PUSHING THINGS AT BINGHAM

Yampa Smelter Assuming Huge Proportions—Boston Con. Shipments.

Bingham, May 16.—Within ten days a new blast furnace, making three in all, will be installed at the Yampa smelter. Manager C. W. Saxman placed the order in the middle of the week, and it will be installed at once. The smelter is now treating more ore than ever before in the history of the plant. Eight hundred tons are being handled and, by the first of July, it is expected that 1,000 tons daily will be the record. All of the smelting will be done here then, as the converter which is now being installed will be ready to go into commission and the smelter will turn out the blister copper 99 per cent pure. With the acquisition of the blast the company will have running eight McDougall furnaces, three reverberatories, three blast furnaces and the converter, making the local smelter one of the most complete and best equipped in the country. According to the statement of Mr. Saxman, it is not unlikely a sampler will be installed within a short time. This news will be greatly welcomed by the small holders and shippers, who have to send their ore to the valley for smelting.

COPPER STOCKS IN BOSTON AND NEW YORK

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar market for New York transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald: The copper boom continued today and there is every indication of higher prices next week. The market has again hit the list and the volume of business is very heavy. Keep long on coppers until there is a big jump in the metal.

MINING STOCK EXCHANGE.

Iron Blossom Makes a Spurt That Sets the Talent Guessing. It was Iron Blossom's turn yesterday and the way the stock was gobbled up at 5 1/2 to 5 3/4 was a caution. Friday's high market for the stock having had its important development in the property, though what it is could not be learned. It has all been Sioux Consolidated for more than a week, and the market has its spurt and slumped back again. It now looks as though it would be all Iron Blossom for the next week, and as the reported strike in Sioux did not pan out, it may be that a mistake was made—that it was Iron Blossom that got the goods instead of the neighbor. Mountain Lake is also becoming a live issue and the price in that Jesse Knight stock is growing better all the time. Colorado is recovering, and Black Jack and Beck Tunnel, Crown Point and maybe several others will be in the running before the coming week is over. While the market is having its ups and downs a good average is being maintained and the future does not look bad at all. During the week a total of 678,481 shares of stock, with a selling value of \$276,616, 10, changed hands, yesterday's proportion of the totals being 64,729 shares and \$29,079.12. Following is the list of final quotations and record of sales made:
