

# UTAH CAPTURES BIG EXPOSITION AGAIN

## Salt Lake, Ogden, Provo, and Logan Day at the A.-Y.-P. Fair.

### GOVERNOR SPRY HOLDS RECEPTION

#### High School Cadets Carry Everything Before Them at the Fair, Are Well and Happy and Having Splendid Time.

SEATTLE, Aug. 26.—Utah people who didn't bump expectedly or unexpectedly into old friends today were decidedly out of luck, for every building on the Exposition grounds contained representatives of Utah. There must have been not less than 1,500 of them all told, and they were "busy all the time" seeing things. Dwellers in other states knew that Utah was on the map also, on the map in large, bright letters. It was Salt Lake, Ogden, Logan and Provo day at the big show. Each of the cities sent some, but Salt Lake in particular was strong.

The first distinctly Utah event was the reception given by Governor Spry in the Washington building. The governor was assisted in receiving by President and Mrs. Schauberg and Director General and Mrs. Nadeau of the Exposition company, Colonel Booth, Colonel and Mrs. Wright, Colonel Kessler, Mrs. McCarthy, Mr. and Mrs. Thomas Hull, Mrs. Amy Houze, Mrs. P. E. Maddison and W. H. Rowe, director of exhibits for Utah.

Mr. Rowe introduced the Utah people to President Schauberg and the president introduced them to other members of the receiving party. During the reception hour the high school cadets' band gave an altogether delightful program, which was heard and applauded by not less than 3,000 persons.

Given Copper Medallions. Immediately after the reception the cadets were drawn up on the platform in front of the Washington building and Governor Spry presented each officer and man with a copper medallion as a souvenir of their visit to the fair. In a little talk prior to the presentation the governor said that the copper from which the medals were made was presented by Colonel Jackling.

Governor Spry paid a high tribute to Colonel Jackling, speaking of him as a man who had won his way from a humble beginning to one of the highest places in the mining and business world. The career of Colonel Jackling, the governor concluded, "should be an incentive to endeavor on the part of every one of you. His career is what is possible for the American boy who possesses the characteristics of industry, patience, perseverance and intelligence. He owes a great deal to him not only for the medallion with which I am about to present you, but also for the fact that his generosity has made this trip possible for you."

After the medallion presentation the cadets marched in a parade west of the music pavilion and gave a dress parade. The ceremony was witnessed by more than 4,000 persons, who lined up around the parade ground and who applauded the brilliant exhibition.

And It Rained Again. The attendance was all the more remarkable because, of course, it rained. The sun shone all morning and, in fact, almost up to the hour when the dress parade was set. But the boys had hardly begun their formation before the down-pour began, and it lasted until after they started to march back to Camp Jackling.

Nor was the parade given without a trace of preliminary excitement. Captain Webb ordered some benches moved in order to make room for one company. An officious guard attempted to interfere. He told the captain that the benches must not be moved, but Captain Webb paid no more attention to him than he had not spoken. He told the boys to go right ahead with their work. The guard found himself in a disagreeable situation, but he was not to be deterred. The benches were moved and the parade went on.

Late this afternoon Governor Spry, accompanied by his staff, visited Camp Jackling and praised it in the highest terms. The cadets were an admirable one, thanks to Captain Webb and Dr. G. B. Ploutz, who have seen to it that nothing could make the boys comfortable was omitted.

Y. M. C. A. Tent. The hospital tent is still vacant, but the Y. M. C. A. tent, with Elmer Brown in charge, has been a busy place. Mr. Brown has handled 2,000 letters for the boys, and will handle twice as many more before the encampment comes to an end. No department has proven more valuable. It was definitely decided today to break camp next Tuesday night, August 31. The special train will leave the grounds at midnight. The cadets will remain in Portland from 8 o'clock Wednesday morning.

