

FISHER SANFORD HARRIS PASSED TO GREAT BEYOND

DEATH ENDS A BUSY LIFE

Demise of Popular Man Follows a Long Illness From Laryngitis and Tuberculosis of the Throat.

REALIZES END IS NEAR AND PREPARES HIS WILL

In Following His Ambition to Build Up the West, He Overtaxed His Voice While Making Speech and Hastens End

UTTERANCES WILL LIVE

Fisher Sanford Harris is dead. After a period of slight improvement taken as a hopeful sign, he suffered a severe relapse yesterday afternoon and died at 8:30 o'clock last night, conscious to the last breath. Those who stood about him say that he died smiling and peaceful.

Surrounded by lifelong friends and members of his family, and the whole city hanging tense on the latest news from his bedside, he smiled the recognition that a long-lost voice denied, and made it known that he was aware of the approach of death. Several minutes before the end he indicated his desire to be placed in a chair, where he died with no tremor nor any sign of pain or struggle.

Death was due to laryngitis complicated with tuberculosis of the throat.

Two years ago Mr. Harris strained his vocal chords in his famous speech at Denver before the Dry Farming congress. The speech brought the congress to Salt Lake, but Fisher Harris returned with his brilliant career as an orator forever shattered by the loss of his voice.

Learned specialists told him the strain was but temporary and that he would recover his speaking powers. A year ago such proved to be the case. He made a brief space of three months he again sought to assume his title as the greatest orator and public speaker of the west. Last spring, the disease coming on again with complications, forever blighted his voice and he grew steadily worse, the affliction causing general physical breakdown.

Early in October, as a last resort, he went with Mrs. Harris to New York to consult with Dr. Janeway, a famous throat specialist. Within one week he returned home with the verdict that he might live three months or he might die within ten days.

His condition being such, the public for fear the general concern would affect his spirit, medical aid being despaired of, Mrs. Harris saw to it that she and the little family took new hope. Cheerful from habit, Mr. Harris kept his loved ones cheerful, and although fully aware of his condition, hoped against hope himself.

Known End Was Near. Saturday he imparted to his family his knowledge that death was near and asked that Judge O. W. Powers be called. In long conference with his friends drew up his last will in full possession of all his mental faculties and bid Judge Powers goodbye, saying he would not expect to live more than several days longer.

At the time of the relapse yesterday afternoon, Gus S. Holmes, Joseph E. Caine, W. J. Halloran, A. J. Davis and other friends hurried to the Harris home at 224 Thirteenth East street and were with Mr. Harris when he died. Mrs. Harris, prostrated at first, bore up as well days of anxious watching, she happily slept asleep several hours after her husband's death and is resting easily today.

Fisher Sanford Harris was the organizer and secretary of the Salt Lake Commercial club, the medium through which he wielded probably greater influence for good for Salt Lake and Utah than any man in the history of the state. He was originator of the "See America First" idea, one that has received national recognition. He was president of the Dry Farming conference for one year and is known as one of the founders of that association. His speech before that body at Denver two years ago, growing out of the Boxer trouble in China, was one of the most eloquent, masterful orations ever delivered by an American. The last lines of this speech: "When nesting birds shall fill the cannon's mouth and bastioned forts are

MANY CHINESE BOYS ARRIVE TO ENTER VARIOUS SCHOOLS

Government of China Will Spend Ten Millions Educating Youths in American Colleges. San Francisco, Nov. 7.—Forty-seven Chinese youths arrived from the Orient yesterday on the steamer Chinato to enter the various colleges in this country for technical education at the expense of the Chinese government. They will be followed next year by 163 others, and the whole 200 will return home when their courses are completed, to give China the benefit of their American training.

FISHER SANFORD HARRIS.

Those working in dust may take tuberculosis. Investigation shows no base for stories told. Government officials place little credence in rumors of illness of Roosevelt.

THOSE WORKING IN DUST MAY TAKE TUBERCULOSIS

Bulletin Just Issued Shows That Disease Attacks Persons Who Inhale Much Dust. Washington, Nov. 7.—That approximately 25 per cent of the deaths of persons whose occupations expose them to dust are due to tuberculosis is disclosed in a bulletin prepared at the bureau of labor by Frederick L. Hoffman.

Through the statistics studied by Mr. Hoffman indicate that municipal and general organic dusts are less serious in their effect than metallic or mineral dust, the consequences to health and life, he says, are sufficiently serious to demand careful attention to the problem of dust prevention.

Among occupations exposed to municipal dust, those showing the highest mortality are drivers and teamsters, among whom 25.9 per cent of deaths were from tuberculosis. Among occupations exposed to general organic dust, buttermakers showed the highest mortality, 27.8 per cent of deaths in this occupation being from consumption.

