

BETTER TIMES TO FOLLOW ELECTION

Newhouse Expects Conditions to Improve Regardless of Political Outcome.

BELIEVES IN THE PEOPLE

BRYAN'S CHANCE OF ELECTION BETTER THAN EVER BEFORE.

"While I am a Democrat, I do not wish to be quoted as a politician nor as a partisan," said Samuel Newhouse upon his appearance at his local offices yesterday morning.

"If William Jennings Bryan is elected, I believe he will give this country a surprise. He will do what is right with corporations and individuals alike, so long as they are law-abiding."

"On the general situation, nationally and locally, and speaking from the viewpoint of an onlooker, and not as a politician, for I am not one, I can say that I am a believer in the people and that it is my purpose to stand with them."

ROCK ISLAND IS TAKING NOTES

Party of Officials Sizing Up Conditions in Utah and Northwest.

Rumors that the Rock Island crowd intends to extend the system through the intermountain territory on to the Pacific coast and the northwest, which have been circulating for months past, were given an added significance by the visit of a party of Rock Island officials here yesterday and their open statements that they were interested in the development of Salt Lake and Utah.

The party of Rock Island officials included the following: George W. Martin, general western agent, with headquarters at Denver; Theodore Brent, assistant to Vice President Buddell in Chicago; D. L. Ewing of the Chicago office; R. G. Brown of Minneapolis, assistant general freight agent, and Colonel A. H. Stevens of the Seaboard Air Line, which is used by the Rock Island from the Atlantic coast to Birmingham, Ala.

The report that the Rock Island system, which now has its western terminus in Denver, is to be extended on to the northwestern Pacific coast was given color by the fact that the party left for Portland, Ore., yesterday at 1 o'clock, after concluding their inspection in this vicinity. They were accompanied by Portland by J. G. Doolittle, general agent of the road in this city.

Mr. Martin said in an interview: "Officers of the Rock Island people are just now taking the development and growth of Utah and Salt Lake City with more interest than any other part of the country. The company is intensely interested in the wonderful march of progress here."

The Rock Island road makes it a point to carefully develop upbuilding of every state and metropolitan city. I do not know what the ideas and future plans of the officials are, but I can say with knowledge that they are keeping in close touch with your state and city. You may draw your own conclusions from that."

U. S. COURT APPOINTMENTS

Charles Baldwin is Made Master in Chancery and John W. Christy Examiner.

Charles Baldwin and John W. Christy were appointed Wednesday afternoon by Judge John A. Marshall to fill the offices of master in chancery and standing examiner, respectively, in the federal court.

Mr. Martin was unable to confirm or deny the rumor that E. H. Harriman has designs on the Rock Island road, and neither could he state whether the Rock Island was seeking to gain control of the Moffat road. Someone higher in authority, he said, would have to pass on those rumors.

The Rock Island officials will return to Salt Lake from Portland by way of Butte, Utah, having the opportunity to look over a great part of the northwestern country.

LETTER SENT TO PANAS.

The letter to Panas wherein he was notified that he was marked, and that death was certain to overtake him within ten days, was received Tuesday night.

On the outside of the letter was written four vile threats in Greek, all signed by the initials "J. K." Those of the discharged man. The letter was also signed by the same initials. The letter was mailed on the 18th and misdirected to Clear Creek.

BIG MORTGAGE EXHIBITED

Western Pacific Prepares to File Instrument Recording \$25,000,000 of Bonded Indebtedness.

The big second mortgage of the Western Pacific in favor of the Central Trust company of New York, for \$25,000,000, had a "look-in" in the county recorder's office yesterday, when representatives of the company brought the mortgage to the recorder's office for the purpose of ascertaining the amount of the fee. The filing fee in this county for the mortgage is \$12. The copy was taken away again by the railroad people. It will be filed today, no doubt.

THE SALT LAKE HERALD GREEKS' BLACK HAND PUTS PRICE ON LIVES OF TWO COUNTRYMEN

Utah Fuel Co. Interpreter and Another Greek Marked for Death by Dangerous Band in Coal Camp at Winter Quarters—Will Appeal to United States Authorities.

An organization, which in its methods and practices is similar to the Black Hand society, that most sinister and feared of all secret organizations, has invaded Utah.