### FOOD EXPERTS WANT NEW LAWS

#### Denver Convention Adopts Resolutions After Endorsing Remsen Board.

Denver, Aug. 26.—President Roosevelt's famous Remsen "referee" board of consulting scientific experts was endorsed by the convention of the Association of State and National Food and Dairy Departments today. After a fight in which "the practice of concealing the use of adulterated and diseased meat, and the association approved of the use of and mutilated, are decapitated, and their resolution should be more conservative and thus allow further study of the subject."

Secretary of Agriculture James Wilson was an attentive spectator, but was not a delegate. Volving the sentiment of other opposing states, Dr. S. J. Crumline of Topeka, Kan., said the time had not come when the people should accept as final the argument that benzene of soda is a harmless preservative. He believed the resolution should be more conservative and thus allow further study of the subject. A committee which had been appointed to "investigate" the Remsen board previously had reported adversely to the board's findings, declaring that benzene promoted "the practice of concealing the use of adulterated and diseased meat, and the association approved of the use of and mutilated, are decapitated, and their resolution should be more conservative and thus allow further study of the subject."

### ROBBERY OF DE SAGANS REPORTED AT PARIS

Paris, Aug. 26.—A local newspaper publishes a statement that Princess Helie De Sagan was robbed of \$5,000 during her recent stay at Rheims, and her husband, the prince, at the same time was relieved of \$10,000. The robbers have not been apprehended.

### MONTANA EDITORS MEET.

Helena, Mont., Aug. 26.—The Montana State Press association will meet in annual convention at the Hotel Montana tomorrow for a two days' session, and it promises to be largely attended. Papers have been prepared for delivery by publishers, editors, educators and professional men, looking toward the advancement of the business in general. Officers will be elected Saturday.

### DISPUTE OVER PRECEDENCE BANISHES HONORED GUEST

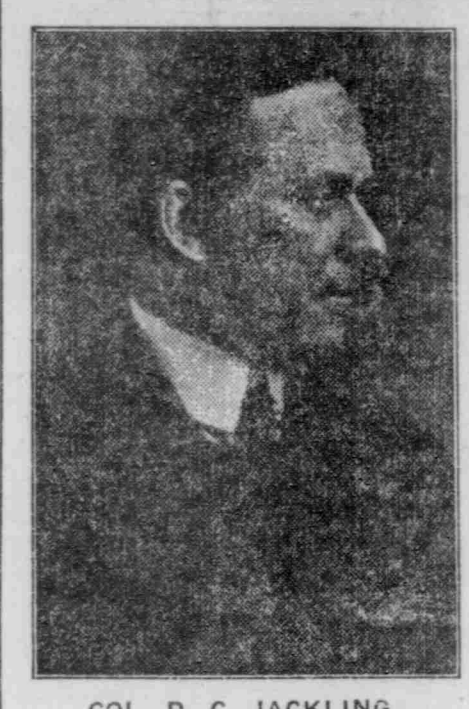

#### Toledo Festivities Marred by Refusal of Mexican Ambassador to Waive His Rights.

TOLEDO, O., Aug. 26.—Marquis de Villalobar, minister from Spain, was the guest of honor at a banquet tonight as the culmination of his visit to Toledo to attend a carnival. The attendance of Don Francisco Leon de la Barra, ambassador from Mexico, who had accepted an invitation, was prevented by an unfortunate misunderstanding as to precedence at table.