In each of the two groups the highest consumption mortality was among persons from 25 to 34 years of age.

TO CONVENE IN CANADA

For the First Time in Many Years the Federation of Labor Crosses the Border. Toronto, Ont., Nov. 7.—For the first time in the twenty-nine years of its existence, the American Federation of Labor has crossed the border line of the United States, and beginning Monday will hold its annual convention in Canada.

With jail sentences hanging over the heads of President Gompers, Vice President John Mitchell and Secretary Frank Morrison for contempt of court in the Buck stave case, the question whether an appeal to the United States supreme court shall be made will probably be decided by the convention.

Mr. Gompers returned recently from a four months' trip abroad, to study labor conditions. His report is expected to be of material aid in determining the question of affiliation with the labor unions of foreign countries.

INDIAN VILLAGE RAIDED

Winnipeg, Man., Nov. 7.—Fifty armed cowboys raided an Indian village at Kispiton, at the head waters of the Sweeney river, at daylight this morning. Several shots were fired before Indians who have been threatening the whites were arrested.

BATTLESHIP TAKES LIFE

John Souden of Quincy Dies From Injuries Received on Board North Dakota. Boston, Nov. 7.—Throughout the 24 hours of her test at 12 knots speed, which was finished early today, the battleship of the Dreadnaught type, maintained an economical consumption of coal and oil. The consumption tests of the North Dakota thus far have been in keeping with the remarkable speed shown in her special trials.

Thus far the North Dakota is said to have exceeded the fine showing of her sister ship, the Delaware. But in doing so the North Dakota sacrificed one life—that of John Souden, 16 years old, of Quincy, who died at Portsmouth naval hospital last night as the result of injuries received when a boiler tube split open Friday.

After anchoring east of Boston Light this morning to clear fires and oil machinery the North Dakota again steamed over the sea on another 24-hour test at 19 knots.

LAST CHANCE TO MEET DOLLY

Having been captured and reward paid, Miss Dolly Dimples is preparing to leave Salt Lake. However, she is well aware of the fact that there are thousands who were on her trail during the twelve days that she was being pursued, that were unable to get to the Colonial theatre on Saturday night to see her.

Miss Dimples is always pleased to see those who were interested in the chase, and she will give them an opportunity today. From 2:30 to 4:30 o'clock this afternoon, Miss Dimples will be at the offices of the Utah Gas & Coke company, 61 South Main street.

Taft ENJOYS A REAL REST

President Attends Episcopal Church, Takes Luncheon With a Few Guests and Is Presented With Loving Cup. Augusta, Ga., Nov. 7.—President Taft enjoyed a real rest today and will start for Washington tomorrow afternoon, refreshed by two days' rest. This was the first Sunday since he has been "on the road" that President Taft was not called upon for an address of some sort.

The President arose late and attended morning services at the Church of the Good Shepherd (Episcopal). He lunched at the home of Lander Thomas with 25 residents of the city. During the luncheon Mr. Taft was presented with a loving cup as a remembrance of his golf days on the course of the Augusta Country club. The cup was inscribed "Lander Thomas '09" and the President's best record on the local links.

After luncheon the President had an automobile ride and returned to the home of Major Joseph B. Cumming, his host, for an afternoon tea arranged by Mrs. Cumming. The day ended with a dinner for twelve at the Cumming home.

Tomorrow the President will spend the day at the home of the Georgia-Carolina fair, leaving at 2:30 p. m. for Florence, S. C.

UNITED MINE WORKERS TO DEMAND MORE WAGES

President of Organization Says That Miners Will Take Stand for Increase. Pittsburgh, Pa., Nov. 7.—Thomas L. Lewis, president of the United Mine Workers of America, indicated in an interview here today that the miners will make a stand for higher wages in the spring. Mr. Lewis declared that work in the coal fields is improving and bound to continue to do so.

He also expressed confidence in his reelection to the presidency of the organization, explaining that two locals have nominated him for every one that named his opponent. William Green, president of the United Mine Workers, is expected to make new wage contracts next year, Mr. Lewis said.

MINERS READY FOR RUSH

Reported Strikes of Gold in the Iditarod Causes Many to Start for the Field. Seattle, Wash., Nov. 7.—According to S. H. Ewing, a prominent business man of the city, who arrived on the steamer Seneca today, a general exodus of miners is expected from the Seward peninsula to the new gold field on the Iditarod as soon as the weather sets in. Navigation on the rivers has already closed, and hundreds of men who are anxious to go to the new diggings are waiting for a heavy fall of snow, so that trails may be broken and the long journey can be made overland.

ILLINOIS VALLEY SWEEP BY ELECTRICAL STORM

Lightning Creates Hove in Peoria, and One Woman Is Shocked By Bolt. Peoria, Ill., Nov. 7.—The Illinois valley was swept tonight by the severest electrical storm on record at the local weather bureau. Lightning created havoc throughout Peoria, and for a time all telegraph and telephone communication was lost. Electric lights in many sections of the city are out. Several houses were struck and burned.