It has sealed the doom of two men, Thomas Panas and Angelo Rochoboulos, both Greeks, and marked them for murder. Rewards of \$325 and \$500, respectively, have been hung over their heads and offered to the men who slay them.

Driven to desperation by fancied grievances, a band of Greek miners, who compose the "Black Hand" in the coal camp of the Utah Fuel company at Winter Quarters, one and one-half miles above Scofield, have sworn to end the lives of the two marked men by violent means. They have given the two men notice that they have only ten days to live.

As several of the band are reputed to be "bad men," criminals who are said to be fugitives from justice in their native land, it is feared that they will carry their murderous threats into execution. The two men who have been doomed, knowing the desperate characters of the members of the band, are in daily fear for their lives and have appealed for protection.

In startling confirmation of the fact that the "Black Hand" means business when it sends out its death threats, it will be recalled that the last man who was marked to die within ten days, a Greek interpreter, was foully slain last spring on the last day of the lease of life that they gave him. His alleged murderer will be placed on trial during the present sitting of the court at Price.

AN AMAZING SITUATION.

The facts in regard to the threatened murder of Panas and Rochoboulos are these: Thomas Panas, an intelligent, well educated and law-abiding Greek, who was recently naturalized as an American citizen, has been employed by the Utah Fuel company for some time past as interpreter between the Greek miners and the American "bosses" in the company's coal camp at Winter Quarters.

Only a few days ago a Greek known as James Kurren was discharged by the mine manager there for carelessness in his work. He was charged with neglecting to timber his "room" in the proper manner, thereby endangering the lives of other miners and mine officials. He left his employment in a fit of rage, threatening all kinds of vengeance on someone in the future.

Panas went down to Helper on Salt Lake then, and secured it in his mail in the Helper postoffice. The letter, which was written in Greek, informed Panas that a band of men in Winter Quarters had found him to be guilty of bringing about Kurren's discharge, and had raised a fund of \$325 and offered it as a reward to the member of the society who would murder him within ten days.

The language of the letter was of the most scurrilous nature, and wound up by saying that he would "soon be watchman in a graveyard," a favorite Greek expression which foretells approaching death.

On the outside of the letter was written four vile threats in Greek, all signed by the initials "J. K." Those of the discharged man. The letter was also signed by the same initials. The letter was mailed on the 18th and misdirected to Clear Creek.

Angelo Rochoboulos, the other victim of the "Black Hand's" displeasure, is doomed simply because he has taken out papers as an American citizen. He is an intelligent, studious miner, who is anxious to improve his condition in life, and is also desirous of having the protection afforded to American citizens.

His inclination to desert the Greek miners and their lot has incurred their anger and, finding it impossible to change his determination by all kinds of arguments and controversies, it has been decided that the simplest way out of the matter was to dispose of him for once and for all.

BECOMES NERVOUS WRECK.

He has been notified that the same band has raised the sum of \$500 and placed it on his head. It is to be awarded to the man who slays him. He has been trailed night and day since he received the letter.

TEENING STRONG TOWARD BRYAN

W. S. McCormick Comments on Remarkable Growth of Political Sentiment.

RESUME OF CONDITIONS

NEW YORK REPUBLICANS SACRIFICE HUGHES FOR TAFT.

"The trend of sentiment all over the country in favor of Bryan is nothing short of remarkable. It is apparently far-reaching and extends into every section of the nation."

"The national election in November, I believe, will be the closest in the history of the United States."

"I think that Taft will barely win out, though Bryan's tremendous gains, which are increasing all the time, may surprise everybody."

"The Republicans will carry New York for Taft by sacrificing Hughes, Chandler and Hughes for the New York governorship by a big majority, judging from all indications."

Business steadily improving. Prosperity is bound to come, though the swiftness of its return hinges on the result of the election."

W. S. McCormick, head of the McCormick & Co. banking house, and one of Salt Lake's most prominent and substantial business men, made these statements to a Herald reporter yesterday. He has just returned from one month's trip in the east.

Mr. McCormick based his opinions on observation and study of the political and business conditions and interviews with leading business men all over the east and middle west. He spent several days in each of these cities—Denver, Omaha, Chicago, Boston and New York, and was thereby enabled to get in close touch with the political and business pulse of the country."

BRYAN'S SPLENDID RUN.