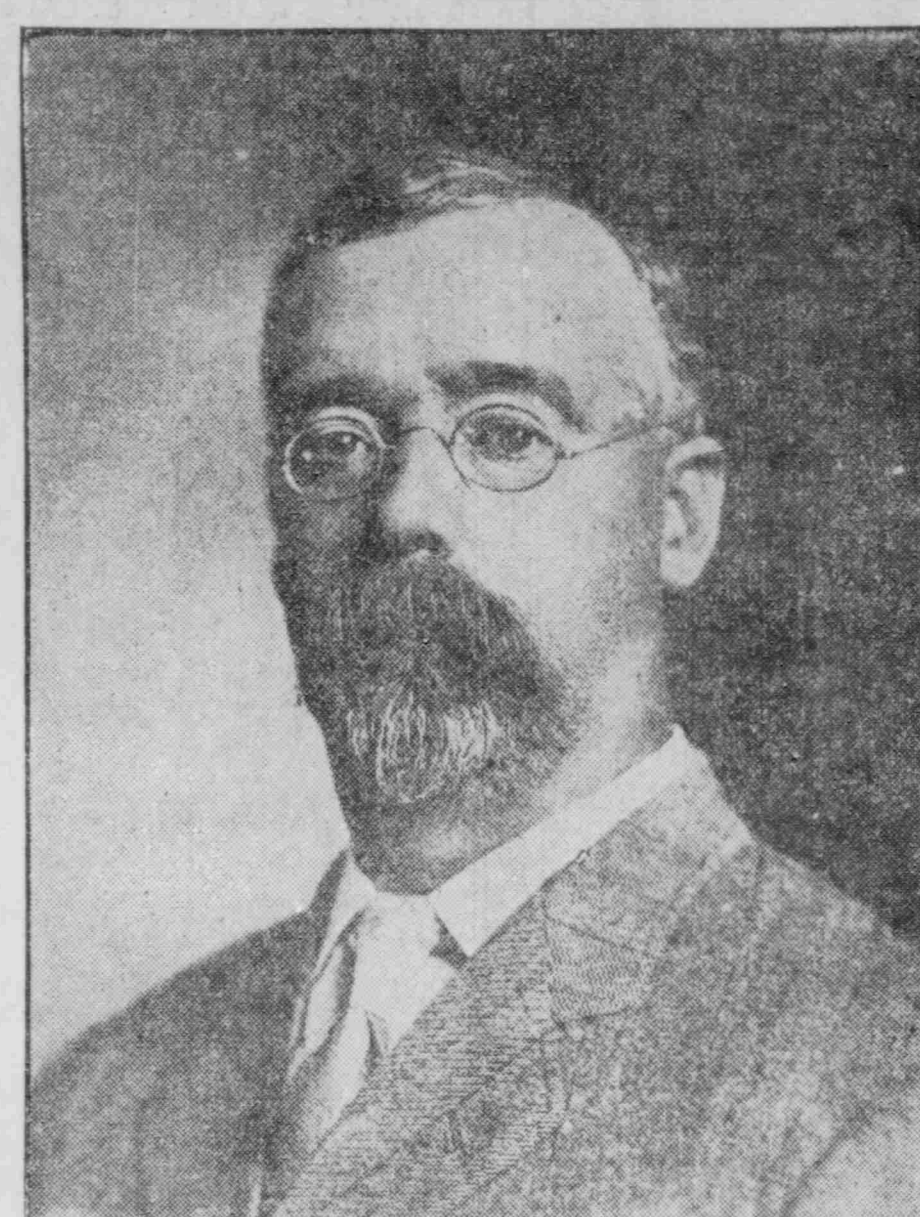

After he had agreed to come, the Spanish minister received commission as the direct representative of King Alfonso, and as such took the ground that he was entitled to precedence. Señor de la Barra, because of his superior diplomatic rank, declined to concede the point and cancelled his engagement.