FRENCH LINE STEAMER DELAYED BY ACCIDENT

New York, Nov. 7.—La Savoie of the French line arrived from Havre today, 24 hours late, because of an accident to her starboard propeller while wallowing in a westerly swell last Tuesday evening. One of the starboard engines started to race. Either the propeller had dropped off, or the tail shaft had broken, and it was necessary to shut off steam and proceed under a single screw for the rest of the voyage.

MEN KILLED IN WRECK

Hornell, N. Y., Nov. 7.—Engineer Chauncey Green and Fireman Christopher Ayder were killed; P. O. Tracey, a brakeman, probably fatally hurt, and two other employees were slightly injured in a freight wreck on the Erie railroad near Belmont today.

HEINZE GETS BIG WELCOME

Thousands of Citizens Make the Welkin Ring When F. Augustus Heinze Returns to Butte After Long Absence.

ADDRESSES CROWD FROM "LIBERTY HALL" BALCONY

Copper King Predicts That Indictments Against Him Will Be Quashed; Says He Will Help City Keep Reputation.

A RECEPTION IS HELD

Butte, Mont., Nov. 7.—On his return to Butte tonight after two years' absence, F. Augustus Heinze was given an ovation, the equal of which has seldom been tendered a private citizen in this city. From the balcony of the Butte hotel, known in the days of the factional fights as "Liberty hall," and from which Heinze in years past has often addressed a vast assemblage, he spoke to a crowd of 4,000 people, being frequently interrupted with cheers and shouts of the miners who remained loyal through the adversities and vicissitudes of fortune of their former leader.

At the depot on the arrival of the train which brought Heinze from New York, a crowd of 1,500 people had gathered, and with the Boston & Montana band, assured him of a splendid welcome. The carriage in which he rode up town was drawn by a score or more of stalwart admirers, the horses being unhitched soon after the arrival of the train, and just before Heinze stepped into the carriage. The main thoroughfares of the city were brilliantly illuminated with the long strings of the Colorado mine, a Davis-Daily property of which Heinze is president, screeched a raucous blast, as the parade, headed by the band, moved uptown. In the absence of Mayor Nevin, County Attorney T. J. Walker welcomed him on behalf of the mayor.

Heinz Responds. Heinze, in responding to the address, referred to the indictments against him in New York, predicting that they would be quashed, or, as he expressed it, "for the obstacles placed in his path be swept aside." But brief mention of the litigation over some of the richest copper mines in Butte, which he was involved in, was made by Heinze, although he referred to his former achievements and his withdrawal from the political as well as operating field in Butte.

"I am coming back to Butte to help in the development of the great untapped wealth in copper and to do my part in keeping the city the greatest copper center in the world," he declared in conclusion.

Following his address, Heinze held a reception in the hotel during which a number of his former henchmen and old friends greeted him enthusiastically.

TURKISH MINISTRY TO URGE ENLARGED NAVY

The Adoption of the Program Would Mean the Expenditure of \$100,000,000. Washington, Nov. 7.—The Turkish ministry will urge upon the Ottoman parliament soon after it reconvenes Nov. 15 the adoption of a naval program, providing for the expenditure within the next seven years of \$100,000,000.

To succeed in this program, seven battleships of the North Dakota type would be constructed, together with a number of torpedo-boat destroyers and one hospital ship.

For the next fiscal year an appropriation of \$2,000,000 to begin the construction of two of the proposed warships will be asked. In order to carry out this program, it would probably be necessary to negotiate further loans in addition to the one closed this fall.

The decision of the ministry is said to be in keeping with the general attitude of the people. Contributions to a public fund for the construction of the battleships are said to be pouring in by the thousands.

TO DISCUSS NAVY BILL

Canadian Parliament Opens Next Thursday, and Important Questions Will Be Aired. Ottawa, Ont., Nov. 7.—The Canadian parliament opens next Thursday, and the session will probably continue for six months. The chief item of business on the government program will be the bill under which the new Canadian navy will be constituted.

There will be tariff discussion, though legislation in this direction is not looked for beyond the bill to confirm the Franco-Canadian treaty. The possibility of the maximum provisions of the Payne tariff being imposed upon Canadian goods if France is put on an equal footing with the United States, will cause serious talk. A scattering of members on both sides will press the government to retaliate.

KIDNAPERS CAUGHT

After Two Years' Chase Italians Are Arrested and Identified. New York, Nov. 7.—Two alleged kidnapers, Antonio Trerfero and Giovanni Carli, caught after a two years' chase in the west, were held for trial in a police court today in \$10,000 bail.

