in the morning as is planned, it will have chipped off one day and six hours from the American's lead at this point. Considering that the Italian car is loaded much heavier and claims smaller horsepower, the showing is remarkable.

Driver Sirtori was in the best of spirits when he arrived in Ogden. He was chock full of enthusiasm and did not take the lead of the American car seriously.

"The race is for 3,000 miles," he said, "and we have not yet covered 400. There is lots of time left to overtake the Americans, which I feel sure we will do. The car is in good shape, and we will be ready to start west in the morning. I hope the roads are in better shape than here on."

CREW IS WELL TREATED.

Sirtori, who speaks English fluently, said that his crew had been shown every courtesy along the route, and that they, as false the stories that the American people had thrown every barrier in the way of the Italian car. The crew had the worst time of the trip in getting out of a mudhole a few miles west of Granger. In jacking the car up to get it out of the mud, the crew broke loose, and they, which they carried in the repair kit, failed to hold.

L. Ruland, one of the party, walked back to Granger, where he found a team of eight head of horses, but when these reached a certain stream it had swollen to such a point that they were unable to ford it. After a long wait, a work train on the Union Pacific came along and the crew, seeing the predicament of the car, took them from the train and relieved the racer.

From Ogden west but three men will occupy the car. These will be the driver and two German mechanics. F. L. Ruland, who accompanied the car from New York, has been called back by telegraph, leaving a long trail of a work train. Driver Sirtori said that he hoped Ruland would be permitted to join the car again, as he had been of great assistance to him along the route.

From observation, the Italian would appear to be shorter than the American car, but the Italian car is shorter than the machine, as it was loaded, was \$500 pounds. This includes a complete repair kit, something that the American machine did not carry. The weight of the machinery of the auto is concerned, it is reported to be in first-class shape. The box of the car, however, is made of iron and steel pieces. Another stretch of road like that between Ogden and Cheyenne would likely force a stop to repair the box of the car, according to Mr. Ruland.