Washington, Aug. 26.—Señor de la Barra, ambassador from Mexico, was reluctant

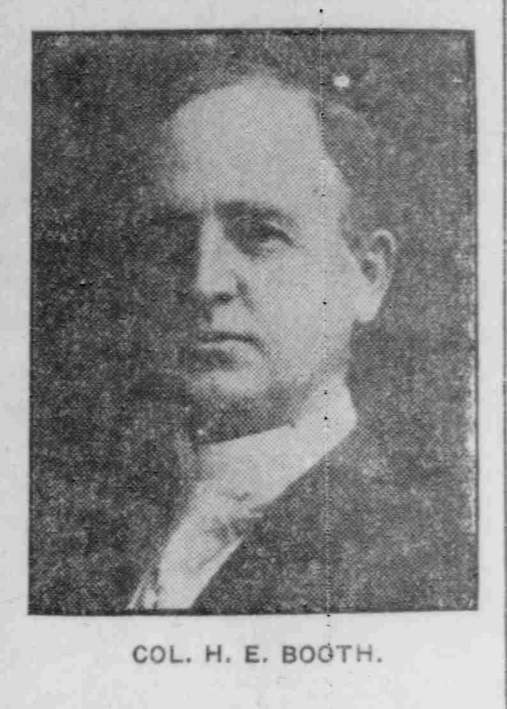

### GOV. SPRY AND THE MEMBERS OF HIS STAFF IN THE RECEIVING LINE AT UTAH RECEPTION YESTERDAY

COL. D. C. JACKLING.

GOVERNOR WILLIAM SPRY.

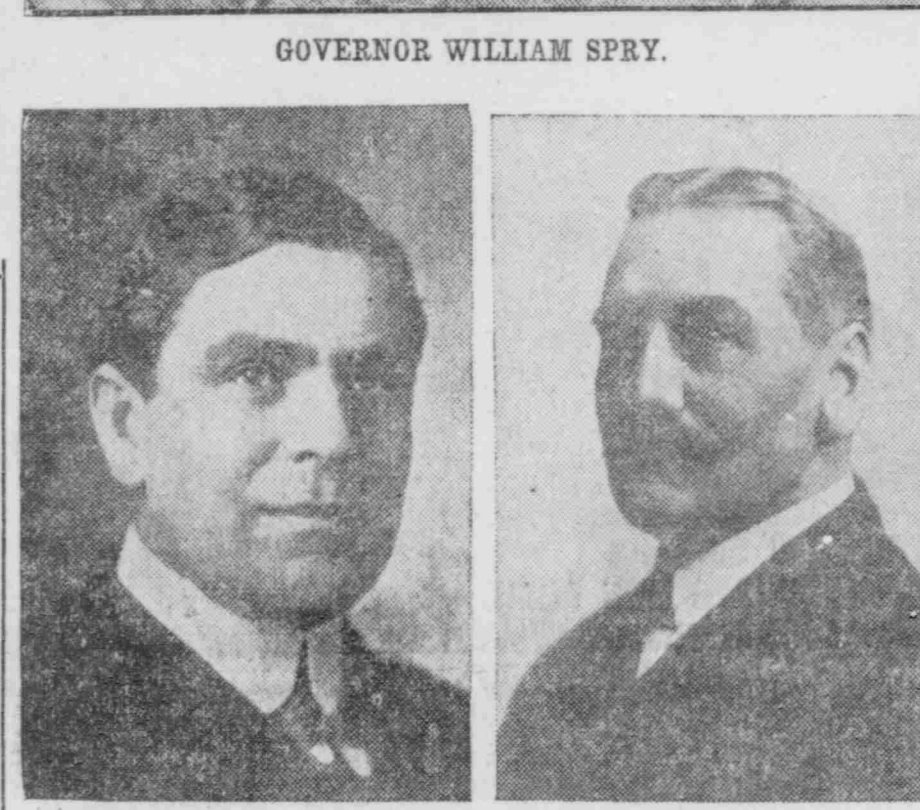

COL. H. E. BOOTH.