In response to a series of inquiries, Mr. McCormick spoke as follows: "It is obvious to every thinking man, no matter what his political belief or business is, that Mr. Bryan is making a splendid run for the presidency. He is going along at a marvelous rate of speed. He has won thousands of voters over to the Democratic principles, and his gains do not seem to be confined to any particular section, though he is doing best in the middle west."

"I am a Republican and, personally, am in favor of the election of Taft. I must admit, though, that Mr. Bryan has scared the Republican leaders. If he keeps on in such a way, the election will be remarkably close. I expect to see Taft just win out, though."

"I feel quite certain that the Republicans will carry New York for Taft, though I think it will be done only by sacrificing Governor Hughes. I have no doubt but that Hughes will be beaten for re-election as governor of the Empire state by the Democratic opponent, Chandler. Everything there points that way, and leading New York business men, even though of Republican belief, think that Hughes is a loser."

HUGHES WILL BE DEFEATED.

"Hughes will be defeated because his reform measures have made him unpopular with the people. The banking interests of New York are opposed to him. He has made himself obnoxious to New York bankers by his reform measures and the passage of laws during his administration which are unfavorable to savings banks and trust companies."

"Tammany is putting up a great fight to down Hughes, and the organization, which is extremely powerful and now working smoothly, will undoubtedly land in favor of Hughes. I think that Governor Chandler could elect a Democratic president. It could control a Democratic governor and it could not control a Democratic president."

"I look for greatly reduced Republican majorities in Utah and Idaho. I do not believe that Bryan has a slow to carry either state, in spite of the fact that his campaign managers claim both for him. I think that he has won over thousands in both states, but not enough to pull down the big Roosevelt."

"Business conditions all over the land are pretty well mixed and it is most difficult to draw a line on the situation. There is evidence everywhere that business is improving steadily, though slowly. It would improve much more quickly if it were not for the fact that there is a presidential election in the air."

BETTER CONDITIONS IN WEST.

"I found that railroad earnings are improving and there are but few idle cars now. Manufacturing is also improving. Matters are not in as healthy condition in the east as in the west and I think that the improvement in all lines is better in the west and it could not control a Democratic president."

"The farmers of the west were never in so prosperous a condition. They have splendid crops this year and are obtaining better prices than ever before for their products. The crops are beginning to move and that helps business as it puts lots of money into circulation."

"With reference to the financial situation, I found that the banks in the east are full of money. However, the banks find it hard to keep their deposits employed at a remunerative rate of interest. The general character of business accounts for that. In Chicago, the banks are buying up bonds with their money, as they cannot find other better fields for investment just now."

"Everybody in the east and middle west seems to be holding off until after the election is over. That applies to financial men and all lines of business. The bankers seem to think that Taft's election will hasten prosperity and that Bryan's election will continue the present depression. As they would all hold off to see what he would do when he is in power, the west."

"Bryan's election, the banking interests think, would not stop the wheels of commerce, but would retard them. They fear most the fact that he would, if elected, have the appointment of three members of the Federal Reserve board."

AN OPEN LETTER

To the Editor of The Herald, and I want the people of Salt Lake to know that I write the following voluntarily.—Harry L. Goodie.

I write these few lines out of gratitude for what Mi-o-na has done for me for dyspepsia and indigestion. I have suffered for the past five years and have tried different doctors, but have had no relief until I bought a 50-cent box of Mi-o-na from our drug store (R. W. Knowlton's) here a short time ago.

"The first box did me so much good that I immediately purchased another one, and I now feel better than I have at any time in the past five years. Am able to eat anything and everything, and get a good night's sleep afterward."

"Was so bad at one time that all I was able to eat for over a month was a raw egg in a half glass of milk, two or three times a day."

"I would like to advise any one suffering as I was from dyspepsia to give this remedy a fair trial. I remain, gratefully yours, Harry L. Goodie, No. 9-1-2 River street, Astoria, Ore. Mi-o-na is the only logical dyspepsia remedy on the market today. It is not a digester. It does not contain a particle of poison. It cures by building up the muscular walls of the stomach, and making the stomach so strong and perfect that it is able without artificial help to digest an ordinary meal with ease and without discomfort."

The experience of Mr. Goodie is a common one, and it is safe to say that Mi-o-na tablets have cured more acute and chronic diseases of the stomach than any other medicine. For sale by F. C. Schramm, druggist, corner First South and Main streets, "where the cars stop."