They were arrested in Los Angeles, who was kidnapped in 1907, identified the prisoners, and her mother, Mrs. Pietro Gardano, declared that she had paid \$800 when he was threatened to cut the girl up in small pieces and return her by mail, if a ransom were not paid. Eight days after the kidnaping the girl was picked up on the street near her home.

FOLLOWS COURSE OF FORMER SECRETARY

Richard A. Ballinger, Secretary of the Interior, Discusses His Action in Cancelling the Garfield Land Withdrawal.

DECLARES HIS ORDER WAS WHOLLY PROMOTIVE

Cabinet Officer Says That His Withdrawals Protected Fifty Per Cent More Power Sites Than Garfield's Action.

BLAMES CORRESPONDENTS

Washington, Nov. 7.—"My cancellation of the Garfield withdrawal of a million and a half acres and the substitution thereof of a withdrawal order withholding from settlement, location or entry of 300,000 acres was wholly promotive—not subversive—of the conservation policy. It was the next logical step in the prosecution of the policy of conserving the water power on the federal domain, and one which Secretary Garfield must have taken had he remained in office."

RECORDS BEING KEPT OF THE UNNATURALIZED

Participants in "Free Speech" Riots May Have Trouble Becoming Citizens of Country. Spokane, Wash., Nov. 7.—Names of the unnaturalized members of the Industrial Workers of the World participating in organized defiance of the city government in their so-called "free speech" fights in this and other cities will be made a matter of record on the files of the naturalization office at Washington, D. C., according to plans made today by federal authorities.

A record of near-revolutionary activity could be made the basis for the non-granting or revocation of citizenship papers, say the city authorities. Desk sergeants at the police station have been keeping a record of the names of the foreign-born members of the order, their native land, age, length of time in the country and citizenship papers. Comparison of the government records with the police data by the naturalization authorities would reveal the identity of non-citizens in the "free speech" agitation and their applications for citizenship papers.

JEALOUS MAN IS SHOT WHEN HE MAKES ATTACK

Peoria, Ill., Nov. 7.—Ineane with jealousy when he found his sweetheart, Della Sands, in a room with John Reising early this morning, John Hudson, an ex-city employe, pounced upon the latter and in the melee received two bullet wounds. He died this afternoon.

Reising was captured six hours after the shooting. He has made a complete confession of the crime to State Attorney Sebes. Reising's visit to the Sands home was not by prearrangement. He did not know the whereabouts of the latter until he found her in the room. Reising was armed with a revolver and fired twice. Reising fled and was found asleep in a certain hotel. The witnesses to the shooting maintained a stubborn silence, declaring they did not know the name of the assailant. All are held for the coroner's inquest.

The dead man two years ago was tried for killing Charles Ogden with a blow of the fist, but was acquitted. Hudson had been married two months and his wife was a witness to the tragedy.

WOMAN IMPLICATED

Self-Confessed Murderer Says Woman Was Behind Act. Topeka, Kan., Nov. 7.—Following a confession that he murdered Mrs. Mary Short, a Topeka woman, in the hope of gaining possession of her property, Fred Fanning today added another chapter to his confession, and Mrs. Minnie English, a woman with whom Fanning was planning to go into the restaurant business, was arrested as an accomplice.

Fanning's original confession was that he put poison in Mrs. Short's coffee. Today he declared that Mrs. English threatened to kill him if he did not kill Mrs. Short, that she told him how much poison to use and that he gave her \$1,400.00 of Mrs. Short's money.

RAILROAD MAN KILLED

Grand Junction, Colo., Nov. 7.—John L. Watt, whose home was in Langdon, N. D., and who was employed in the railroad yards here, was killed this morning when struck by a Denver & Rio Grande passenger train.

ANNOYED AT THE HEADLINES, MRS. STETSON WRITES STORY

Former First Reader in Christ Scientist Church Refutes Statements Made by Strickler. New York, Nov. 7.—Annoyance at a headline in a morning paper, which said: "Mrs. Stetson's followers defy the mother church," today prompted Mrs. Augusta E. Stetson, the former first reader of the First Church of Christ, Scientist, to write her own newspaper story and her own headlines. The latter read: "Mrs. Stetson's answer. Declares her loyalty to the mother church. Emphatically denies Mr. Strickler's interpretations of her teachings."

These captions appear on a four-page typewritten statement which Mrs. Stetson's secretary distributed tonight in her home on Central Park West, adjoining the church of which she was the recent leader. From that position she was deposed because of alleged "mental malpractice." Of this charge she was acquitted by a board of inquiry, and the verdict of exoneration was endorsed last week by the congregation of the church, but the controversy continued. "Mrs. Stetson reaffirms her allegiance to the mother church in the following words, conclusively," the railroad order was tentative and one which any Continued on Page 2.