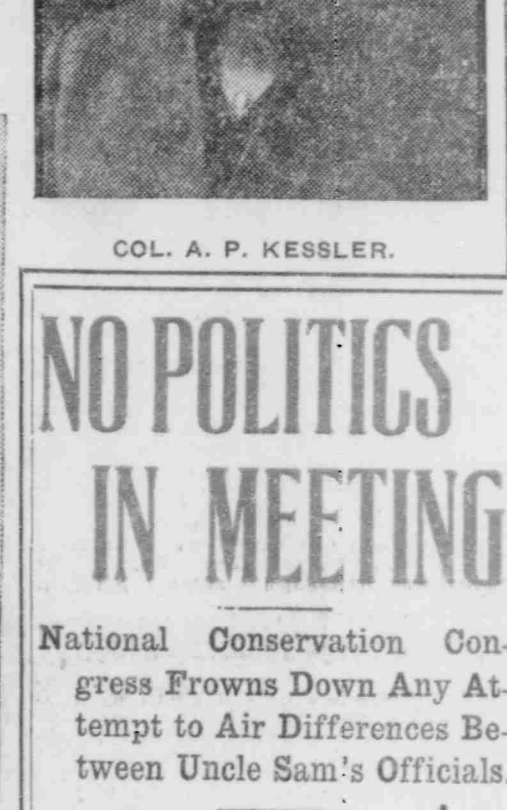

COL. A. P. KESSLER.

COL. H. M. H. LUND.

COL. RODNEY T. BADGER.

COL. E. S. WRIGHT.

### TAFT TALKS TO ALDRICH

John Hays Hammond Leaves for Arizona Trip and Will Join the President's Party Here in September.

BEVERLY, Mass., Aug. 26.—President Taft had two and a half hours' talk this morning with Senator Nelson W. Aldrich, chairman of the monetary commission, and Secretary MacVeagh. Senator Aldrich is about to undertake adjustment of the country's monetary system, and it was in this connection that he was called in conference by the president. Mr. Taft was anxious to ascertain whether or not the monetary commission would be able to place its conclusions before congress for several months. There has been talk of calling congress in extra session in the fall of 1910, to begin consideration of legislation looking to the enactment of such changes. Aldrich will sail for Europe Saturday to study the monetary system of the leading European countries.

### SPANIARDS DESTROY TOWNS

New Artillery Said to Have Wrought Havoc Among the Moors.

Lisbon, Aug. 26.—Special dispatches received here from Melilla say the fighting is general on the Moroccan coast. The new Spanish artillery has wrought terrible havoc among the Moors, who have lost 1,000 in the last three days. A Spanish column has destroyed three villages near Restinga.

### WALKS INTO LAKE AND DROWNS HIMSELF

Seattle, Wash., Aug. 26.—Thomas C. L. Milliken, aged 23, went to the shore of Lake Washington today, undressed carefully, swam out 20 yards and deliberately drowned himself. His nearest relative is Miss Elizabeth Milliken of Hamilton, Mont. Milliken was a bookkeeper.

### PRESSMAN NOT INVOLVED IN COUNTERFEIT SCHEME

Louisville, Ky., Aug. 26.—Will Koenig, the pressman who struck off the counterfeit \$1,000,000 in Mexican pesos, captured in the possession of the Roberts brothers in the federal court today from the swindling scheme. Officers declared that Koenig was innocent of evil intent.

### FIRE DESTROYS A PLACERVILLE HOTEL

Forty Guests of the Hostelry Have a Narrow Escape from Death.

Boise, Ida., Aug. 26.—The Ellis hotel at Placerville, in the Boise basin, was totally destroyed by fire early this morning. Forty guests were asleep in the hotel and they barely had time to escape in their night clothes. The entire contents of the building were burned.

### TESTIMONY ON PEONAGE CHARGE

Witness Alleges Effort Was Made to Force Him to Work at Car Plant.

Pittsburg, Aug. 26.—The first testimony offered in the government investigation into the charges of peonage against the officials of the Pressed Steel Car company, in Schoenerville, where 3,500 employees are on strike, in which it is alleged force was used to compel imported laborers to work, developed late today.

Alexander Friedman, a Hungarian of New York, said he was brought here fifteen days ago, with one hundred other men, from New York, under false promises. He said the workmen were given to understand there was no strike at the works of the Pressed Steel Car company. Friedman said he had been at work in the plant a few days when he was asked if he did not want to make some overtime money, and when he replied in the affirmative, he was taken to the kitchen of the commissary of the car plant and told to work there. Friedman said he refused. After so doing he said he was roughly handled by the workmen guards, who took him to the box car jail. Constabulary officers refused to lock him up, he testified.

### FRENCH BARK ABANDONED

Port of Crew Reaches Port, Having Put Off in Open Boat and Arrived at Bunbury.

San Francisco, Aug. 26.—A cable dispatch from London received by the Merchants' exchange reports that the French bark Gael, bound from London to Oregon ports, has been abandoned at sea and that part of the crew has arrived at Bunbury, West Australia.

### MAXWELL IS FREED.

San Francisco, Aug. 26.—William Maxwell, a contractor, who shot and killed Ed Pincus, a saloonkeeper, on the street, was discharged from custody today, on the ground that there was sufficient evidence to justify a trial. At the preliminary hearing witnesses testified that Pincus had threatened to kill Maxwell.

### STARTS SEARCH FOR RADIUM ORE

Denver Millionaire Donates \$5,000 to School of Mines for Purpose.

Denver, Aug. 26.—The discovery of radium ore in the United States is the object of a movement started today by Thomas F. Walsh, millionaire mine owner. Through the Vinson Walsh research department of the Colorado State School of Mines at Golden, which is supported by Mr. Walsh, tests will be made of all samples of pitch blende free of cost and the results will be regarded as confidential. To meet the preliminary cost of the undertaking, Mr. Walsh today sent to President Victor C. Alderson of the school of mines a check for \$5,000. In his communication to Dr. Alderson, he makes the following appeal to the prospectors of Colorado and the United States:

"To prospectors and mine owners of Colorado: Radium has never been produced in the United States. It comes from pitch blende and is of most priceless value. Austria has a monopoly on this ore. Why should we not produce it in Colorado? The richest prize in the mining world is a rim of pitch blende ore. This rare ore is apt to be found in many mining sections of that state. In finding it you will be enriching yourself, placing your state in the front rank and helping to open a new industry in mining."

### WALKS INTO LAKE AND DROWNS HIMSELF

Seattle, Wash., Aug. 26.—Thomas C. L. Milliken, aged 23, went to the shore of Lake Washington today, undressed carefully, swam out 20 yards and deliberately drowned himself. His nearest relative is Miss Elizabeth Milliken of Hamilton, Mont. Milliken was a bookkeeper.

### PRESSMAN NOT INVOLVED IN COUNTERFEIT SCHEME

Louisville, Ky., Aug. 26.—Will Koenig, the pressman who struck off the counterfeit \$1,000,000 in Mexican pesos, captured in the possession of the Roberts brothers in the federal court today from the swindling scheme. Officers declared that Koenig was innocent of evil intent.

### FIRE DESTROYS A PLACERVILLE HOTEL

Forty Guests of the Hostelry Have a Narrow Escape from Death.

Boise, Ida., Aug. 26.—The Ellis hotel at Placerville, in the Boise basin, was totally destroyed by fire early this morning. Forty guests were asleep in the hotel and they barely had time to escape in their night clothes. The entire contents of the building were burned.

Spanish Ship Lost.

### NO POLITICS IN MEETING

National Conservation Congress Frowns Down Any Attempt to Air Differences Between Uncle Sam's Officials.

SEATTLE, Aug. 26.—The National Conservation congress, which it had been predicted would witness a personal controversy between the chief forester of the United States and the secretary of the interior, opened pleasantly in the Alaska-Yukon-Pacific exposition auditorium this morning, with Gifford Pinchot on the platform applauding a peace declaration and Secretary Ballinger in the Kittitas hills, 125 miles away, studying an irrigation project.

The fact that charges affecting the administration of public lands are being personally investigated by President Taft, inclines the radicals in the congress to adopt a pacific attitude.

When E. H. Libby of Clarkstown, Wash., president of the Washington Conservation congress, called the congress to order he pointed out that the congress is held for the sole purpose of benefitting all the people of the United States and not for the purpose of exploiting any policies of any set of Washington officials.

### ASIATIC CHOLERA ATTACKS RUSSIA; MANY PERSONS DIE

Physicians Are Powerless and the English Declare Quarantine Against an Infected Holland Port.

ST. PETERSBURG, Aug. 26.—A violent outbreak of Asiatic cholera has occurred at Vitebsk, which is the capital of the government of that name. The outbreak exceeds in intensity that in St. Petersburg, there being seventy-six cases and six deaths today and 114 cases and forty-two deaths in the last week. The town has a population of about 68,000, and the physicians appear powerless.

Rotterdam, Aug. 26.—At today's sitting of the municipal council, the burgomaster announced that there had been four deaths from cholera and that out of nine suspected cases, now in the isolation sheds, three had been found to be infected. Forty-two apparently healthy persons, who have been in contact with those declared infected, are under observation. No fresh cases were reported today.

The general belief is that the disease was brought from St. Petersburg. The burgomaster has advised the people to boil their water and milk, and adds that the city's water supply is quite free from bacteria.

The Hague, Aug. 26.—The outbreak of cholera at Rotterdam has caused the most serious alarm here, as well as other places in Holland. The proposed visit of the queen dowager and the princesses of Benheim to Rotterdam has been canceled.

### WIZARD RESTS AND FAMILY GUARDS ROOM

Determine That Harriman Shall Not Sacrifice His Life to Buoy Up the Falling Stock Market in Wall Street.

### HIS TRUSTED LIEUTENANT GETS TO HIM, HOWEVER

Harriman's Doctor Declares He Needs Only Rest, but the Entire Family Has Been Summoned Home to Be With Him

### HARRIMAN STOCKS DROP

ARDEN, N. Y., Aug. 26.—Whatever the actual prognosis for Mr. Harriman's recovery, it is evident that his family has determined that he shall make no further sacrifice of vitality in the effort to reassure the public and buoy up the stock market. His isolation in his mountain-top home is absolute.

Except the selected few of his own immediate entourage, nobody sees him and no word from the outer world reaches his chambered solitude. It is impossible to reach Mr. Harriman, either directly or indirectly, unless by his own wish or that of his family.

Dr. Lyle, the family physician, today gave a brief account of his patient's progress. Mr. Harriman, he said, had been confined to the house for the day by recommendation, but his eager inquisitive mind had been busy with the construction work still in progress on his new home. "If a certain physician would permit," he said, "Mr. Harriman would be out 'on the job' today, losing the finishing touches on the inclined railway itself. Mr. Harriman passed a good night and ate a hearty breakfast at 9 o'clock this morning. His appetite is better and he relishes his food and plenty of it. His present condition is due to a general nervous breakdown and there is nothing he needs more than absolute rest."

### Another Conference.

Judge Robert S. Lovett, who has been mentioned as Mr. Harriman's successor, came to Arden this morning for another conference. Judge Lovett absolutely refused to discuss today the purpose of his frequent visits. It is thought, however, that with his first lieutenant so often at his side Mr. Harriman cannot be out of touch with the market or completely free from business cares.

Walter Averell Harriman, eldest son of E. H. Harriman, arrived here today from Chicago. He was taken to the Harriman incline railroad and from there to the estate near the town of Arden. Young Harriman declined to discuss his return from the west, where he had been chairman of a surveying gang on one of his father's estates.

"I am not a public man yet," he said, "I have come on from the west about the time I had intended to attend to come. That is all I can say."

New York, Aug. 26.—Unofficial information concerning Mr. Harriman's condition today was that he slept well last night, ate heartily today and continued to rest. It was also said, unofficially, that Mr. Harriman was getting better.

### MINING ENGINEER'S SON COMMITS SUICIDE

San Francisco, Aug. 26.—George E. Ames, Jr., son of a well-known mining engineer of the same name, committed suicide today by inhaling illuminating gas.
